Requiring a **LAXATIVE**

To Dispel Them. It Has a Gentle Action on the **KIDNEYS, LIVER**

—AND— **BOWELS.**

THE MAN-A-LIN CO., COLUMBUS, OHIO, U. S. A.

MAHON SUES FOR \$40,000 COMMISSION

Guard Special Service.
Portland March 19.—H. C. Mahon, the Eugene timber broker, today instituted suit in the circuit court against M. B. Rankin, a well-known capitalist, for the recovery of \$40,000, alleged due as commission on the tracts recently bought by Rankin through McMahon in the Siuslaw country, in Lane county. Mahon also asks for interest on that amount from January 15, 1907, at 6 per cent. Judge M. L. Pipes, of Portland, and G. F. Skipworth, of Eugene, are his attorneys.

SEVENTY-FIVE MINERS DIE IN EXPLOSION

Forbach, Germany, March 16.—An explosion of fire damp in a coal mine near here last night resulted in the death of 75 miners and the injury of twelve others. The cause of the disaster has not been determined. Six more are missing.

Twenty-two were killed.
Sarlouis, Rhenish Prussia, March 16.—Twenty-two miners were killed as they were descending into the shaft today. The cable of the cage, broke and they were plunged downward several hundred feet.

Million Dollar Fire Loss.
London, March 16.—Three warehouses in the Finsbury district, London's busiest industrial centre, were gutted by fire today. Loss, \$1,000,000.

GREAT LABOR FIGHT ON AT GOLDFIELD

Goldfield, Nev., March 15.—Every mine, lease, bank, store or other place of business in the Goldfield district closed at noon today, and will remain closed until the miners of the district accomplish a divorce from the I. W. W. There is no trouble, but it is expected that not a member or sympathizer with the I. W. W. will ever obtain employment again in any class of labor in the district. Employers declare this, and say their stand will be backed to the last ditch with powder and lead if necessary.

WILL WAGE WAR UPON HARRIMAN

New York, March 14.—Stuyvesant Fish's election in St. Louis as a director of Gould's Missouri Pacific railroad and his probable appointment as head of all the Gould roads is interpreted in Wall street as the opening of the greatest railroad war ever fought in this country.

Fish is the biggest enemy E. H. Harriman has in the financial world, and his alliance with George Gould at a time when the railroad rivalry between Harriman and Gould in the West is already bitter is believed to mark the beginning of a struggle for supremacy which will involve millions and affect the traffic situation from coast to coast. It is likely to be a fight to a finish.

Aside from a desire for retaliation on the part of Gould for the freezing out of the Gould lines after Harriman's acquisition of the Southern Pacific, there is an intense hatred between Harriman and Fish which will be injected into every phase of the fight. Harriman's removal of Fish from the Illinois Central is said to have been largely impelled by a desire for personal revenge.

EUGENE WILL CELEBRATE THIS YEAR

The monthly meeting of the Merchants' Protective Association was held last night and several matters of interest were discussed, among them being a Fourth of July celebration here this year. It was unanimously agreed to celebrate, but further action on the matter was postponed until the next meeting of the association.

TELLS HISTORY OF CONSPIRACY

Washington, D. C., March 7.—Additional sensational testimony was given today in the trial of Blinger Hermann on the charge of destroying government records, when George Sorenson, of Portland, testified, reciting details of an arrangement alleged to have been effected regarding the Blue Mountain and Cascade forest reserves before they were created. Sorenson said that as negotiations progressed F. P. Mays said to him:

"Sorenson, how many acres of school lands have you?"
"I have ten or eleven thousand," I answered.

"Well, you will have to give up some," Mays replied.
"I asked why, and he informed me that the creation of a forest reserve was an expensive transaction and that a number of people would have to be taken care of; that Commissioner Hermann and Senator Mitchell would both have to be taken care of."

"I said 'All right, I am willing to give up some.' I sold 2000 acres after the reserve had been created to cover the expense which I had been put to. I had the letter that Hermann wrote to some one describing the lands temporarily withdrawn, and telling what would be included in the permanent reserve."

Sorenson swore that he induced many persons to sign away their rights to buy school lands for a drink of beer, though most took a dollar for doing it. He also said that he employed Mitchell to get through an addition to the Cascade reserve and that Mitchell wrote to Hermann about it. This was before Mitchell was elected senator the last time.

McVean, of the forestry division, testified that Hermann recommended the creation of the Blue Mountain reserve. In his political campaign Hermann roared reserves vigorously, claiming that he was always against them.

