

# CATARRH A SERIOUS FAR-REACHING BLOOD DISORDER

Even in its early stages Catarrh is almost intolerable, caused by the inflaming of the nose, the buzzing noises in the ears, the continual "hawking and spitting" difficult breathing, etc. But when the blood becomes thoroughly polluted from the catarrhal matter, the inflammation extends to the bronchial tubes, causing hoarseness, and often an aggravating cough; the stomach is affected, resulting in dyspepsia, loss of appetite and strength, and the system upset and deranged. Frequently the kidneys and bladder are attacked, and the constant passage of impure blood through the system, diseases these important members, and Catarrh terminates in Consumption. Catarrh is a deep-seated blood disease, and must be treated accordingly, for it is beyond the reach of local treatment. S. S. S. cures Catarrh by cleansing the blood of all the impure catarrhal matter and at the same time building up the entire system. It goes down and attacks the disease at its head, in the circulation, and removes every trace of the impurity that is causing the trouble. Then as rich, pure blood circulates through the body, the inflamed membranes commence to heal, the mucous discharges grow less and finally cease, and all the disagreeable and disgusting symptoms of Catarrh disappear. S. S. S. has no equal as a cure for this disease. It refines and purifies the entire circulation and repairs the damage done by Catarrh. Special book on Catarrh and any medical advice free.

### DIED

At the home of her son-in-law, Chris Marx, Sr., at the corner of East Ninth and Pearl streets, Eugene, this morning, March 25, 1908, at 3 o'clock, Mrs. Josephine Hochelien, aged nearly 91 years. She was born in the principality of Lichenstein, Germany, in May, 1817, and was married there. She left over 60 years ago for America, settling at Milwaukee, Wis., where she resided a few years, and then moved to Freeport, Ill. She moved to Carroll, Ia., and came to Oregon 30 years ago, first settling at Portland, coming to Eugene 25 years ago, and has resided with her daughter, Mrs. Marx, since. The cause of her death was a fall which she received four weeks ago. She fell out of bed and broke a hip, and on account of her advanced age she was unable to recover from the shock. Mrs. Hochelien was a woman of remarkable vitality for one of her age, up to the time of her accident she being as active as the average person twenty or thirty years younger. Besides Mrs. Marx she leaves another daughter, Mrs. Miller, at Rock City, Ill., and three grandchildren. She was a faithful member of the Catholic church. The funeral will be held at St. Mary's church tomorrow morning at 9 o'clock, with interment in the I. O. O. F. cemetery.

## BREGER-BEAN LEASE I. O. O. F. BLOCK FOR TEN YEARS

At last night's meeting of the lodge of Odd Fellows the building committee was authorized to lease the entire lower floor and the basement of the lodge's proposed five-story brick building to the Breger-Bean Hardware Co. for a term of ten years. It is expected that the lower floor and basement will be completed by the first of October, so that the firm can occupy it by that time, their lease on their present quarters on Willamette street expiring on that date. This will be a splendid location for a hardware and implement store. The building will have entrances both on East Ninth and Park streets and there will be plate glass on three sides. The room to be occupied by the hardware store will be 54x114 feet in dimensions. There will be a freight elevator to be used in conveying implements from the basement to the ground floor, in addition to the passenger elevator which will extend from the basement to the top floor.

### PORTLAND MARKET REPORT

Portland, March 26.—A late issue of the New York Commercial says of the New York apple market: "There is a large accumulation of apples on hand in this market, and on all offerings the tone is weak. Dealers here do not hesitate to assert that the losses made by speculators and holders at primary points will be large, and it is freely predicted that the total will exceed \$1,000,000 on the 1907 crop. There are few apples on this market that sell for \$4.50 per barrel. The bulk of the sales are within a range of \$2 to \$3 per barrel, few lots, however, reaching the outside figure. The market has been demoralized by the heavy stocks of low-grade fruit. A report from Pittsburg says of the apple market there: "Although the apple crop of the country fell short of the yield of the previous year, there is said to be now in storage in the eastern warehouses thousands of barrels of apples in excess of the amount at this time last year, which the manipulators of the corner have been unable to market. "It has been an open secret for some time that the local market has carried a large oversupply, 100 carloads of apples, freighted on the siding in the last week of the season, and that some of this surplus is in the hands of speculators who are endeavoring to negotiate a transfer of their holdings at considerably lower prices, even for the low grades."

