

MRS. FRANCES BURKE-ROCHE DIVORCED FROM AUREL BATONYI

AUREL BATONYI
Mr. Batonyi came to this country from Austria and became noted as a riding master and exhibitor of blooded horses. Mrs. James Burke-Roche of New York and Newport employed him and afterward married him.

New York, Oct. 20.—Mrs. Frances Burke-Roche-Batonyi was granted an absolute divorce today from Aurel

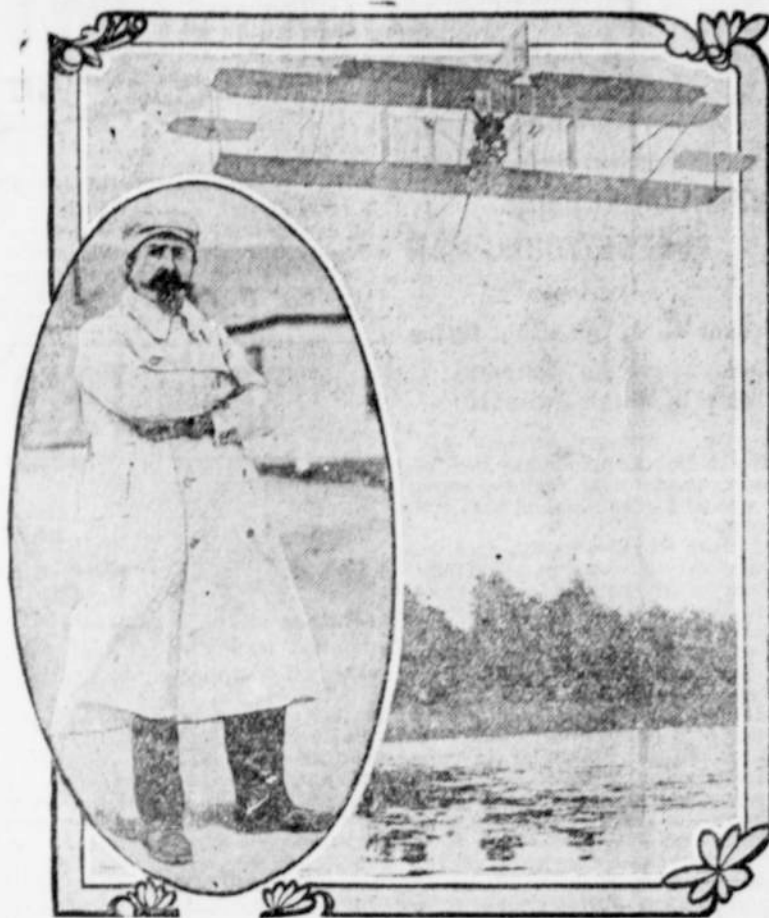

Batonyi, the Austrian horseman. The verdict, which must be continued by the judge, follows two years of charges and counter charges between the daughter of Frank Work, the New York millionaire, and Batonyi, an associate of wealthy horse fanciers. Mrs. Batonyi sued for divorce on statutory grounds, alleging at first ten instances of unfaithfulness, but at the trial withdrew all but two, involving a New York woman.

The husband retaliated by bringing a counter suit and named eleven co-respondents. He also sued his wife's father, her sister and brother-in-law, her cousin and Work's confidential secretary, for damages to the amount of a million and a half, for the alienation of his wife's affections. These actions are still pending.

MAY ELECTRIFY ILLINOIS CENTRAL

Chicago, Oct. 20.—A definite step toward the electrification of the terminals of the Illinois Central Railroad may be taken at the meeting of the directors today. It is estimated by city experts that the project will cost \$6,000,000, while the company's estimate is \$8,000,000 or \$9,000,000.

A marriage license was granted this afternoon to Fred Parker of Canyonville, and Miss Minnie Bogus, of Irving.

CAPTAIN F. S. CODY AND HIS AEROPLANE.

England has not been entirely idle in the matter of aviation while the new science has been advancing in America, France and Germany. Captain F. S. Cody, who has put in many years experimenting with balloons and kites, has made some remarkable flights in an aeroplane of his own invention. His machine is much larger than those used by the Wright brothers, but is easily controlled and is capable of high speed. He recently made a cross country flight of forty-seven miles in sixty-three minutes.

COMMANDER PEARY'S PROOFS ARE SUBMITTED TO EXPERTS FOR THEIR EXAMINATION

Washington, Oct. 20.—Commander Peary's observations, records and proofs that he reached the North Pole on April 8, 1909, were submitted to the National Geographical Society today and referred by that body to the committee on research, with directions to the chairman to appoint a sub-committee of experts to examine the records and report to the board.

