

A Poor Weak Woman

As she is termed, will endure bravely and patiently agonies which a strong man would give way under. The fact is women are more patient than they ought to be under such troubles.

Every woman ought to know that she may obtain the most experienced medical advice free of charge and in absolute confidence and privacy by writing to the World's Dispensary Medical Association, R. V. Pierce, M. D., President, Buffalo, N. Y. Dr. Pierce has been chief consulting physician of the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y., for many years and has had a wider practical experience in the treatment of women's diseases than any other physician in this country. His medicines are world-famous for their astonishing efficacy.

The most perfect remedy ever devised for weak and delicate women is Dr. Pierce's Favorite Prescription. IT MAKES WEAK WOMEN STRONG, SICK WOMEN WELL.

The many and varied symptoms of women's peculiar ailments are fully set forth in Plain English in the People's Medical Adviser (1008 pages), a newly revised and up-to-date Edition of which, cloth-bound, will be mailed free on receipt of 31 one-cent stamps to pay cost of mailing and postage. Address as above.

SPRINGFIELD AND VICINITY

PROGRAM OF GRANGE FAIR AND FARMERS' INSTITUTE THIS WEEK

Congressman Hawley and Representative McArthur to Speak Next Friday

The program for the fair and farmers' institute to be given under the auspices of the Grange at Springfield Friday and Saturday, the 29th and 30th is as follows:

Those having exhibits are earnestly requested to bring them on Thursday to be placed and recorded.

The doors of the Odd Fellows hall will be open to visitors at 9 a. m., Friday and Saturday. A baby show will be held at 11 a. m. Friday. Suitable prizes will be awarded to the babies receiving the highest number of votes cast by their attendance.

At 1:30 p. m. Friday, A. P. Stover will give an address on irrigation. At 3 p. m. Congressman Hawley will speak to the people on "What the government is doing for the farmer."

At 7:30 p. m. State Representative C. N. McArthur will give an address. Owing to the fact that Saturday is Pomona day, the halls containing the exhibits will necessarily be closed from 11 a. m. until 2 p. m.

All persons are invited to attend and to assist in making the display at the fair such as the people of Lane county may well feel proud.

To defray necessary expenses incurred an admission fee of 10c will be charged. Children from 6 to 12 5 cents.

J. W. BERTSCH, W. S. DODD, S. WESTFALL, MRS. McBEHE, MRS. EMORE, Committee.

TWO BIG ELECTRIC GENERATORS ARRIVE

Two big black boxes on flat cars in the freight yards have attracted more or less attention and curiosity from those who have seen them. The boxes or houses contain two electro-generators for City of Eugene's power plant on the McKenzie. In the other box cars is more equipment for the plant. The turbines are very large and heavy and the condition of the roads is such that they cannot be moved to their place up the river until next spring. Surprised at the rapid growth of this city and being pointed out its resources, he bought one lot as an investment, but no sooner had he received the deed for this than he turned around and bought another. The deals were made through Maglady & Shumate.

MILLIONAIRE INVSETS IN TOWN LOTS

John J. Bagley, Jr., son of the world-famous tobacco merchant, and ex-governor of Michigan, a Detroit millionaire, has picked Springfield as a good town for investment by the purchasing of two lots here. Mr. Bagley, who has been traveling on the coast, happened to stop off here to look after some timber interests up the rivers. Surprised at the rapid growth of this city and being pointed out its resources, he bought one lot as an investment, but no sooner had he received the deed for this than he turned around and bought another. The deals were made through Maglady & Shumate.

EMERALD HEIGHTS PLAT ACCEPTED

The council held a special meeting Wednesday evening to accept the plat of the new addition, "Emerald Heights." This was formerly the old Kelly place. It has been cut up into city lots and streets have been laid out and are to be graded. Maglady & Shumate who have the plat of this land, are having big cuts made of the drawings of the addition and will do extensive advertising, as they did with the "Study the Map" ad.

