

DETAILS YET MEAGRE FROM VALPARAISO LOSS OF LIFE GREAT

New York, Aug. 18.—West, Duval & Co. received a cable direct from Valparaiso this morning as follows: "Town is nearly destroyed; particulars with the shaking ceases."

HALF THE CITY RUINED.
Berlin, Aug. 18.—A bank here has a dispatch saying that Valparaiso is half destroyed from Alameda to Bell Vista street. The latter is lined with residences, business houses and warehouses.

HEAVY LOSS OF LIFE.
London, Aug. 18.—There has been a heavy loss of life and immense damage to property at Valparaiso, according to a message from the officers of the Pacific Steamship Co. in the ruined city. The dispatch says that the company's offices were partly wrecked, but that their floating property is undamaged. Another firm has been notified that there are two squares at one point of wrecked buildings and that several avenues have been destroyed. Another firm was notified that business is being resumed.

THE HERALDS' ACCOUNT.
New York, Aug. 18.—The Herald today prints the following: Valparaiso, Chile, Friday.—(Via Galveston, Tex.)—Without the slightest tremor of warning an earthquake visited this city at 8 o'clock last night, bringing death to hundreds of persons and leaving many hundreds more imprisoned in the ruins, many of whom were burned to death before aid could reach them. Fire started immediately after the first shock and every branch of the city's service was paralyzed. Panic and consternation indescribable followed, and those who escaped death and injury became frenzied with fear and could render little assistance to the victims.

TWO TERRIFIC SHOCKS.
There were two distinct and terrific shocks, the second one following almost instantly after the first and completing the work of destruction. The day had been unusually calm and pleasant. At 8 o'clock the whole city seemed to suddenly swing backward and forward, and there came a jolt of such mighty force that rows of buildings toppled to the earth as if made of brittle plaster. Whole rows of buildings went down in a few seconds. As soon as the second shock had subsided it became known that the business part of the town was doomed. From the Bella Vista section little was heard, but before midnight fires were seen burning there, and it was learned that that section of the city also was doomed. The city stands upon a formation of granite and gneiss, which seemed to accentuate the force of the shock. Before the stunned people were given time to realize the magnitude

of the calamity, again the city was shaken with greater violence than before. The earth in places lifted and pitched the buildings forward. In other places there was a terrible tremor that shook every structure to the ground. This shock continued longer than the first. When it had subsided thousands of terrified persons were praying and panic swept the city.

HUNDREDS OF LIVES LOST.
Many landslides have occurred around the city and scores of lives have been lost. At present it is impossible to state the number of dead in the entire city, but it is believed there are several hundred, many of whom are still in the ruins. It has laid waste the best part of the business portion of the city, and has doubtless put Chile back many years in the scale of civilization. The captain of the German vessel Yran, which arrived today at Coquimbo, stated that, when twenty miles out at sea, he could see the flames raging in Valparaiso.

SHOCKS STILL CONTINUE.
Lopez, Bolivia, Aug. 18.—The chief of the Official Telegraph Co. at Taona wires that Valparaiso is in flames and that the earthquake continues. Troops have shot all pillagers and many have been killed by falling walls.

LIKE SAN FRANCISCO.
New York, Aug. 18.—The Central and South American Telegraph Company reports that the situation at Valparaiso is similar to that of San Francisco. The city is still burning and the manager reports that all places of business are closed and many people have left the city.

NITRATE MINES ESCAPE.
London, Aug. 18.—Private cable messages indicate that the Chillan nitrate grounds escaped damage. They had been reported as greatly harmed. The towns of Copiapo and Antonogasta are also unharmed.

ALSO AT SANTIAGO.
New York, Aug. 18.—A delayed dispatch from Santiago, Chile, says that the earthquake was felt there and that consternation reigns.

ENGLISH CONCERNS SUFFER.
New York, Aug. 18.—Little insurance was carried by American companies in Chile, but it is thought that if fire followed the quake English companies are hit hard.

IQUIQUI UNHARMED.
Berlin, Aug. 18.—A private telegram says that Iquiqui was unharmed by the earthquake. This is the first news from Iquiqui.

KEYNOTE TO CAMPAIGN SOUNDED BY CANNON

Danville, Ill., Aug. 16.—Speaker Joseph Cannon was renominated for congress and his boom for president started today. In accepting the nomination he sounded the keynote of the Republican congressional campaign.

