BEN KEENEY For Assessor

The railroad company and other corporate interests are paying a great deal more in taxes while the farmer is paying less. The average voter, irrespective of party affiliation, has

taken a little mental exercise and will "kill the goose that laid the golden egg" by turning down the candidacy of the man whose official "backbone" has put the taxpayers of Lane county many dollars to the good. Ben Keeney for re-election for a second term as County Assessor.

ASSESSMENT OF RAILROADS COMPARED

(Springfield News.)
Assessor Keeney's slogan during the campaign is "Let the Railroads and other Corporations pay their share of the taxes." Let us see what he has done during his past administration towards carrying out this campaign cry in Lane County. The Southern Pacific Main Line is assessed \$20,000 a mile in Lane county. In Linn, Douglas and Marion counties, the Southern Pacific main line is assessed \$30,000 a mile. We ask Mr. Keeney to answer the question why he assesses the Southern Pacific main line \$10,000 a mile less than Linn, Douglas and Marion counties.
Thursday, October 17, 1907, the Western Oregon Lumber Manufacturing Association held a meeting in Cottage Grove, Oregon, and a resolution was adopted that Assessor Keeney be requested to raise the valuation on the road bed of the Southern Pacific to \$30,000 a mile, the same as in Douglas, Linn and Marion counties. In the same issue of The Guard, Assessor Keeney in an interview, stated that the Lumberman's Convention at Cottage Grove was a month late in passing the resolution, and that on September 18th, he had decided to take such action, but had not made it public. We ask Mr. Keeney the question, why he made this statement in that interview and has not carried it into effect.
The Southern Pacific Company has 40.76 miles of main line road bed in Lane County. The difference in assessed value between 20,000 and 30,000 a mile would be \$407,000.00. The voters of Lane County will not judge a public official by the promises he makes when a candidate for re-election, so much as by the official record he has made.
The Southern Pacific Company should pay \$30,000 or more a mile, in this county as its just proportion of the taxes.
Springfield offers to the voters of Lane County, in Wesley Stevens, a candidate for Assessor who will not merely promise to, but will carry into effect the principle that railroads and other corporations, should pay their share of the taxes.

Professor Stafford, of the University of Oregon, has received a letter from Dr. Roy R. Renshaw, formerly an assistant in the department of chemistry here, and at present occupying a position in Wesleyan University, Middletown, Conn. Dr. Renshaw tells of his regret at the undesirable publicity that Oregon is getting in the East from reports that the State University is not supported.
