MEETING HELD SUNDAY IN NEW LODGE HALL, OLD PRESBYTERIAN CHURCH BUILDING

Monuments Unveiled, As No Member Was Buried Here During Past Year—Rev. H. N. Mount Delivers Annual Address—Work of Remodeling Church for Hall Began This Morning.

(From Monday's Guard.) Yesterday was memorial Sunday throughout the country for members of the Woodmen of the World and Women of Woodcraft. Graves of departed members were decorated with flowers and impressive ritualistic services read at the unveiling of monuments erected during the past year. Memorial Sunday falls on the Sunday nearest the date of the anniversary of the organization, June 6.

None of the members of the local camp of Woodmen was buried here during the past year, the only member dying in that time being buried at Harrisburg, and in consequence no attending services were held, but services were conducted in the new hall, the old Presbyterian church building, and the program as published in Saturday's Guard was carried out in its entirety.

The attendance was large. After prayer by Rev. Geo. E. McDonald and two or three musical numbers, R. McMurphy delivered the opening address and after a beautifully rendered solo by Miss Gilbert, Rev. H. N. Mount was introduced as the speaker of the occasion. His address was complete with good thought and was well received.

# SPRINGFIELD TEAM ARRANGES SCHEDULE

At Eugene—Eugene Colts, June 23 and August 4.

# JAPANESE PAPER DENOUNCES AMERICA

Tokio, June 10.—Not only do the yellow papers of Tokio denounce the American attitude over the affair at San Francisco, but the sober Kokumin Shimbu says:

"The lack of redress for the San Francisco attacks on Japanese subjects is a disgrace to a civilized power, though the disturbances were confined to one locality."

The Hoheishu Shimbu says:

"America ought to offer redress at San Francisco outrages before expressing surprise at Count Okuma's outbreak."

# 30,000 Pounds Twine

We have just unloaded a 30,000 pound car of the celebrated Plymouth binder twine, which we received direct from the manufacturers. This twine is the same as we have sold for the past six years and always runs true and even.

It is the cheapest and best twine on the market for the customer to use when length and quality are considered.

This is one article in the hardware line that has not raised in price this year. Price same as last year.

# GENERAL BOOTH REACHED SEATTLE ON SATURDAY

Seattle, June 10.—General William Booth, of the Salvation Army, arrived in Seattle Saturday on the steamship Minnesota from the Orient.

"My trip through Japan confirms what I have always said about human nature when you reach the proper point, the heart of man being the same in any nation and under any skin," he said this morning. "My trip through Japan was one continuous triumph," he continued. During his stay in Tokio he was dined by

EVA BOOTH. Daughter of General William Booth and commander of the Salvation Army in America.

the famous general, Oyama, and General Nogi, hero of Port Arthur, and was received in the private office of the mikado.

"In Yokohama and Tokio and other places the army has organized the Japanese Young Woman's Protection League, the purpose of which will be to stop the traffic in white slaves. A determined effort will be made to prevent such horrible traffic, and the government will co-operate with us."

"Tears with the Japanese," he said, "are considered an evidence of cowardice, but thousands rushed to us in the penitent form, groaning

weeping and giving evidence that they were deeply moved spiritually. "I cannot account for the Japanese attitude toward Christianity and the United States," continued General Booth, "unless God has chosen that field at last for conquest."

General Booth was met at the boat by his daughter, Commander Eva Booth, who has been on a tour of this country. The party will leave for Quebec, where the general is booked for a lecture. He will return to Seattle in October for a series of lectures.

In the circuit court case of A. R. Martin vs. the city of Junction City, the plaintiff today filed a petition asking that the right to maintain the fences across the streets and alleys described in the suit till December 1, 1907, so that the trees described in the suit may be removed without injury. This is a suit in which Martin sued the city to join it from opening certain streets and alleys through his land, and which was won by the city.

# FIVE CAR LOADS RAILS ARRIVE HERE

FOR EUGENE STREET RAILWAY. WORK WILL BEGIN AT ONCE ON LINE

Rain Interferes With Beginning of Paving Operations—Electric Light Poles on Willamette Street Being Moved to Be Ready for Laying Pavement, Which Will Begin at Once

(From Monday's Guard.) Five carloads of steel rails for the street railway line arrived in Eugene from the East this morning and will at once be unloaded. The work of constructing the line will begin at once and rushed to completion, as the company has only a short time to finish the line in order to comply with the provisions of the franchise. The work would doubtless have commenced this morning, as expected last week, had the paving people been ready to begin their work. The rain interfered with the beginning of operations, but just as soon as clear weather comes again Willamette street will be the scene of great activity. Both companies will put on as many men as they can, and from the time of the beginning of the work things will hum.

