AGREES TO DAMMING OF SNAKE RIVER

Washington, May 2.—President Roosevelt reached an agreement with Senator Piles and Representative Jones, of Washington, on the Snake river dam project. Under the agreement the president will consent to signing the bill providing for the

CHARLES A. CULBERSON. Texas senator who southern Democrats would gladly support for the presidency.

erection of a dam for irrigating purposes without charge, but if over 25 per cent of the water used is for power purposes the government will make a charge. At the end of fifty years the secretary of war is empowered to charge what he deems proper for the power.

No Building for Paris. On a point of order by Culberson the senate today killed the committee amendment to the diplomatic and consular bill appropriating \$400,000 for an embassy building in Paris, which was put on by the diplomatic committee.

Commodity Clause. The railroad commodity clause went into effect today under which railroads which haul interstate commerce products in which carriers are interested are liable to a maximum fine of \$5000 each for each offense. The Elkins resolution, introduced yesterday, and opposed by Fulton, of Oregon, proposes to give the railroads twenty months' additional time in which to divorce themselves from these properties.

Several senators, notably Culberson and Nelson, argued that the railroads had not assumed an attitude that entitled them to consideration. The senate leaders hope to perfect a resolution which can be agreed on next Monday.

MILKING MACHINE WORKED LIKE PIANOLA

HOW A STRANGER IN OUR MIDST MILKED TWO COWS AT ONE TIME BY FOOT POWER

Something new struck town this week in the shape of a milking machine. It is a device whereby one person milks two cows at once, a pedal appliance being the motive power. Cups of the kind used on the steam machine are placed on the teats, and a pump worked by the foot does the rest. Rubber tubes carry the flow of milk to the bucket suspended a safe distance from the cows. Such a machine was tested the other evening, and with fairly satisfactory results. The cows were milked dry, and probably with more speed than is usual by hand. It also gave the appearance of being a more cleanly method, providing the machine be kept well sterilized. The operator sat between and cows and performed in about the same way that a University girl operates the family pianola. The flow of milk into the waiting bucket was perhaps not so musical, but no less profitable. Some of those present were positive in their conclusions that if milking must be done, the pedal method offers advantages.

CHESWELL HIGH SCHOOL WILL PRESENT DRAMA

Professor Guy Richards, principal of the Cheswell High school, has concluded to have the drama presented with a representation of the famous drama entitled "Little Fockson," which his school successfully played to a crowded house in that town on the night of April 11. There are eleven characters and they will play in the opera house at Drain Saturday, May 9th. No doubt a very large crowd will attend.—Drain Nonpart.

WATER RIGHT ON ROW RIVER LOCATED

Dr. W. W. Olesby, of Cottage Grove, has located a water right on Row river for what is to be known as the Cottage Grove Power and Electric canal. He appropriates the water from the stream, the property to be known as the Cottage Grove Power and Electric Water Right.—Cottage Grove Leader.

At Grants Pass a circus man made a vulgar remark before a young man and lady passing. The young man started in to whip the circus man, when another circus employe entered and knocked him out with a club. Then a free for all fight occurred.

Your Blood

Needs purifying and your whole system renovating in the spring, as pimples, boils, eruptions, loss of appetite and that tired feeling annually prove.

Hood's Sarsaparilla is the most effective medicine ever devised for the complete purification of the blood and the complete renovation of the whole system.

It will make you feel better, look better, eat and sleep better and give you the best possible preparation for the hot days of summer, as over 40,000 people have testified in the last two years. Today buy and begin to take

Hood's Sarsaparilla

Usual form, liquid, or in tablet form, called Sarsatabs, 100 Doses \$1.

DETECTIVES OBTAIN NO DEFINITE CLUE TO BRUTAL ASSASSINS

Portland, May 2.—Detectives are working to solve the mystery of the horrible murder of Nathan Wolff, killed in his jewelry and pawnbroker's shop last night, but so far have been unsuccessful in their search for a definite clue. Witnesses have been found who saw a man in front of the store about 6:30 whom the police believe was a lookout. The man stood in a pelting rain without protection and attracted attention by his disregard for the soaking. Another witness has been located who about the same hour saw three men inside the shop. A bloody handkerchief, blood-stained collar and brown necktie have been found, but these clues promise little apparent value so far.

