ANOTHER LANE COUNTY GIRL COMMITTS SUICIDE

Hazel Phillips, of London
Springs, Shoots Herself Be-
cause Lover Went Away

Special to Daily Guard.
Cottage Grove, July 16.—Because she could not leave home and marry Tom Richey, with whom she was in-
famous, Hazel, the fourteen-year-
old daughter of Robert Phillips, re-
siding at London Springs, ten miles
south of here, last evening about
seven o'clock suicided by shooting
herself in the breast with a rifle.
She died about midnight, never re-
turning consciousness.
The girl had been keeping company
with young Richey, who was several
years her senior. Several days ago
he decided to leave the neighborhood
to seek employment elsewhere. The
wanted to go along with him and
marry him, but her parents would
not listen to such an arrangement
and forbade her going. Richey left
and she was heartbroken. Last night,
while no one was around the house,
Hazel took her father's rifle from the
wall, cocked it and placing the muzzle
to her breast pulled the trigger
with her foot. She was found by her
parents lying face down on the floor
in the middle of a pool of blood a
short time later. Life was not yet ex-
tinct, and a physician at Cottage
Grove was telephoned for. He arrived
before the girl expired, but could
do nothing to prolong life.

MRS. EDDY'S HEALTH STILL UNIMPAIRED BY HER GREAT AGE

Boston, July 16.—Mrs. Mary Bar-
ber Eddy, founder and leader of the
Christian Science denomination,
passed her 84th birthday at her re-
sidence on Chestnut Hill today. Mrs.
Eddy is in splendid health and at-
tended to her affairs with her usual
vigor.

HAS NEWSPAPER OVER 136 YEARS OLD

C. P. Barnard today showed a re-
porter a copy of the American Jour-
nal, a newspaper printed in Balti-
more in 1773, and which has been in
possession of Mrs. Barnard's family
for 136 years. The paper has this
announcement: "Printed by William
Goddard at the printing office in

NEWS OF BUSY SPRINGFIELD

HUGE LETTERS TO ADVERTISE CITY

Springfield intends to follow in the
steps of Tacoma. On the butte back
of the town, and which fronts miles
and miles of railroad track, will be
erected a huge electric sign 120 feet
long and 12 feet high, "S-P-R-I-N-G-
F-I-E-L-D." Tonight the first money
in the direction for paying for the
bill will be donated from the receipts
of the social dance.
Several real estate men will pay the
cost of the electricity to keep the
huge letters ablaze.

BEST PLANING MILL IN LANE COUNTY

The Springfield Planing Mill Com-
pany has completed an addition to its
planing mill of over 5000 square feet
and added new machinery and equip-
ment, until now it claims to have the
best-equipped planing mill in Lane
county. Moreover, the company in-
tends to add more machinery. Busi-
ness has been so good that the mill is
behind in its orders.

NEW SAWMILL WILL BE RUNNING BY JANUARY 1

Fischer & Bally, who are building
a new structure near the railroad
track running down the east side of
the Willamette valley will have the
machinery moved from Marcola some
time this fall and begin to turn out
their thirty thousand feet of lumber
a day before the first of next year.
The sawmill part of the structure will
be 120x24-30 feet, and the planing
mill 90x30 feet. The pond is dug,
and the well drilled to furnish water
for the pond and engine. The logs
will be brought down from the Mo-
hawk.

RAILROAD PAYROLL HELP TO SPRINGFIELD

Secretary Walker, of the Commer-
cial Club, estimates that the Southern
Pacific payroll in Springfield is \$2600
or more a month. Outside of the crew
on the Wendling train he says that
the railroad employees draw \$2100.

Wells to Springfield
E. R. Wells, an architect who has
made his headquarters in Eugene for
some time, but who has furnished
plans and specifications for many of
the late business and residence build-
ings in Springfield, has decided to lo-
cate here and has made arrangements

THREE MILES OF NEW SEWER FOR SPRINGFIELD

The Springfield council met last
night and ordered specifications ad-
vertised for three miles of extension
of the sewer system which has been
under contemplation. In addition
the big main that empties into the ed-
dy of the Willamette will be run to
the main channel of the stream.
The council also refused to rescind
the fire ordinance, prescribing the
limits in which wooden buildings may
be built. On this point a hard fight
had been made by a number of in-
terested property owners.
Condemnation proceedings were
also ordered for the construction of
a sewer through the Pengra prop-
erty.

NEW BRICK BUILDING ON MAIN STREET

R. Sutton, formerly a school teach-
er in Springfield, is measuring off the
lot to erect a one-story building 40x
120. The building will be a decided
addition to the east end of Main
street.