The rails which arrived here this morning weigh sixty pounds to the yard, and are twice as large as those which arrived a week or two ago and which were loaded on the car again and have been in the depot yards here since.

Moving Light Poles. The Willamette Valley Company this morning put a force of men to work moving the electric light poles on Willamette street. They are being moved a foot further in so they will not be in the street as it is almost impossible to pave around them. They will be about a foot and a half inside the curb line.

# PRESIDENT AGAIN SPEAKS AT JAMESTOWN FAIR

Jamestown, June 19.—For the second time President Roosevelt is the central figure of attraction on the exposition program. The event which he comes to participate in is the dedication of the Georgia state building, Georgia being the home from whence his mother came.

The president arrived at the exposition grounds about 11 o'clock, and was at once driven to the speakers' stand, where he delivered his first address.

President Roosevelt said in part: "I cannot express how deeply touched I am at the action of the state of Georgia, my mother's state, the state from which I draw half of the blood in my veins, in erecting as the Georgia state house at the Jamestown exposition a replica of my grand father's house at Roswell, Ga., the house in which my mother passed her youth and where she was married to my father. It is an act of gracious courtesy and consideration which very deeply appreciates and through the governor and other representatives of Georgia I desire from my heart to thank all her citizens. Georgia's history is unique, for she alone among the original thirteen colonies, and the subsequent new states added thereto, was founded with a consciously benevolent purpose, with the deliberate intent to benefit mankind by building a commonwealth along carefully planned lines of social, political and religious liberty and justice. Oglethorpe, the founder of Georgia, was a true apostle of philanthropy and of equality of alone among the original thirteen which should be open to the oppressed of every land and creed, and to every form of political, religious or industrial bondage or persecution. His colony welcomed alike those who fled from political or social tyranny, and those, whether Christian or Jew, who sought liberty for conscience's sake. It was a high and honorable beginning; and I am proud, indeed, of my Georgian ancestry, and of the fact that my grand father, Archibald Bullock, was the first governor, or as the title then went, president of the new state, when the continental congress, of which he was also a member, declared that the thirteen states had become a new and independent nation. Since then Georgia has grown at a rate even more astounding than the rate of growth of the nation as a whole in every field of activity, intellectual or physical, and rapid though her progress has been in the past, it bids fair to become even greater in the wonderful new century which has now fairly opened."

"The navy is our surest guarantee of peace, and if war should ever break out it will be the greatest safeguard for our honor and our interest. As is likewise true of the army, it is manned by a volunteer force; for it must never be forgotten that all our soldiers and sailors, whether regular or not, are volunteers. Every encouragement should be given to our navy, and no public servant should be pardoned for failing to do everything in his power to see that we have the best type of ships and of guns, and that the officers and enlisted men are held to the strictest accountability for so practicing with the ships and guns that no navy afloat shall, ship for ship, squadron for squadron, be our superior. If the officers and enlisted men do their duty—and I am thankful to say that in our navy cases where they do not do their duty are relatively few in number—they put us all under a deep obligation to them, and we should give them all the reward and encouragement in our power. The higher a man is in the service the greater should be our insistence upon having the best kind of men. We should have a system of promo-

tion either by elimination or by selection, so that mediocre officers could not come to the top."

"The lesson of preparedness does not relate merely to war; it is just as true of the nation as of the individual. Each of us does any given piece of work well or ill, largely according to how he has previously trained himself to do it. The nation, which is but the aggregate of the individuals composing it, will rise or fall to rise in any great crisis according to the ideals and standards that it has kept in mind in ordinary days, and according to the way in which it has practically trained itself to realize these ideals and come up to these standards. We must insist upon justice and fair dealing as between man and man. We must strive each of us to treat his fellow with an eye single to what his conduct warrants. We must work hard and bear ourselves cheerfully and valiantly."

# PROSECUTION RESTS IN SCHMITZ CASE

San Francisco, June 10.—The prosecution in the Schmitz case rested this afternoon. Abe Ruef was not called to testify.

The funeral of Mrs. C. C. Hammond, who died in Portland Friday, was held at the home of Mr. and Mrs. F. A. Rankin, on Olive street, Sunday forenoon, with interment in the cemetery at Pleasant Hill. It was largely attended and the floral tributes were magnificent.

