MARCOLO HOTEL DESTROYED BY FIRE MONDAY

Marcola, March 2.—The Marcola hotel was destroyed by fire this morning between 11 and 1 o'clock. The building is a two-story structure and the contents except a piano and two or three chairs were burned.

The origin of the fire is a mystery. It caught in a room that had not been occupied for some time, and as no one had been in that room as far as known during the day or evening, it is thought that the fire might have been of incendiary origin.

The building was erected last summer by C. Cole, founder of the town of Marcola, at a cost of about \$4000. It was a three-story structure and contained 20 rooms besides the office, parlor, dining room, kitchen, etc. The furniture was owned by H. A. Seelye and was leased by Monte Miller, who had been conducting the hotel only about two and a half months. The building was well furnished, the loss of the furniture being about \$2500.

Narrow Escape.

The fire occurred at a time when everybody in the hotel was asleep, and there were narrow escapes for some of the guests. Many of them got out of the building with their clothing, but some had to jump to pick up any of their belongings, and were compelled to go out into the cold night air with nothing but their night clothes on. Some of the guests lost all of their belongings. Jack Little lost \$150 in cash and clothing, L. T. Brown lost \$20 in cash and much clothing. Dick Cleveland lost \$20 in cash, his pension papers and clothing, and the losses of others were perhaps as great. The loss to the landlord's personal effects was \$500. The building and contents were partially insured but the amount of insurance held is not learned today.

Formed Bucket Brigade.

The town of Marcola is without fire protection and there was no means of staying the flames except with buckets of water. A bucket brigade was formed by the citizens and by heroic efforts they succeeded in saving the business district from destruction. The lively stable on one side of the hotel caught fire several times, but by prompt action the flames were extinguished. The Mohawk restaurant, on the other side, also had a narrow escape. Had there been any wind at all the flames could not have been confined to the hotel building and the whole town would have been a seething mass of flames in a few minutes.

HARRY THAW IS NOT SO CRAZY

New York, Feb. 29.—Harry Thaw has refused to pay the fees of the attorneys who defended him in his second trial, and also refuses to make any settlement upon his wife, according to messages received from Pittsburgh today.

"I did not bargain on going to Mat-tewan," Thaw declared. "Not one of the lawyers in my case will get a cent from me until they get me out of this asylum. I bargained to be acquitted, not sent to an asylum for the criminally insane."

WORK RESUMED ON ELECTRIC LINE TO SPRINGFIELD

The Portland, Eugene & Eastern Railway Company this morning placed a force of about twenty men and five teams to work on the Eugene-Springfield trolley line. The force will be increased later on, when the weather becomes better. The crossing to be placed at the junction of the line with the Southern Pacific Railway at the end of East Thirteenth street will not be here for two weeks yet, and the company figures that with the present force the line will be completed to the railroad by that time. Contractors are now figuring on the trestle work to be built along the bottom from Judkins Point to the bridge across the river at Springfield, for which L. N. Roney has the contract and work on which will begin as soon as the water is low enough to permit of the laying of concrete for the piers.

QUESTION FOR MR. PALMER TO ANSWER.

Baker City, Ore., Feb. 22.—To the Editor of the Journal:—I have followed with interest the campaign that is being waged against the state university by Eugene Palmer and others of Linn county, and I take this opportunity to ask Mr. Palmer the following questions:

1.—Are those who were instrumental in calling the university to be closed to state support of higher education, especially to the Oregon State University? In other words, would they vote to abolish this worthy institution if the opportunity presented itself?

2.—How do Mr. Palmer and his associates expect the university to run after July 1 of this year if the pending appropriation bill does not pass? Do they expect the professors to serve without pay?

3.—Has there been any graft at the Oregon University? If so, when, where and under what circumstances? Are Judge Smith, Judge Dolph, Judge Bean and the other rogues honest men or do they thrive?

4.—How much money do Mr. Palmer and his associates believe that the university should have? Have they ever visited the school and inquired as to its needs?

5.—Why did not Mr. Palmer and his associates refer to the O. A. C. Bill, and the normal school bills to the people? What did they expect the Eugene school to do to the exclusion of all others? Do they know that O. A. C. receives almost three times as much money from all sources as the university?

6.—If the legislature is a trash machine as Mr. Palmer and his friends would have us believe, why are they not willing to allow the university regents, rather than the legislature to make the definite appropriations for the various needs of the institution?

The disinterested and fair-minded voters of this state ask to be correctly informed as to the motives behind this referendum movement against our leading institution of learning. We demand fair play. Who is the "nigger in woodpile" behind the movement? Yours truly,

Proof Positive

A few days ago we made the following statement in the Evening Guard

"The Griffin Hardware Co. Sold 90 Buggies last year, the largest number ever sold by any Eugene firm."

We have been taken to account for the above assertion and asked to make proof, which we gladly do. We have luckily kept a list of the names of all purchasing buggies last year and you'll be interested in reading them in this ad. It might be well to state here, and now, that we are better prepared this year to sell buggies than last. Already two large car shipments have arrived and if you are figuring on buying a buggy or anything in the buggy line

You can't afford to do so without seeing us first.
