

JIM HILL
TELLS HOW TO
AVERT PANIC

St. Paul, Minn., Nov. 7.—Not Wall street, but individuals who are hoarding money are responsible for the present financial stress, according to a statement made by James J. Hill. He says:

"There is nothing in the actual business conditions to cause or to account for the financial stress. Crops were good, and until the money began to disappear prices were higher than for many years. Neither is there an insufficient volume of money in the country. The notion that Wall street absorbed it is with-

out foundation. A year ago there was enough money for current needs. The trouble clearly comes from hoarding of money. The impairment of public confidence is the real fault. It has already done much damage, and will do more unless speedily corrected. This popular distrust, as far as it leads to hoarding, is foolish and hurtful. The people should put an end to it by releasing the money whose withdrawal from circulation means business starvation. The financial interests are doing their part. The people must put away their misgivings and do their part. Then the crisis will end."

SPRINGFIELD BRIDGE
IS BEING REPAIRED

L. N. RONEY HAS FORCE OF MEN
AT WORK — OTHER NEWS NOTES

L. N. Roney with a force of men put in his appearance Monday morning and they are now busily engaged in getting ready to commence the work of repairing the county bridge that has for a long time been in a dangerous condition. New concrete piers will be substituted in place of the old stone ones that have for months been cracked and almost ready to tumble over. New piers are badly needed, and it is hoped that the bridge will receive a thorough overhauling before the job is completed.

The brick work on the First National bank building was commenced Monday morning and now it looks as though Springfield would soon have a good brick bank building that will compare with any in the county. A large force of men will be kept busy until the structure is completed. It is thought it will be ready for occupancy by the first of January.

The News has been informed that Flegan & Rychar, who were to take possession of the I. O. O. F. building as soon as completed, have changed their plans and have cancelled their lease. It is rumored that it will be occupied by another party when ready for occupancy.

John Graham left Monday afternoon for Yoncolla, where he will operate a skating rink during the winter months. He was accompanied by Wiley Humphreys, who will have charge of the rink at that place, while John will return to Springfield to look after things at this end.

This week there was another case of dog poisoning in town, Harold Peery's pup being the victim.—News.

AN ANGEL OF THE THIRD TERM

(Harper's Weekly.)
Senator Bourne, of Oregon, has offered a prize of \$1000 for the essay that shall most convincingly demonstrate that President Roosevelt, willy-nilly, must be his own successor. We observe that the World intimates that Senator Bourne's fervency in behalf of what he calls a "second elective term" for Mr. Roosevelt dates from the celebrated "conspiracy" dinner which he gave, and is one of the fruits of a repentance for that catastrophic entertainment which has been stimulated by his constituents. But that does Mr. Bourne complete injustice. He has yearned in every thine to re-elect President Roosevelt ever since he came to Washington, and that was months before the "conspiracy" dinner. It is said that first and last he has had considerable experience in the show business, in which he filled the post of "angel." The habits of mind and heart formed in that association will account naturally enough for his present activity. To want to be a leading "angel" of a third term would come perfectly natural to Senator Bourne, and his leanings that way do not need to be explained by invented reasons. His labors will not result as he hopes, but that is nothing. A man who really wants to be an angel is happy in being an angel, whatever

We Don't Need Money

So we accept bank checks on the banks in payment for goods and this enables you to purchase goods at prices that defy competition. Price goods elsewhere then come to us, we won't ask you what the other fellow's prices were, we don't do business that way. We make prices, and when another dealer asks you to go elsewhere and price good then comes and tell him what the prices were, you want to look out. We care nothing about what the other fellow asks, and such actions prove that we make the prices. This is but natural as we fought the trust combination. You will find our prices lower and a larger stock to select from and we ask you no embarrassing questions. All we ask is that you compare prices and buy where you get the best goods, the largest stock to select from and real values.

- 100 oval frames, several patterns, 16x20; sell regular at \$2.25 to \$3.50; special, complete, each... \$1.00

In addition to the above any picture or frame in the house for 25 per cent off of regular prices. All goods marked in plain figure.

We advertised that we received a carload of stoves, ranges and heaters direct from the factory. Another dealer in one of the local school papers advertises that his house received a carload of stoves, ranges and heaters, he recognizes the fact that car load lots come cheaper and that causes the adv. Records at the freight office here show that Campbell-Fellman Co. are absolutely the only dealers in Eugene to receive a car load of stoves and ranges this season, and that's why we sell for less than others and furnish a better article. Our ads are news and truthful.

TRAMP SHOT AND KILLED AT YONCOLLA

Yoncolla, Nov. 8.—While running away to avoid arrest an unknown tramp was shot and killed by Night Watchman Frank Lundy in this city late last night. The authorities at Roseburg were notified and Justice Meizner, of this place, was authorized to hold an inquest by Coroner Hammitte. Owing to this being pro-

claimed a legal holiday by the governor, Justice Meizner is deterring the inquest pending advice from the district attorney.

During the evening of yesterday the dead tramp and two companions were overheard planning a holdup. Lundy was promptly notified and he accordingly kept a close look-out for the trio during the night. About midnight he discovered one of the men acting in a suspicious manner, and arrested him. Starting toward the jail with the prisoner the officer had proceeded but a short distance when the tramp suddenly jerked himself loose and ran. Lundy called to him to stop, adding that he would shoot if he didn't. The fugitive shouted back that Lundy did not dare to shoot and kept on running.

Lundy thereupon fired at the man from his revolver and brought him down. The bullet entered the tramp's left side and he expired in a few minutes.