CATTLE BEING SHIPPED OUT

Mr. Machen, of the firm of Perkins & Machen, who have the big railroad meat contract, took two carloads of steers to Portland yesterday. Since they have had the big contract the cattle market has been overrun. The steers that they are shipping are fancy beef that they considered too good for the local and railroad use. Such beef is now bringing fancy prices in Portland. It is quite probable that in the course of a month or so the cattle supply will become small and they will have to ship cattle in themselves.

ARC LIGHTS WILL SHINE THIS WINTER

Springfield is going to have her arc lights this winter after all, and the Northwestern Corporation promises to have them by the first of next month. The arc light committee appointed by the Commercial Club to endeavor to make terms with the company succeeded by a compromise. The city did not want to contract for more than a year, while the light company asked for a six years' contract and wanted \$6.50 apiece for the lights. The terms secured are nine lights for six years at \$6.00. The lights will be placed from Mill street to Seventh on Main street and one on Second street at the mill race bridge, and one at the river bridge.

BEGIN BOOSTER FUND CANVASS MONDAY

The committee will begin the canvass for the big booster fund next Monday. The canvasser will be very thorough, and they will slight no one. The fund stands now at \$672, and they expect to raise that much again, and from the spirit shown doubtless that much, if not more, can be raised. Subscription blanks and other stationery is now being printed.

The shingle mill is now employing four men and turning out 10,000 shingles daily. These are bought for local use and by the Booth-Kelly Co. as fast as they can be turned out.

The Roofs-Gordon-Kester hunting party has returned from their Southern Oregon trip. They killed four deer. On their return they met the party of Mayor Peery, who had killed three deer the first day.

A dance club has been organized and they will hold dances every Saturday night in the opera house.

Lloyd Howe, of Eugene, is working the drug store during Mr. Peery's absence.

The High school football team has been going through some strenuous practice the past few days. Two full teams have been out "bucking the line."

The fire protection the S. P. Co. maintains on the trestle across the river is comparatively slight. Out of seven barrels that are supposed to contain water two are half full and the rest dry, or nearly so. The same condition is true on the trestle near Springfield Junction.

The recent rains have raised the river at Springfield only two or three inches.

Miss Ettesse Peery, daughter of Springfield's mayor, is seriously ill with appendicitis and her condition during the past few days has been very critical. The sickness has been quite sudden, being only this week that she has been ill.

The Peery-Miller-Kirk hunting party are home from their Southern Oregon trip with seven deer, as trophies, of which Mayor Peery killed three. Their trip was quite eventful and they all report a good time although they are somewhat tired and glad to be home.

The Springfield flour mill is unloading a car load of barley shipped from Eastern Washington; there is very little barley grown locally.

The fall wheat is still coming in although many weeks later than has been the custom. The roads are now quite good, this probably causing the unusual delivery of grain this week, but as soon as the rain begins the wheat will stop and the mill can begin grinding its own wheat which has so far been untouched in the bin.

Hayward & Son have this week wired one letter in the sign and placed 20 four-candle lamps to show how the sign would look if better lighted. This lighting would require 150 lights. At present there are not enough lights, 39 in the whole sign, so the effect at night is not what it should be. More lamps though smaller will outline the letters better. This will increase the cost to some extent.

Maglady & Shumate have in their office windows and enormous squash that was raised on the McKenzie. The thing is almost within reach, three feet long and a foot in diameter. It would get pretty heavy if one had to carry it very many miles.

Hayward & Son go to Portland this week to secure a large stock of electrical and plumbing fixtures for this winter's work here in Springfield. They are kept very busy on the new buildings that are being erected almost faster than they can keep up. They have had six and seven men at work for them for the past month or so.

Dancing Club.—Dances are to be held every Saturday night at the opera house during this winter. Good music. All are invited.

CLERK'S OFFICE FEES DOUBLE IN 5 YEARS

The business done at the county clerk's office is a true and infallible index to the growth and prosperity of the county. According to figures furnished The Guard by Clerk Lee, the receipts of the office have more than doubled in the past five years, indicating a rapid growth in that time. For the month of September in each of the past five years, the receipts of the office have been as follows: 1905, \$500.75; 1906, \$595.45; 1907, \$627.30; 1908, \$744.55; 1909, \$1,027.45.

