When you want a suit you want one that is new and nobby in every respect, up-to-date and very stylish. Our clothing department is strictly up-to-style in all colors and workmanship. A full line.

COME IN AND LOOK

SAY! We have the swellest line of Men's Shirts, Ties and Hose ever shown in this city. They are just what you are looking for.

Shirts from 50c to \$2.00

# The Crescent

## RITCHEY CREEK WATER IS PURE UNDER ANALYSIS

The following letter from Dr. W. L. Cheshire to the mayor and city council, and the accompanying reports to which it calls attention are self explanatory:

Eugene, Or., Sept. 28th, 1908. Hon. J. D. Matlock and City Council:

Gentlemen:—I hand you herewith reports of the examinations of the water procured, at your request, from Ritchey, Roaring and Bradley creeks.

Samples were taken on September 24 and 25th. These samples were taken in bottles that I had previously thoroughly sterilized and kept airtight until at creeks. For filling the bottles I used the same precautions by cleansing my hands and handling the corks with a sterilized instrument. The bottles were sealed at place of filling and expressed to destination, for which you will find receipts enclosed.

The first examination at Corvallis was delayed more than two weeks on account of the absence of the bacteriologist, and because of this delay there was not a true test made, but still no disease producing bacilli were found.

I again procured a sample on September 25th and sent to Corvallis. This, as you will see, gives an excellent test of pure water.

The examination by the State board of Health of Washington is very complete, but shows a little excess of vegetable matters which no doubt explains the suggestion of the advisability of filtration, which was due to the length of time water was examined after being taken from the streams, but no disease producing germs were found.

I am at a loss to account for the report of our own state bacteriologist in saying that the streams were contaminated with sewerage producing organisms. As a result of the other examinations and the fact that there is no habitation on the streams, I very much doubt the value of the state's bacteriologist's report.

California did not make a report, as you will see, owing to the time in transportation, which would cause too much change taking place in the water.

Most respectfully submitted, W. L. CHESHIRE.

each of these samples two organisms were found—the same in each. One only of the two was suggestive of sewage contamination, and identified. This organism did not prove to be col, comma, but belongs to an allied species. Its character, together with the number of bacteria in each of these two samples sent, render both of them suspicious and undesirable for drinking purposes, in their present condition, especially the sample from Ritchey creek. Chemically the few tests of the two waters that could be made from the small quantities of the two waters sent point to no serious recent sewage contamination, but to an objectionable amount of surface drainage.

No account of the manner of the taking of these samples was given and it is assumed therefore that the bottles were carefully sterilized and the samples taken with the scrupulous care so necessary to be taken to entitle the results to the fullest confidence.

Enclosed find a memorandum of charges for the services. Respectfully yours, ROSE A. BERR, M. D., Bacteriologist.

University of California Department of Hygiene Berkeley, Sept. 16, 1908. Dr. W. L. Cheshire, Eugene, Oregon.

Your letter of the 4th inst. and samples of water have arrived. I am sorry to say that a bacteriological examination of a sample of water which had been shipped so far would be of no account whatever to you. The changes that take place in water during an interval of this length would make any results that we might obtain by an examination now no index whatever of the condition of the water at its source.

It is possible that a chemical examination could be made which would be of service to you. If you will write to Professor G. E. Colby, of this university, he can probably give you some information about the matter.

Yours very truly, MARGARET HENDERSON.

(The above letter explains why the Washington University analysis showed more bacilli in the Ritchey creek sample than that of the O. A. C. at Corvallis. In the former case the water was a week or ten days old before the analysis was made, while that at Corvallis was taken from the creek after the water was taken from the creek.)

The University of Chile has adopted a course for the special instruction of persons for the diplomatic and consular service. The course is quite complete.

## OREGON AGRICULTURAL AND EXPERIMENT STATION Department of Bacteriology, Emile F. Pernot

Corvallis, Oregon, Sept. 28, 1908. Mr. W. L. Cheshire, Eugene, Oregon.

Dear Sir:

The following is the result of a quantitative bacteriological analysis of sample of water marked '1. Ritchey Creek,' received sealed from the hands of Mr. J. D. Matlock September 25th at 9:30 a. m.:

Average number of colonies in six plates cultures, 46 per cubic centimeter.

Respectfully submitted, E. F. PERNOT.

This analysis shows practically pure water, as the following letter from Professor Pernot shows:

Mr. J. D. Matlock, Eugene, Oregon.

Dear Sir:

I have made a quantitative bacteriological analysis of the samples of water received on the 25th inst., and forwarded the report to Mr. W. L. Cheshire.

The bacterial content is very low, 46 colonies being the average number in six plates.