The sub-committee of experts comprises Henry Gannett, chief geographer of the United States geodetic survey; Rear Admiral Colby M. Chester, U. S. N., and O. H. Titman, superintendent of the United States coast and geodetic survey.

The society announced that the only question it now had to decide is whether Peary reached the north pole on the date claimed, and the experts will hold their first meeting in a few days and personally examine all of Peary's data.

The wide scope of the question makes it possible that a report of their findings will not be presented for several months.

COOK IS PREPARING

Toledo, Oct. 20.—Dr. Cook said today that he will be ready to submit the proofs of his discovery of the pole to the University of Copenhagen within two months, possibly within a month. He will begin work on his documents at the close of his lecture tour next month.

He added: "There is no reason why the National Geographical Society should be given precedence over any other society in America, and the records will be open to the opinion of all such societies after the University of Copenhagen has completed its investigation. My instruments cannot be brought from Etah until next summer."

THORP WANTS TO KNOW

Copenhagen, Oct. 20.—Rector Thorp, of the University of Copenhagen, today cabled Dr. Cook the following message: "When will you be able to send the original observations and instruments?"

REQUEST IS DECLINED

Copenhagen, Oct. 20.—The University of Copenhagen has declined to forego the privilege of the first examination of the north pole records of Dr. Cook, and the authorities of the university have cabled to the National Geographic Society at Washington as follows:

"Sorry the university is not able to comply with your request."

TO REBUILD EIGHT ALLEGHENY BRIDGES

Pittsburg, Pa., Oct. 20.—A public hearing was held today in the matter of the raising and reconstruction of the eight bridges which span the Allegheny River within the limits of this city. This action was recom-

WILL SELL TOWN AT PUBLIC AUCTION

Salina, Kan., Oct. 20.—Anyone desiring to buy a good town may have an opportunity by going to Shipton, nine miles northwest of here, this afternoon. The village will be knocked down at auction along with the farm of W. S. Irwin, and when he sells his land, personal property and farm implements the village will go along with it.

The Salina Military Band will be present to furnish music at intervals during the afternoon, and Mr. Irwin advertises that while the band is not making music the members of the organization will entertain the women. This is the first time in the history of the county a farmer has provided a band at a public sale, and it is also the first time that a town site has been sold under the hammer in this part of the state.

Shipton is on the Union Pacific railroad, and has a depot, a store building, an elevator, and several residences, and much business is transacted there.

PORTOLA FESTIVAL HAS QUIET DAY

San Francisco, Oct. 20.—After the strenuous opening of the Portola festival yesterday today's program is designed to give both actors and spectators time to recuperate. The chief public entertainment was the children's chorus concert of five thousand voices at Union Square, and a huge crowd packed the square to listen to the singing.

A large number of receptions were held by the various organizations.

OCCASIONAL RAIN TOMORROW'S FORECAST

Oregon—Fair east, occasional rain west tonight.

TYPHOON IN LUZON WROUGHT GREAT HAVOC

Loss of Life Heavy and the Damage to Property Is Great

Manila, Oct. 20.—A typhoon of unusual severity occurred in northern central Luzon Sunday night, but wire communication was cut off and details are lacking. A courier to Dagupan from San Fabian says the loss of life is heavy.

Later reports indicate that the damage wrought by the typhoon was greater than at first believed. The famous Benguet road, extending fifty miles from Dagupan to Baguio, where the government has established a summer capital and health resort, damaged to the extent of \$250,000.

Damage at Hong Kong.

Hong Kong, Oct. 20.—Many casualties attended a typhoon which has caused havoc in the native shipping, and damaged other vessels in ports along the coast last night. Many lives were lost.

GYPSY SMITH'S REVIVAL PARADE

Opinion Is Divided as to Its Good or Bad Results

Chicago, Oct. 20.—Opinion is divided today as to the wisdom of Monday night's parade, when 12,000 church workers, under the leadership of Gypsy Smith, the evangelist, marched through Chicago's tenderloin district. The resort keepers declare that business last night was better than ever before.

A woman who has lived in the district for the last five years said: "From a business standpoint, I suppose that I should be pleased, but I was sorry to see so many young boys attracted to the district for the first time in their lives."

The police of the tenderloin reported that the district did the biggest business in its history.

The revivalists declare that the demonstration was simply "marvelous" and did a great deal of good.

Gypsy Smith is one of the most prominent evangelists in the country and when holding a meeting in the large cities always devotes one night to the tenderloin, when he with his followers marched through the district and plead with the women and men to lead better lives.

BUCHANAN DIED FROM NATURAL CAUSES

London, Oct. 20.—The verdict at the inquest over the remains of Wm. J. Buchanan, the American diplomat

WILLIAM J. BUCHANAN found dead on the street Saturday night, was that death resulted from natural causes.
