

"We shall always praise Peruna, for it saved our boy's life."

HERNAN HOCHMUTH.

MRS. EARNEST HOCHMUTH, 1733 Maple St., Des Moines, Iowa, writes: "Two years ago our little boy, Herman, was taken down with scarlet fever. He took cold with it, and instead of the eruptions coming to the surface they affected his lungs and stomach. For weeks we watched by his bedside, hardly expecting him to live from one hour to the next.

"Finally he became a little better and was able to sit up. Then he commenced coughing, and in spite of everything we could do he seemed to get worse all the time. His coughing spells would last all day and he was completely exhausted, and his lungs hurt him a great deal. Everybody thought he had consumption.

One day, while at the drug store, my husband saw a Peruna Almanac and brought it home. We read in it a perfect description of his case and we thought we would try Peruna. We bought a bottle, quit everything else, and began giving him Peruna.

"By the time two-thirds of the bottle was used the cough had almost gone. After he had taken two bottles he was perfectly cured. He has not seen a sick day since and is a hearty, healthy boy. -We shall always praise Peruna, for it saved our boy's life."

BIG ATTENDANCE AT GOOD ROADS CONVENTION

Judge Scott, of Monroe County, Was the Principal Speaker

(From Saturday's Daily Guard.) The good roads convention scheduled for this city opened in the court room at 1 o'clock this afternoon with every seat in the large auditorium occupied.

The meeting was called to order by Dr. L. L. Whitson, who stated the object of the occasion, dwelling briefly upon the good roads movement throughout the state. The doctor then called the chairman of the convention, M. Svarerud, to the chair, who made a few remarks and then introduced Judge Scott of Salem, who was the principal speaker of the day.

The judge opened his remarks by telling of the action of the convention held in Portland a short time ago and the action of that convention in arranging for a campaign for the betterment of the roads.

Judge Scott explained how three committees had been appointed and bills to be introduced in the coming legislature applying for appropriations for road improvement, etc. He advocated the appointment of a highway commission to be composed of three members—one from Eastern Oregon, and one from Southern Oregon and one from the Willamette Valley—one of whom was to be a practical engineer and have general supervision of road work in the whole state.

After a few more remarks the speaker concluded and after music by the band Chairman Svarerud called upon Judge Chrisman who responded with a five minute talk.

After the remarks by our county judge the following also made five-minute talks in the order named: Joel McCormack, Geo. A. Dorris, J. Beebe, John H. Hartog, H. A. Bowers, G. D. Linn, F. W. Osburn, Jack Rodman, L. H. Bingham and Pres. P. L. Campbell of the U. of O.

Prof. Bump's orchestra was in attendance and rendered several selections as did also the Eugene Military band.

The list here generally signed up and a good roads league was launched with a large membership, and that it will grow with time to be one of the largest leagues in this state, goes without saying.

HUNDREDS LOSE LIVES IN GREAT MINE EXPLOSION

Pittsburg, Nov. 28.—A series of mine explosions occurred today in the mine of the Pittsburg-Buffalo Coal Company at Marianna, Washington county, and while nothing is known of the number of fatalities, it is believed that many lost their lives. Reports from Marianna say that between 200 and 300 men were in the mine. The offices of the company it is said about 100 were in the mine.

At 1 o'clock, an hour and a half after the accident, dense clouds of smoke were pouring from the two shafts of the mine, but there was not a sign of a miner.

Special trains from this city and Monongahela are bound for the scene of the latest appliances from the new United States laboratory of this city, recently tested in saving life in mine explosions, are being carried along. A majority of the miners are Americans and their families are at the mouth of the pit in a frenzy.

Marianna was recently built at a great cost, and is said to be the most perfect mining town in the world.

According to officials of the company State Mine Inspector Louttit and Mine Foreman Kennedy had just completed a two-days' examination of the mine and had come from the mine only three minutes before the explosion occurred. The iron cage in which the men went from the surface to the workings below was blown three hundred feet from the mouth of the shaft, two men in the cage being killed. But little hope is entertained for the men entombed.

According to the state inspector between 180 and 200 men were in the mine when the explosion occurred, while other authoritative sources make the number 275.

Shortly after 2 o'clock word from the Marianna rescue party was to the effect that they had succeeded in entering the mine and are attempting to force their way through the debris to where the miners were caught. It is not considered likely that any will be rescued alive.

GREAT LUMBER TRUST IS ORGANIZED WITH CHICAGO HEADQUARTERS

Chicago, Nov. 27.—The Tribune says that Chicago will become the sole selling headquarters of a new lumber combination, and that Edward Hines is to be the president of the syndicate. While the figures, as publicly stated, have fixed the combination as a \$20,000,000 affair, competing lumber interests can see no limit to its capitalization, but at the same time they express no fear that it will attempt to restrain trade by fixing prices.

ATTORNEY RALPH FISHER MURDERED BY FINCH

Portland, Nov. 28.—J. A. Finch, an attorney who was disbarred from practice for one year by the State Bar Association, this afternoon shot and killed Ralph B. Fisher, a young lawyer who had been designated to act as prosecutor for the Bar Association in the case against Finch.

A SURGICAL OPERATION

If there is any one thing that a woman dreads more than another it is a surgical operation.

We can state without fear of a contradiction that there are hundreds, yes, thousands, of operations performed upon women in our hospitals which are entirely unnecessary and many have been avoided by LYDIA E. PINKHAM'S VEGETABLE COMPOUND.

For proof of this statement read the following letters. Mrs. Barbara Base, of Kingman, Kansas, writes to Mrs. Pinkham: "For eight years I suffered from the most severe form of female troubles and was told that an operation was my only hope of recovery. I wrote Mrs. Pinkham for advice, and took Lydia E. Pinkham's Vegetable Compound, and it has saved my life and made me a well woman."

Mrs. Arthur R. House, of Church Road, Moorestown, N. J., writes: "I feel it is my duty to let people know what Lydia E. Pinkham's Vegetable Compound has done for me. I suffered from female troubles, and last March my physician decided that an operation was necessary. My husband objected, and urged me to try Lydia E. Pinkham's Vegetable Compound, and today I am well and strong."

FACTS FOR SICK WOMEN. For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pain, and backache.
