Thousands Have Kidney Trouble and Never Suspect It.
Prevalence of kidney disease. Most people do not realize the alarming increase and remarkable prevalence of kidney disease. While kidney disorders are the most common diseases that prevail, they are almost the last recognized by patient and physician, who concentrate themselves with doctoring the effects, while the original disease undermines the system.
What To Do.
There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes.
You may have a sample bottle and a book that tells all about it, both sent free by mail. Address Dr. J. C. Kilmer & Co., Binghamton, N. Y.
Beware of cheap imitations. Read the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y.

ANNUAL REPORT OF PRESIDENT OF UNIVERSITY

The annual report of the president of the University of Oregon for 1925, with the reports of the several registrars, have just been issued. The president's report shows that the University has made a gain of 23 per cent in enrollment this year over that of last. The funds have fallen short \$11,000 of meeting the current expenses of the year, and to avoid a deficiency the faculty served three months without pay. The work of the summer school and the correspondence school is discussed, and a recommendation is made for a bureau of research in economics, politics and sociology. An outline of the plans of the school of education for training high school teachers and principals is given, and attention is called to the gift to the University of a building and land by the citizens of North Bend, Or., for the establishment of a marine biological laboratory, for which Coos Bay offers exceptional advantages. The total registration, as shown by the registrar's report is 977 students, distributed as follows: Liberal arts, 259; engineering, 191; school of law, 87; school of medicine, 83; school of music, 128; correspondence school, 251; summer school, 25. The steward's report gives a complete statement of the University's finances for the year.

ANNIVERSARY OF LINCOLN'S BIRTHDAY

(Continued from Page One.)
ere is, to bind up the nation's wounds, to care for him who shall have borne the battle and for his widow and orphan, to do all which may achieve and cherish a just and lasting peace among ourselves and with all nations.
THE GETTYSBURG ADDRESS
(Remarks at the Dedication of the National Cemetery at Gettysburg November 19, 1863.)
Four score and seven years ago our fathers brought forth upon this continent a new nation, conceived in liberty and dedicated to the proposition that all men are created equal. Now we are engaged in a great civil war, testing whether that nation, or any nation so conceived and so dedicated, can long endure. We are met on a great battlefield of that war. We have come to dedicate a portion of that field as a final resting place for those who here gave their lives that the nation might live. It is altogether fitting and proper that we should do this. But in a larger sense we cannot dedicate, we cannot consecrate, we cannot hallow this ground. The brave men, living and dead, who struggled here, have consecrated it, far above our power to add or detract. The world will little notice nor long remember what we say, but it can never forget what they did here. It is for us, the living, rather to be dedicated here to the unfinished work which they who fought here have thus far so nobly advanced. It is rather for us to be here dedicated to the great task remaining before us; that from these honored dead we may take increased devotion to that cause for which they gave the last full measure of devotion; that we here highly resolve that these dead shall not have died in vain; that this nation, under God, shall have a new birth of freedom; and that government of the people, by the people and for the people shall not perish from the earth.

SENATOR RAYNER TALKS ON CURRENCY

Washington, Feb. 12.-Senator Rayner, of Maryland, addressed the senate today on the Aldrich currency bill. There was a large attendance of Democrats and Republicans, including the leaders on both sides.
After outlining what he considered to be faults in the currency system of the government Mr. Rayner said:
"The truth about the situation is that the money in this country is not equitably and fairly distributed and that it is so concentrated at points that dominate the banking interests of the land that the people who need the money and the agricultural sections of the country and the country banks and the country towns and mercantile and farming interests and honest business enterprises are all unable to secure it when the necessity arises for its use, and are sacrificed to gratify and appease the demands of the money and the agricultural sections of the country. We will never have permanent relief until we strike at the root of the evil and reform our entire banking system from its foundations in the interests of the American people against the special interests."
While opposing the Aldrich bill Senator Rayner went on record as also against a credit currency, an asset currency, and a central bank of issue. The great trouble with the pending bill is what he reserves, he said, and he declared the law regulating them is simply a disguised and stupendous deception and fraud.