COMMISSION MEN CANNOT GET EGGS

They Offer 33 to 36 Cents for Them, But Can't Get Enough for Their Customers

Eggs are eggs these days. Commission merchants report that they are unable to get near enough to supply half the wants of their customers, and Smith, the Ninth street dealer, has quit buying them altogether until they become more plentiful. They are offering from 23 to 36 cents for eggs, and the grocery stores are retailing them at 40 cents. Every day most of the stores run out, and many are the disappointed customers, who have to eat their ham without eggs for breakfast.

Butter remains at the same old price, the creamery product retailing for 80 cents and that from the country at from five to ten cents lower.

Young chickens have taken a drop since the last report, ten cents straight being paid by the dealers for a week or two, with the trend upward, and dealers are urging country shippers to send in all they can. A generally good egg market through out the Fall and Winter is expected.

The veal market has for some days been a little overstocked, and stuff not up to standard has come on the market. For fancy stock there is a good demand at 10 1/2 to 11 cents, and dealers look for the maintenance of prices. Country dressed pork moves well at current quotations.

The feeling is gaining ground in the hop trade that something is about to happen. The long expected advent of export buyers is probably not far off and it would occasion no surprise if foreign orders should begin to come in before the week is ended. It is a foregone conclusion that opening up of the export trade will mean an advance in prices.

In the meantime the market is exceedingly strong. Prices have risen steadily since the beginning of the season with no support except that afforded by the purchases of speculators and the comparatively few Eastern orders that have come along. The latter are now appearing in better volume and the efforts made to execute them have encouraged a position now to ask almost what they please should the London buyers come into the market with heavy orders.

A fair amount of business was reported through the state yesterday. Among the sales was the Olsen lot of 64 bales at Salome to Clin & Yinn at 25 cents and the Heissel lot of 16 bales at Banks to the Sevey Hop Company at 24 cents.

A letter from New York to Klaber, Wolf & Netter stated that three-fourths of the New York crop has been sold and no exporters have bought there yet, while the holders of big lots are asking 40 cents and more.

A cable from Ironmonger, of London, to Isaac Pincus & Sons, follows: "Market firm. Prices shade higher, about 5 shillings. Active at the advance. Estimates three-fourths of English crop sold."

Fruits and Vegetables Moving.—Though the trade was not brisk there was fair activity in both fruits and vegetables today, and in oil lines prices held approximately at yesterday's level. Grapes were the most active factor in the fruit market, and Southern Oregon and California sold in a satisfactory way at 75 cents to \$1.25 a crate. Local Concord moved at 1 1/2 cents a basket.

One of the features of the vegetable trade is the abundance of cabbage. The crop in the gardens near the city is a large one and the market has for several days been overstocked by the growers. As a result prices have fallen, the stuff going today at 75 cents to \$1 a hundred.

A steamer consignment of green stuff from the South was received today.

Prunes Firmer in the East.—The latest issue of the New York Commercial says of the prune market: "In prunes the market is very firm. The market on the Coast is a firm on a 3 1/2 to 3 3/4 basis on 40s, with 2 3/4 basis on Santa Clara 50s to 90s inclusive given. There is a limited offering in Oregon prunes for shipment from the Coast, especially on the sizes 30s and 40s. The general tendency of the market is toward a higher level."

Fresh Meats Sell.—Hogs are in good demand among the commission men and veal moves readily at 12 1/2. Several good veals reached Front street this morning. The vegetable market was pretty well supplied this morning. One dealer received a large shipment of celery, but expecting for it the article scarce along the street. Lettuce moved well.

Portland Livestock Market.—Union Stockyards, Stockdale, Oct. 27.—Another surprise was sprung this morning when a lot of 90 hogs sold for \$8.10 per hundred, 5 cents higher than the price paid yesterday for what was considered the very best stock. The hogs that brought this price came into the pens from a pound and a dwere in the finest of condition. The hog sales during the day were heavy, several lots bringing \$8 and thereabouts.

The first sheep seen around the yards for several days arrived here this morning from Corvallis. All the ewes were owned by Eli Bangs but last week purchased by A. F. Baker, of Eugene.

