PLEASANT HILL ITEMS.

(Special Correspondence.)

Pleasant Hill, Dec. 19.—The Y. S. C. E. have decided not to have a Christmas tree, which is a disappointment to many, especially the children.

Mr. and Mrs. R. J. Hemphill leave tomorrow for Santa Cruz and other points in California, where they will visit relatives for several weeks.

Miss Etta Mitchell left today for her home in Waitsburg, Wash. She was accompanied by Miss Jane Mitchell, who will visit relatives in various places in Eastern Washington.

Though many of the players are beginners, a few are experienced, notably Professor Hewitt, late from the U. of N. team.

COTTAGE GROVE NEWS.

But for Jupiter Plevius Cottage Grove would be dry as a bone denuded of flesh in March and inspected in August. The election of Tuesday went prohibition by 31 majority.

Principal Strange, of the high school, was called to the bedside of his brother at Medford this week, the summons coming at midnight. The next train at 2 o'clock was taken. The sick man died Wednesday morning. Professor Strange will not return until after the holidays.

The Commercial Club at its regular business meeting Monday evening adopted a resolution asking the Pacific States Telephone Company to install at once the improved service. If the company heeds the request it means a system not greatly different from the present, only the phones will be better made and conversations will be easier to understand. The great gain will be in calling the central office, which is done by taking the receiver from its hook. The ringing of the bell is eliminated. Western Oregon.

Marion Harland

The celebrated authoress, so highly esteemed by the women of America, says on pages 103 and 445 of her popular work, "Eve's Daughters, or Common Sense for Maid, Wife and Mother":

"For the aching back, should it be slow in recovering its normal strength—an Alcock's Plaster is an excellent comforter, combining the sensation of the sustained pressure of a strong, warm hand with certain tonic qualities developed in the wearing. It should be kept over the seat of uneasiness for several days—in stinate cases for perhaps a fortnight."

"For pain in the back wear an Alcock's Plaster constantly, renewing as it wears off. This is an invaluable support when the weight on the small of the back becomes heavy and the aching incessant."

PERSONALS.

Mr. Mullin, who lives on the Mohawk, brought to this office today some fine samples of Yellow Danvers onions—they would be hard to beat anywhere. He tells us that he raised between 400 and 500 bushels on three-fourths of an acre, finding ready sale for them at a good price.

A timber speculator today offered a well-known business man of Eugene \$40,000 for a tract of 1000 acres of timber land on Winberry creek, but he refused it. This goes to show that the timber market is not in the least on the decline. Winberry flows into Fal creek twenty-two miles southeasterly from Eugene.

The Division Question.

(Albany Democrat.)

The Democrat hopes that the coming meeting of the committee to settle, if possible, the Linn-Lane county boundary line limit will end satisfactorily to both parties. As a matter of fact, though, it will be a difficult thing for the committee to agree in such a way as to prevent a scrap when the legislature meets. Something is suggested by the scheme to have an agreement by which Lane county shall build a road from the end of the Linn county Blue River road into the mines. A more important thing is to get the people who

shall inhabit the country this side of the watershed of the mountains out when they wish to go to the county seat on business or politics going over the peak into Lane county will be a long and laborious trip, and the requirement an injustice to the people.

Then it is admitted to be a fact by Lane county men who have made investigation of the matter that a part of the land was unjustly taken from Linn county. It was not in the original petition as presented to the Linn county court at all, but was surreptitiously introduced when the bill was introduced and passed.

Linn county wants only what is right.

A BRIDGE THAT ALWAYS GAVE TROUBLE

The Springfield train made the trip to Woodburn this morning by way of Albany, says yesterday's Democrat. When the train reached the site of the South Santiam bridge, recently repaired, it was found to have sunk two feet and to be in a dangerous condition, so the train backed down to Tallman and came to Albany, and will take the Albany route until the bridge is again repaired, a difficult thing to do with the treacherous banks, to do. It always has caused trouble and will continue to do so.