Beyond such meagre clues nothing has been discovered which offers a hope that the murderous robbers will be captured. From the best information obtainable the robbers secured about \$1800 in jewelry and money. What puzzles the police is the fact that after shooting Wolff fatally in the neck, the robbers dragged him into the back room and hacked his head to

pieces with a hatchet. The fatefulness of the assault leads the police to the belief that the motive for the crime had in it a good portion of revenge.

Nathan Wolff, a pawnbroker at 165 First street, was brutally murdered in his place of business some time between 6 and 7 o'clock last night. Wolff was first shot through the neck, then his body was dragged into a rear room, where his head was horribly hacked with a hatchet, the blood-stained weapon being found beneath the head of the murdered man. The crime was undoubtedly committed by two thugs, men whose demands for money and valuables Wolff resisted at the cost of his life. The murderers evidently entered the store through the front door, and bloodstained footprints leading from the rear room, where the body was found, through the store, testified that they made their exit through the same door. It is estimated that the robbers secured jewelry to the amount of about \$1500, and rifled the money drawers and the cash box in the "pledge" safe of about \$300 in money.

RAILROADS PREPARE GENERAL RAISE IN RATES

Washington, May 2.—It appears likely that the anticipated increase in railroad freight rates is about to be made. A few days ago a member of the interstate commerce commission expressed the opinion that within three or four months, unless there was a decided improvement in railroad conditions, it would probably be necessary to reduce the wages of employees or increase freight rates.

Railroads of the southeastern territory have filed with the interstate commerce commission tariffs, effective June 1, increasing the rates on

fresh meats materially. The proposed rates are effective on meats from the north and west at Ohio and Mississippi river crossings, and amount to from 3 to 10 cents per hundred pounds on fresh meats. This will be the first material rise in the rates on foodstuffs the railroads have made in many years, and means that the consumers must pay from one to two cents more a pound for meats.

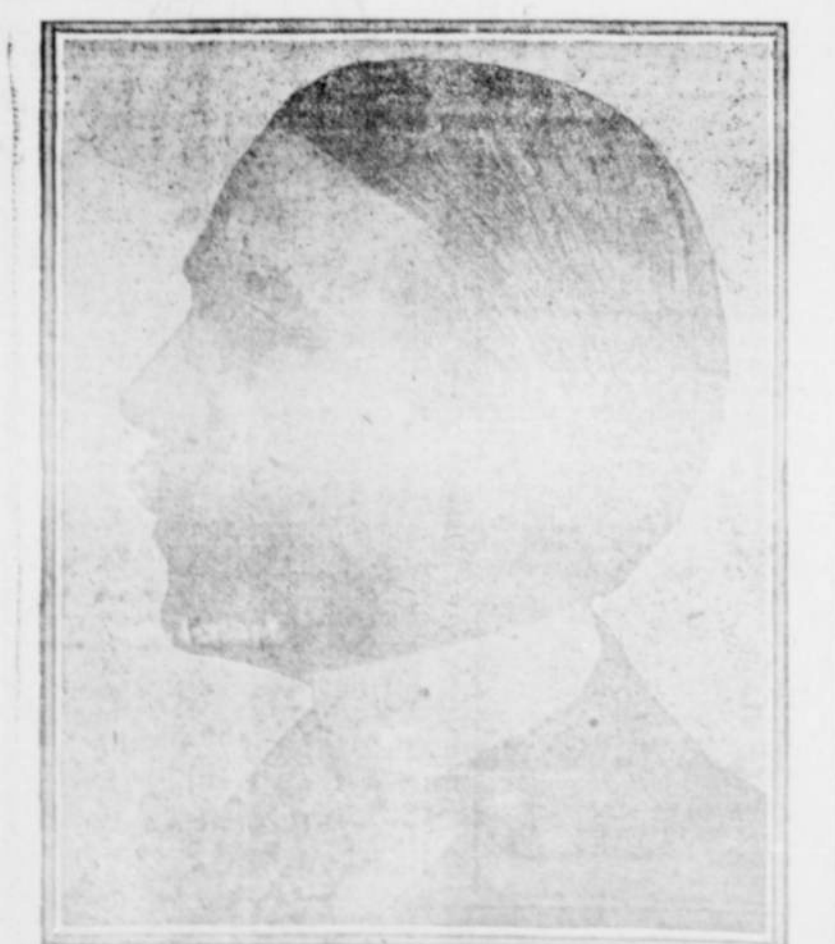

This increase is looked upon as a foreshadowing of a general increase in rates on all commodities.

