

JOHNSON WILL BE CANDIDATE FOR PRESIDENT

Washington, March 15.—Formal announcement of his candidacy for the presidency will be made by Governor Johnson at the unveiling of the Minnesota monument on the Shiloh battlefield early in April, according to a statement made here today by W. B. Hennessey, of St. Paul. Mr.

JOHN A. JOHNSON.

Hennessey is a close personal friend of Governor Johnson, and thoroughly acquainted with the political outlook in the West and Northwest. He is believed to be in Washington to feel the pulse of the Democratic leaders in congress and disillusions them as to the reported strength of Bryan in the West.

LANDIS FINES WINDOW WASHER ONLY ONE CENT

Chicago, March 15.—George S. Miller, who wrote a dozen postal cards attacking the character of Dr. David W. Wilkins in vehement, defamatory and sometimes unprintable terms, was fined one cent by Judge Kenesaw M. Landis yesterday in the United States district court, after Dr.

JUDGE K. M. LANDIS.

Wilkins admitted that he had failed to pay a debt of \$2 to Miller for washing the windows of the doctor's office. "You are technically guilty, Mr. Miller," said Judge Landis to the defendant, "because you said those things on postal cards. Don't use the United States mails to say such things in the future. Go to the man and say them to his face, if you think you are justified. I will fine you one cent and you need not pay any costs." Miller paid the fine at once. Dr. Wilkins had a witness fee of \$1.50 coming to him and assistant District attorney Shiner suggested to the worthy doctor that he could add 50 cents to the fee and pay the window washer what he owed him. ber Co., 160 acres in section 28, tp. 23, S R 3 W. \$2500. SPLENDID RESULTS FROM BROUGHER'S MEETINGS

The Union revival of the Presbyterian and Baptist churches under the leadership of Dr. Brougner closed last night. Eugene people who know Dr. Brougner as a sensational preacher now have a different opinion of him. The matchless sermons combining wit, humor, pathos, dramatic fervor and intense vitality, all expressive of great convictions, love for Christ and men, which he delivered to the crowded audiences in Eugene are the same sermons which he joyously asserted were the ones he gave to his Portland "goats" on Sunday nights. While Eugene people have a greater appreciation of Dr. Brougner, he freely expressed his admiration of Eugene people and our beautiful city. Because of his closer acquaintance Eugene has found a friend who will work for our progress in everything good. Dr. Brougner pledged himself to lend a hand in boosting the University and Portland will know where the animus of the proceedings leading up to the bill, Mr. Palmer dealt in figures showing the immense cost per capita at the University, how the taxpayer has to put up for it, and the great need of all the money the people have to spare in the building up of the common schools of the state. Professor Alderman spoke twice, having the closing argument in favor of the bill, showing what the university has done for the state, and the smallness of the appropriation compared with those of other states, and the need of more money than has been asked for to properly equip and run the school in the manner that shall be creditable to the state. He was enthusiastic in his advocacy of the bill and the demand for a patriotic support of the University in the interest of the education of the young people of the state. Mr. Alderman said in part: If Oregon is to keep her direct legislation she must have a general intelligence. The University of Oregon can do for this state what the University of Wisconsin has done for that state. The different university departments, including a legislative reference bureau connected with the university, enabled Governor La Follette to do what he did in making its railways pay \$400,000 in back taxes and in securing a corporation tax that yields all the revenues the state needs with a surplus to be distributed among the common schools. Based upon attendance each student in the public school last year received something over \$24. State Superintendent J. W. Olsen of Minnesota says: "In my judgment no friend of the common school can afford to vote against such an appropriation for the higher education of Oregon for its university." Superintendent Edward Hyatt of California says: "There is no question whatever that the states possessing the strongest and best conducted state universities have also the best and strongest system of common schools." The appropriation is from \$82,500 to \$125,000. It is estimated, because it then will be unnecessary to go to the legislature each session, if it is continuing it can not be segregated.

ALBANY HEARS DEBATE ON U. OF O.

