Bran—per ton, \$21.
Mixed feed—per ton, \$22.
Shorts—per bu., 35c.
Wheat—per bu., 80c.
Flour—per bbl., \$24.40.

PORTLAND MARKET REPORT.

Portland, Or., Dec. 20.—Holiday trade in fruits and fancy groceries is in excellent shape, retailers stocking up liberally in anticipation of an increased business over former years.

Wholesale dealers feel to some extent the street car mixup, but as Front street trading is done mostly by delivery wagons and in daytime, the stopping of night cars has not been particularly irksome, according to opinions expressed this morning. The only effect is in whatever fears retailers may have on restricting sales, but as the atmosphere clears that fear is dying out.

Fruits, both domestic and tropic, are moving heavily, and supplies are ample in all leaders. Shipping orders are much above former years, which is an evidence of the growth in population of the surrounding towns that receive supplies in Portland.

Pineapples are in fuller stock and sell at \$4.50@5 a dozen, with small sizes a shade under.

Grapes—Malagas, cornichons and tokays are in only moderate stocks, and sell at about the same prices ruling for the past ten days. Cornichons seem to be most favored and only moderate supply.

Fine and commoner varieties of apples are about even in demand, though fruit bringing, say, \$1.25@1.50, is going faster.

Raisins continue very strong with upward tendency in quotations.

Poultry Market Quieter.

Stocks of poultry this morning were somewhat above normal, but unless shipments should be unusually heavy for the next few days, no further break in prices is expected. Live turkeys are appearing in greater numbers, but demand is not yet brisk. Dressed poultry is plentiful, which fact tends to keep price of live fowls rather below seasonable figures.

Eggs continue to increase in receipt, but so far prices have not been materially affected, but the market is none too strong.

Little change is reported in butter. City creameries maintain the last advance, and first grade country creamery is nearly if not altogether on a parity with city. Second grade is also in unusually good demand.

Hop Market Lively.

Nearly all buyers are active in the market for hops, with the natural result that a good and growing better tone is reported. Sales recently made indicate that goods approaching the export quality move at 13@14c.

Grain bags—8 1/2c.
Creamery butter—30@32 1/2c.
Eggs—36@37 1/2c.
Chickens—13@13 1/2c.
Wheat—Valley, 66c; binestem, 67c.
Oats—24@25c.
Barley—\$21.00@22.00.
Hay—Timothy, \$11.00@12.00; vetch, \$7.00@7.50.
Mohair—Choice, 26@28c.
Wool—Valley, coarse to medium, 21@22c.
Hops—1906 crop, 13@15 cents.
Potatoes—New, 85@90c per cwt.; Onions—New, \$1.00@1.10.
Chittim bark—New stock, 5 1/2@6c.

letin, under date of "the 14th inst." says with reference to the potato situation in that market:

Potatoes occupy the center of interest in the produce market. Prices have been marked up fully 15 cents in the last seven days and the market is firm and advancing. This condition will probably not last for more than two weeks; yet it is not probable that potatoes will go below \$1.80. There seems to be but little doubt now but that Central California highland potatoes are in the hands of a combination of growers and brokers. The production in Wisconsin, Minnesota, Colorado and other states is larger than in years and "rices are low. Good stock can be bought in these states for 85c a hundred. The carload rate to Los Angeles is 75 cents, which puts the laid down price at about \$1.60. Colorado potatoes are now offered to the jobbers at this price. But Colorado potatoes have been a disappointment as to quality. Minnesota and Wisconsin potatoes, which are said to be of excellent quality, have not yet arrived. Cars are rolling and the first shipment may be here in two weeks, or—the railroads willing—it may be three weeks or a month. Prices will be firm until Wisconsin and Minnesota stocks arrive.

Onions are firm, with brokers asking about 5 cents a hundred more than the prices of last week.

Market Notes.

Good hogs have been selling in Portland at between \$6.50 and \$7.00 per cwt. of late.

Good prices for sheep hang on. Best wethers have been selling at 5 1/2 cents, and best lambs at 5 3/4 cents.

It is reported that Lassell Bros. & Fortmiller, of Albany Oregon have now shipped one hundred cars or about 4,000,000 pounds of cured prunes this season.

Evaporated apples have been advancing in price in the East, and are now selling in New York at 9 and 9 1/4 cents for fancy; 8 1/2 cents for choice, and 8 1/4 to 8 1/2 cents for prime.

It is either the case that Hood River is sending a good many more apples to Portland than usual, or else a good many apples that were not raised at Hood River are sold as coming from that place. There are also an unusual quantity of well-packed and good looking apples on the market which are not sold as Hood River Apples. We believe that consumers of apples in Portland are really getting more satisfaction in return for their money this year than in any previous year for a long time.

