

S.S.S. THE REMEDY FOR SORES AND ULCERS

The combination of healthful vegetable ingredients of which S. S. S. is composed, makes it an especially desirable and effective remedy in the treatment of sores and ulcers of every kind. Since an impure condition of the blood is responsible for the trouble, a medicine that can purify the blood is the only hope of a successful cure; and it should be a medicine that not only cleanses the circulation, but one that at the same time restores the blood to its normal, rich, nutritive condition. S. S. S. is just such a remedy. It is made entirely of healing, cleansing vegetable properties, extracted from nature's roots, herbs and barks of the forest and fields. It has long been recognized as the greatest of all blood purifiers, possessing the qualities necessary to remove every impurity in the blood. When S. S. S. has purified the circulation, and strengthened and enriched it, sores and ulcers heal readily and surely, because they are no longer fed and kept open by a continual discharge into them of irritating disease-laden matter from the blood. S. S. S. brings about a healthy condition of the flesh by supplying it with rich, nourishing blood and makes a permanent and lasting cure. THE SWIFT SPECIFIC CO., ATLANTA GA

SUSPECTED OF

ROBERTSON SHOOTING

It is reported that two convicts at the penitentiary in this city have positively identified the picture of the so-called Homer Black, arrested for shooting Dr. C. H. Robertson in this city last Friday night as a man who has served two years in a California "pen," and probably a man with a long record.

Sheriff Minto has not received this and penitentiary officials give out nothing concerning it, as they claim if the convicts have given out such a statement, it is in the courts of law. But it is understood their statement may lead to positive identification from authorities in charge of California prison houses.

ARKANSAS TOWNS

VICTIMS OF TORNADO

Little Rock, Nov. 24.—Relief is being hastened to Arkansas towns, which were last night reported destroyed by a tornado, and today it is expected that telegraphic communication will be established. Late reports confirm the statements of damage amounting to hundreds of thousands of dollars done and loss of life that will probably exceed forty.

One of the tornadoes almost totally destroyed Bixley, Murray, Low Oak, Dato, Boston, Jordan, Traith, Omega, Dryfork, Dinamore, Oarthonon, Mossville, Linestone, Redford and other hamlets. There was the largest loss of life at Piney, Knoxville and London.

Another tornado coming from the direction of Louisiana damaged Lewisville, Ledl, Ozan, Murphycro and other towns with scattering loss of life.

TWENTY THOUSAND POUNDS OF TURKEYS SENT FROM EUGENE THIS WEEK

A big business is being done right now in turkeys by the local dealers, for Thanksgiving day is only two days off. Dealers report a scarcity in the local market for the reason that most of the birds in the country were bought up for shipment to Portland, Seattle and San Francisco. One dealer stated this morning that Eugene has shipped out at least 20,000 pounds of dressed turkeys, about half of them going to Portland and the other half evenly divided between Seattle and San Francisco.

The turkeys were not as numerous in this county as usual, for some reason or another, probably the weather during the early spring being too severe for the young ones soon after hatched. While the shipments out of Eugene were as large as usual, there is a noticeable scarcity in the retail trade. If the people do not make their purchases today or early tomorrow, they will have to eat chicken or goose for their Thanksgiving dinner.

Raisers of turkeys received this year from 18 to 25 cents a pound for the birds, while they are selling in the retail market from 22 to 25 cents per pound. They brought a better price here this year than they ever have and even the local market has been higher than in Portland. This speaks well for this market. The price paid for the birds here is said to have been higher than paid in any other city on the coast.

HENEY WILL CONTINUE FIGHT ON GRAFTER GANG

San Francisco, Nov. 23.—The Call this morning prints the first interview granted to the press by Francis J. Heney since the assistant district attorney was shot in Judge Lawlor's courtroom, November 13, by Morris Haas.

After expressing devout thanks for his miraculous escape, Mr. Heney says: "In this great human battle against vice and corruption, let no one believe that the true source is to be found in the individual dynamiters, jury bribers, kidnapers and assassins, and that their extermination means ultimate victory. Such being the case, the bubble emanating from the pool of filth that has been years in making. The seed has been sown, and we must reap the harvest, but in gathering the tares, let us be satisfied with nothing but the roots."

"It has been a terrible sacrifice, but if my blood has not been shed in vain; if the assassin's bullet has suddenly disclosed to the public eye the hideousness of the gigantic conspiracy to defeat the law, then I shall feel that I have not lived in vain; that my poor efforts have met with immeasurable benefit to my beloved city and state."

The foregoing is a part of the statement which is published over Mr. Heney's signature. The wounded man is well on the road to recovery, and was able to walk about his room at the hospital today. To his interviewer he stated that he was eager to get back to the prosecution of the graft cases again.

AGE OF SHEEP SHOWN BY TEETH

The age of sheep is very easily shown by an examination of the teeth, said a sheep man recently. A lamb has the first pair of permanent front teeth when about ten months old; the second pair appears at about 18 months; the third pair at about 24 months and the fourth at about 33 to 40 months. When the whole of the permanent front teeth have appeared, the sheep is in its fourth year.

The Merino matures its teeth later than the other breeds; the Cotswold and Southdowns and other highly improved mutton sheep are some months ahead of a Merino, but at 4 years every sheep has its full mouth of teeth. Later the age is known by the appearance of the teeth, which gradually lose their sharp edges.