# THE OSBORNE SELF DUMP RAKE

The present rain means hundreds of thousands of dollars to the farmers of Lane county. The hay and spring grain crops were beginning to show the effects of the dry weather very much. Had the rain been a week later in coming the outlook would have been exceedingly blue.

The big Buffalo-Pitts separator that has been on a car at the depot for the past several days was unloaded today. It is for Gimple Bros., well-known farmers west of the city, and was ordered through the Berger-Bear hardware company.

# BODY CLEANING EVERY SPRING MORE URGENT THAN HOUSE CLEANING.

Many Women Have Discovered That a Course of Treatment With Pe-ru-na Cleanses the System of the Accumulations of Winter.

MRS. ALICE BRADLEY.

Mrs. Alice Bradley, Thorold, Ont., Can., writes: "Two years ago I became weak and rundown and as time passed I gradually failed until a year ago, when I experienced a stroke of paralysis, which affected one side and I was helpless. "I called in professional medical treatment, but steadily grew worse. "I had decided I never would rise again from my bed, but when Peruna was brought to me and after having taken four bottles of it, I was able to be out and a wonder to myself and friends. "I consider Peruna a great blessing to the afflicted. I may add that my daughter has also used Peruna and has been blessed with renewed health. I believe Peruna saved our lives."

Health and Complexion, Strength and Beauty Depend Upon Clean Blood and Good Digestion.

Mrs. Daniel Passmore, Welland, Ontario, Can., writes: "For three years I was severely afflicted with stomach trouble, and for days at a time I could not eat anything. I grew thin in flesh, had headaches and was the picture of despair. "I was attended by three doctors, but got no good results. "Finally I began the use of Peruna. I soon noticed an improvement and after using three bottles, I was able to relish a meal, in fact, could eat anything. "To-day I feel well and strong. I consider that Peruna has saved my life and I shall always praise it."

MRS. DANIEL PASSMORE.

Mrs. N. P. Lawler, 423 1/2 N. Broadway, Pittsburg, Kas., writes: "Last spring I caught a severe cold which developed into a serious case of catarrh. I felt weak and sick and could neither eat nor sleep well. "A member of our club, who had been cured of catarrh through the use of Peruna, advised me to try it and I did so at once. "I expected help, but nothing like the wonderful change for the better I observed almost as soon as I started taking it. "In three days I felt much better, and within a week I was well. "I continued taking the entire bottle and within two weeks I was in fine health."

"Peruna is a wonderful medicine." Mr. Lee King, R. F. D. No. 4, Farmersville, Tex., writes. "My health has been better generally this spring and summer than it has been for four years and I have worked nearly every day. "I suffered with dysentery and bowel trouble. "Your remedy also cured my wife of constipation. "I wish you continued success with your great medicine, Peruna."

# Clean Up Once a Year.

CLEANING up the body in the spring is a duty everyone owes to himself. Face powders may hide a rough skin, but Peruna helps to produce a skin that need not be hidden. The source of good blood is good digestion. Peruna aids digestion. Those people who have regular bodily functions have a clear and delicate skin. Peruna helps to restore these functions. Most skin deformities depend upon systemic derangements, which cannot be corrected by local treatments. Peruna is a systemic remedy, reorganizing and regulating the whole body.

# MRS. M. I. AWBREY'S COLLAR BONE BROKEN

(From Thursday's Guard.) Mrs. M. T. Awbrey, residing at 622 High street, while at the Awbrey farm below Irving yesterday, fell out of a buggy and broke her left collar bone. She and her husband had driven to the farm and

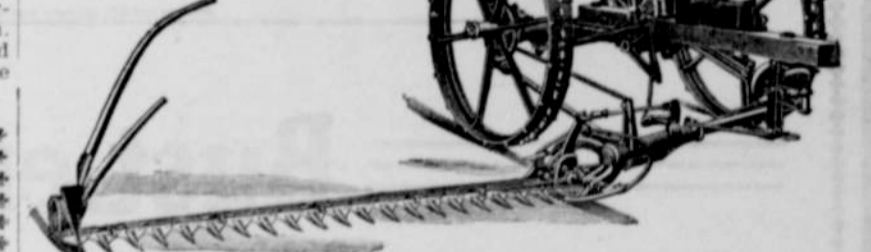

she was getting out of the buggy when her foot slipped and she fell heavily to the ground. She was brought home and Dr. T. W. Harris called to attend the injury. She was badly bruised up besides, and will be confined to her home for several weeks. She was in much pain all of last night and her daughter, Mrs. Burke, of Reno, who is visiting here, was compelled to sit up with her, but she is resting easier today.