Mr. G. I. Sargent was down from Hood River a few days ago to demonstrate in Portland the value of his choice Ben Davis apples for baking. He pronounces the quality of a well grown Ben Davis when baked first-class, but the special point in their favor for this purpose is that they are dependably sound throughout, and hold their shape remarkably well when baked. The latter is of the first importance in supplying the restaurant trade.

The price of prunes continues to advance some in California, and the demand is such that it appears reasonable to believe that this year's crop will be consumed about as thoroughly as the crop of last year was. The market for the Italian prune has now been developed to a point sufficient to take up readily as many prunes as we are likely to produce in Oregon or Washington. It will not be long until the older orchards will begin to go out of business, and it is probably the case now that there are not enough young trees coming into bearing to offset the decrease in the yield of the older orchards.

New Cure for Epilepsy.

J. B. Waterman, of Watertown, O., daughter, afflicted for years with epilepsy, was cured by Dr. King's New Life Pills. She has not had an attack for over two years." Best body cleansers and life giving tonic on earth. 25c at Linn Drug Co.

NOTICE.

I, Sherman Hickson, decline to pay any bill or bills contracted by Lou Hickson, as we have agreed to disagree.

Leaburg, Or., Dec. 6, 1906.

CHANGE IN JUNCTION CITY RURAL ROUTES

Postoffice Department Has Announced New Territory to Be Covered by Carriers.

The postoffice department has made some changes in routes 1 and 2, from Junction City, effective January 16, 1907.

Route No. 1, E. A. Tower carrier, will cut out from here via Lancaster to Jos. Strome's. Under the new regulations he will start west to Sulphur Springs, retrace to the Union schoolhouse, then north to Horton's old mill, thence west to Wm. Maloy's corner, then north to Honck's corner, then retrace to Maloy's corner and then home via Ferguson bridge.

Route No. 2, J. A. McFadden, carrier, will start east via the old Millet place through the Dane settlement and to the main road at Cook's corner; thence west to the Houston place, thence east to the river road.

—Times.

Fishing on the Siuslaw.

(The Florence West.)

There is an ambiguity in the state law relating to fishing on the Siuslaw river that should be remedied by the next legislature. The law at present prohibits fishing in the Siuslaw river, except with rod and line, above Mapleton. It does not specify what is meant by Mapleton, whether it refers to Mapleton precinct, Mapleton townsite, Mapleton store, or some other point in that vicinity. In the summer of 1905, the state fish warden had notices posted up saying that Mapleton, as used in that law, would be held to mean the town site of Mapleton, as platted by F. C. Bean. Last fall a man was arrested on the charge of violating this law and a trial was held in the justice court in Florence. The justice of the peace placed the same construction on the law as does the state fish warden, but the jury brought in a verdict of not guilty, holding that the law is not sufficiently definite to justify a conviction. The legislature should amend the law so as to make the meaning clear. There is also some difference of opinion of opinion as to how far down the river fishing with nets should be prohibited. Some are in favor of establishing the line at or near the town site of Mapleton, while others think it should be about the upper line of Captain Steer's ranch. Those holding the latter opinion reason in this way: Above the town of Mapleton the river is quite shallow and when the water is at its lowest stage few salmon will ascend the stream above the rapids, but they remain in tide water and are caught in the nets without depositing their spawn. A short distance below Mapleton there are a number of deep places in the river channel and if fishing were prohibited there these would afford hiding places for the salmon where they could lie in safety till the water rises enough so they could reach their spawning ground on the gravel bars and small tributaries above the head of tide. Some people hold that a resting place of this kind would be of more benefit than the hatchery is to the fishing industry. While we do not hold that opinion, we think that it would be a great help to the work of artificial propagation and would do a great deal toward keeping up the fishing industry on this river.

The Ideal Family Laxative

is one that can be used by the entire family, young and old, weak and strong, without any danger of harmful effects. It should have properties which insure the same dose, always having the same effect, otherwise the quantity will have to be increased and finally lose its effect altogether. These properties can be found in that old family remedy, Brandreth's Pills, because its ingredients are of the purest herbal extracts, and every pill is kept for three years before being sold, which allows them to mellow. We do not believe there is a laxative on the market that is so carefully made.

Brandreth's Pills are the same fine laxative tonic pill your grandparents used. They have been in use for over a century, and are sold in every drug and medicine store, either plain or sugar-coated.

Show Windows.

Our south show window will contain silverware, cutlery and similar goods suitable for Christmas presents. Our north show window will be filled with new furniture, rugs, lace curtains, etc. It will extend back fifty feet.

AFFLICTED WITH CATARRH— LIFE HAD BECOME A BURDEN.

Pe-ru-na, Used As a Last Resort, Affords Complete Relief.

MRS. F. CARR.

The Relief Experienced By Mrs. Carr Through the Use of Pe-ru-na, After Having Tried the Best Professional Treatment in Vain, is a Matter of No Small Wonder Among Her Many Friends.