REPORT THAT HARRIMAN IS OUT

New York, March 15.—Late this afternoon it was reported on the street that Morgan had secured control of the Union Pacific and that the Harriman interests had turned the Standard Oil interests had turned the same time it was rumored that Hill had gobbled up the Southern Pacific and was riding on top of the wave resulting from the turn of the tide. The reports caused a flurry. There was a lively scramble for information. It seems certain, however, that some big coup in Union Pacific has been effected.

St. Paul and Northern showed renewed strength this afternoon on the report that Hill had declared his intention to go into the fray if another attack was made on his interests. Amalgamated opened today seven points above yesterday's close and appeared to increase in strength. Steel common opened a point up, and hovered around 35.

Clair Hinkson, of Alma, was in Eugene the latter part of the week. He reports things dull there on account of the shutting down of logging operations.

Logan Berry Roots.
I have some fine logan berry roots for sale; also some of the Logan or Mammoth blackberry roots. They are large, with but few small seeds. Call or address D. R. Lakin, 170 East Eighth street, Eugene. m16wit

CURED LUMBAGO.
A. B. Canman, Chicago, writes March 4, 1903: "Having been troubled with Lumbago, at different times and tried one physician after another, then different ointments and liniments, gave it no relief. So I tried once more, and got a bottle of Ballard's Snow Liniment, which gave me almost instant relief. I can cheerfully recommend it, and will add my name to your list of sufferers."

Many business men are short-sighted in not looking into things. They are daily losing money by not adopting the Hollister Rocky Mountain Tea system. Makes them well and keeps them well. 35 cents. Linn Drug Co.

EUGENE WILL CELEBRATE THIS YEAR

The monthly meeting of the Merchants' Protective Association was held last night and several matters of interest were discussed, among them being a Fourth of July celebration here this year. It was unanimously agreed to celebrate, but further action on the matter was postponed until the next meeting of the association.

The subject of a band was brought up and it was the sense of the meeting that the association favors the formation of such an organization.

The association endorsed the proposition to ask all the merchants to close their stores on the date of the Stanford-Oregon track meet, May 3.

A committee consisting of G. D. Linn, B. F. Goodpasture and Claude Broders was appointed to confer with the city council looking to the appointment of a milk and meat inspector for the city.

The association went on record as favoring the matter of raising a fund of \$10,000, as suggested by Tom Richardson at the meeting at the courthouse Saturday night, for the purpose of advertising in the East.

It was agreed that a committee of five, to be appointed by the president later, confer with the railroad company on all matters which affect the prosperity of the city.

The association adjourned to meet at the call of the president in the near future. At this meeting the matter of organizing a mutual fire insurance company will be taken up.

WEEKLY REPORT OF EUGENE MARKET

Chittim bark—5@5 1/2 c.
Wool—18@21c.

Poultry, Eggs, etc.
Eggs—Per doz., 16c.
Dairy butter—Per roll, 50@55c.

Oats—Per bushel, 37c.
Bran—Per ton, \$19.
Mixed feed—Per ton, \$21.
Shorts—Per ton, \$23.
Wheat—Per bushel, 62c.

Portland Market Report.
Portland, Or., March 21.—Several front street fruit houses are indignant over the treatment accorded them by the Southern Pacific claims agent yesterday.

A car of bananas billed to Tacoma was found to be chilled upon its arrival here. The car came along with the regular weekly shipment from the South to this market, and when the representatives of the Tacoma firm discovered the condition of the fruit he declined to accept the car.

As is customary in cases like this, the claims agent communicated with the jobbers in an effort to dispose of the fruit to the best advantage. A member of one of the firms communicated with conferred with his neighbors and all agreed that it would be better to take the fruit and place it in their ripening rooms rather than have it doled out by hucksters.

Banana dealers say there is a small margin of profit at best in handling the fruit, and if the hucksters get their supplies at the same prices the jobbers can buy for the retail price is lowered and the wholesalers suffer in consequence.

A bid for the car of chilled fruit was asked and made and the representative of the "club" sent to the railway freight office to close the matter. Upon his arrival he was informed that the hucksters had bid 5 cents a bunch higher than the jobbers' offer. The fruit men then agreed to take the lot at 5 cents a bunch more than had been mentioned in the first place, and were then informed the price had gone up another 5 cents. The fruit men then abandoned the deal and the lot went to the hucksters.

One of the dealers in discussing the matter this morning said: "The Southern Pacific people appear to forget that Front street pays

thousands of dollars monthly in freight charges where hucksters pay nothing. Just why the railroad wants to jump in and compete with us is a mystery."

Cheese in Strong Position.
Cheese stocks are running low, and, in fact, Young Americas are about out. Tillamook has been here for some time and will have no shipping stocks for about a month, except in a small way.

