KASPARILLA

This sterling household remedy is most successfully prescribed for a "world of troubles." For derangements of the digestive organs it is a natural corrective, operating directly upon the liver and alimentary canal, gently but persistently stimulating a healthful activity. Its beneficial influence extends, however, to every portion of the system, aiding in the processes of digestion and assimilation of food, promoting a wholesome, natural appetite, correcting sour stomach, bad breath, irregularities of the bowels, constipation and the long list of troubles directly traceable to those unwholesome conditions. Kasparilla dispels drowsiness, headache, backache and despondency due to inactivity of the liver, kidneys and digestive tract. It is a strengthening tonic of the highest value. If it fails to satisfy we authorize all dealers to refund the purchase price.

COUNCIL REFUSES ATT'Y BEAN'S RESIGNATION

The city council decided at a meeting Thursday afternoon that the services of Louis Bean as city attorney are indispensible, and refused to accept his resignation. To lighten the duties of the city attorney, while he is in legislature and at other times, J. M. Pipes was appointed as an assistant.

Attorney Pipes stated that the fees for the conduct of the injunction suit through the circuit and supreme courts would be $500. In the circuit court alone they would amount to $300.

To pay the interest on the water bonds $5,000 was appropriated from the general fund, to be paid January 1st. The transfer of $6,000 was ordered withdrawn from the water fund to the general fund.

The council meets again Monday night.

COUNTY COURT CHANGES BOUNTY

At a recent session of the county court the bounty on predatory animals was changed. Heretofore the bounty on coyotes, wildcats, gray and black wolves was $2.50, but this amount will not be paid on all such animals in the future. According to the new ruling only coyotes will draw the $2.50 bounty, while that on cougars will be $5.00. The coyote is really the bane of the ranchers' lives, as they kill poultry as well as sheep and young cattle. The cougar is the one animal that is sought after, for he never knows when his appetite is satisfied, killing indiscriminately. The new bounty ruling takes effect on the first of the year.

CITY ATTORNEY BEAN TENDERS RESIGNATION

At last night's meeting of the city council the resignation of L. E. Bean as city attorney was read and accepted. The resignation is to take effect on Jan. 11th. There has been some feeling between a number of members of the council and Mr. Bean for some time past and this action on the part of the latter is the outcome.

The ordinance ratifying the contract with Sam Manerud to furnish crushed rock to the city and to use the city's crusher and engine, was presented. Before it was passed it was amended to read, "All crushed gravel or rock not furnished to the city direct or to the street commissioner by Mr. Manerud, shall be paid for to the city at ten cents per cubic yard."

The attorney was instructed to appear for the city in the injunction suit recently instituted.

The matter of enforcing the anti-spitting ordinance was brought up and the police department was directed to enforce it.

The city engineer was instructed to establish the center line of Washington street nort hof the railroad and to fix monuments at intersections.

The council adjourned to meet again next Monday night.

RESUME OF FOREST IMPROVEMENTS IN THE STATE AND NATION

Washington, Dec. 24.—Such work as the construction of miles of road and trail, telephone lines, drift and pasture fences, ranger houses and barns, has opened up and improved many square miles of territory in the thirteen national forests in the state of Oregon, and for these and similar purposes $55,191.33 was spent during the last fiscal year. Four hundred and thirty-seven miles of trail and 24 miles of road were built, 78 miles of telephone lines were strung, and the forest ranges were improved by the construction of 39 miles of pasture fence. During the year 23 houses, to be used for ranger quarters, and 2 barns, and 2 corrals, for rangers' horses were built. Four bridges were constructed and various miscellaneous improvements were made.

In speaking of the permanent improvement work on all the National forests, the secretary of agriculture has the following to say in his annual report:

"The agricultural appropriation act of 1908 included an item of $500,000, which was made available for permanent improvement work on the National forests. The object of this work is to help open up the forests to more use and provide means for their better and more economical protection, through the supply of means of communication and transportation, well-located field quarters, fire lines, fences to assist in the handling of stock, and watering places. These improvements are essentially investments of capital, which add greatly to the value and usefulness of the forests.

"The work completed during the year included 3400 miles of trails, 3200 miles of telephone line, 100 miles of wagon road, 40 miles of fire line, 250 bridges, 550 cabins and barns, and 600 miles of pasture and drift fences. In addition to the sum provided by the special improvement fund, over $100,000 from the general fund of the service was turned from current expenses to defray the cost of this work, but much of the work planned and urgently needed could not be carried out becouse there was nothing with which to pay for it."

MANY KILLED IN CIVIL STRIFE IN OLD MOSCOW

Moscow, Dec. 26.—Baron Cotte, chief of the secret political police was killed and Colonel Muraki was wounded in a fierce encounter today with revolutionists, who were intrenched in a suburban village.

During the fight several policemen were killed and many others wounded. Troops were summoned and a regular battle ensued, artillery being employed to bombard the villa before the revolutionists were subdued. The occurrance is the most serious since December 1905. The losses sustained by the revolutionists are not known but are undoubtedly very heavy.
