

### SHRINERS WILL COME TO EUGENE IN SPECIAL TRAIN

The sun has been busy for the past week or more heating up the sands about Eugene for the benefit of the barefooted novices who next Saturday will wend their painful way across them to enter the sacred portals of Shrinersdom, says the Portland Journal. In order to witness the event the Shriners of Portland are going to Eugene in state and a special train next Saturday, and the inhabitants of Eugene are taking precautions accordingly.

It is to be a great event, according to the program laid out. The Shriners' special will leave Portland at 8 o'clock Saturday morning, returning at 5 o'clock Sunday morning. On reaching Eugene they will march to the armory, led by the band, where lunch will be served. After that will be the big street parade, in which all the Shriners in the state will take part. The features of this will be the drill corps of the Arab Patrol, picked from the famous drill corps of Oregon Commandery No. 1, Knights Templar, of Portland.

At Kader Temple of the Mystic Shrine of Portland will take with them on the excursion the Chinese band which has long been a feature of the ceremonial session of the Shriners. This band will parade in costume, and will be very entertaining.

There are expected to be a considerable number of visiting Shriners from the East present in Eugene. The special train from Portland will consist of five coaches and a baggage car, and will be for the exclusive use of the Shriners.

#### PARRY ASSERTS BUSINESS INTERESTS AGAINST PROTECTION

Indianapolis, Aug. 31.—There was made public today correspondence wherein John W. Kern, the Democratic nominee for vice president, sought and obtained from D. M. Parry, ex-president of the National Association of Manufacturers and a prominent Republican, an expression of opinion hostile to the posting of "prosperity" placards in factories to the effect that "on the day after the election of Taft and Sherman this mill will start up full force."

Kern asked Parry: "In the light of the fact that the present high tariff has not maintained prosperity, I would like to ask whether the posting of these placards does not savor of trying to obtain money under false pretenses?"

Parry replied that he was not in sympathy with such abuse of the power of the employer; that it is poor business policy to promise to run a factory on full time in the event of any election; that the business reaction was quite beyond the power of political parties to control; that he could not bring himself to post such placards despite Republicanism, and declares:

"I am no more in sympathy with the statement that Bryn is the enemy of industry than I do the statement that Taft is the creature of the trusts," and said that the recent poll

of the manufacturers' associations of the country had shown a majority of the members in favor of a revision of the tariff.