Mrs. F. Carr, Vineland, Ont., Can., writes:

"For several years I was afflicted with catarrh, which made life a burden. The coughing and hacking which accompanied the disease was terrible. The complaint finally extended to the stomach and I was in a wretched condition. I tried different remedies and the best professional treatment all in vain. Finally, as a last resort, I tried Peruna upon the recommendation of my sister in Hamilton. I could see steady improvement and after using four bottles of that precious medicine I was feeling well again, my old troubles being completely a thing of the past. To-day I would not take one thousand dollars for what this grand medicine has done for me. Many women owe their lives to Peruna. A great many more owe their health to Peruna. A multitude of women throughout Canada are using Peruna as a preventive and a relief from catarrhal coughs and colds. We have in our files a great number of letters from grateful women who have been benefited by Peruna, with permission to use these letters in public print. Catarrh would not be such a curse to the human race if people thoroughly understood its nature. Catarrh is a disease which never improves of its own accord, but becomes deeper seated the longer it is neglected. It should be treated at once to prevent it from making inroads upon vital organs."

ELMIRA ITEMS.

(Special Correspondence.)

Elmira, Dec. 19.—Everybody is preparing for Christmas.

Miss Carrie Pope, of Deadwood, is visiting Mrs. Horn.

A large band of swans were seen in the swamp a few days ago.

I. A. Nichols, who has been at Acme for several months, is home for a few days.

Several of the schools will close Friday for a vacation.

The social at Franklin will be attended by several from Elmira.

Most of the farmers are busy these days breaking colts.

A series of meetings will be held December 23.

E. C. Potterf, of Elmira, was looking after business interests in the city today.

E. F. Inman of Waterville, was in the city today. He thinks that a bridge should be built on the McKenzie at Hendricks' ferry, as the present facilities for getting across the river are very poor. Even a new ferryboat would be some relief.

E. K. Chapman was in the city from Lorane today.

J. M. Stevens, of Crow, was in the city yesterday attending to business matters. He has been marketing some fine turkeys in Eugene this week and receiving a good price for them.

J. M. Berkshire was a business caller at the Guard office today. He recently moved from Coburg to Goshen.

WEEKLY GUARD IS LATE THIS WEEK

The Weekly Guard comes out this week a little behind time. This is due to the fact that our news press was badly smashed up ten days ago and has just been put in working order again.

We hope next week to be able to print the paper on the regular day, barring further accidents.

TIRED OF LIFE AWFUL SUFFERING

From Dreadful Pains From Wound on Foot—System All Run Down After Six Months' Agony—Not Able to Work—Completely Cured in Two Weeks

MIRACULOUS CURE BY CUTICURA REMEDIES

"Words cannot speak highly enough for the Cuticura Remedies. I am now seventy-two years of age. My system had been all run down. My blood was so bad that blood poisoning had set in. I had several doctors attending me, so finally I went to the hospital, where I was laid up for two months. My foot and ankle were almost beyond recognition. Dark blood flowed out of wounds in many places, and I was so disheartened that I thought surely my last chance was slowly leaving me. As the foot did not improve, you can readily imagine how I felt. I was simply disgusted and tired of life. I stood this pain, which was dreadful, for six months, and during this time I was not able to wear a shoe and not able to work."

"Some one spoke to me about Cuticura. The consequences were I bought a set of the Cuticura Remedies of one of my friends who was a druggist, and the praise that I gave after the second application is beyond description; it seemed a miracle, for the Cuticura Remedies took effect immediately. I washed the foot with the Cuticura Soap before applying the Ointment and I took the Resolvent at the same time. After two weeks' treatment my foot was healed completely. People who had seen my foot during my illness and who have seen it since the cure, can hardly believe their own eyes."

Robert Schoenhauer, Newburgh, N. Y., Aug. 21, 1905.

Sold throughout the world. Cuticura Soap, 25c. Ointment, 50c. Resolvent, 50c. The Great Outbreak Cures. Price 50c. per unit of 50c. may be had of all druggists. Please Read the Cuticura Book. Write for it. "The Great Outbreak Cures."

Bids Wanted.

Sealed proposals will be received by the trustees of Oasis lodge No. 41, I. O. O. F., at Junction City, Oregon, on or before January 1, 1907, for the erection of a brick or concrete lodge building, to be built at Junction City, Oregon. Each proposal must be accompanied by a certified check for 10 per cent of the amount of the bid, made payable to the trustees, as a guarantee that the bidder, if awarded the contract, will enter into contract and give satisfactory bond within 10 days, or forfeit check.

Plans can be seen at the office of the trustees, Junction City, Oregon, and at the office of Jno. Hanzicker, at Eugene, Oregon, on or after the 8th of December, 1906.

P. D. GARDINER, W. M. TRIPP, OSCAR STARR, Trustees.