HUSBAND KILLED PARENTS OF WIFE

Battle Creek, Mich., May 2.—Joseph E. Blunt, whose wife has commenced divorce proceedings, broke into the home of her parents, Mr. and Mrs. Homer C. Jones, with whom she was living with her children, early today and shot and killed

her parents. Mrs. Blunt, scantily attired, escaped in the snow with the baby.

Ela Jones et al today began suit in the circuit court against Dora Helms et al for the partition of certain real property. C. A. Wintermeier is attorney for the plaintiffs.

PETER COOPER HEWITT.

Mr. Hewitt, who is experimenting with aerial devices for the government, is the inventor of the mile a minute boat, by which he hopes to revolutionize sea travel. He is also the discoverer of the Hewitt light, which has been so valuable in enhancing photography. Mr. Hewitt is a native of New York and one of the foremost scientists of the age.

PUBLISHERS STILL PRESENTING FACTS AND FIGURES

Washington, May 2.—According to figures submitted today by John Norris, representing the American Newspaper Publishers' Association, to the house committee in the wood pulp and print paper investigation regarding the increased labor cost per ton

DR. ROBERT KOCH. Famous German scientist and physician who is visiting America on his way to Japan.

of paper produced, the increase amounted to only 52 cents a ton. In spite of the statement of paper men to the contrary, he said, his calculations were correct, and yet he charged that the paper makers had put on an increased price of \$12 per ton, alleging that the increase was due to the higher cost of labor.

GROVER CLEVELAND DYING OF CANCER

New York, May 1.—The Evening World gives prominence today to the report current in financial circles emanating from the Equitable Life Assurance Society, that former President Cleveland is hopelessly ill of cancer of the stomach, and that the family are still at Lakewood Hotel, Lakewood, N. J., although that hotelery closed ten days ago. Efforts to confirm the story that Cleveland is suffering from cancer and that his condition is critical are unavailing, owing to the extreme reticence of all connected with the case.

BANKER CROCKER SHIELDS ABE RUEF

San Francisco, April 30.—William H. Crocker, president of the Crocker National Bank and principal stockholder in the Parkside Realty Company, and Douglas M. Watson, secretary of that company, testified today in the trial of Abraham Ruef, charged with offering a bribe of \$1,000 to Jennings J. Phillips, a member of the former board of supervisors, for his vote for a trolley franchise desired by the Parkside Company.

Crocker told of speaking to Mayor Schmitz about the trolley franchise desired by his company, and receiving the mayor's assurances that he would approve it, and of subsequently talking about it to Ruef, who also was favorable to the project, and promised his aid. Crocker testified he had no knowledge of his company employing Ruef as an attorney in the matter of getting the franchise from the board of supervisors; emphatically denied that the former political boss had demanded any compensation for his assistance in the matter when he talked to him about it.

The witness stated that, on the contrary, Ruef had declared he would accept no money for any aid he might be able to render him. Counsel for defense declined to cross-examine Crocker.

STRANDED SHIP IN EAST POSITION

New York, May 2.—The life rafts which returned from the stranded Power schooner at Sach's inlet reports the schooner lying in an easy position with the crew still aboard. Two life rafts standing near and will attempt to pull the ship off at high water.

PINE VALLEY NOTES

(Special Correspondence.)
Last Valley, May 1.—Messrs. Alva Addison and Lawrence Hunsaker have returned from Pine Point, where they have been renovating the Wayside Inn, which they will conduct throughout the summer months. They say the prospects for game are better than ever this year. The recital given by Rev. Dunn and wife and Miss Schenly at the Foster schoolhouse last Saturday night was pronounced good by all who attended. Rev. Dunn filled his regular appointment here Sunday.

