Messrs. L. F. & G. C. Stanley,  
Eugene, Ore.

Gentlemen:-

Through inadvertence on the part of our salesman we have sold and shipped you several invoices of drugs, sundries, etc. It is contrary to our policy to sell other than the legitimate drug trade and we desire to confine ourselves as closely as possible along these lines. We trust you will not have occasion to call on us for further supplies. We say this in the most kindly spirit as we appreciate the courtesy you have extended us even though circumstances make it impossible to reciprocate.

With kind regards, we are,

Yours very truly,

CLARKE, WOODWARD DRUG CO.

Gentlemen:-

We regret to advise that we will be compelled to decline to execute your requisitions in future on account of the fact that our continuing to furnish you supplies will endanger our relations with others in your vicinity. We are very thankful for the preference you have shown to us and are sorry to decline your trade, but we think that for our best interests we should do so as we do not want the retail drug trade, with whom our greater interests lie, to feel other than kindly toward us.

The above letters explain themselves.  
We have other evidence to submit and some may be published later.

# STANLEYS

612 Willamette St., Eugene, Or.

Near  
9th Street

You can still continue to buy every standard proprietary remedy at Stanleys at the same terrific price reductions that we have been giving you ever since we added our drug department.

## Stanleys will continue to sell Drugs at Cut Prices

and the Drug Trust will find us a pretty hard concern to put out of business. We now have in stock over \$3000.00 worth of drugs, and several large shipments enroute. The local jobbers shutting us off will hamper us but little.

### To Our Friends and Patrons:

There is an "American Druggist Sydicate" (a combination of retail druggists) which puts up a line of remedies and gives the sale to one druggist (a member of the combination) in each town. This trust is represented in Eugene, and the A. D. S. remedies are pushed and recommended to every person buying at that store, because that druggist makes a much larger per cent of profit on these A. D. S. remedies. Stanleys will never handle A. D. S. remedies, for we will never enter any trust or combination, and we ask our friends and patrons, if they wish to help us fight the drug trust, to not buy A. D. S. remedies. Wherever you buy refuse the A. D. S. goods. Accept the standard remedies and you will help us in our right to give you drugs at living prices.