My responsibility rests solely with the samples while in my possession, and not with the aseptic precautions exercised in securing them.

Very truly yours, E. F. PERNOT.

### GOOD COUGH CURE.

For the complete cure of coughs, colds, asthma and bronchitis and all chest complaints tending to consumption, liverwort, tar and wild cherry have for ages maintained an established reputation as a standard cough remedy. It contains no opium or harmful drugs and can be given with safety to children. Price \$1.00. Sold by Linn Drug Co., Williams Mfg. Co., props., Cleveland, O.

The sting of a bee proved fatal to Mrs. Caroline Hower, aged 55, a pioneer resident of Whitman county, at her home in Spring Flat, five miles south of Colfax, Wash., the other day. Mrs. Hower stepped from the house to bid her children good bye as they were leaving for Colfax. A bee from a nearby hive settled on her hand, stinging her near the base of the thumb. She grew violently ill and her children assisted her to the house, where she died ten minutes later, before medical attention could reach her.

DeWitt's Kidney and Bladder Pills are for weak back, backache, rheumatic pains, inflammation of the bladder and all other annoyances due to weak kidneys. They are sold by all druggists.

G. Nettle, a logger from Leaburg, Or., has purchased a 17-room house on the north side of Flinders street, between Twentieth and Twenty-first streets, situated on a lot with 65 feet frontage, tapering to 27 feet on the north end. The lot is 100 feet deep. The consideration was \$12,000, and the sale was made through the agency of E. J. Daly—Druggist.

DeWitt's Carbamide When Flashed is the best thing to use for piles. Sold by all druggists.

# S.S.S. CURES OLD SORES

No old sore can heal until the cause which produces it has been removed. External applications of salves, washes, lotions, etc., may reduce the inflammation and assist in keeping the place clean, but cannot cure the trouble because they do not reach its source. Old sores exist because the blood is infected with impurities and poisons which are constantly being discharged into the place. The nerves, tissues and fibres of the flesh are kept in a state of irritation and disease by being daily fed with the germ-laden matter through the circulation, making it impossible for the sore to heal. S. S. S. cures chronic sores by its purifying action on the blood. It goes down into the circulation, and removes the poison-producing germs, impurities and morbid matters which are responsible for the failure of the place to heal. S. S. S. makes the blood pure, fresh and healthy; then as new, rich blood is carried to the spot the healing process begins, all discharge ceases, the inflammation leaves, new tissue begins to form, the place fills in with firm, healthy flesh, and soon the sore is permanently cured. S. S. S. is purely vegetable, the safest and best blood purifier for young or old. Book on Sores and Ulcers and any medical advice free to all who write.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

## Roosevelt Will NOT TAKE STUMP FOR MR. TAFT

Washington, Sept. 30.—Secretary Loeb today made the statement that President Roosevelt has no present intention of making a speaking tour in behalf of Taft. Mr. Loeb says the president never has stated he would take the stump.

Washington, Sept. 30.—President Roosevelt will not reply to the latest letter of Mr. Bryan, given out by him last night, at Rock Island, Ill. Secretary Loeb stated the president felt that inasmuch as Bryan's letter was simply an attack upon him personally there was no reason why he should answer it.

### WANT BONAPARTE TO GIVE RECORD

Chicago, Sept. 30.—Josephus Daniel, chairman of the Democratic press committee, today made public a letter written to Attorney-General Bonaparte at the instance of the Democratic National committee asking the attorney-general how many of the 287 so-called trusts of the country have been proceeded against in the courts by the federal government and how many more cases he expects to file.

### Mr. Bryan's Latest

Rock Island, Ill., Sept. 29.—"I have lived in vain if your accusations lose me a single friend," said W. J. Bryan in a letter addressed to President Roosevelt, replying to that of the president, written Sunday last, declaring that it is sufficient answer to the insinuations of the chief executive that he is in sympathy or controlled by the trusts.

Reverting to the charges against Governor Haskell, Mr. Bryan says that the president, in response to a request did not deign to suggest a tribunal which could determine those charges, but instead proceeded to pass judgment upon him, and he informs the president that the occupant of the White House has no right to protect his reputation and vindictive his name in the courts.

### Complaint Against Critic

Taking up the president's assertion that certain trust magnates, fearing prosecution under Mr. Taft, will support the Democratic candidate, Mr. Bryan charges that the president worded his statement in such a way as to claim the support of all the trust magnates "and yet put it on the ground that they are supporting your party for patriotic reasons rather than for the promotion of a selfish interest."

Such an argument, he contends, is ingenious, but not sound. In proof of the fact that he would not be controlled by the trusts, Mr. Bryan says that, if election, he will enforce the anti-trust laws, "not spasmodically and intermittently, but persistently and consistently."

