BAY STATE DEMOCRATS MEET IN BOSTON

Boston, Mass., Sept. 30.—Everything is in readiness for the Democratic State Convention which will assemble in this city tomorrow for the nomination of candidates for governor and lieutenant governor. All indications point to the selection of State Senator James H. Vahey, of Watertown, as the condidate for governor. No other name is mentioned for first place on the ticket.

With the nomination of Mr. Vahey for governor the Democrats will make the proposed abolition of the death penalty in Massachusetts one of the chief issues of their campaign. During the years that Mr. Vahey has been in the State senate, following the sensational trial, conviction and execution of Charles L. Tucker, whose counsel he was, Mr. Vahey has had in the legislature a bill to wipe out the death penalty. He has always been convinced of Tucker's innocence of the murder of Mabel Page and holds that the present form of punishment is likely to work horrible injustice. It is an issue that will command some attention, coming upon the heels of the monster petition for Tucker and the big fight year after year to change the death penalty to imprisonment for life.

CLERICAL TRAGEDY ENACTED IN ROME

Rome, Sept. 30.—The mysterous and brutal murder of Don Castanzo, a secular cleric of seventy, has greatly excited the people of Rome, as it is the third crime of the kind that has occurred here within a few months. The murdered cleric was found in his bedroom at his lodgings with his head battered in by a hammer.

The poor old priest had evidently been dead several days when the discovery was made, and the bedroom presented a ghastly spectacle. The corpse had been thrown on the floor, and over it was placed a mattress on which were neatly arranged a rosary and crucifix. Near the mattress, which was soaked with blood, lay a gory hammer, which had been handled with such ferocity that the victim's head was reduced to a pulp. There were no signs of a struggle, and although the murdered priest was fairly well off, his bankbooks, money and watch were left untouched.

The police, who believe the crime was dictated by private revenge, have arrested an Oratorian priest living in an adjoining oratory. He was a constant visitor, and the neighbors declare that he entered the place twice on the morning of the murder, and on quitting the chamber the last time had changed from a priestly cassock into elegant lay attire.

NEWS NOTES FROM COTTAGE GROVE

Mrs. Hamilton Wallace, more familiarly known as "Aunt Ann," fell while pursuing her kitchen work on Monday morning and sustained a badly sprained hip. It was at first feared that the hip was dislocated, but Dr. J. O. Van Winkle, after making an examination, reported that it was only severely sprained, but that Mrs. Wallace, owing to her advanced age—76 years—will naturally be confined to her bed several days as a result of her severe injury. She is reported as resting easy.

A potato vine nearly seven feet in length, which produced six potatoes averaging two pounds each, or a total of twelve pounds, was presented to the Veatch Real Estate Company Saturday by H. D. Russell, who resides on a farm near Lorane, west of Cottage Grove. This yield is at the rate of 800 bushels to the acre.

The Booth-Kelly logging camp has started up at the Saginaw mills. Mr. and Mrs. Joe Miller, of this city, will go into the camp this week to take charge of the cook house.

Billie Veatch, wife and family, after a two-years' residence in Coos county, have returned to Cottage Grove and on October 1st he will again take charge of his little farm one mile west of this city, which he has been renting.

Mrs. Fred Herren, who submitted to a severe operation at the Eugene hospital, has so far recovered as to be able to return to her home at Cottage Grove Saturday.

Mrs. Alonzo Willard returned to her home in Eugene after a two weeks' visit with relatives in this city.—Leader.

WHAT THE KIDNEYS DO.

Their Unceasing Work Keeps Us Strong and Healthy.

All the blood in the body passes through the kidneys once every three minutes. The kidneys filter the blood. They work night and day. When healthy they remove about 500 grains of impure matter daily, when unhealthy some part of this impure matter is left in the blood. This brings on many diseases and symptoms—pain the back, headache, nervousness, hot dry skin, rheumatism, gout, gravel, disorders of the eyesight and hearing, dizziness, irregular heart, debility, drowsiness, dropsy, deposits in the urine, etc. But if you keep the filters right you will have no trouble with your kidneys.

W. W. Gossett of 558 Madison St., Eugene, Ore., says: "I served during the war in the 77th Ohio Regiment, under General Grant, and came through the battle of Shiloh without a scratch. For about four months last year I had a most persistent dull aching across the loins and kidneys. It hurt me if I stooped or made any sudden movement. When splitting some wood out in the yard a sharp twinge of pain caught me in my back and I could not move to save me. A little while afterwards I happened to read about Doan's Kidney Pills and got a box at W. L. Delano's drug store. I began the treatment and it affected a permanent cure." (From statement made March 10, 1903.)

Cured to Stay Cured.

On February 9th, 1906, Mr. Gossett confirmed the above, saying: "I have had no occasion to use any kidney medicine since 1903. The cure I described before is permanent."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, ew York, sole agents for the United States.

Remember the name—Doan's—and take no other.

About two miles of the new logging railway being built by the Booth-Kelly Lumber Company out from Wendling into the tall timber, have been completed and the grading the entire distance of four or five miles has been finished. Henry Sinner, an old S. P. section foreman, has been engaged by the company to superintend the work and from now on it is expected that it will progress more rapidly than heretofore.

On the Gimple Bros. farm, seven miles southwest of Eugene, known as the old John Hickathier place, a vein of coal was encountered by well-drillers at a height of 290 feet one day this week. At a depth of 280 feet a vein containing a mixture of slate and coal was struck, and the solid vein of coal was struck ten feet deeper. This is not far from the coal mine of the Spencer Butte Coal & Petrileum Company.

TWO ROYAL GERMAN HEIRS.

This is the German crown prince and his little son, who, if he lives, will some day be an emperor. The crown prince himself is no more proud of the baby heir than is the stern emperor. The latter takes keen delight in playing with the baby and on more than one occasion has been seen riding with the little fellow sitting on the pommel of his saddle.

FOREST CREEK

The pipe line of Eugene's new gravity system will cross this creek, which is below Ritchey creek. It is a splendid mountain stream, as shown by this photograph at low water stage, August 25 of this year. It will be an excellent auxiliary supply for the system should an unprecedented growth of Eugene cause a shortage in the Ritchey creek supply.

Section 37 of said law, in part, reads:

"Any day after the expiration of six months after taxes charged against real property are delinquent the tax collector shall have the right, and it shall be his duty, upon demand and payment of the taxes, penalty and interest, to make out and issue a certificate or certificates of delinquency against such property," and section 38 in part reads: "Certificates of delinquency shall bear interest from the date of issuance until redeemed at the rate of 15 per cent per annum. * * *"

To save further costs, penalties and interest you are earnestly requested to settle the same at once.