A great deal of crushed rock has been hauled and placed in a ridge in the middle of the road and, as usual, left for the travel to level, which occasionally causes an amount of complaint from all travelers.

PLEASANT HILL NEWS

Special Correspondence. Pleasant Hill, Oct. 27.—Best of weather for farming—cool, with soil in just the right condition for working. Grass and early sown grain is growing well.

Frank Goodman has sold all his farming interests to his brother, William, and moved back to Eugene.

Chester Riggs, of Harrisburg, is visiting relatives near here this week.

C. E. Gordonier has drilled several deep wells here lately, two on the H. Wheeler farm, and one each for Taylor, Neesham, Mr. Harden and Wm. Goodman.

Dr. Thatcher has completed his new bungalow, and moved here with his family to reside.

P. M. Warbinton left yesterday for Portland, near which place he has employment for the winter.

E. P. Lattin is building an up-to-date residence on his farm here.

Uncle John Shelley has remodelled and repainted his large farm residence, and it now looks "as good as new."

Halsey Callison and family have returned from Pleasant Hill after several years' absence. They have rented the old home farm of his father, J. D. Callison.

Mrs. F. C. Drury, of Marcola, is visiting relatives here.

Fred Cook has rented the large farm just vacated by T. F. Churchill, and farm is owned by Eli Bangs but last week purchased by A. F. Baker, of Eugene.

A great deal of crushed rock has been hauled and placed in a ridge in the middle of the road and, as usual, left for the travel to level, which occasionally causes an amount of complaint from all travelers.

Twenty-nine pupils are now attending the High school, nearly double the registration of last year. A new building next year will be not only necessary, but indispensable, if the present popularity and status of the school is to be maintained.

Mrs. Lucetta Baughman has remodelled her residence and installed a complete water system, an engine furnishing the necessary power.

S. P. Ness, of Eugene, was a business visitor in Crescent Saturday.

Dr. Leep, of Eugene, enjoyed a fine day of pheasant hunting near Crescent Saturday.

Judge L. T. Harris and wife, of Eugene, were among those who came to Crescent Saturday to attend the booster meeting.

Frank Schmitt left Monday night for Portland, from which point he will proceed by water to Eureka, California, with two horses for the Ruby company. Herman Schmitt starts for Eureka by rail this week.

C. C. Mittan, who for some time has been connected with the Ruby Horse company of Portland, has severed his relations with that firm and is again residing on his ranch at the edge of Crescent on the north.

Schmitt Bros. received last week a new feed mill which they now have in operation at their barn. The mill has a capacity of 40 bushels an hour and does its work in a very satisfactory manner. Feed will be ground Tuesdays and Fridays of each week.—Chronicle.

The Utah Construction company is building a thirty-two mile modern phone line from Natron to Hazel Dell for its own use. The present party phone has proved impractical because of the poor and delayed service. A telephone will be placed in every contractor's and surveyor's camp with the exchange and headquarters at Natron. In this way the whole length of the line is immediately in communication with the head office, the delays of messenger service being eliminated. The Utah company is building this railroad in the most modern method and nothing that is serviceable or practical is too expensive.

Attorney Andrew L. Chezem, formerly of Eugene, and well-known here, but now practicing law at Mattoon, Ill., has made quite a reputation for himself in the papers of that state by the brilliant defense made by him in a prominent murder case against the state prosecuting attorney, Charles Fithian, assisted by two other old prosecuting attorneys, G. W. Pithian and J. W. Gibson. The Mattoon Morning Star has two columns on the front page telling of the victory, and the "masterful manner in which Judge L. Chezem conducted the defense."

According to the Roseburg papers A. H. Hinkson and wife, of this city, have just bought over 700 acres of timber land in Douglas county. Another real estate transfer recorded there is from Julius Goldsmith, of Eugene, to the Noud-Blacher Timber Company, 160 acres in section 29, township 21 south of range 8 west. The consideration is given at \$10.

Judge M. L. Pipes and Attorney A. C. Woodcock returned this afternoon from a hunt at the latter's farm below Irving with a number of Chinese pheasants under their arms.

