## "GET EVEN," BUT ALSO GET INTO TROUBLE

Douglas County Youths Destroy S. P. Property and Endanger Public Safety.

"We did it to get even on the S. P. Company," was the reason given by Peter Marketti, aged 19, and his cousin, Jacob Wolfer, aged 18, when arrested by Constable Jarvis at Alca, near Comstock, Monday, on warrants charging them with tampering with and molesting railway signals and destroying railway property, says the Roseburg Review. They were arraigned before Justice Long, and held to the circuit court under bonds of \$500 each, in default of which they were committed to the county jail. Wolfer has made a written confession of guilt, implicating Marketti at the same time to Detective Reilly, of the Southern Pacific Company, who was instrumental in bringing about the arrest of the two young fellows.

Wolfer and Marketti have been working in a logging camp at Alca, and previously they were employed as Southern Pacific section hands. Reduction in wages caused them to quit work for the railroad company, and they considered themselves aggrieved, for which they decided to "get even." Accordingly they smashed red lanterns placed alongside of the tracks at night as a warning to engineers to run slow, and tore down yellow flags hoisted for the same purpose in the day time. They also broke down fences, and sheds and hurled ties and rolls of barbed wire into ditches. These depredations were carried on for a month before Wolfer and Marketti were detected.

Wolfer was born near Perdue, this county, and Marketti is from Comstock. The charge of tampering with railway signals is a very serious one, as the statute provides penitentiary imprisonment for as long as ten years. For destroying personal property there is a maximum penalty of three years' imprisonment.

### SIX MEN PLEAD GUILTY AT ROSEBURG

Roseburg, May 18.—Six men entered pleas of guilty and 32 civil cases were disposed of up to 2:30 p. m. yesterday at the adjourned term of the circuit court for Douglas county, which opened here this morning, with Judge J. W. Hamilton presiding. The men who pleaded guilty and the charges against them are as follows:

Frank Simkins, larceny; stole a watch and \$30 from R. I. Cherry, with whom he roomed at a local lodging house.

Peter Marketti and Jacob Wolfer, committing a crime against public safety; destroyed Southern Pacific train signals in the vicinity of Comstock because of a fancied grievance against the company.

Wm. Desmond, burglary; participated in the robbery of Rice & Rice's store in this city on the 22d of last January.

Peter Ramazzi and Diatto Lorenzo, larceny, stole clothing belonging to R. M. Cramer from the McCurdy Hotel at Yoncalla.

Diatto was sentenced to three years in the penitentiary; Ramazzi was given a sentence of one year, and Simkins was sentenced to a term of two years. Sentence on the other three men will be pronounced today.

## WOODCOCK AND DORRIS HOME FROM 'FRISCO

(From Saturday's Guard.)

A. C. Woodcock and George A. Dorris arrived home this morning from San Francisco, where they went for the purpose of tendering payment for a large acreage of Southern Pacific company's timber land in this county, which has been filed on by a large number of citizens of Eugene and vicinity with a view of its purchase if the company is compelled to sell. Messrs. Woodcock and Dorris represented the Gross company, which has collected \$50 each from forty-five or fifty persons for the purpose of pushing this matter through. If successful, a part of the money is to be applied on the location fee. If unsuccessful, the money is lost, but those who have paid the sum seem to be willing to risk the chance and expect a favorable decision by the courts.

Mr. Woodcock, when seen by a reporter this morning, stated that the tender of the money was made the officials, who refused to accept and who really became quite angry. Suit will now be commenced to compel the company to sell, and those interested in the matter are very hopeful of the outcome, although a good many think it will be a number of years before the land be secured by those filing on it now, or not at all.

The acreage represented by Mr. Woodcock consists of about twenty sections.

## KELLY TIES WORLD'S RECORD IN 220 DASH

(From Saturday's Guard.)

Last night it was discovered that Dan Kelly tied in the 220-yard dash yesterday afternoon in the Oregon-Washington meet the world's record on quarter-mile tracks for that distance. The record was made in Wisconsin in 1896 by a sprinter, Mable. The time was 21 4-5 seconds.