Egg Bears Outdo Themselves. Just as it has been predicted the egg bears' members of the Knockers' Club—have outdone even themselves and suffering from defeat they are planning new schemes to secure additional profit out of shippers. As forecasted in this report, the egg market went no lower than 15c on the present movement and today no sales are being made at that low figure. The market now ranges at 15 1-2 and 16 cents with sales at both figures. The disposition among the bears here to beat down the price too far resulted in many shippers taking the matter into their own hands and storage operations by valley shippers have begun in earnest. This has scared the bears and they are now starting storage operations themselves. Receipts of eggs here are quite liberal but the arrivals are scarcely as heavy as a few days ago. However the market still retains good supplies but the fact that fewer eggs are coming to the open market has stiffened the tone considerably.

Opposite Tone in Chickens. Chickens are in somewhat more liberal arrivals though the market is far from being glutted. Some sales are being made at a fractional decline for old hens but springers are in demand at top figures. Demand for best quality turkeys is very good at fair prices.

Butter Is Very Scarce Here. Supplies of local butter are very small in comparison to the demand which has ruled since the last cut in prices. Best grade is almost unobtainable and it is stated that in a

few instances a fractional advance in prices has been asked. In order to relieve the shortage to some extent a larger volume of California butter is being brought to this market. This sells at the same price as the local product; a condition that very seldom rules here. There is a better buying demand in the cheese market at the moment and dealers report a large number of sales around 15 1-2c for local flats of best quality.

Heavy Arrivals From Frisco. Arrivals of fruits and vegetables by steamer were very heavy today from San Francisco. It is stated that today's receipts are the heaviest for this time of year for many seasons. Rhubarb is now in very liberal supply and prices have dropped to 7c a pound. Asparagus is coming more lively and today's market stands at 12c for the best. Some lower. Several cars of oranges arrived during the day. The fruit was not in the best of condition owing to the advancing season for navels. A supply of lemons also came in from the south during the morning. California new potatoes are again in evidence with prices going downward.

Flour May Decline Soon. Reports were current in the wholesale grocery trade today that a cut in flour prices may be expected within a short time. Some of the small millers in the interior are reported to be shading present quotations and it is believed that the large milling interests will be forced to lower prices to meet the competition. The market is considered weak, but no official announcement of a prospective cut was made.

Oil Quotations Lowered. Quotations on practically all grades of refined coal oil were cut half a cent today, and there was a reduction of half a cent on all brands of gasoline excepting the 86-degree article which was unchanged.

Front Street Briefs. Demand for sugar is heavier since the 20c advance noted yesterday. Onions are holding stiff but values did not reach \$4 as expected. Potato market is good locally but shipping demand is somewhat slower.

Local wheat prices are somewhat strained and out of line according to the trade and a reaction is due. There is a general absence of business in the hop market at this time. Prices nominal.

Portland Livestock Market. The local livestock market continues steady at the prices that have ruled for several days. Cattle—Best steers \$4.40 @ \$3.75; fair to medium, cows, \$2.75 @ \$3.25; bulls, \$2.40 @ \$2.75; calves \$3.75 @ 4.50. Sheep—Good, \$5.50 @ 6.00; lambs, \$5.75 @ 6.50. Hogs—Best, \$5.25 @ 5.50; lights, fats and feeders, \$5.00 @ 5.25; \$2.25 @ 3.25; stockers and feeders, \$3 @ 5.10. Sheep—Receipts, 5500; market, strong, held, common to special, 21 @ 28 1-2.