CANNON MAKES SPEECH.
Mr. Cannon said in part: "I thank you for this expression of confidence, and I congratulate you on the prosperous condition of the country under Republican administration. The Republican party has followed the teachings in the parables of the wise servant who returned to his master the talent entrusted to his care multiplied tenfold. Clothed with responsibility for the administration of the government of 80,000,000 people, we have sought to make a return that will benefit those who entrusted the talent to our care. We have succeeded in making two blades of grass grow luxuriantly under Republican administration where one grew feebly before under the Democratic administration.

"Since the election of William McKinley as president the business of the country has doubled and the material interests of all the people have become better than ever in our history; aye, better than the condition of any people anywhere on earth in any time since history began. This is under the policies of the Republican party as enacted into law by congress and executed by the president. Attribute this condition to what cause you may, speculate about it as you will, call it confidence in men or measures, the fact remains that it exists, and that there never has been recorded anywhere such industrial development and such a wave of prosperity as has swept over the United States in the last decade.

"Under the administration of the Dingley tariff law there has been a greater development in all forms of industry than ever has been reached since the government was organized. The schedules of that law are not sacred, but the principle there embodied is fundamental. Since the enactment of the first revenue law under Washington down to the present time the periods of prosperity have been under protection, and the periods of adversity have been under the policy of free trade or tariff for revenue only."

LABOR QUESTION.
Regarding the labor questions, Speaker Cannon said: "Education, invention, capital and labor have struck hands. The forces of nature are utilized in production for the benefit of both producer and consumer. This condition necessarily required the combined activities of employer and employe. Naturally differences arise between the two as to what is a proper wage, or, in other words, as to a fair division of the profits of the business. Laborers found it necessary to co-operate with each other and act together in determining from time to time what was due them in the division of the profits.

"According to the last census, 30,000,000 of our people are employed in gainful occupations, and 3,000,000, according to the statement of Mr. Gompers, are organized in what is popularly known as 'unions.' I feel quite sure that such organizations of labor have, as a rule, been useful, not only to the laborer, but to the employer as well and to the whole citizenship of the republic. If I were engaged in such occupation I have no doubt that I would be a member of the organization.

"But it is absolutely necessary, before there can be a contest about a division of profits, that there should be profits to divide. There was but little profit to divide under the last administration of Grover Cleveland. There was much profit to divide under the administration of William McKinley and there is much profit to divide under the administration of Theodore Roosevelt, and labor on the average has received a larger share of the profits in increasing wages every year since the election of McKinley.

"The first thing for each citizen to do is to see to it that the economic and financial policies which enable the people to create a profit shall be continued. The conferences and contests touching the division of the profits from time to time will be regulated by the contending parties. Capital must get its fair share, or it will not continue in business; labor must get its fair share, or it will suffer. Neither can permanently prosper at the expense of the other. The very life of the republic depends upon the integrity, the wisdom, the patriotism and the vigilance of the people who make the republic. Life, liberty and the pursuit of happiness are inalienable rights guaranteed by the constitution to each citizen, whether he be rich or poor, great or small. The liberty of one man

Dyspeptics Catearlets

Quickly relieve Sour Stomach, Heartburn, Nausea, and all other discomforts of indigestion and dyspepsia. Sugar-coated tablets. 10c. or 25c. Druggists or by mail. Give instant relief in Nasal Catarrh—alleviate inflammation, heal mucous membrane, sweeten breath. Best remedy worn throat. **Dr. J. H. Wood Co., Lowell, Mass. If Made by Hood It's Good.**

ceases where the liberty of another man begins. "In the contest between employer and employe from time to time, where differences could not be adjusted, the employer, on the one hand, has resorted to the lockout, and the employe on the other hand, to the strike. While both are to be deplored, considering the volume of production and the increase of population, they are becoming less frequent. In my judgment the time will come when all such differences will be settled amicably between the contending forces; but in all contests employe and employe alike must obey the law which governs and protects all. The boycott and the blacklist will pass away.