Kelly also really jumped in the broad jump further than the record appears, for he arose about six inches back of the take-off. The distance as recorded was 22 feet 7 1-2 inches.

Zacharias' Surprise. Of the surprises of the day Zacharias was the biggest, for he took second place in all the weight events and broke the former state record held by Hug, which he also broke a little later by establishing a Northwest record. Zacharias also hurled the discus, with very little practice, over 112 feet. But the biggest surprise of all was when he shoved the shot out over 123 feet, beating out Hug for second place.

Robinson, a game little Freshman, tied with Moulton for first place in the pole vault, instead of Kuykendall, as stated yesterday. Either man can doubtless go higher, but were not compelled to by their competitors.

Points Made by Each. The way the men stood in points is as follows: Oregon—Kelly, 20; Moores, 14; McKinney, 11; Zacharias, 9; Kuykendall, 8; Hug, 6; Moulton, 4; Robinson, 4; Huston, 4; Reid, 3; Kiltz, 1. Total, 84.

Washington—Thomle, 19; Putnam, 5; Johnson, 5; Meloney, 4; Cool, 3; Moulton, 2; Chase, 1; Cheney, 1; Love, 1; Welsch, 1; relay race, 5. Total, 38.

## THE B. F. HOWARD ELECTRIC PLANT

Site is at Bear Creek Falls, Popular Place for Picnics, and on S. P. Gilmore's Farm.

The Junction City Times, after copying the Guard's story about B. F. Howard's proposed big electric plant west of Junction, says: The site of this plant is better known as Bear Creek Falls, and is the popular Sunday picnic ground for this whole section of the country. While the volume of water is not very great, the fall is 200 feet, and even a small quantity of water from a 200 foot elevation will furnish lots of power.

The falls are located on the farm ranch of S. P. Gilmore, of this city. Mr. Gilmore entertained the idea of filling on these same waters for irrigation purposes some time ago, but let the matter go by default.

Mr. Howard's plans are not fully matured yet, but there is no question but what he intends to make use of the power which is so easily controlled. In the early fifties a sawmill was located just above the falls and furnished the first sawed lumber that went into the scattered pioneer homes. All that is left of this early industry is the millrace.

## NEW SIDEWALKS FOR CITY OF SPRINGFIELD

(From Saturday's Guard.)

At the meeting of the city council Monday night it was decided to notify all property owners on Main street between Fifth and Second, to build new sidewalks at once. The walks are to be built ten feet wide and on a grade of six inches above the established grade of the center of the street. All walks are to be built with four stringers and in accordance with ordinance No. 75. The street committee was also instructed to find suitable locations for public hitching racks and to have the same built at once, also to furnish two public watering troughs. One trough will be placed between the oak trees on Second street, but the location of the other was left to the committee. The marshal was also instructed to have placed at the city hall a public drinking fountain.

Baseball Situation. The committees that were appointed to hunt for a new location for the baseball grounds met at the town hall Wednesday evening. A spirited meeting was held but no definite plans were decided upon further than if a suitable location could be found the grounds would be moved, but if not the association would continue to play at the present location, but would move the fences from the road that is now being obstructed. The city council authorized the directors of the association to clear the street within two weeks.

Mr. and Mrs. W. C. Berry, from Minnesota, were in Springfield yesterday looking for a vacant store building in which to start a furniture store. Peery is building an addition on the rear of his store building which will be used for an ice cream parlor. He expects to have his soda fountain in working order in a few days.

The Chambers Lumber Company at Dorena is building a log chute about two and a half miles long so as to tap a fine grove of timber near the divide above their mill. The company thinks it will not shut down this spring but will pile lumber on the yards until ears can be had to carry the product to market. This the company can do, since it has plenty of room and dresses a large part of its output. The market is in the East, and the late advance does not affect this mill.—Western Oregon.