A healthy sheep will keep its teeth good until 10 or 12 years old, if the pasture is not unusually bare and the soil sandy, so as to wear the teeth excessively.

Sessions of the Conference will be held in the First Presbyterian church except on Friday evening.

ATWOODS FAIL TO BLOCK CASE

Judge Gantenbein Overrules Demurrer of Tremont Hospital's Owners

Presiding Judge Gantenbein in the circuit court this morning overruled the demurrer to the indictment against Drs. C. H. Atwood and C. H. T. Atwood, who are charged with committing acts outraging public decency in equipping and conducting the maternity hospital at Tremont. The chief ground of demurrer was that more than one offense was charged in one indictment.

In disposing of this point Judge Gantenbein cited his ruling in the case against Mrs. Belle Waymire and E. E. Radding, who were convicted of a conspiracy to blackmail the reputation of Mayor Lane. In that case the defense urged that more than one crime was charged, as the commission of a crime, the breaking of a door, was alleged in connection with the main crime's ruling in the Wayne-Radding case was upheld by the supreme court, which held that the breaking of the door was only incidental to the offense charged.

The court applied the same rule to the Atwood case, in which the alleged performing of a criminal operation forms an incidental part—Journal.

Waking up at night, believing some one in her home, at Watrou, Lin county, Rose Geborne struck a match, and when she threw it toward the floor as the flame died down, the match fell into a open powder box near the bed. The girl was terribly burned in the explosion which followed, but will probably live.

FEDERAL BUILDING CONTRACT AWARDED TO WELCH BROTHERS

Washington, Nov. 24.—The treasury department has awarded the contract for the construction of the federal building at Eugene to Welch Bros., of Salem, Or., for \$54,957. The contract calls for plumbing, gas piping, heating apparatus, electric conduits and wiring, and the completion of the building by December 1, 1909.

The Guard understands that the successful bidders expect to begin work on the foundation for the building at once, as it will be necessary to rush construction in order to have everything completed in a year's time.

NEW TREATY WITH JAPANESE EMPIRE

Honolulu, Nov. 18, via San Francisco Nov. 24.—The Hawaii Shippo, the leading Japanese daily newspaper of Hawaii, has received from its Tokio correspondent what purports to be the text of the treaty concluded between Japan and America regarding coolie immigration. It is stated that the signing of the treaty will not be announced until next February.

According to the Shippo the treaty expresses the belief in the territorial integrity of the Chinese empire, and that equal opportunities for commerce should be enjoyed there by all nations, and that equality of treatment should be accorded all such foreign nations. The third article reads:

"The high contracting parties agree that neither government shall allow the emigration of laborers among their populations to the country of the other until a further understanding in the matter shall be reached, believing and agreeing that the employment in one country of laborers of the other country tends to impair existing friendly relations between the two governments."

The agreement is alleged to have been signed by Secretary Root and Baron Takahira.

EXAMINATION OF OIL MAGNATE IS CONCLUDED

New York, Nov. 24.—John D. Rockefeller testified today that at the time of the organization of the Standard Oil Company of New Jersey, in 1899, he owned 256,854 shares out of the total stock issue of 983,383 shares.

The cross examination of Rockefeller was concluded this afternoon, and his redirect examination began. Rockefeller's examination yesterday carried him through a period of the Standard Oil trust and years of its subsequent liquidation which lasted from 1893 to 1899. Rockefeller's memory at times was not clear on definite details of the trust liquidation period and he told counsel that he could not recall many of the incidents and developments of the time.

During the day Kellogg developed from Rockefeller that early in the industrial existence of Standard that president of railroad companies together with their directors were stockholders in the oil combination.

New York, Nov. 24.—John D. Rockefeller's redirect examination was concluded and he was followed on the stand by John D. Archibald, vice-president of the Standard Oil Co.

Portland, Nov. 23.—That President-elect Taft received a greater number of votes at the latter election than President Roosevelt did in 1904 is evidenced by the complete official returns.

The figures show that Taft received 62,350 as against 60,455 for President Roosevelt four years ago in Oregon.

Taft's plurality, however, is not as large as that of Roosevelt, but this is accounted for from the fact that Bryan ran far ahead of Parker and not that Taft ran behind Roosevelt.

This year Bryan received 38,049, while Parker's vote four years ago was only 17,521. Taft's plurality is 24,481.

The Republican nominee also received a majority of 14,971 over all other candidates.

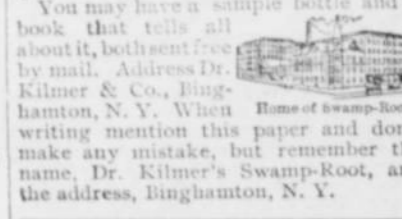

W. L. Hidden, who spent several weeks in Eugene during the summer, returned to this city Sunday from Wisconsin. He was accompanied by I. P. The gentlemen are looking over the city and surrounding country with a view of investing.

Thousands Have Kidney Trouble and Never Suspect it.

Prevalency of Kidney Disease. Most people do not realize the alarming increase and remarkable prevalence of kidney disease. While kidney disorders are the most common diseases that prevail, they are almost the last recognized by patient and physicians, who content themselves with doctoring the effects, while the original disease undermines the system.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes.

You may have a sample bottle and a book that tells all about it, both sent free by mail. Address Dr. Kilmer & Co., Binghamton, N. Y. When Binghamton, N. Y. writing mention this paper and don't make any mistake, but remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y.