GOVERNMENT BY INJUNCTION.
"There has been much criticism and much denunciation against alleged 'government by injunction,' and violent attacks have been made upon the judiciary of the United States. During the late session of congress labor leaders differed as to the legislation that was desired. Mr. Gompers, professing to speak for the American Federation of Labor, denounced the so-called Fuller bill, pending before the house committee on the judiciary and advocated by H. R. Fuller, the representative of the railway labor unions, in the most bitter terms as being opposed to human liberty and the rights of labor. Mr. Gompers, with Mr. Spelling, his attorney, advocated a bill, introduced by request by Representative Pearre and pending before the same committee, which, in substance, prohibited United States courts from issuing injunctions in any case between employer and employe unless necessary to prevent irreparable injury to property or to a property right of the party making the application, for which injury there is no adequate remedy at law, and in the next sentence provided, 'And for the purposes of this act no right to carry on business of any particular kind or at any particular place, or at all, shall be construed, held, considered or treated as property, or as constituting a property right.' Mr. Spelling, speaking for Mr. Gompers and himself, claimed that such legislation ought to be enacted. It being near the end of the session, further consideration of the proposed legislation by the house judiciary committee was postponed until the next session of congress.

"Speaking for myself, I am not in favor of this legislation demanded by Mr. Gompers. The power of the courts to issue writs of injunction to prevent irreparable injury to property or to a property right for which there is no adequate remedy at law is older than the constitution and as well established as any other principle of law or equity. The inalienable right of each citizen, be he weak or strong, is to come and go to and from his property without molestation and to carry on business thereon, and, in the exercise of such right, he is entitled to call upon the government for protection through the courts.

"Mr. Gompers claims that in contests growing out of strikes or lockouts he is opposed to violence on the part of any one connected with the controversy. I will not question the good faith of the claim, but I do say that if the legislation he demands were enacted destruction of property by irresponsible persons in such controversies would increase. Again, if such legislation were enacted, under its cover vicious and irresponsible people belonging to the criminal class, not engaged in labor or seeking to labor, would avail themselves of the opportunity, as they have in many instances, in the name of contesting labor, of destroying property, and the owner thereof would be without remedy. The legislation that Mr. Gompers demands would turn loose in times of trouble the criminally disposed. In charity for him, I do not believe that he realizes the consequences that would result from that which he advocates, and in justice to all the citizenship of the republic, in justice to every man who lives in the sweat of his face by honest endeavor, I am now, and will be at all times, opposed to this legislation which he demands.

"For thirty years I have represented a district where nearly all the constituency have lived, and are living. Constipation—bowel irregularity, headache, despesia, torpid liver, bad kidneys, rheumatism, disorders incident to sedentary life, positively cured by Hollister's Rocky Mountain Tea, the greatest American remedy. Tea or tablets, 35 cents. Linn Drug Co.

by their labor. They and those like unto them stand for law and order, for protection of property, and the inalienable rights of every citizen. Those who labor have trod, and are treading, no paths that I have not trod, and that my descendants will not tread. The organized labor that Mr. Gompers claims to represent is composed of people who have the right to organize. They are of all churches and of no church; they are skilled and unskilled; they are as intelligent and as patriotic as any other equal number of citizens of the republic. In the transaction of the business of their organization I have no doubt but they will co-operate with those who form time to time they place in authority, but in their party affiliations, in choosing the policies of the republic, I am ready to take my chances with them and this, too, without regard to the demands of Mr. Gompers when he seeks to control their action at the ballot box."

Serious Car Shortage
Unless the car shortage on the Southern Pacific railroad is relieved immediately all interior sawmills in the state will be compelled to cease business. Such was a statement made by R. A. Booth, manager of the Booth-Kelly Lumber Co., to a Guard reporter today. Every year there is a shortage of cars for the transportation of lumber, but this year, on account of the San Francisco disaster, it is far worse than ever before and unless the situation is relieved within a very short time, Manager Booth says, his company will be compelled to close down their big mills in this county. This week the night shifts at the Coburg and Springfield mills will be taken off and only a day shift run, as at Wendling and Seginaw. It will be only a matter of a few days until all of these plants will be idle unless the railroad company does something at once to increase the number of cars now being delivered to haul away the lumber. Twenty-one cars were received at the several mills last night, but most of these were for hauling the railroad company's own orders. For several days past the average number of cars received has been much less than that and the Booth-Kelly people were surprised to receive as many as they did last night.

The Booth-Kelly Co. does its business entirely on the order system, and when the orders cannot be delivered at the time specified they are cancelled and the lumber buyer places his order with some company that can make the delivery. It is for this reason that the company will have to close down its mills, and it is the same way will all other interior mills at Portland and Columbia river points, where there are competing railroads and ocean going vessels to haul away the lumber, it is different, and unless conditions on the Southern Pacific are changed, the Portland and Columbia river mills will be practically the only ones in the state that will be able to operate.

