

Have You a Summer Stove?

The stifling air of a close kitchen is changed to comfortable coolness by installing a New Perfection Wick Blue Flame Oil Cook-Stove to do the family cooking.

No kitchen furnishing is so convenient as this stove. Gives a working heat at once, and maintains it until turned out—that too, without overheating the room. If you examine the

NEW PERFECTION Wick Blue Flame Oil Cook-Stove

you will see why this is so. The heat from the chimney of the "New Perfection" is concentrated under the kettle and not dissipated through the room by radiation. Thus it does the work of the coal range without its discomfort. Ask your dealer about this stove—if not with him, write our nearest agency.

The **Rayo Lamp** is a very handsome piece of housefurnishing and gives a clear, powerful light more agreeable than gas or electricity. Safe everywhere and always. Made of brass finely nickel plated—just the thing for the living-room. If not with your dealer, write our nearest agency.

TRIALS COSTLY BUT WERE WORTH IT ALL SAYS PUGH

Washington, June 23.—Assistant Attorney General Pugh declares that while the Hyde-Benson-Dimond-Schneider trials cost the government \$48,260 net, the results to the government will be \$1,000,000, through the restoration of a hundred thousand acres of land besides the beneficial effect on the future administration of the public land laws.

COLUMBIA CHANNEL GREATLY IMPROVED

Portland, June 23.—The Evening Telegram today will say that the government survey of the Columbia river bar just completed shows a depth of 26 feet at extreme low water in a channel 3,000 feet wide, as against a depth of 25 feet and a 300 foot channel last year. This means an approximate depth of 34 feet at an average high tide.

Thinks It Saved His Life. Lester M. Nelson, of Naples, Maine, says in a recent letter: "I have used Dr. King's New Discovery for years for coughs and colds, and I think it saved my life. I have found it a reliable remedy for throat and lung troubles, and would not more be without a bottle than I would be without food." For nearly forty years New Discovery has been at the head of throat and lung remedies. As a preventative of pneumonia and healer of weak lungs it has no equal. Sold under guarantee at W. A. Kuykendall's drug store, 50c and \$1. Trial bottle free.

CORONER'S JURY SAYS CRIMINAL NEGLIGENCE

(From Monday's Daily Guard.) Coroner W. T. Godron this forenoon held an inquest over the body of Clifford Vickers, the Denver youth, who died suddenly in Dr. Geo. O'B DeBar's office Friday forenoon after the doctor had given him a treatment of antitoxin for asthma. The jury accuses the physician of criminal negligence. E. T. Vickers, father of the boy, Dr. F. W. Prentice and Dr. T. W. Harris, besides Dr. DeBar, were examined as witnesses. The verdict of the jury is as follows:

"In the Coroner's court for Lane County, State of Oregon. "In the matter of the inquest over the body of Clifford Vickers, deceased.

"We, the jury empanelled and sworn to pass upon the death of Clifford Vickers, deceased, find as follows:

- 1. That the name of the deceased is Clifford Vickers.
2. That the age of the deceased is 16 years, 10 months and 21 days.
3. That he was a white male person and a resident of Denver, Colo.
4. That he died in Eugene, Lane County, Oregon, on the 19th day of June, 1908, at 9:30 o'clock.
5. That his death was caused by criminal carelessness of Dr. Geo. O'B DeBar, said Dr. DeBar at time of giving diphtheria antitoxine knowing the probable fatal consequences. Also, that he further administered this antitoxine without consulting the father of the deceased, of the probable outcome which the hypodermic injection might have with a patient affected with asthma; or without calling any other physician in consultation before administering the said antitoxine.

Dated this 22nd day of June, 1908. E. R. MUMMEY, Foreman. M. SVARVERUD. H. E. MORRIS. J. E. ROACH. GEO. L. HARWOOD. M. J. MOSHER.

TAFT WILL VISIT PRESIDENT ROOSEVELT

New York, June 22.—Secretary Taft arrived here today and left for New Haven where he will meet Mrs. Taft. He expects to call on the President at Oyster Bay Friday in company with General Luke E. Wright, his successor as secretary of war.

Reception at New Haven. New Haven, June 22.—Mr. Taft, accompanied by Judge Hollister of Cincinnati arrived here this afternoon. He was given an enthusiastic reception at the station. Later in the afternoon he attended a meeting of the Yale corporation, of which he is a member.

Taft's Narrow Escape. Dennison, O., June 21.—Secretary Taft had a narrow escape tonight from being involved in a serious wreck on the Pennsylvania Flyer, which was carrying him East.

Prompt action of the towerman in a signal station a third of a mile east of Coshocton, and of the engineer of the Flyer, alone averted what might have been a dreadful accident. As the train was speeding along at the rate of 50 miles an hour, the piston rod on the left side of the locomotive broke short off. Almost instantly the cylinder of the engine was cracked by the unmanageable rod.

Tower Man Stops Train. The train was just approaching a tower east of Coshocton. The operator saw that something serious was wrong and threw down a signal to stop the train. The engineer applied the emergency brakes and the train of six cars came to a stop on a sharp curve.

The accident occurred at 6:30 o'clock when many of the passengers on the train were at dinner on the dining car. Few of them realized how narrow their escape had been from an awful accident.

