

### Dr. Pierce's Favorite Prescription

It is the best of all medicines for the cure of diseases, disorders and weaknesses peculiar to women. It is the only preparation of its kind devised by a regularly graduated physician—an experienced and skilled specialist in the diseases of women.

It is a safe medicine in any condition of the system. **THE ONE REMEDY** which contains no alcohol and no injurious habit-forming drugs and which creates no craving for such stimulants.

**THE ONE REMEDY** so good that its makers are not afraid to print its every ingredient on each outside bottle-wrapper and attest to the truthfulness of the same under oath.

It is sold by medicine dealers everywhere, and any dealer who hasn't it can get it. Don't take a substitute of unknown composition for this medicine of known composition. No counterfeit is as good as the genuine and the druggist who says something else is "just as good as Dr. Pierce's" is either mistaken or is trying to deceive you for his own selfish benefit. Such a man is not to be trusted. He is trifling with your most priceless possession—your health—may be your life itself. See that you get what you ask for.

### "WHEAT NOT HELPED" SAYS MILLER STARR

**Heads May Be a Little Larger, But Straw Growth Not Increased**

"The rain did not help the wheat of the valley much, in my estimation," said Miller Starr, of the Eugene Mill & Elevator Company, this morning. "The rain may help some of the heads to fill, and even the stock and straw of the late grain, but it will not materially increase the crop."

"In some places the promise is good, but in others it is poor. The outlook depends much on the manner and method in which the ground has been cultivated. In wet years the ground can be half cultivated and there will be a good crop. But in dry years only the best cultivation can bring good results."

The flouring mills are now working 18 hours out of the 24. They have plenty of wheat in the bins until the new harvest. Throughout the winter the mills ran day and night.

**Cannery Not Running**  
The fruit cannery is not running today, but will probably begin again tomorrow. The wet weather held back most of the fruit, so that little or none has been brought in.

The cherry crop has been hurt where it was not already ripe, but otherwise the rain did little harm.

**Apple Crop**  
W. G. Allen said this morning that the prospects for the apple crop were not the best. The crop is light. This should also be an off bearing year. Apples are said to have a trick of alternating with a large harvest one year and a poor one the next.

**OBITUARY**  
Charles Beadie was born August 4, 1856 at Antwerp, Jefferson County, N. Y. Married Jan. 15, 1886 at Rockford, Ill. to Anna Lynn. Enlisted Sept. 25, 1862, in Co. 1, 136th N. Y. Inf. with which he took part in many engagements in the Civil war and was promoted to sergeant. Discharged Feb. 14, 1864, for disability incurred in the service. He came to Oregon in 1884 and was engaged in business for several years when, health failing, he was compelled to retire, and died June 23, 1909, leaving a most estimable wife and son in Milwaukee, Wis., besides many friends to mourn his death.

W. R. Allen, a young farmer living near Halsey, started on a pleasure trip, intending to visit Seattle, Walla Walla and Yellowstone National Park. He wrote home a few days ago that while in Walla Walla he had been robbed of \$150, and to forward him more funds. He had \$500 when he left home.

### WEEKLY REPORT OF EUGENE MARKET

Mohair—22c.  
Chittim bark—5c.  
Wool—24c.

**Poultry, Eggs, Etc.**  
Eggs—per dozen, 24c to 26c.

Mixed Feed—Per ton, \$23.  
Rolled Barley—Per ton, \$40.  
Dried Hay—No definite price.  
Loose Hay—No definite price.  
Oats—Per bushel, 55c.

### PORTLAND MARKET REPORT

Portland, July 8.—The week opens with the egg market strong and active, with fresh candied ranch stock moving freely at 25 to 26 cents. Receipts for two weeks have been steadily falling off, and with the demand still good prices naturally tend upward. The outlook is for a continued active market, and there is small chance of any recession in prices in the immediate future.

But little poultry came in over Sunday and while the trade today did not amount to much the tone of the market was fairly strong. Unless receipts should prove too heavy there is a possibility of some improvement in prices before the end of the week.

