Spokane, Wash., July 25.—Three men were burned to death in a Walsburg, Wash., fire, which destroyed the Farmers' lodging house at 1 o'clock this morning. The men were sleeping in upper rooms. The cause of the fire is unknown. At 1 o'clock the little girl of Dan Hall, the proprietor of the house, awakened her parents by saying there was a fire in the house. Pieces of wooden ceiling were then dropping through, and in a second the place was ablaze and all had to flee in their night clothes. A woman with a sick husband put him through a window on the lower floor several feet from the ground.

The dead are:  
John Frey, Cottage Grove, Or., a member of the Foresters of America. Walsburg officials were instructed by the secretary of the lodge to hold the body for instructions.  
George Burkhardt, of Redmond, Or., a German, no relatives in America.  
Ehrst Bros., of Redmond, say he has a mother in Germany, has property in Redmond, and asks the city officials to write to the mother.  
The other man was selling a soldering fluid for M. Green Frevort Co., of Spokane. No papers of any kind were found to give his name or address.

This is the finest farm residence in North Lake county, and complete in every detail, modern and up to date. It commands a beautiful site and is a home to be proud of. Mr. Millett retains the crop, stock and farm implements, but these will be taken over by Mr. Peterson, which perhaps will amount to \$2000 additional. Possession will be given January 1st. Mr. Peterson has returned East to dispose of his property there and expects to return during the last of December. His family consists of a wife and four children. The sale was negotiated by Jensen & Milliron.

### Hotel Changes Hands

H. N. Bursell has sold the Junction City Hotel property to Loren Sewell, of Vancouver, Washington, for twenty-one acres of land within one-half mile of the city limits of Vancouver, and a farm of 183 acres in Yamhill county. A large amount of stock and farm machinery goes with the Yamhill farm. The base valuation of the transaction was \$25,000. We have not learned what the intention of the new purchaser is, whether he will move here, or be represented by a local agent. Mr. Bursell is undecided yet just when to take his departure. There will be no change in the management of the hotel, however.

### Small Items

Dr. Kuykendall, together with other parties from Eugene, and also a number of men from this city, will make an auto trip Saturday to Triangle Lake to inspect the water power at the lake. It is the intention to organize a stock company, build a plant and bring in electricity to this place, not only for domestic purposes, but for all kinds of power. Power for any kind of a factory can be furnished. It is stated, for less than half the cost of steam. It is to be hoped that the enterprise will be a go.

The suicide left a letter which showed his name to be Albert E. Parker, and his home at Rolse, Pa. It is not known why he registered as "A. R. Parker, of Seattle." He declared before in life the reason for his suicide.

### MOORS MAY SWEEP DOWN UPON MALAGA

Malaga, July 25.—The steamer Menorquin, with 80 wounded on board, arrived here today from Melilla, where the hospitals are overcrowded. Passengers on the steamer declare the residents of Melilla are panic-stricken, the success of the Moors giving rise to the reports that they will sweep down upon the city itself. ### LONDON GOES WILD OVER FRENCHMAN'S FEAT IN FLYING ACROSS CHANNEL

London, July 26.—Louis Bleriot, the Frenchman who made history by flying across the English channel from Harborough to Dover, a distance of 21 miles, in less than half an hour, and his little monoplane reached London this morning, the former to receive the monetary fruits of his achievement and the latter to be placed on exhibition to the financial advantage of both a London hospital and the enterprising proprietor of the only American department store here.

Bleriot returned to Dover to attend the civic reception in his honor, and was almost mobbed by the enormous crowds which greeted him everywhere. A similar ovation awaited the aviator at London, the "Bleriot fever" having seized a large part of the populace of London, numerous honors and medals awaiting Bleriot on this side of the channel, the principal prize being a gold cup offered by Captain Wyndham for the first flight across the channel. It will be presented to the Aero Club dinner on August 9.

Experts here regard Bleriot's feat as a vindication of the monoplane type of machine over the bi-plane. The Frenchman's machine carries a greater weight in proportion to its plane surface than any other type.

### CONDEMNATION SUITS FOR BIG POWER PLANT

That the Pacific Light & Power Company's big electric power plant at Triangle Lake, as mentioned by The Guard a few days ago, and at several times previously, will be rushed to completion soon is evidenced by the filing of two condemnation suits this morning by L. M. Travis, attorney for the company, to acquire a right-of-way for the power flume through a tract of the Oregon & California Railway Company's land and for a site for the power house.

It is desired to acquire a small tract of three acres from the railroad company. The land is said to be rocky and barren, and a value of \$2.50 an acre has been set on it by the electric company. It is alleged in the complaint that the sum of \$7.50 has been tendered the railroad for the land, but the sum has been refused, and the parties concerned are unable to reach an agreement for the sale of the land.

The other complaint is against T. H. Watkins and to condemn five acres which the company alleges, is worth \$50, and that sum has been tendered Watkins for the land, but he refuses to sell.

The complaint states that considerable construction work has been done. The first filing on the water right was made on September 26, 1906, and on March 25, 1907, actual construction work was begun, according to the complaint.

**Big Capitalist Behind It**  
The Guard has previously mentioned the fact that W. S. Spencer, a capitalist, was behind this project, but little has been said as to his identity. It is learned that he is a big tobacco manufacturer of Cincinnati and is worth at the way from \$5,000,000 to \$10,000,000. He is amply able to build the big plant, which will cost in the neighborhood of \$300,000. As stated before by The Guard, it is proposed to furnish electric power from Triangle Lake, Junction City, Corvallis and other upper Willamette valley cities. It is learned that should the Lane County Assets Company be unable to put its Situla railroad scheme through Spencer and his associates may interest themselves in the matter and build an electric line.

John Francis Bope Put Off the Train and Makes Unexpected Visit at Private Residence

John Francis Bope, about 43 years and single, was committed to the insane asylum this afternoon. He was put off the midnight train here Saturday night by the trainmen because he appeared to be insane, and he was locked up. Yesterday he was turned loose, as he appeared perfectly rational. But later in the day he proved his insanity by going to the residence of R. McMurphy and demanding admission. He was ordered away by Mr. McMurphy, but he soon returned and had to be forcibly ejected from the premises, it taking three men to do it. Bope was then locked up and was given an examination this afternoon before Judge Chrisman, Drs. T. W. Harris and F. E. Selover being the examining physicians.

### CAPITALIST COLEMAN IN POLICE COURT

J. B. Coleman, the well-known capitalist, owner of several business blocks in the city and owner of real estate in San Diego, Cal., was fined \$5 in the police court this morning for using abusive language on the streets. He was standing at Eighth and Willamette streets when Councilman W. S. Moon and C. S. Frank drove by in an automobile, passing close to Coleman, who thought it was a little too close. Coleman called the autoists all kinds of names that wouldn't look good in print, and got so excited that he was heard half a block away by Chief of Police Farrington, who placed him under arrest. Police Judge Bryson assessed him a "V," and it was paid, but not before Coleman told the court what he thought of speeding automobile drivers.