SMALL MILLS SUFFER.
The smaller mills of Lane county will also suffer from the car shortage. F. C. Walters, of the Walters Lumber Co. at Elmira, was in the city today and stated that his mill would probably close down at once until such a time as cars are plentiful again. The company's yards in Eugene are full, but no cars can be obtained. They have been shipping a great deal of lumber to California points for several months past.

A GREAT BLOW.
The closing down of the Booth-Kelly mills is going to be a great blow to the prosperity of Eugene and Lane county. The company's payroll now exceeds \$100,000 a month. This money alone taken out of circulation will cause a big slump in business in all lines. Mr. Booth says his company has used its most endeavors to induce the railroad company to furnish more cars and prevent a closing down of the mills, but it now appears that the inevitable must come.

The Eastern and California stockholders in the company have been communicated with in regard to the advisability of closing down all the plants and a final decision was expected this afternoon, but the matter was postponed another day in hope that the railroad company could give assurances that more cars would be furnished.

SICK HEADACHE
Positively cured by these Little Pills. They also relieve Distress from Dyspepsia, Indigestion and Too Hearty Eating. A perfect remedy for Dizziness, Nausea, Headaches, Bad Taste in the Mouth, Coated Tongue, Pain in the Side, TORPID LIVER. They regulate the Bowels. Purely Vegetable. **SMALL PILL. SMALL DOSE. HOPS AT EIGHTEEN CENTS AT SALEM
Rumors have been current for several days of 1906 hops for 18 cents, and many dealers claim to be offering 18 cents, and say that they are giving 18, but there has yet been no contract recorded of sales at a higher price than 15 cents per pound. Wm. Hanson sold 10,000 pounds yesterday to Elias & Prutz for 15 cents, and there have been a few other such sales. In spite of the fact that some growers are selling at 15 cents and less money, many people predict that 20 cents will be offered before many days.—Salem Journal.
Born
Aug. 15, 1906, north of Eugene, to Wm. H. Short and wife, a daughter, weight ten pounds.

BARNARD GETS TWO YEARS ON ISLAND

Portland, Aug. 17.—After being out twenty minutes the jury in the case of Clarence B. Zachary this noon returned a verdict of guilty of perjury in connection with the homestead claim of Charles B. Watson.

This case has been on trial in the federal court all the week, Zachary being one of the officials of the Butte Creek Land Company and one of the witnesses as to final proof.

Portland, Aug. 18.—Federal Judge Hunt today sentenced Coe D. Barnard, convicted of perjury in connection with the homestead claim of Charles A. Watson in Butte Valley, near Fossil, to two years' imprisonment at McNeill's Island and to pay a fine of \$200.

The sentence on Watson, who turned state's evidence after his conviction, was indefinitely postponed, his bondmen discharged and he was released on his own recognizance. Other sentences, including that of H. H. Hendricks, were postponed.

CHANGES IN FORCE AT SHERIFF'S OFFICE

Harry L. Bown, first deputy under Sheriff Fred Fisk, has tendered his resignation and will hereafter devote his attention to raising stock on his farm west of Eugene, in the Elmira vicinity. He served as second deputy sheriff several years under the late W. W. Withers, and when Fred Fisk, who as then first deputy, was sworn in as sheriff Mr. Bown stepped up a notch and has held the position as first deputy until the present time.

C. C. Hammond, who has been second deputy for a year or more, succeeds Mr. Bown as first deputy, and M. S. Wallis, who has been employed in the office for several months past in a clerical capacity, takes the second deputyship.

HANSON-JEANS NUPTIALS ON INDIAN CREEK

Frank Hanson and Miss Bertha Jeans, both of this city, were united in marriage at the home of the bride's parents on Indian creek, in the western part of Lane county, Wednesday noon, August 15, 1906. They will remain in that vicinity for a short time and will soon take up their residence in Eugene. The groom is associated with his brother, E. Hanson, in the clothing business, and the bride is well-known. Both are popular and have the well wishes of hosts of friends.

PENNYROYAL PILLS
CHICKSTER'S ENGLISH
Cures all the troubles of the female system. It is a safe, reliable, and effective remedy for all the ailments of the female system, such as irregular menstruation, headache, dizziness, and general debility. It is a purely vegetable preparation and is perfectly safe for all ages. Sold by all druggists and by mail for 25 cents per box. **CHICKSTER'S ENGLISH PENNYROYAL PILLS.**