**Rain Benefits Hop Yards**  
The rain that fell yesterday and the day before will prove of great benefit to the hop yards that are being worked this year, but there is no possibility of its overcoming the effects of the unfavorable weather conditions earlier in the season. The crop in this state inevitably will be light as compared with the yields of other years. The contract market is now on a ten-cent basis, that price having been paid within the past few days. The demand for olds continues strong and prices are slowly moving upward.

**Weather Affects Fruit Trade**  
Trade in the front street fruit market was curtailed somewhat today by the rain, but dealers look for a brisk business as soon as the weather clears. Watermelons moved in a

slow way at yesterday's prices, and the same was true of cantaloupes. In small fruits there was little doing. Cherries were but little in evidence and the demand for berries was limited. Two cars of watermelons and several of cantaloupes are expected before the end of the week.

**Butter Active at Advance**  
At the higher prices quoted yesterday butter moved actively today, creamery men and dealers generally reporting current make cleaning up well. There is little doubt that the next change will be a lift in quotations. In the dairying districts the rain has freshened up the pastures a good deal, but there is small chance of the improvement being sufficient to weaken the butter market. Cheese was firm and active at the last prices.

**California Celery Prospects**  
The California Vegetable Union, which has 90 per cent of the California celery crop under contract, issued the following circular to the trade on the celery situation:  
"We are pleased to announce that celery planting is now at its height, with an ample supply of vigorous plants to set out the contemplated acreage of 2500 acres in Orange county and 2000 acres in Northern California."

Transplanting began a little earlier than usual this year, and with normal weather during the summer and early fall, the crop will naturally be ready for the market much earlier this year.

It is also with much satisfaction that we announce that the Celery Growers' Association of Orange county stands intact July 1, the time having expired on that date for withdrawal of members.

**Portland Livestock Market**  
Portland Union Stockyards, July 7.—The unexpected heavy rains of the two preceding days affected business even here this morning, buyers evidently waiting for a let up in the storm before venturing out. Anyway, few were on hand when the commission men showed up ready to carry on transactions after the holidays.

Receipts today and yesterday were about the average of last week, and the cattle that came in from Eastern Oregon, the valley and California, were in good shape. While the market today was dull because of the failure of buyers to be present, it is expected that conditions of last week, which were satisfactory on the whole, will prevail this week.

The cattle market closed rather weak last Saturday, owing to a considerable number of poor stock having been shovled in, but there is a good demand for fat stock of all kinds. Fat hogs are in good demand, one lot selling this morning for 8 cents. Sheep and lambs, too, bring good prices.

The following sales were reported today:  
Ninety-one sheep, 9375 lbs., \$3; 111 lambs, 7500 lbs., \$5; 72 sheep, 7050 lbs., \$3.25; 38 hogs, 7525 lbs., \$3; 45 lambs, 3125 lbs., \$4.75; 41 sheep, 4325 pounds, \$3; 28 cattle, 20,275 lbs., \$4; 11 cows, 10,150 lbs.,

\$3; 1 cow, 1075 lbs., \$2.50; 2 bulls, 2125 lbs., \$2.50; 3 calves, 525 lbs., \$5; 1 calf, 400 lbs., \$2.50; 8 lambs, 610 lbs., \$5; 43 sheep, 4625 lbs., \$3.25.

### PORTLAND MARKET QUOTATIONS

### IRVING ITEMS

(Special Correspondence.)  
Irving, July 7.—There was a general exodus from our burg to Eugene on the three days' celebration. All in attendance speak well of the management, who, in spite of the inclemency of the weather, carried out a good program. There was an absence of formality and all seemed to enter into the hilarity of the occasion.  
Mr. and Mrs. W. A. Bond, of Rosalia, Miss., arrived in Irving Tuesday evening to be present at the funeral of Mrs. Bond's father, P. W. Boqua, which takes place today at 10 a. m. from the late residence near Irving.  
Dewey Andrews, of Blachley, was in Irving visiting old friends. He went to Junction Wednesday.  
Mr. and Mrs. J. H. Warthen left for Sterling, Neb., last Friday evening, upon the receipt of a telegram announcing the death of their daughter, Mrs. Thomas Christopher. She lived near Irving for several years and had many friends who regret her death.