### MARRIED

At Portland, September 22, 1908, Charles V. Ross and Miss Bessie Lea Michael, Hwy. E. H. Moore officiating. The groom is a graduate of the University of Oregon with the class of 1903, and the bride graduated from the Oregon Agricultural College in 1901. The groom is an employe of the furniture firm of J. G. Mack & Company at Portland.

### A Paying Investment

Mr. John White, of 38 Highland avenue, Houlton, Me., says: "Have been troubled with a cough every winter and spring. Last winter I tried many advertised remedies, but the cough continued until I bought a 50-cent bottle of Dr. King's New Discovery. Before that was half gone the cough was all gone. This winter the same happy result has followed; a few doses once more banished the annual cough. I am now convinced that Dr. King's New Discovery is the best of all cough and lung remedies." Sold under guarantee at W. A. Kuykendall's drug store, 50c and \$1. Trial bottle free.

The late state fair at Salem was a very pronounced success from every point of view. It is said that it took in something like \$38,000, a decided increase over the previous year's receipts. Not a dollar of this represented money coming from the sale of liquors or for gambling privileges of any sort.

Kennedy's Laxative Cough Syrup does not count like most of the old-fashioned cough cures, but on the other hand it gently moves the bowels and at the same time helps the throat and allays inflammation of the throat. Sold by all druggists.

## RAILROADS WILL RAISE RATES TO PACIFIC COAST

Chicago, Sept. 30.—By the first of January the trans-continental railroads hope to be able to increase freight rates on more than 80 commodities westward and on about 29 eastward, between all points on the Pacific coast. Conferences are being held frequently and traffic men admit that all commodities are being gone over with a view to making increases where possible and equitable. The proposed increase will average between five and eight per cent above the present rate.

## NEW MUSICAL DIRECTOR AT METHODIST CHURCH

At the first official board meeting of the M. E. church for this conference year, held last evening in the church parlors, among other items of business was the election of Mrs. Middleton, recently from McConnellsville, Ohio, to the office of musical director for this year. This selection is highly gratifying to her host of friends, as she has become quite favorably known in our midst.

Her first public appearance in this city was at the military review held in the armory last spring when Governor Chamberlain and staff were present. Her two contralto solos, for which Professor Reed had written hand accompaniments for that special occasion, were the most attractive features of the evening and placed her in the first rank among Eugene's foremost musicians. It is fortunate for this city that Mr. and Mrs. Middleton have decided to locate here and the Methodist church is to be congratulated on having secured her services. She intends devoting her entire time to music, especially to her vocal instruction.

Miss Nellie Gilbert, who is so well known to all that she needs no introduction, has also been employed and will greatly strengthen the choir with her rich soprano voice. She spent several months in California last spring assisting Bishop Bell, of the U. B. church, in evangelistic work.

Mr. Ogden, the efficient pipe organist, who served the church acceptably last year, will continue as organist.

### IRVING NOTES

(Special Correspondence.) Irving, Sept. 29.—Elmer Grayville left here this morning for Manitoba, Canada, where he expects to locate and make his future home, if he finds things as he expects. May success go with him.

Professor Ball, lately from Tacoma, Wash., has purchased 6 1/2 acres of land of Harry Winner, and will proceed at once to erect a residence and take up his abode among us. He and his wife are occupying rooms at present with Mrs. Yates.

Lewis Heitzman and wife returned to Portland yesterday, after spending their vacation with their relatives in this vicinity. Lewis is working in the S. P. machine shops, and is doing well.

The evaporating plant belonging to the Allen Orchard Company, located at this place, is being operated to its full capacity day and night, and they are turning out an exceptionally fine quality of dried fruit.

The warehouse season is now practically over, and there is more grain and hay stored here than in any one season for several years past, and at the same time many of the farmers have put up their entire crop at home and as prices for farm products are good, there is no reason why the farmer should not be prosperous.

A few good carpenters could find employment at Irving at this time, as of construction and the right kind of help is scarce.

Richard Cook, our enterprising feed miller and wood sawyer, has been having all that he can attend to this summer and fall, and has worked laid out for some time ahead. The Irving Mercantile Company is enjoying a fine trade this fall. The only trouble they have is finding time to eat and sleep.

The new residence being constructed by M. N. Gent is fast assuming shape, and is going to be a very imposing and commodious structure. It will be a credit to the entire neighborhood, as Mr. Gent is sparing no pains or expense and is going to have a home well worth being proud of.