REPUBLICANS IN RETREAT, SAYS BRYAN

Lincoln, Neb., June 20.—Under the caption, "In Full Retreat," William J. Bryan in the next issue of the Commoner will discuss the Republican National Convention as follows:

The Republicans who attended the national convention as spectators and joined in the demonstration in favor of President Roosevelt and Senator La Follette must have felt indignant as they watched the panic-stricken delegates running over each other in order to get away from La Follette's reforms, some of which have been endorsed by the President himself. Cooper of Wisconsin, representing the La Follette platform, brought in a minority report signed by himself alone. Fifty-two members of the committee signed the majority report and one signed the minority report. The Republican party will find a ratio of 52 to 1, a very embarrassing one to deal with in the coming campaign. In the same vein he alludes to Cooper's plank.

"How fortunate," says Bryan. "It was lucky that Taft's letter was finally discovered and published. Who will deny on this subject, that the Republican party is retreating?" Next he alludes to the defeat of the plank recommending the valuation of the railroads by a vote of nearly 15 to 1.

COMMENCEMENT WEEK OPENS WITH BACCALAUREATE

(From Monday's Daily Guard.) The baccalaureate sermon to the University of Oregon graduating class, delivered yesterday in Villard Hall by Rev. Herbert S. Johnson, of the Warren Street Baptist church of Boston, Mass., dealt with social problems of society's aristocracy, in contrast with the working folk of the country. The theme was "The Call of the Age." So powerful was the sermon that frowns would have been brought to the faces of some members of New York's social sets, if they could have heard it master-piece. The audience of 1,600 people, however, was held spellbound.

The speaker said in part: "This is not a favorable age. I am not a pessimist, or a communist, neither am I an anarchist nor have I the faintest tinge of socialism. I voted the ticket of one of the two great national parties all my life. yet there are many evils, but of these I will refer to only one that marks this age,—that is, the growth of inequality between classes, the submerged tenth, which is rapidly becoming more than a tenth."

Ten years ago some authorities said that all property of the United States was in the hands of 250,000 persons, and at the same rate of concentration in ten more years the same property would be in the hands of 50,000. Another man says that our country is now controlled by just one per cent of the entire population.

"There was a time when every man owned his farm, but now due to inventions—the steam engine and other things,—our population herds together in unthinking masses in the cities. If the whole world were herded like one flock in New York, the people of this earth would be living in a land no bigger than New Jersey."

"Why, do you know that I have a friend who has a place where he takes city children for fresh air, and that some of these went on a strike because the milk was rich and yellow, and not blue and thin like the city children get. There are certain children in Boston, who I know, are not five years old, and have not seen a blade of grass. Such as these are mere cogs and pulleys in the world of business and commercialism."

"There are in Boston women who send poodles to hear Caruso. They get their nails manicured. Indeed, I have seen a doggie taken to ride in a coach for his health. And a maid would go along to hold a parasol over him,—forsooth, to protect his delicate complexion."

"At a ball in the home of a New Jersey belle, after wine of the costliest had been served, and American beauty roses at \$12 a dozen provided to decorate the hall, the father was not satisfied. So when the ball was fully opened, at the psychological moment, thousands of yellow gaudy colored butterflies were let go from their cages, to flutter among the guests and chandeliers and decorations until they fell from exhaustion under the feet of the dancers. And these butterflies, imported from South Africa and the South Sea Islands cost not less than \$100,000 while in just four blocks from that ball were women earning through the whole week long, only \$4."

Dr. Johnson is a graduate of the University with the class of 1887. His father was the first president of the University.

The chorus of fifty voices, accompanied by the orchestra of twenty-five pieces, all led by Professor Glen, was one of the features of the morning service.

The invocation was given by Rev. W. B. Pinkerton. The Scripture lesson, the story of the Good Samaritan, was read by Rev. J. S. McCollum, and the prayer given by Rev. P. K. Hammond.

Miss Edith Prescott sang a beautiful solo, "But the Lord is Mindful of the Open." Rev. C. C. Wright delivered the benediction at the close of the sermon.

ANOTHER NEW CLUB HOUSE TO BE BUILT. Still another students' club house will be built during the present summer and completed before the fall term of the University begins. The Zeta Iota Phi, a girls' organization which now occupies the Reed mansion on East Eleventh Street, today accepted the plans drawn by Architect Y. D. Yansell. The building will cost in the neighborhood of \$6,000, and will contain 17 rooms with all the conveniences of a modern club house for students. The location has not yet been decided upon, but it is expected that within a few days a definite conclusion will be reached. One site talked of is at the corner of East Thirteenth Street and University Ave. and another is on East Thirteenth further toward the center of the city.

Kennedy's Laxative Cough Syrup is the one that children like so well to take, as it tastes like maple sugar. It acts gently, yet freely, on the bowels, and thereby it drives the cold out of the system. It is sold by all druggists.

LABOR LEADERS WILL NOT SUPPORT TAFT. Chicago, June 20.—Local leaders of union labor declared today that the organized workmen of the country will not support Taft. They said he was still the original injunction judge; that he had not changed his opinions on the question of the relation of the courts to struggles between capital and labor, and that the anti-injunction plank in the Republican platform was a make-shift measure intended to deceive and hoodwink the laboring classes.

"Taft is not acceptable to the workingman," said E. N. Nickels, secretary of the Chicago Federation of Labor, "and he will not have the workingman's support at the polls. Union labor is not deceived by any public utterance that Taft has made since the time he sat as a federal judge and used the writ of injunction to deprive the workingman of his rights."
