

RHEUMATISM

BLOOD FILLED WITH URIC ACID

Rheumatism comes from an excess of uric acid in the blood. This acid circulating through the system acts as an irritant to the different muscles, nerves, bones and tissues of the body, and produces the inflammation and swelling of the joints and the sharp, cutting pains characteristic of the disease. When the blood is overburdened with uric acid it continually grows weaker and more acid, and poorer in nourishing qualities. Then Rheumatism becomes chronic, and not only a painful, but a formidable and dangerous disease. Sometimes the heart is attacked, the general health is affected, and the oils and fluids which lubricate the muscles and joints are destroyed, and the rigid matter which the blood is constantly depositing in them; the muscles shrink and lose their elasticity, the coating of the joints becomes hard and thick, and often the sufferer is left a hopeless cripple. S. S. S. attacks the disease at its head, goes down into the circulation, and by neutralizing and removing the uric acid from the system the irritating matter which is causing the pain and inflammation. Begin the use of S. S. S. now and get the cause of your blood so that the cold and dampness of Winter will not keep you in constant pain and misery. TEN HOUR LAW IS UP HELD BY SUPREME COURT

Washington, Feb. 24.—The United States supreme court today upheld the constitutionality of the Oregon law of February 19, 1907, providing that no female shall be employed in any mechanical establishment or factory or laundry in that state more than ten hours a day, the decision of the state supreme court in the case of *Holler vs. State of Oregon* being affirmed. Muller was convicted of violation of this law and the state supreme court affirmed his conviction. Appeal was taken to the United States supreme court on the ground that the Oregon law infringed the right of an individual under the 14th amendment to make her own contracts, and on the further alleged grounds that this was class legislation, discriminating between the sexes.

FIRST CAR OF MATERIAL FOR NEW DEPOT

(From Saturday's Guard).
The first carload of material for the construction of the new Southern Pacific depot in Eugene arrived yesterday from Portland. It was a car of cement to be used in building the foundation of the structure and was consigned to Chief Engineer Boschke. The material will be unloaded at once and it will not be long before the work of building the foundation will begin. Other materials will be sent up from Portland from time to time until all that are necessary for the construction of the fine depot have arrived.
It will be remembered that General Manager O'Brien the other day promised John H. Hartog, manager of the Eugene Commercial Club, that material for the depot would be shipped here soon, and this is a fulfillment of the promise sooner than expected.

EUGENE MUST PAY ENGINEERS FOR WORK DONE

Portland, Oregon, February 25.—By a decision of United States Judge Wolverton at Portland yesterday the city of Eugene will be required to pay Kelsey & Young, contractors, the sum of \$2450 for services performed. In 1905 the electors of the University city authorized the issuance of bonds to the amount of \$100,000 with which to install a municipal electric light plant. Subsequently the city council employed Kelsey & Young to make a survey, agreeing to pay \$2900 for the work, and on which a payment of \$450 was made. But upon being advertised for sale no bids for the bonds were received and the contractors applied to the city for the balance due them. Warrants were drawn on the general fund and L. Simons brought suit against the city for the balance due them, claiming that the service was to be paid from the proceeds of the bond sale.
Judge Wolverton held that where a municipality falls to comply with the requirements of its charter to supply funds or if there is any unreasonable delay in enforcing such provisions or collecting and turning over such money, the contractor has the right of action against the corporation for damages, in which he may recover the amount due under the contract, even if the contract contains a provision that he shall look for payment only to a special fund and that he will not require the municipality, by any legal process or otherwise, to pay his claim out of any other fund.

NEW HARRIS MAP OF THE NORTHWEST

New Harriman maps of Oregon, Washington and Idaho are just from the press, ready for distribution. A glance shows that the three states, particularly Oregon, are largely unexplored, at least so far as the railroad situation is concerned. The map shows rail lines, projected roads, stage routes, irrigation districts, both private and public, and the routes controlled by Harriman. These are printed in red, which color decorates the map in nearly every case where a rail line route is traced. The map shows the route from Reed, Cal., to Klamath Falls is nearly completed, as well as a portion of the Oregon Eastern from the latter point to the Natron, on the Southern Pacific line. The road from Hillsboro to Tillamook, heretofore known as the Lyle road, bears the red imprint of Harriman.
The route from Pendleton to Pilot Rock lately completed, is shown, as is the Riparia-Lewiston line, almost finished; the road from Elgin to Wallawa section and the projected Washington and Oregon extension of the Union Pacific to Seattle, work on which is to be resumed within a few weeks. A branch from this line into the Grays Harbor country is traced likewise.
Five thousand of these maps are in the hands of A. C. Jackson, advertising man for the allied roads, for distribution to the public.
Roseburg is to send out 20,000 booklets, to cost \$2750, a 64-page affair, to be gotten out under the direction of the Harriman bureau.

IN TWENTY CENTURIES NO TRAGEDY EQUALS MURDER OF PRIEST

Denver, Feb. 24.—In twenty centuries of the history of the Catholic church members of its priesthood in this city declare there is no record of a tragedy parallel with the slaying of Father Leo Heinrichs, while administering the sacrament to Giuseppe Guarnacino at the altar of St. Elizabeth church yesterday.

STORY OF MURDER OF PRIEST AT ALTAR

Denver, Col., Feb. 23.—Father Leo Heinrichs was shot and killed when administering the sacrament at an early mass in St. Elizabeth's Catholic church, Eleventh and Curtis streets, this city, at 6 a. m. this morning. Through an interpreter the murderer declared: "I am glad I did it because it is in accordance with my principles. I am an anarchist, a zealous one, and have striven hard all of the last fifteen years of my life to carry out its precepts. Only the fact that I was arrested when I murdered the priest prevented the murder of three more words." "Dashes for Door, Gun in Hand"

With an articulate scream of triumph, which the communicants declare was the yell of a demon, the assassin sprang into the aisle, and waving the smoking gun about his head, dashed to the church door. For a moment the hundred or more people in the church were dazed. Then a woman shrieked and the congregation became panic stricken. Some women fainted and many became hysterical. Several men rushed to the aid of the priest and others started in pursuit of the murderer. Among the latter was Patrolman Griffin, who overtook the fleeing Italian on the church steps. Guarnacino attempted to shoot the policeman but was foiled and overpowered, after a desperate fight, in which several men had to come to the aid of the officer.
