NO MORE JUNE STATE ELECTIONS

Salem, Ore., June 6.—The constitutional amendments and bills adopted by the people at the election last Monday will go into effect soon as the vote thereon can be canvassed and the result proclaimed by the governor. This will probably be three weeks yet, as some of the county clerks are always slow in sending returns. Most of the amendments and initiative measures have no immediate effect, however, though they will

be in full force as soon as the proclamation has been issued. Recall Effective at Once. The recall amendment is self-executory and will be effective at once. It provides that 25 per cent of the voters of an election may compel an officer to stand for re-election at a special election to be held within 20 days for which election other candidates may be nominated. The reasons for the recall and the defense of the officer may be printed upon the sample ballots in not to exceed 200 words each. No provision is made as to the manner in which nominations shall be made for the special election. Recall petitions cannot be filed until an officer has occupied his position six months, or, in the case of a member of the legislature, until the legislature has been in session five days.