### ALMA ITEMS

(Special Correspondence.)  
Alma, July 5.—Every one is busy cutting hay.  
John Mohler arrived a few days ago.  
Chester Bierce passed through this vicinity last Saturday.  
We are very sorry to hear that Mrs. Pierce is again in a very bad condition.  
Miss Belle Warner closed a very successful term of school on Friday, June 25, and left for Eugene the next morning.  
Miss Ethel Pettit carried the mail Saturday. She is to be our future mail carrier.  
Mrs. Alice Whitcomb went to Mound last Wednesday and brought home a load of supplies.  
Every one who attended the program and dance given at Mound enjoyed it very much.  
The Northern Baptist convention in session at Portland, adjourned last evening. Reports were made by commissions and committees, that of the enrollment committee showing the total number of delegates in attendance to have been 1242, and Chicago was chosen as the place and May the month for holding the next annual session of the convention, the exact date to be named by the executive committee.

### MARRIED

At the home of the bride's parents, Mr. and Mrs. E. H. Hawkins, near Eugene, Sunday, July 4, 1909, at 3:30 p. m., two well-known young people of Eugene were made husband and wife. The contracting parties were Albert Moore and Miss Clara Hawkins. The wedding ceremony was pronounced in a very impressive manner by Rev. Mr. Sprecher, of the U. B. church of Eugene. After a short prayer and the usual congratulations were attended, duty refreshments were served. The home of the bride's parents was tastefully decorated with orange blossoms and ferns for the occasion. The bride wore a cream silk dress, while the groom was dressed in the conventional black. Only a few of the relatives and specially invited guests were present. All wished the young couple a long and happy life.

At the parsonage of the Christian church, July 7, 1909, at 3 p. m., Enoch L. Norris and Miss Ella Allen, Rev. J. S. McCallum officiating.

### ELMIRA ITEMS

(Special Correspondence.)  
Elmira, July 5.—Well, if you did not celebrate in Elmira you missed half of your life. Although the rain kept quite a few away, there was a good crowd and every one seemed to have a fine time. The program was well rendered, the band boys furnished fine music and the ladies furnished a good dinner. Arthur Shove's little mare "Topsy" won the horse race. The baseball game between Fairview and Elmira was well attended and every one had a fine time if it did rain.  
George Criss's little boys have been quite sick.  
Farmer Hale has had an attack of the measles.  
Quite a few people from Junction, Fern Ridge, Smithfield, Fairview and

### Crow were in attendance at the Elmira celebration.

Mr. Fountain has erected him a new windmill and expects to put in pipes for irrigation.

Pete Lamb has gone to Eugene to work. He is going to do carpenter work on the new Catholic school.

Ira Helgeson has returned home from a trip down to Portland.

### THE COLOR LINE

Two men were caught in a Moro trap, and the Datto's guns sang ho!

And one wore an officer's shoulder strap, the other a private gear. One was a black of the Twenty-fourth, and one was a Southern man.

And both were caught in a dark defile by the lines of the Moro clan.

Oh, wonder it is, and pity it is, that they sent the scouts alone To die in the silent jungle path with never a word or groan!

Wonder it is, and pity it is, but the two stood back to back.

And never a word between them passed as they waited the first attack.

The bullets whined, the wounded shrieked, the rifle bores grew hot.

But still the two stood back to back and answered shot for shot.

And now the Moro fire dies down, and now there comes a hush—

And white and black, with bayonets fixed, await the bolo rush.

Two men lay dead in the jungle path, and their faces stared at at the sky.

And out in the bush on each man's front the Moros were piled waist high.

And when the warriors went in to mutilate the dead.

They found them lying back to back, but white and black were red!

—Alfred D. Runyon in "Uncle Sam's Magazine."

# FIRE AND WATER SALE

On all our \$50,000 stock of house furnishings will close **Saturday at 9 p. m.**

**Buy Your Home Furnishings During Our Big Fire and Water Sale**
