WOULD RESTORE THREE MILLION ACRES TO PUBLIC DOMAIN

Portland, May 25.—Upon the arrival in Portland of H. B. Townsend this week suit will be filed in the federal courts by the United States government to compel restoration of 3,000,000 acres of land now held by the Oregon & California Railroad Company, under the railroad land grant conditioned upon the railroad company disposing of these grants to settlers at \$2.50 per acre, to the public domain. It is the allegation of the government that the railroad has broken its obligation to the government by failing to so dispose of these lands.

T. C. Beckwith, of Buffalo, N. Y., special assistant to the attorney-general of the United States, has begun to arrange evidence to be used in the untried land fraud cases which will be taken up by the federal district court on June 2.

The first case to be tried will be that in which J. H. Booth, ex-receiver of the Roseburg, Or., land office, is charged with bribery in connection with the unlawful acquisition of public lands in Southern Oregon.

Becker stated today that the case against ex-Congressman Williamson and ex-Congressman Binger Hermann, at one time commissioner of the general land office at Washington, will be tried by F. J. Hepey, of San Francisco, late this summer. Williamson and Hermann are under indictment in connection with the Oregon land frauds.

A federal grand jury was selected today and immediately began of the evidence connected with the alleged land frauds said to have been committed in Umatilla county. Subpoenas have been issued for 118 witnesses, principally residents of Umatilla county. It is expected that fully ten days will be required to present the evidence to the jury. The alleged frauds are in connection with 25,000 acres of unallotted lands originally comprising a part of the Umatilla Indian reservation.

PORTLAND MARKET REPORT.
 Portland, Ore., May 27.—There was a revival in hen contracting during the past 24 hours. Buyers are out in the country trying to purchase a few good grades of 1907s and in the meantime are freely offering for one year contracts, 9c for two year and 10c for three year contracts. This is an average of 9c a pound. A few growers who are anxious to get the business are said to be accepting, but generally speaking, the prices offered are so low as to admit of not a single cent profit during the term of the contract. Therefore the growers feel that they would be working three years for the hop dealers without a salary.

Damage Done to Fruits.
 Reports from Oregon conditions in all parts of the State, Secretary Williamson, of the State Board of Horticulture, says that while the yield of some fruits promise to be large, others are sure to be under the average as a result of the late frosts and the backward spring. The apple crop promises to be a large one and the output of peaches is likely to be well up under the average. In pines there will be a material falling off from the normal, and the outlook for pears is about the same. It is believed that the cherry crop will be from one-half to two-thirds the size of that of 1907.

Berry Supply Still Light.
 As for a week back strawberries were scarce today, the receipts from California and Oregon, points being short of the demand. Today's shipment was about the same as that of yesterday, and it was quickly disposed of, California going at \$1.75 and \$1.50 a crate and Oregon at 15 to 17 1-2 cents a pound. The indications are for comparatively light supplies for the remainder of the week.

Cherries sold in a slow way at \$1.25 to \$1.50 a crate. Gooseberries are daily becoming more plentiful. Today they were fairly active at 6 to 7 cents a pound.

Poultry Market is Sluggish.
 The poultry market wore a very weak appearance today. Sales were slow at the lower prices made yesterday and today's receipts swelled

JOS. JACCS FOUND GUILTY OF SELLING LIQUOR

Joseph Jacobs, the West Eighth street merchant, was tried before Justice of the Peace R. S. Bryson this afternoon on the charge of violating the local option law. The following jury was chosen in the case: R. Lakin, W. S. Moon, G. W. Cochran, Geo. H. Courtwright, John W. Buoy and J. E. Roach.

The jury brought in a verdict of guilty.

Fred M. DeNette acted as counsel for Jacobs, while Geo. A. Pipes appeared for the state, in the absence of Deputy District Attorney Skipworth, who has not fully recovered from his recent operation for appendicitis.

Jacobs will be sentenced on Friday afternoon at 1 o'clock. A jail sentence, besides a pretty stiff fine, is looked for, as this is the second time Jacobs has been convicted of the offense.

STRONG RUN FOR JUDGE.

For County Judge J. W. Baker is making an active canvass and reports from different parts of the county are to the effect that he will poll far more than his party strength. Mr. Baker has resided long in Lane county and is well and favorably known, having served as state game warden for one term, in which office he discharged his duties acceptably, and made an excellent record. While he is an unwilling candidate for office at this time, after having consented to run, he started out with his usual energy to get elected, and is determined to succeed.

SAID OF ASSESSOR KEENEY BY THE NEWSPAPERS OF LANE COUNTY.

Cottage Grove Leader. "Mr. Keeney has made a splendid record during his brief term of office and bears the distinction of being the first Lane County Assessor with back-bone enough to bring the S. P. Company and other corporations' doing business in the county up where it should be."

Florence West. "B. F. Keeney, who is serving his first term as County Assessor and is now a candidate for re-election, made a big hit and gained wide-spread popularity by increasing the Southern Pacific Company's lands from an average valuation of \$2.23 per acre to an average of \$8.90 per acre."

Junction City Times. "The man who has 'made good' to the people by a practical demonstration of his belief that railroads and other public service corporations should pay their just share of the taxes, having in this, his first term of office, raised the S. P. Co.'s property alone in Lane County over two million, six hundred thousand dollars."

Oregon State Journal. "A man who has served the county well for one term and thereby acquired knowledge that is valuable to the county, should not be thrust aside to make room for an inexperienced man simply because the man that is out wants in."

NYSSA URGES THE UNIVERSITY SUPPORT.

Nyssa, Ore.—The Nyssa Commercial Club has come out with a strong resolution in favor of the University of Oregon appropriation bill. The resolution, which bespeaks the views of a large majority of the people of Malheur County on this important matter, declares it to be the duty of every progressive citizen of the State to vote for the University appropriation, and so to aid in the progress and advancement of the state. The resolution recites further:

The University of Oregon is the institution from which the advancement and standard of the whole State of Oregon can be properly judged and that without finances and funds it will fall to a low standard and entirely fail. The sum of \$125,000 is a very meager fund to carry on the work of a great state's highest educational institutions, and, as compared with the appropriations granted by our sister states and other states to carry on the work and raise the standard of their universities, is positively penurious.