Portland Quotations. Creamery Butter—25 @ 30c. Eggs, 15c @ 16c. Chickens—14 @ 15c. Wheat—Valley \$3; Bluestem 85. Oats—Per ton, \$24 @ 25. Barley—Per ton, \$27 @ \$29. Hay—Timothy, \$17; Cheat, \$14. Grain Hay—15 @ 16. Mohair—Choice, 25c. Wool—Valley, 16 @ 18c. Hops—Prime 4c @ 5 1-2c. Potatoes—5 @ 6c. Onions—\$3.75 @ \$4.00 per cwt. Chittim bark—3c @ 3 1-2c.

BEN F. KEENEY, Lane County Assessor. Whose official record is one of which he is not ashamed, having especially distinguished himself as the first Assessor of Lane County has ever elected, that has made anything

like a proper assessment of railroad property, other public service corporations, timber lands, etc. such that notwithstanding more money has been expended on bridges and roads than during any like period of the past, the county is practically out of debt and has the lowest tax levy in its history. These are facts worthy of more than a passing thought. Mr. Keeney is a candidate for re-nomination and election.

This was accepted and the contract let.

### LEARN TO EAT.

Few People in Eugene Really Know How. Slow eating will solve one-half the problems of ill health. Those who suffer with indigestion and weak stomach can with care and the use of Mi-o-na stomach tablets restore the digestion to a healthy condition, so that they can eat what they want at any time without fear of distress or suffering.

After a few days' use of Mi-o-na tablets, the headaches, dizzy feeling, drowsiness, bad taste in the mouth, coated tongue, flatulence, sleeplessness, distress after eating—all these symptoms of a weak stomach—will disappear and perfect digestion and good health will be restored.

Hull's Drug Store place so much confidence in the power of Mi-o-na to cure indigestion that they offer to refund the money should it fail to give satisfaction.

## JUDGE HAILLEY LEFT VALLEJO ESTATE

When Judge Hailley died in Portland Sunday night he left an estate that will amount to a sum in the neighborhood of \$40,000, and practically all of the property goes to his wife.

Life insurance, aggregating \$26,000, constitutes the principal part of Judge Hailley's legacy, and the policies were all in favor of Mrs. Hailley. In view of the fact that some of the real property owned by Judge Hailley was partly incumbered the life insurance money will greatly assist in the settlement of the estate.—Pendleton East Oregonian.

## NEGRO COLONY FOR UMATILLA COUNTY

To establish a colored colony in Umatilla county is the plan of Rev. John C. Coleman, presiding elder of the African Methodist church in Washington, Idaho and Oregon, who is now in Pendleton.

It is the desire of the colored minister to bring a large number of sober, industrious and substantial negro families from the Southern states and settle them in a colony upon some of the lands which are being reclaimed in the western part of the county. He thinks the conditions ideal here and believes it would be for the betterment of his people.

(Special Correspondence.) Mound, March 25.—D. Johnson is building a long line of wire fence which will make a valuable improvement to his ranch. He is also building a lot of rail fence. Walter J. Holland came in with the star Sunday and visited over Sunday with Thomas O'Brien. Frank Holland and Charley Goff have sold out the Crow and Mound mail route to their uncle, Sterling Abbott. The change takes place on April 1st, so we are informed. Jay Johnson and Chester Bierce, while returning from the postoffice Sunday, killed a large wildcat. A vaming dog belonging to Charles Lewis, of Wolf Creek, was with them and put the cat up a tree for them and Chet then had to ride on some and get his father's gun. He did not bring the cat down the first shot, as was a little tired from climbing up the mountain a short distance, but the next shot hit the cat in the eye and he came to the ground very quickly. Walter Holland happened along just in time to see the sport. Jay and Chet will divide the spoils. Roy Bierce left Mound last Tuesday on route for Camas, Wash., to visit with his sister, Mrs. J. T. Poin-dexter, and family, where he may also get employment. G. W. Layne sheared his goats over a week ago. Geo. Prescott will shear his about the first of April. A. D. Bierce will also shear a small band about the same time. Fresh garden seeds of all kinds at the Be-Hive grocery, W. J. Gibson & Son, 97 West Eighth street.