A live debate is reported at Clevevenger hall last evening between C. H. Walker and Eugene Palmer against the U. of O. \$125,000 appropriation, and Professor Alderman of Eugene, in favor of the bill making the appropriation. Eugene has found a friend who will work for our progress in everything good. Dr. Brougner pledged himself to lend a hand in boosting the University and Portland will know where the animus of the proceedings leading up to the bill, Mr. Palmer dealt in figures showing the immense cost per capita at the University, how the taxpayer has to put up for it, and the great need of all the money the people have to spare in the building up of the common schools of the state. THOUSANDS HAVE KIDNEY TROUBLE AND NEVER SUSPECT IT

Prevalence of Kidney Disease. Most people do not realize the alarming increase and remarkable prevalence of kidney disease. While kidney disorders are the most common ailments that afflict mankind, they are almost entirely unrecognized by the patient and physicians, who only too often prescribe the wrong medicine with disastrous results. There is comfort in the knowledge often expressed, that Dr. Kilmor's Swamp-Root, the great kidney remedy, fulfills every wish in curing rheumatism, pain in the back, kidney, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine, beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes. You may have a sample bottle and a book that tells all about it, both sent free of charge, by mail. Address Dr. J. C. Kilmor, Kilmor & Co., Binghamton, N. Y. When Home of Swamp-Root, writing mention this paper and don't make any mistake, but remember the name, Dr. Kilmor's Swamp-Root, and the address, Binghamton, N. THE ENDLESS CHAIN

With the coming of spring, squirrels, gophers and sage rats regularly appear to devastate the fields of growing grain. Early in the season, when their natural food is scarce, their numbers may be greatly diminished by a systematic warfare upon them. Every female killed before the young are born, reduces the number of pests at least ten later on. "Woodlark" Squirrel Poison is the most reliable and destructive agent yet devised for their extermination. It is an absolutely certain instrument of death for squirrels. Every kernel is warranted to kill. Climatic changes, dew, frost, or the moisture of the earth do not effect its strength. It requires no mixing or preparation, and is always ready for use. No other is so good. Dealers will refund the purchase price, if not as claimed. The Hoyt Chemical Co., Portland, Oregon.

PLANTS BIG FRUIT ORCHARD

The Asparagus, Cherry and Walnut Company filed articles of incorporation with the county clerk yesterday afternoon. The incorporators are Geo. A. Dorris, C. S. Williams, F. E. Dunn and A. C. Woodcock, and the capital stock of the corporation is \$50,000. The principal place of business is Eugene. It will be remembered that last summer these gentlemen, who are all substantial citizens of Eugene, purchased the old Dicky Robinson farm seven miles below Eugene on the river road for orchard purposes. They have already set out 110 acres of the tract to cherries and walnuts, the work having just been completed, 65 acres being set to each. Seventy acres have been reserved for walnuts to be planted later, and 60 acres will be planted to asparagus this spring. The orchard already set out is a beautiful thing, the rows as straight as an arrow and the trees of uniform size. Experts say that this tract is one of the best adapted to fruit culture in the whole valley, and Mr. Dorris, who will look after the raising of asparagus, says the ground is splendid for that purpose, being similar to that on his farm above Springfield, where he has made a big success of raising the plant and shipping it to Portland during the past two years. The industry will be conducted on a large scale, the amount of acreage to be devoted to the culture of the plant. The company's farm has been greatly improved during the winter and spring, old fences and buildings having been torn down and new ones built. The orchard is now one of the largest in the valley and when the trees are old enough to bear it will yield the owners a fortune. The objects of the corporation, as set forth in the articles, are to purchase and own real property, especially agricultural lands, and to engage in the raising of orchards for fruit and other products which the soil of Lane county may be adapted to, and to engage in the canning of such fruits and products. The business of the corporation will be done through a board of directors consisting of three persons.

REFUGEE WAS PROMISED MILLION DOLLAR GRANT

San Francisco, March 13.—The second week of the trial of R. A. Crothers and Ersmont Older, proprietor and managing editor, respectively, of the Bulletin, on the charge of criminally libelling William S. Tevis, president of the Bay Cities Water Company, ended today with William J. Burns, relating the confessions made to him by Abraham Ruef. Mr. Burns testified that Ruef, among other things stated to him that Tevis explained to him (Ruef) his plan of selling the Bay Cities water supply to the city, the profit of which was estimated at \$3,000,000. One-third of this was promised to Ruef to put the deal through. It was upon this information given by Mr. Burns to Freemont Older, that the Bulletin published the alleged libelous article. Judge Dooley ruled that the declarations of Ruef to Mr. Burns could not be considered by the jury as substantiating the truth of their information and that it might be considered in respect to whether or not malice was intended and whether the article was justifiable and for good motives. Hickok Bark Cough Remedy, made by the Hickory Brak Remedy Company, of Salem, Ore., guaranteed to cure whooping cough or money refunded. Guaranteed to make a friend of you. For sale by Hull's Red Cross Drug Store and first-class dealers everywhere. Idaho F. Campbell, Cogswell Campbell, Jackson Campbell and Celeste Campbell today began several suits in the circuit court against Andrew J. Richmond, J. R. Campbell, W. T. Campbell, E. L. Campbell and others for the partition of certain real property. Woodcock & Potter are attorneys for the plaintiff.
