

Many Persons Have Catarrh of Kidneys But Do Not Recognize It.

A War Veteran Spends Hundreds of Dollars in His Attempt to Cure Kidney Trouble. He Took Per-ru-na Upon a Friend's Advice and It Proved the Best Medicine He Ever Used.

CATARRH of the kidneys is a very much neglected disease. It is not until the disease has a firm hold upon the kidneys that the patient begins to realize that there is some derangement of these organs.

The slight backaches, the feelings of lassitude, and other warning symptoms of kidney disease are overlooked.

They are not serious enough to detain the patient from his regular work.

Even when he discovers that the kidneys are affected, he does not recognize the difficulty as being caused by catarrh.

Catarrh is sometimes so very gradual in its approach and its earlier symptoms cause such slight discomfort that it is not noticed.

However, when it becomes firmly seated in the kidneys, it becomes a difficult disease to exterminate.

Indeed, catarrh of the kidneys is more serious than catarrh affecting some of the other organs of the body.

In the kidneys, it is liable to terminate in Bright's Disease or diabetes, both of which are recognized as very serious ailments, if not fatal.

The thing to be done, when catarrh of the kidneys is discovered, is to take some internal, systemic catarrh remedy, one that reaches the very source of the catarrh and removes the cause of the difficulty.

Such a remedy has been found in Peruna. It reaches catarrh, no matter where it may be located in the body—whether in the more exposed membranes of the nose and throat, or whether in the remotest part of the kidneys.

That Peruna is at once the safest and most reliable remedy for catarrh of the kidneys is proven by the many testimonials written by those who have experienced its benefits.

The testimonial given here is only a specimen of the many testimonials on our records, pertaining to the relief afforded by Peruna in severe cases of kidney trouble.

SEVERAL SLAIN IN RACE RIOT DOWN SOUTH

Battlesburg, Miss., Nov. 5.—Two men were fatally wounded and over 20 shots were fired in a race riot at Higgins yesterday. William Smith, a negro, shot and fatally wounded Deputy Sheriff Mitchell, and was afterward captured and placed in jail. Later a mob dynamited the jail and threw many shots into Smith's cell, leaving him for dead. A crowd of negroes gathered and commenced firing into the mob, and in the confusion D. McFarlane, a white man, was fatally injured.

Several negroes are supposed to have been shot. Smith was found alive in his cell this morning, but his arm had to be amputated.

CURTIS FILES ON WATERS OF WALDO LA

S. W. Curtis, who has made several filings on the upper McKenzie river, both in Lane and Linn counties and on the Santiam for alleged purposes of developing electric power, has now filed on the waters of Waldo Lake, in the extreme eastern end of Lane county, for the same purpose, the papers being filed with the county clerk Saturday afternoon.

Three filings were made, one for 23,000 miners' inches of water flowing out of the lake and down the North Fork of the Willamette river, another for the same amount down the same stream, and the third for 16,000 inches down Salt creek. The first canal, known as Waldo canal, is to be six miles long and the others, known as Salmon canal and Diamond canal respectively, eight miles each.

Little is known of Curtis' plans, or who he represents, but it is certain that he is securing some very valuable power sites. Whether any claims come out of these numerous filings remains to be seen. Last summer a party of surveyors, under Curtis' direction, worked about two months on the headwaters of the McKenzie, but they gave out no information.

NOTORIOUS GRIZZLY KILLED AT LAST

The Prineville Review, of November 1, tells of the killing of a somewhat notorious grizzly bear that had ranged over a large section of that country for years and killed many cattle, making his trips across the desert from the blue mountains to the Cascades in the spring and returning in the fall. He was found near the head of Spring river, which takes its rise in Diamond Peak and flows east to the Deschutes.

The dogs ran him six miles, and brought to bay, three shots finished him. He weighed about 1200 pounds, in weight approximately an Eastern Oregon three-year-old steer. No one could be mistaken in his track, as it measured thirteen inches across.

MONUMENTS APPROPRIATELY DEDICATED

(From Monday's Guard.)

The three monuments recently erected under the direction of the Native Daughters to mark the three principal historic spots in the city, viz, the location of Eugene Skinner's cabin, the place where the first judiciary proceedings were held and the location of Columbia College, the first educational institution, were dedicated with appropriate exercises at the Methodist church Sunday afternoon. Owing to the inclement weather the attendance was not large, but those who braved the elements and listened to the exercises delivered were instructive and entertaining.

The exercises began with prayer by Rev. C. A. Woolley, a pioneer minister, followed by introductory remarks by Miss Ann Whiteaker, who presided at the meeting. Prof. F. G. Young, an adopted son of Oregon, who was the instigator of the movement to erect the monuments, delivered an address telling what had been done in other states along this line.

Dr. W. Kuykendall, a native son, then gave a talk along the same lines and went back to monumental marking of biblical times. Miss G. Ace Mount followed with a vocal solo and Prof. F. S. Dunn, another native son, delivered an address, going into Greek history.

Perhaps the most interesting feature of the program was a paper written by Mrs. L. T. Harris and read by Mrs. Louis Johnson, Mrs. Harris being unable to be present. The paper gave a history of each of the places marked by the monuments, a history of the basaltic columns taken from Skinner's Butte to mark the places and ended with a plea for a monument to mark the last resting place of Dr. John McLaughlin, at Oregon City.

Miss Whiteaker made a few closing remarks, the audience sang "America" and Rev. J. C. Richardson, one of the pioneer ministers of the county, pronounced the benediction.

LOCATION OF MONUMENTS.

The monuments are located as follows: Eugene Skinner's cabin, on West Second street between Lincoln and Lawrence; first judiciary proceedings, on East Tenth street between Willamette and Oak; Columbia College site, on College Hill, near the Rostein property.

TERRIBLE ITCHING SCALP HUMOR

Badly Affected With Sores and Crusts—Extended Down Behind the Ears—Some Years Later Painful and Itching Pustules Broke Out on Lower Part of Body—Son Also Affected.

A TRIPLE CURE BY CUTICURA REMEDIES

"About ten years ago my scalp became badly affected with sores and itching humors, crusts, etc., and extending down behind the ears. My hair came out in places also. I was greatly troubled; understood it was eczema. Tried various remedies, so called, without effect. Saw your Cuticura advertisement, and got them at once. Applied them as to directions, etc., and after two weeks, I think, of use, was clear as a whistle.

"I have to state also that late last fall, October and November, 1904, I was suddenly afflicted with a bad eruption, painful and itching pustules over the lower part of the body. I suffered dreadfully. In two months, under the skillful treatment of my doctor, conjoined with Cuticura Soap and Cuticura Ointment, I found myself cured.

"Six years ago my son was laid up with a severe cold, a hard cough, and finally painful eruption all over the body. I procured the Cuticura Remedies as soon as possible, and after his faithful use of same was as well as ever in two weeks, as well as I can recall. He has never had a return of the illness, as far as I know.

"I have always been pleased to commend the Cuticura Remedies, and testify as to their efficacy. I am a veteran of the late Civil War, '61-'65, between seventy and eighty years of age. Yours truly, H. M. F. Weiss, Rosemond, Christian Co., Ill., Aug. 31, 1905."
