

DR. COOK WILL BRING HIS ESKIMOS TO AMERICA

Buffalo, Oct. 13.—"I can only say that the actual living human witnesses of my journey to the pole will themselves be able to disprove the distorted conclusions put into their mouths in the statement issued by Peary," said Dr. Cook, who arrived today, to the Associated Press.

"There could be no better testimony given than that given by the men themselves before an unbiased body of inquirers. Peary evidently regards their evidence of the most profound importance, and so do I. It seems to me he might have brought them with him if he was so confident they would corroborate his story. He, however, chose not to do so. I will therefore send for them as soon as possible, and place them at the disposal of any scientific or other body that may desire to examine them with the aid of competent interpreters, whom the examining body may appoint."

Dr. Cook will not enter into a newspaper controversy regarding the matter.

He was given a reception at the Chamber of Commerce at noon.

TWENTY-SIX CENTS PAID FOR HOPS TODAY

The highest price paid in Eugene yet this year for hops was received by James Hinton, of this city, today, 26 cents per pound being received for 25 bales, J. A. Maurer, the jeweler, being the purchaser. He bought them as a speculation, expecting the price to go at least twice that high before the market closes.

There are indications on all sides of a still further advance in the price. A sale is reported at Woodburn at 26 1/2 cents and the sales are numerous around Salem at 25 cents.

HARNEY COUNTY RAISES GOOD GRAIN WITHOUT IRRIGATION

W. W. Haines Surprised at Productiveness of Soil in That Section of the State

W. W. Haines, who returned yesterday from a visit in Harney county, says that part of the state is settling up rapidly and the big cattle ranches are fast being cut up into smaller grain farms. He was surprised, he said, at the amount of grain already raised there and the yield per acre is high, too. During the past season, there has been no rain to speak of at all, but oats yielded as high as 40 bushels per acre and wheat, rye and barley proportionately high. This was an unirrigated ground, where the sage brush had simply been cleared away and the ground plowed. One of the judges at the county fair held there while he was visiting there. He was very much surprised at the amount and quality of grain and fruit raised in that vicinity. As yet there is little irrigation carried on, but when it becomes general that part of the state will be a veritable garden spot, Mr. Haines says.

Brownsville Times: C. E. Roberts, of Grants Pass, was in Brownsville this week for the purpose of securing a place to reside while engaged in freighting on the Natron extension of the Southern Pacific. Mr. Roberts has about forty horses and was looking for a place suitable to keep those not actively engaged in freighting and where feed can be obtained. He did not find what he wanted.

MANAGER CLARK'S HOME RUN PLACES HIS TEAM IN THE LEAD FOR PENNANT

Pittsburg Oct. 13.—Today another great crowd saw the Pirates take revenge on the Tigers for yesterday's stinging defeat. At the last moment Manager Jennings put Summers in the box, having intended to pitch Donovan, and Manager Clarke sent his star twirler to the firing line, although the line-up given out earlier in the day slated Willis for the mound.

Summers was hit hard, but his support was good, and although the Tigers batted well they could not overcome the advantage gained by Clarke's home run in the seventh, which netted the Pirates three runs.

The next game will be played at Detroit tomorrow, and it is thought Jennings will put either Donovan or Mullin, his best pitchers, in the box in a supreme effort to again tie the record for the championship series.

Yesterday's attendance at Detroit was 17,936, in spite of the wintry weather, which made conditions extremely unpleasant for the spectators. It is believed by Detroit fans that Manager Jennings failed to pitch Donovan today in order to have one of his best men twirl tomorrow on the home grounds with thousands of loyal fans to encourage him. If Detroit wins tomorrow, the seventh game will be played on neutral grounds, but if Pittsburg wins, the contest will be over and the Nationals will be awarded the world's championship pennant.

CRANE AFFAIR IS TOPIC OF WASHINGTON

Officials Are Wondering What the President Will Do

Washington, Oct. 13.—"What will the president do with the resignation of Charles Crane, as minister of the United States to China?" is the question which is on the lips of officials in Washington today, and Crane's stinging reply to Secretary Knox has created a diplomatic episode which has greatly excited the national capital. That the president has no intention of interfering with the action of the secretary of state, is indicated by newspaper dispatches from correspondents travelling with the president in the west.

Yesterday Mr. Crane entered a sweeping denial of the charge that he "gave out" a newspaper story which is said to be the cause of his deposition, and placed squarely upon the shoulders of President Taft the responsibility for the various utterances in the Far East, which have aroused the ire of Mr. Knox, and for final action upon his resignation.

NEW RAILROAD ADDS TO PROSPERITY OF PLEASANT HILL FARMERS

Splendid Market for Their Hay and Other Produce — Teams Kept Busy

E. C. Stutzer, the Pleasant Hill real estate dealer, was in the city today arranging for a hunting trip with Hugh Kay, of this city, up the Willamette. He says the construction of the Natron extension has added greatly to the prosperity of the farmers in his neighborhood, in that there has been created a splendid market for everything that the farmers raise. Hay is now selling to the contractors at \$18 per ton, and other produce is correspondingly high.

Every farmer who has spare time can get a job with his team hauling supplies and materials from Goshen to the construction camps. Many take advantage of this in going to their homes from town. They make their regular trips to Eugene to do their trading and upon their return load up at Goshen with railroad supplies.

Mr. Stutzer says one of the county truck crushers is doing good work in his vicinity and the roads have been greatly improved with crushed rock.