Mrs. Washington, of Pleasant Hill, was visiting in the valley last week. The Richmond Company will show here this evening. We understand that Floyd Edwards is a partner in this company. Mr. Edwards has had a great deal of experience in the show business and should succeed.

A. B. Addison went to Eugene last week and took the civil service examination for forest ranger.

WOMAN WAKES AFTER SLEEPING EIGHTY-FIVE DAYS

Los Angeles, May 2.—After an unbroken sleep of 85 days Mrs. Beulah Hawkins, a patient in the county hospital, awakened early this morning and asked for a drink of milk. Her return to consciousness was entirely unexpected, the nurse being attracted by a rapping and entered the room to find the patient sitting up in bed with her eyes wide open. A physician was summoned and the woman talked rationally with them for some time. She was able to stand and had full control of her faculties, though weak. Mrs. Hawkins had previously slept for a period of 46 days, and was once admitted of an insane asylum. The case is diagnosed as negative insanity.

STOLEN GOODS FROM BOOK STORE FOUND

The Portland, Eugene & Eastern crew, working on the Eugene-Springfield extension of the company's electric railway, this forenoon found beneath a pile of ties at Judkins' Point a quantity of goods evidently stolen from a book store. There were four dozen penholders, four writing tablets and two story books, all new. The goods were taken from the Fairmount store and the officers notified, but so far as known none of the book stores in Eugene have been burglarized recently. Hobos passing along the S. P. track there no doubt hid the articles, not being able to dispose of them for money.

DIED

At Tacoma, Wash., April 27, 1908, Beatrice, the 9-year-old daughter of Mr. and Mrs. Horace M. Jure. Mr. McClure was formerly of Jackson county, Eugene, having been born here.

MEXICAN WAR VETERAN DIES AT ROSEBURG

Roseburg, Or., April 30.—Sergeant Robert S. Dunlap, one of the few remaining survivors of the Mexican war, one of Oregon's oldest Masons and a pioneer of Jackson county, died at the Soldiers' Home in this city yesterday at the age of 80 years. The funeral will be held at the Home tomorrow under the auspices of the Roseburg Masonic lodge. In the Mexican war Mr. Dunlap served as a sergeant in the First Missouri Volunteers. In the early 50s he settled in Jacksonville, Ore., where he resided continuously until 1894, when he was admitted to the Soldiers' Home. For 31 years Sergeant Dunlap was the tyler of Warren lodge of Masons at Jacksonville. He leaves relatives in Jackson county and in Portland.

ALLEGED POSTOFFICE ROBBER ARRESTED

Roseburg, Or., April 30.—Discovery in his trunk of a tobacco pouch full of 1-cent pieces led to the arrest yesterday of Claude Hendricks on suspicion of being the person who robbed the postoffice and general store at Brockway, eight miles southwest of Roseburg, last Thursday night. The booty from the robbery consisted of about \$100 in money, stamps and merchandise. Of the money there were two pounds of one-cent pieces. In addition to the finding of the coppers, the officers have secured evidence against Hendricks dealing with his movements about the time of the robbery. Two months ago Hendricks was acquitted of the charge of the larceny of a watch near this city. Since that time he has been absent from the county until he appeared at the home of relatives near Brockway the day after the robbery. Postal Inspectors Clement and Riches, of Portland, happened to be in Roseburg when Hendricks was arrested, and will now assist in prosecuting the case against him.

FRUIT GROWERS WILL OPERATE BOX FACTORY

The Lane County Fruit and Vegetable Growers' Association today received a carload of box blanks, the being the second carload to arrive from Portland within the week. The blanks are being hauled to the headquarters occupied in front of Frank's grocery store at the corner of East Sixth and Oak streets, where the association has installed machinery for the manufacture of all the boxes used by the members this year. One operating machine has already been installed and another is expected to arrive in a short time. The association will soon begin to make the boxes and will employ a number of hands during the season. It is said the association will be able to get \$1 on every thousand boxes by making them here, and this means considerable when the number of boxes used by local fruit growers is taken into consideration.

Mrs. Shannon, formerly Mrs. Leona Perkins of Drain, is here with her husband, who is connected with the circus.
