LAND FRAUD

GAS ON TRIAL

IN PORTLAND

Portland, Oct. 12.—The so-called Los Angeles land fraud case, in which certain residents of Los Angeles connected with the Pacific Lumber Co. and several Curry county, Oregon, men were indicted on the charge of attempting to defraud the United States government of part of the public domain, was called for trial in United States circuit court today.

The government started the ball rolling by springing a sensation in the shape of the pleading of guilty of four of the Curry county defendants. These are Amos S. Johnston, former deputy county clerk; Frank A. Stewart, William T. Kerr and John P. Miller. They admitted technical violation of the statutes and reserved the right to make arguments in mitigation of their offense. Jeremiah Huntley, the only other Curry county defendant, pleaded not guilty.

Counsel for Dr. A. H. Hedderly, Richard Hines, M. M. Riley and Lee R. Myers, of San Francisco, entered a demurrer. These defendants contend that if any conspiracy occurred it was formed in California and not in Oregon and under no circumstances can the court for the Oregon district have jurisdiction.

CHICAGO WINS BASEBALL GAME FROM NEW YORK

New York, Oct. 8.—Tens of thousands of baseball enthusiasts went to the Polo grounds today to witness the playing of the alleged tie of September 23, in accordance with the decision of the National League directors. The temper of the players in "this final game" between Chicago and New York gave promise of a game full of ginger, team-work and aggressiveness. Long before the gates were opened thousands were in line waiting to purchase tickets to the bleachers and other unreserved sections, and made a mad rush for points of vantage to witness the contest as soon as the gates were opened. Scores of police were on hand, but there were many scraps for seats.

At 1 o'clock both teams began warming up and the gates to the grounds were closed and practically sealed against further entrance. The favorites were cheered or hissed by partisans, Manager Chance, of Chicago, being particularly the victim of "booming" by certain sections.

The batteries—Chicago, Pfeister and Kling; New York, Matthewson and Bresnahan.

Score by Innings: Pfeister was taken out and Brown put in; Second inning—Chicago, 0; New York, 1; Third inning—Chicago, 4; New York, 0; Fourth inning—No runs; Fifth inning—No runs; Sixth inning—No runs; Seventh inning—Chicago, 0; New York, 1; Eighth inning—Wiltse replaces Matthewson in the box for New York; no runs; Ninth inning—No runs; Chicago Cubs win the National League pennant.

Final Score: R. H. E. New York 0 1 0 0 0 1 0 0—2 5 1 Chicago... 0 0 4 0 0 0 0 0—4 8 0

(Detroit is again the winner of the American League pennant, and the contest for the world's championship will be between Chicago and Detroit, the same teams that contested for it last, Chicago winning.)

Miss Christina Sorenson, operator for the telephone company at Junction City, came up on the afternoon train today for a short stay.

E. V. Stivers left this noon for Portland in response to a message stating that his mother-in-law, Mrs. Clara Easton, is very ill. His wife has been there several days.

OFFICERS ELECTED AT SAN FRANCISCO

San Francisco, Oct. 8.—The Trans-Mississippi Commercial Congress elected the following officers today:

President, F. W. Wadsworth, of Denver; first vice president, N. G. Larimore, of Larimore, N. D.; second vice president, A. C. Fellows, of Los Angeles; third vice president, A. C. Trumbo, of Muskogee, Okla.; fourth vice president, Herbert Strain, of Great Falls, Mont. secretary, Arthur Frazer, of Cripple Creek, Colo.; treasurer, James C. Dahman, of Omaha. Executive committee— Ike T. Pryor, of San Antonio, Texas, chairman; Sam F. Dutton, vice chairman; chairman of advisory board, Arthur R. Briggs, of Salt Lake City; Smith, of Nevada; Peter Loggie, of Oregon; J. W. Howell, of Washington.

A long list of vice presidents to represent the states were chosen, including A. H. Devers, of Oregon; J. W. Howell, of Washington; Frank R. Gooding, of Idaho, and D. R. Peeler, of Montana.

Except for a few committees and the members who remained to consider a score of pending resolutions, the hundreds of delegates in attendance at the Trans-Mississippi Commercial Congress, were guests of commercial bodies on an excursion on the bay. The sights of the morning were acceptable to the many delegates as a conclusive argument upon the resolutions dealing with the restoration of the merchant marine, a strong resolution in favor of which will be presented to the congress.

Harriman's Position

San Francisco, Oct. 7.—An ultimatum from E. H. Harriman delivered by J. C. Stubbs, his personal director of all Harriman lines, made at this morning's session of the Trans-Mississippi Congress, is one of the most sensational events in the history of that organization.

Harriman's message came like a thunderbolt.

He told the Trans-Mississippi Congress, in effect, that if it did not vote to prevent the enactment of legislation which had a tendency to discourage the confidence of the money markets, in railroads as investments, not a mile of track in Harriman territory would be built or improved.

Stubbs compared the great undertakings of the United States government with those of Harriman and predicted regretfully as a notable example that the Panama canal, forty years after its completion, would be a failure as a financial investment.

President Wheeler Replies

President Benjamin Ide Wheeler, of the University of California, gave credit to the builders of railroads, saying the relation of the people and the railroads was a matter of life and death.

"It is not railroads or lines," he said, "but tissue and blood. Their joint interests are not separable. The prosperity of one is the prosperity of the other."

BIG OAK LOG SEVEN FEET UNDER GROUND

Last Friday, while excavating for the sewage on the West Side, H. C. Hart and his men came onto an oak log buried seven feet below the surface of the ground. Naturally, they were curious as to how it came to be in such a place, and with the aid of a team of horses, after much work, brought it to the surface.

The log is ten feet long and at its thickest place is probably two feet through. It is very heavy, being water soaked, and is jet black in color. Mr. Hart will have a part of the log sawed up as soon as it is here, as he thinks it will undoubtedly make a beautiful piece of furniture if polished. The oldest known settler, who was talked to on the subject, says he has no recollection of ever hearing that the river formerly had its bed in that place, although the sand and shells found in excavating denote that at some time either a lake or river bed had been there. The log has probably been in the ground for a great many years, and notwithstanding for several years, as he thinks, is hard and sound as it ever was.

The log was probably a white oak, and might have been washed ashore in the river of lake, where it was gradually covered and remained until this time. It has been hauled to the side of the street, where it is a sight for the curious. We have a splinter, which was removed with a pick axe, which is as black as ebony and almost as hard.

The ditch which Mr. Hart is digging will be finished in about three weeks. There remain yet close to 3,000 feet to be dug and sewer to be laid.

The Dick White Mine.

R. H. White, proprietor of the Dick White mine, one of a group of his properties at Bohemia, expects to produce several bricks of the yellow metal through the office of an improvised mill, soon. He has erected a stamp mill, and has excellent water power. The Dick White mine has been developed for several years by Mr. White, and he says this week he was going to determine how his property would pan out. He is an old timer in the Bohemia district and has faith in this property. He says it has a fine showing and has no doubts of the ultimate outcome. In case his experiment proves a success, it will be a revelation to those who hold properties in that district who are forced to have their properties remain undeveloped owing to

DOG SUICIDES BY HANGING.

Bryson Sears, who lives on a farm two and a half miles northeast of this city, lost a valuable young varmint dog Wednesday in a peculiar way. The dog attempted to jump over a picket fence, while running and in falling back its neck slipped down between two pickets and it was choked to death before located by Mr. Sears. He regrets his loss very much.—Leader and Western Oregon.
