## PROSECUTOR HENEY STRONGLY DENOUNCES OFFICIAL CORRUPTION

Portland, Feb. 5.—United States attorneys, doing politics instead of their duty, and appointed by rotten United States senators' is the way Francis J. Heney characterized some of the government officials in his opening argument in the trial of ex-United States District Attorney Hall today. Heney declared that Hall had ample evidence on which to proceed against the Buitta Creek Company but failed to do so, and accused Hall of conspiring with W. W. Skelwer, H. H. Hendricks, C. B. Zachary and others to maintain unlawful fences in Eastern Oregon. Before closing the government's case against Hall yesterday, Mr. Heney called a number of witnesses to prove that United States Attorney W. C. Bristol was mistaken in the testimony he gave for the defense in an attempt to impeach H. H. Hendricks, ex-United States commissioner. In addition, Heney took the stand also and testified to an interview with Bristol in regard to the facts to which Hendricks had testified. Afterward

## TORPEDO FLEET HAS ARRIVED AT PUNTA ARENAS

DESCRIPTION OF IMPORTANT PORT IN STRAITS OF MAGELLAN, WHERE PACIFIC BATTLESHIP FLEET UNDER ADMIRAL EVANS IS NOW MAKING A BRIEF STOP—MANY INTERESTING SIGHTS FOR YANKEE TARS

Punta Arenas, Feb. 5.—The torpedo flotilla joined the battleship fleet at this port yesterday afternoon.

Punta Arenas, where the American battleship fleet is now making its third stop in its cruise around South America, is both a unique and important port. It is the southernmost city in the world. Although located in a section which upon old maps appeared to be a part of Patagonia and close to Tierra del Fuego, the supposed home of wild men and cannibals, it is a growing, progressive and up-to-date town with a population of 15,000. It has wide streets, some of which are well-paved, several imposing public buildings, a number of fine residences, a modern club, a good system of electric lighting and water supply, and a few modern characteristics.

Punta Arenas has the distinction of being the capital of the Chilean territory of Magallanes. It is a port of entry for all vessels, and it is not an uncommon sight to see a score or more of merchant steamers and ships at anchor in its harbor. It is an important stopping point for all boats passing from the Atlantic to the Pacific. It has an increasing export trade in wool, hides and tallow. In 1905 these products to the value of \$9,000,000 were exported. In the same year over 75,000 carcasses of frozen meat were shipped to England. The country of Chile and Argentina are to the west and east, respectively, of the straits of Magellan. The development in sheep and cattle raising is unlike that of the Western section of the United States. Where a few years ago the maps represented the territory as being wild and unexplored, there are now great sheep and cattle ranges owned by Britishers and Germans. The pastures to the northeast of Punta Arenas are remarkably fine, and, because of the cool climate, the neighborhood seems best adapted to the production of heavy wool. Great companies have been started to develop the grazing facilities and some are yielding a yearly profit of 300 per cent. Others have been purely speculative and have brought disaster to those investing in them. In the one hundred miles reach of country from Punta Arenas to the Argentine frontier there

## SCHUEBEL IS DROPPED FOR THOMAS CLEETON

Washington, Feb. 4.—Thomas J. Cleeton, of Portland, a very close friend of Senator Fulton, is slated for United States district attorney of Oregon. Senators Fulton and Bourne and Congressman Ellis united in recommending him; the recommendation was placed in the president's hands last night and it is expected that Mr. Cleeton's nomination will be sent to the senate tomorrow. The obstacles were held over Chris Schuebel's nomination yesterday afternoon. Mr. Bourne was the only mourner, but the ceremony was held behind closed doors and there was none but his colleagues to witness his last tearful tribute to his friend. Mr. Bourne frankly admitted to them that it was useless for him to press Mr. Schuebel's nomination further. He said he was satisfied that to do so would be to court a turndown in the senate, for his careful canvass of the situation had satisfied him that, if the nomination was pressed, not only the sub-committee but the entire judicial committee would vote adversely and the senate would support Mr. Fulton in his opposition. But Mr. Bourne did not surrender until he had pulled every available string and has exhausted his last bit of influence. He counted on the cooperation of Senator Knox to secure Mr. Schuebel's confirmation and he brought influence to bear to swing Mr. Knox into line, but found to his surprise that Mr. Knox, notwithstanding his (Bourne's) promise of several Oregon votes in the national convention, was unwilling to support any man for district attorney who had had no practice in the federal courts.

## BILL TO REPEAL PRESENT TIMBER LAW

Washington, February 4.—Senator Borah, of Idaho, today introduced a bill absolutely repealing the timber and stone law. He offers no alternative plan of disposing of public timber, but is in conference with Secretary Garfield, and is drafting a bill which will provide practicable means of disposing of government timber lands on a fair basis and shut off possibilities of false entry and at the same time stipulate that moneys derived from government timber shall go, as now, into the national reclamation fund. This bill is not yet shaped up, but it is likely it will provide for disposal of timber either at stumpage value or at public sale, under direction of the secretary of the interior. The government to retain title to the land and sell only the mature timber; cut-over land to be opened to homestead entry.