MANY ACCIDENTS IN AND AROUND TOWN

Sunday Johnny Wright, a man of
74 years, and Mrs. Wright, were
thrown from their buggy just out of
town and badly bruised. The old
people were on their way to see their
daughter at Blue River, who is very
ill. The seat of the buggy fell off at
a turn of the road and the old peo-
ple followed it.
Sunday Miss McCumber, of Jas-
per, and a young man named Mitch-
ell, were also badly hurt in a run-
way near Jasper while buggy riding.
Mitchell had a bad cut over the left
eye and Miss McCumber was seriously
bruised. Mrs. Barr and Pollard at-
tended both cases.
Charles Rivett witnessed a bad bi-
cycle accident yesterday at the west
approach of the bridge. A boy going
"forty miles an hour" or less knock-
ed a girl down and for a time her pa-
rents thought she was seriously hurt.

BALL TEAM TO JUNCTION NEXT SUNDAY

The Springfield ball team will play
Junction next Sunday in the north
Lane city. While Springfield hopes
to beat the Junction City team it is
generally considered they are well
matched.

Goings and Comings

Mrs. J. R. Barr is visiting at Dun-
dee, near Portland.
Rev. A. C. Preston, of the Method-
ist church in Marcola, was in Spring-
field yesterday. He went up the riv-
er near Jasper, where a new church
will be built this summer.
Junia Kirkland is visiting her fa-
ther. She has been at Drain.
The Booth-Kelly Company brought
three boats from Coburg today to use
as models in the construction of oth-
ers. They are at least 24-foot skiffs.
Wm. Christie, of Wendling, was in
Springfield recently.
Dr. J. R. Barr returned from a
short trip to Salem yesterday.
Mrs. Frank Carmon went to Rose-
burg today to visit friends for ten
days.
J. J. Bryan, owner of the Electric
theatre, is considering the erection of
a new building for his theatre.
M. C. Pratt, who runs the one-horse
stage between the car and Springfield,
starts to work at 6 a. m. and quits at
12 o'clock midnight. He uses two
horses and sometimes three. "I carry
fifty or sixty passengers a day," he
said this morning.

Springfield Prices
Cherries off the market.
Pears, 4s per lb.
Beans, 8 1-3c lb.
Cabbage, 3c lb.
New potatoes, 3c lb.
Loganberries, 75c single crate.
Black cans, \$1.75 crate.
Raspberries, \$1.75 crate.

Local Notes

C. H. Humphrey, the new miller
for S. K. Noel, has taken charge of
the grinding.
Mrs. Nickerson is turning her old
shop into a house. It is on the west
end of Main street.
"The demand for barley seems in-
exhaustible," says Mrs. S. K. Noel in
speaking of the trade of the flouring
mill. "We have a carload coming
from Portland to relieve the local
market."
Mrs. W. B. Clark, of Polk county,
visited her daughter, Mrs. B. A.
Washburne, this week. Yesterday she
left for a visit with another daugh-

IS BURNED TIMBER OF COMMERCIAL USE?

Government Making Tests at Portland to Get Conclusions

Guard Special Service.
Washington, July 20.—How long
will timber remain commercially val-
uable after it has been swept over by
a forest fire? Timber land owners,
as well as the federal government, are
much interested in obtaining this in-
formation, and the government has
just begun an investigation of a large
number of fire areas in Oregon and
Washington in order to determine, if
possible, the length of time which
will elapse after a forest fire before
the timber deteriorates to such a con-
dition as to decrease its commercial
value.
In this connection the forest ser-
vice has also undertaken an investi-
gation to determine the relative
strength of green and fire killed
timber. The material which is to
be tested is being sawed in the
mill of the Eastern and Western
Lumber Company, of Portland, Ore-
gon, where it will be surfaced to exact
sizes and then transported to Seat-
tle, where tests will be made in con-
nection with the forest service exhibi-
tion at the A. Y. P. exposition.
The fire killed trees which are to
yield material for these tests were se-
lected by representatives of the for-
est service on the holdings of the
Clarke County Timber Company, of
Portland, Oregon, near Yacolt, Wash.
This timber was burned over seven
years ago and represents fairly well
the average of burned timber found
in the Pacific Northwest. The logs,
which vary from three to four feet
in diameter, were saved into thirty-
two foot lengths. These are being
manufactured into sixteen-foot floor
joists and bridge stringers.

C. R. Seitz, the forest supervisor,
will not be back from the inspection
of his reserve until the latter part of
the month. He has been to Eastern
Oregon, but now is again in the Mc-
Kenzie country.

Watkins & Miller have quit the
butcher business, their shop closing
Saturday night for the last time.
This move was made necessary be-
cause W. L. DeLano, owner of the
building which they occupied next
door to the old Guard building, is go-
ing to tear down the structure and
replace it with a modern brick build-
ing. J. C. Watkins first began busi-
ness in Eugene twenty-five years ago,
with George Fisher, who is now in
the real estate business. Phil Miller
bought Fisher out a number of years
ago and Watkins and Miller contin-
ued the business together until the
last.
