CHANDLER STANDS BY WRITTEN STATEMENT

Writes to Senator Tillman and Letter Is Read in Senate-- Takes Issue With President Regarding Rate Bill Conference-- Bailey Denounced Published Story as False and Malicious.

Washington, May 16.—Tillman has made public a letter received today from ex-Senator Chandler replying to the president's charges. Chandler reaffirms the essential truth of the statement he made to Tillman, which Tillman repeated in the senate. The review of Chandler's conversation with the president ends by saying: "I ought to consider myself fortunate if the old imperialistic days have not been fully revived at the White House. One whom I consider as one of my best friends, Lodge, upon demand would have cut off my head and taken it to the president on a charger. I should have spoken no more. Now at least I have the power of speech, but I shall never use it again as a missionary from the president to the Democratic party."

Tillman had the letter read in the senate. Bacon's amendment to the rate bill, prohibiting senators, representatives, federal judges and executive officials

from accepting and using free passes, was defeated.

The senate then adopted the general anti-pass amendment to the rate bill, railway employes and many other classes being excepted.

FOR SEA LEVEL CANAL.

Washington, May 16.—The senate committee has agreed to report favorably on the sea level canal by a vote of 6 to 1.

DENOUNCED BY BAILEY

Washington, May 16.—Bailey in the senate today declared that the dispatch to a Western newspaper saying that he—Bailey—was secretly opposed to railroad rate legislation was an equally malicious and deliberate lie. He said the correspondent was close to the White House, and denounced the correspondent and the man who gave him the information as "unqualified, malicious and deliberate liar, no matter how high his station or what office he held."

GREFFIELD'S VICTIMS STARVING ON COAST

Poultland, Or., May 16.—Five women and a tiny little baby, emaciated, worn out and haggard, and with hardly enough clothing to cover themselves, were discovered last Saturday on the beach in the vicinity of Heeceta Head by George Hodges, a timber cruiser, of Salado, this state, who was forcing his way through the rough country to inspect some timber. The women had subsisted on crabs and mussels for days and were in a pitiful plight. Mr. Hodges supplied them with some sea biscuits and condensed milk and had to make his way to the nearest settlement without a bit of food.

The women told Hodges that they had been sent out in the wilderness by "Second Messiah" Greffield, and while they had heard that he had been killed in Seattle, they said they knew that such was not the case, for no one but the Lord could have the power to take his life.

Hodges cannot remember the names of the women, but says that they are from Corvallis, and he thinks one of them is Frank Hurt's wife. He says that the demented women should be taken charge of or they will starve to death.

CUBAN LIZARD IN BALE OF SPONGES

John Whiteaker, prescription clerk at DeLano's drug store, while opening a bale of sponges from Cuba this morning discovered a lizard about eight inches long which no doubt has been in captivity several months. John first discovered the lizard's tail and he thought he certainly "had 'em," but recovering from his momentary fright delved further down into and bale and found, instead of a fierce and venomous snake, an inoffensive lizard. The little fellow deserves his liberty after such a long confinement and will be turned loose.