Dr. and Mrs. Thatcher, who came here some time ago from Helena, Mont., have come to their farm which they purchased near Pleasant Hill, back of Dr. Sharples' farm.

J. E. Whitaker, of Thurston, is home from Garfield, Wash., where he spent the past summer. He reports large crops here and good prices received by the farmers.

J. L. Beaver, of Pleasant Hill, was a county seat visitor Saturday.

Louis Mendall was down from his day, looking after business matters.

H. O. Atkin and wife of Fort Stanton, N. M., were arrivals here last night.

GOOD STRIKE MADE AT N. FAIRVIEW MINE

Cottage Grove, Oct. 21.—A rich strike has just been unearthed on the main claim belonging to the North Fairview Mining Company in the Bohemia mining district that promises to surpass the famous Helena and Sucker creek property of Southern Oregon. The find was made this week and is nearly 200 feet below the tunnel where the rich free gold ore was found four years ago. The ore is literally covered with gold, and was found at the grass roots. The ledge is five feet wide, but only two feet of this ore so far is free gold. From this the find to nearly 200 feet above this point gives the company one of the longest shoots of rich ore that has been found in quartz on the Pacific coast.

George W. McQueen, president of that company, arrived from there today and brought some samples of the new find that fully bore out the reports. The ore is bright quartz and the gold can easily be seen all through the ore. The report of this discovery has aroused much excitement here today. The find is to be closely guarded, but developments are to be rushed forward as speedily as possible.

The local exhibit, which was shipped to Albany last night, consists of 25 boxes of fine collection of apples as ever been seen in this part of the state. There are a few varieties that have been found in Newtown Pippins, etc. They are as fine as can be grown in either the Rogue River or Rogue River valleys and are being shown to the public to show the quality of the apples grown in this locality.

A great interest is being taken in the apple show this year and the attendance is expected to be larger than ever before. The Southern Pacific Co. has advertised it extensively, offering low rates to and from Albany from all points on the company's lines in the state.

Secretary Rice, of the national association, will be there and will endeavor to secure the entire exhibit for the national show at Spokane to be held soon.

Secretary Rice, of the national association, will be there and will endeavor to secure the entire exhibit for the national show at Spokane to be held soon.

S. P. EARNINGS IN OREGON FOR YEAR ENDING IN JUNE

Nearly \$3,000,000 Net—Wells Fargo Express Cleared Over \$1,000,000

Salem, Or., Oct. 29.—According to the report of the Southern Pacific Company received at the office of the Railroad Commission this morning, the net income of the railroad corporation in Oregon alone for the year ending June 30 was \$2,791,393.67. The total revenue in Oregon was \$7,099,081.23. The total expenses, including taxes, were \$4,127,687.56. The taxes in this state equalled \$1,266,517.32.

The total earnings of the Southern Pacific outside the state of Oregon as well as within the state for the year ending June 30 were \$21,066,550.83. Dividends were declared equaling \$17,336,710.74. Seven per cent on preferred stock was declared and 6 per cent on common stock.

The report of the Wells-Fargo Co. was also received this morning, and the officials have approximately estimated the income from interstate business in Oregon to have been \$278,724.73. This is the gross income and the amount paid for privileges to railroads in Oregon equalled \$118,589.40. The total operating expenses of the Wells-Fargo Company outside the state as well as in the state of Oregon, ending June 30, was \$13,040,932.77; operating expenses amounted to \$9,644,933.85; net revenue, \$3,395,998.73.

Frank Schmitt left Monday night for Portland, from which point he will proceed by water to Eureka, California, with two horses for the Ruby company. Herman Schmitt starts for Eureka by rail this week.

C. C. Mittan, who for some time has been connected with the Ruby Horse company of Portland, has severed his relations with that firm and is again residing on his ranch at the edge of Crescent on the north.

EUGENE SENDS FINE DISPLAY TO ALBANY

The Lane county display at the Albany apple show, which opens tomorrow and continues for three days, is expected to secure at least the second premium, but the Eugene Growers' Association, which had the matter of display in charge, packed the