### Notice for Publication.

United States Land Office, Roseburg, Or., March 31, 1908. Notice is hereby given that in compliance with the provisions of the act of congress of June 3, 1878, entitled "An act for the sale of timber lands in the states of California, Oregon, Nevada and Washington territory," as extended to all public land states by act of August 4, 1892, Jonathan H. Vincent, of Eugene, county of Lane, state of Oregon, filed in this office on June 17, 1907, his sworn statement No. 9376 for the purchase of the W 1/2, SE 1/4, of Section No. 22, in Township No. 19 south of Range No. 2 west, W. M., Or., and will offer proof to show that the land sought is more valuable for its timber or stone than for agricultural purposes, and to establish his claim to said land before the register and receiver at this office, at Roseburg, Oregon, on Wednesday, the 30th day of September, 1908.

He names as witnesses: James Wilhelm, of Creswell, Oregon; Joseph Wilhelm, of Zion, Oregon; Joseph A. Mayo, of Zion, Oregon; Earl McNitt, of Eugene, Oregon.

Any and all persons claiming adversely the above described lands are requested to file their claims in this office on or before the said 30th day of September, 1908.

BENJAMIN L. EDDY, Register.

### Notice for Publication

United States Land Office, Roseburg, Oregon, April 17, 1908.

Notice is hereby given that in compliance with the provisions of the act of Congress of June 3, 1878, entitled "An act for the sale of timber lands in the States of California, Oregon, Nevada, and Washington Territory," as extended to all the Public Land States by act of August 4, 1892, Parley S. Pierce of Springfield, County of Lane, State of Oregon, filed in this office on April 15, 1908, his sworn statement No. 9713, for the purchase of the SW 1-4 of NW 1-4 and W 1-2 of SW 1-4 of Section No. 24 in Township No. 18 south, Range No. 5, West, W. M., and will offer proof to show that the land sought is more valuable for its timber or stone than for agricultural purposes, and to establish his claim to said land before W. W. Calkins, U. S. Commissioner, at his office in Eugene, Oregon, on Thursday the 3rd day of September, 1908.

He names as witnesses: William H. Pierce of Walton, Oregon; Jarvis V. Sutherland, of Walton, Oregon; William Sutherland of Walton, Oregon; William Neely of Eugene, Oregon.

Any and all persons claiming adversely the above-described lands are requested to file their claims in this office on or before the said 3rd day of September, 1908.

BENJAMIN L. EDDY, Register.

### A GOOD STOMACH

Means Good Health, Cheerfulness, Ambition, Persistency and Success.

Relief is not cure; opium will stop the most excruciating pain, but it won't cure the disease.

And it's just the same with alleged dyspepsia cures which contain opium. The opium will help to digest the food, but the stomach is left in worse condition than it was before. You don't want opium to digest your food; you want the natural juices of your stomach to digest your food. If you have dyspepsia or any stomach trouble, you want to make your stomach so strong that it will digest its own food.

You can't make your stomach so strong that you can eat what you want and all you want any time you want it, without distress.

Mi-o-na will cure your dyspepsia or any other stomach trouble by making it so strong that it will digest food without artificial aid.

In other words, Mi-o-na will cure dyspepsia by removing the cause.

The Red Cross Drug Company is the agent for Mi-o-na in Eugene, and they say to every resident of Eugene whose stomach is weak, who has indigestion or dyspepsia, that Mi-o-na is guaranteed to cure or money back. The price is only 50 cents a box. One box is all you need to prove that you are on the right road to health and happiness.

You can't say enough for Mi-o-na tablets. They have done more for me in one week than all the doctors have for the two years I have been under their care, and I will do all I can to recommend it to my friends. You can also use my name in your ad if you like, for Mi-o-na is better than gold to me. I am like a new man, and am able to work once more for the first time in over a year.—W. A. Eganis, 328 Green street, Syracuse, N. Y.

### NOTICE FOR PUBLICATION.

Department of the Interior, U. S. Land Office at Roseburg, Oregon, August 8, 1908.

Notice is hereby given that William Clubb, of Eugene, Oregon, who, on July 28, 1908, made application under the Timber and Stone Act, No. 9519, for the SW 1/4 of NE 1/4, Section 12, Township 17 South, Range 7 West, Willamette Meridian, has filed notice of intention to make final proof, to establish claim to the land above described, before W. W. Calkins, U. S. Commissioner, at his office at Eugene, Oregon, on the 2nd day of November, 1908.

Claimant names as witnesses: Hal E. Wood, of Eugene, Oregon; Marvin L. Hammit, of Eugene, Oregon.

Witnesses: Warren C. Smith, of Crow, Oregon; Clark H. Decker, of Waterhouse, Oregon.

BENJAMIN L. EDDY, Register.