Prices here were recently advanced to 15 1/2@16c for flats, and dealers say they may advance another half cent before new stocks are available. The quotation is now from 1/2 to 1 cent higher than at this time last year.

Outlook in Sugar.
Just previous to the last advance in sugar there were withdrawals of some brands from the market. As a pointer of the immediate future two brands, Alameda beet and C. & H. Star, are regarded with serious attention by the trade. For some days past the Eastern markets have been steady, but as there is a wider difference than normal between the coasts, the Eastern tone adds rather than detracts from the probability of an advance here. This paper rarely makes predictions in markets, especially in sugars, for when wholesalers that give close attention to market conditions are usually at sea regarding fluctuations, it is not expected that information can be obtained from which to base accurate comments.

Salt was recently advanced 5c on bales and 50c on Liverpool ton to \$20.50. Stocks are falling off at San Francisco, and with higher freights a further advance would not come unexpectedly.

Heavy Day's Trade.
Yesterday was a record day in sales with one of the leading Front street houses, and, in fact, all reported a very heavy business in fruits, vegetables, and some lines of produce.

Oranges, bananas, lemons and apples were in heavy demand and had fallen off but little this morning. Prices are practically unchanged, though Southern Pacific freights were delayed today on account of a washout near Ashland. The trouble is reported overcome today, and usual receipts are expected today and tomorrow.

Green vegetables are cleaning up and some varieties are out, notably cabbage. Celery is in fair supply, as is rhubarb. There is some rhubarb coming in from Southern Oregon in a handful way.

Potato dealers are showing more signs of life on account of a better tone in the San Francisco market. Eggs continue firm, and along the street 18@18 1/2 c are the quotations most generally named today.

Dressed meats, especially veals and hogs, were in too light receipt today and are very firm in quotations.

While poultry is not coming in very heavily, the active demand last week has been followed by a slow market today.

Livestock Market.
Light receipts were again noted at the local yards again this morning. Cattle were steady at the quoted price, best grades going to top, but poor stuff barely bringing the figures.

Sheep and hogs are unchanged, with the market in good shape.

Portland Quotations.
Creamery Butter—32 1/2@35c.
Eggs—18@18 1/2 c.
Chickens—13@14c.
Wheat—Valley, 70c; bluestem, 73@74c.
Oats—28@29.
Barley—\$21@22.
Hay—Timothy—\$12@14; vetch, \$7.50@8.
Mohair—Choice, 27@30c.
Wool—Valley, coarse to medium, 21@22c.
Hops—1906 crop, 8@11c.
Potatoes—\$1.09@1.50 per cwt.
Onions—75@90c.
Chittim bark—New stock, 5 1/2@6 1/2 c per lb.
Beef—Steers, \$4@4.75.
Cows—\$3@3.75.
Hogs—\$7.00@7.50.
Calves—\$4.50@5.

Safe, Sure and Speedy.
No external remedy ever yet devised has so fully and unquestionably met these three prime conditions as successfully as Alcock's Plasters. They are safe because they contain no deleterious drugs and are manufactured upon scientific principles of medicine. They are sure because nothing goes into them except ingredients which are exactly adapted to the purposes for which a plaster is required. They are speedy in their action because their medicinal qualities go right to their work of relieving the pain and restoring the natural and healthy performance of the functions of the muscles, nerves and skin.

Alcock's Plasters are the original and genuine porous plasters, and like most meritorious articles have been extensively imitated, therefore make sure and always get the genuine Alcock's.

Pleasant and Most Effective.
T. J. Chambers, Ed. Vindicator, Liberty, Texas, writes Dec. 25, 1902: "With pleasure and unsolicited by you I bear testimony to the curative power of Ballard's Horehound Syrup. I have used it in my family and can cheerfully recommend it as the most effective and best remedy for coughs and colds I have ever used." Sold by Linn Drug Co.

A. J. Price, of Marcola, was looking after business matters in town Tuesday.

NEWLAND'S

TWO BIG DAYS---Friday 22 and Saturday 23.

Hundreds of people will doubtless visit this store tomorrow and Saturday. During these two days we will offer many exceptional values. Some of the best bargains will not be advertised here. We invite you to visit this store and see what we are offering.

Spring Suitings, 29c
29c yd
Exceptional values will be offered in dress goods during these two days. One special feature will be the new spring suiting that we will run at 29c the yard. They are bargains at this price.

THE VISIT our store tomorrow and Saturday. Many of these beautiful goods are IS HERE FOR LAWN THAT ARE PRICED 7c to 10c around town.
5c
Friday and Saturday you can have your pick from several thousand yards of lawns at 5c per yard.

Batiste as Low as 8c yd.
This store is not only able to meet all competition, but are anxious to demonstrate that our prices are lowest, quality considered.
