GREAT PARLIAMENT FIGHT IS ON IN OLD ENGLAND

BILLS DESTROYED BY THE LORDS IN LAST FOUR YEARS

- **1906—Rejected Plural Voting Bill.**
- **1906—Destroyed Education Bill.**
- **1906—Carried an amendment excluding Scotland from provisions of Feeding of School Children Bill.**
- **1906—Rejected Bill prohibiting Importation of Foreign Blacklegs during Strikes.**
- **1907—Rejected Scottish Land Valuation Bill.**
- **1907—Rejected Scottish Small Holdings Bill.**
- **1908—Rejected the Licensing Bill.**
- **1909—Rejected London Elections Bill.**
- **1909—Refused to pass the Budget.**

London, Jan. 8.—King Edward's second Parliament, one of the most memorable in the nation's history, was formally dissolved by His Majesty today, and writs were issued for the new election. Borough pollings will begin next Thursday, and county pollings on January 19, continuing daily to January 24. The new Parliament will assemble about February 14th.

Evidence is accumulating that the election contest now in full swing will be one of the hardest ever fought in Great Britain. The leaders of both big parties, and of the Laborites and the Nationalists, have planned programs which make it a certainty that the people in every part of the country will hear the questions of the House of Lords, tariff reform, free trade, socialism and other side issues discussed from every point of view. Premier Asquith will take an active part in the conflict.

Recognizing that a victory of the Unionists would stop social reforms, the Labor party leaders have agreed to the Liberal proposals to avoid triangular contests by recommending the withdrawal of a score of Labor candidates. The Laborites will contest only the seats they held in the expiring Parliament.

It is increasingly evident, now that the crisis has been reached, that the present government, to be successful and to remain in power, must bend all its energies to the thwarting and possible overthrow of the Lords. The list of bills destroyed by the Lords during the last four years is being used as damning evidence in this campaign.

It was just four years ago today, on January 8, 1906, that the "Khaki Parliament" was dissolved, and in the subsequent election the Liberals won a sweeping victory. On April 5, 1908, Sir Henry Campbell-Bannerman resigned the premiership on account of ill health, and Mr. Asquith, formerly chancellor of the exchequer, became premier.

Then came the immortal Lloyd-George budget, which the Lords refused to pass, and the present appeal to the country. The real essence of the Lloyd-George program, to which remier Asquith and the Liberal Party is pledged, is the increase of the taxation of wealth and capital, to the corresponding relief of the ordinary citizen and consumer. It harks back to Adam Smith's maxim that "the subjects of every state ought to contribute towards the support of the government, as nearly as possible, in proportion to their respective abilities; that is, in proportion to the revenue which they respectively enjoy under the protection of the state." The Lloyd-George program is not revolutionary; but since its fate has become so intimately bound up with the constitutional prerogatives of the Commons it may prove the salvation of the waning power of Liberalism.

The four-year reign of Liberalism, on which the party in power must stand or fall in the coming contest, has been one of notable successes, as the enactment of the trades disputes bill and the eight-hour law for labor in mines, the establishment of old-age pensions, the remodelling of the army, the liquidation of public debt and the lessening of the burdens of taxation upon the middle and lower classes. There have been equally notable failures, especially the defeat of the education act, the plural voting act, the licensing act and the Irish act of 1907; and to this melancholy list must be added Mr. Lloyd-George's budget. The Irish act failed because of the attitude of the Irish themselves, but practically every other defeat that the Government has suffered has arisen from the obstructive course pursued by the overwhelming Conservative majority in the House of Lords. Since the throwing out of the budget the "mending or ending" of the upper house, so actively discussed after the defeat of the education act of 1906, has once more come to the surface as after all, the fundamental issue in the Liberal regime. In June, 1907, the Commons went on record in passing, by the huge vote of 432 to 147, a resolution to the effect that the veto power of the hereditary house ought to be abolished. Until the events of the past few months, the cause of Liberalism has been none too strong, and its warfare upon the privileges of the Lords was waged under increasing disadvantages. As things now stand, however the party may soon find itself in a position to carry the resolution of 1907 into effect, or even to go much beyond that. Thwarted by the Lords, the Liberals cannot hope to execute their program of government. Failing in the execution of their program they lose favor with their constituents. This is the cold logic of the situation. The present Liberal Government, or any that may in future be constituted, must depend for its very life upon the subordination of the Lords. This is nothing more than Gladstone perceived fifteen years ago, but the issue has only now been brought to a crisis.

PRESIDENT TAFT'S MESSAGE CONTAINS NO NEW SUGGESTIONS

Washington, Jan. 7.—President Taft's special message dealing with amendments to the interstate commerce laws looking to more effective federal supervision of railroads and conveying his recommendations for the passage of a federal incorporation act was transmitted to congress today and read in the house, the senate not being in session.

The message follows closely the forecasts made from time to time and in it the suggested legislation as to railroads embodies all of the suggestions the president has made in his speeches on the subject.

President Taft suggests no change in the Sherman anti-trust law at this time, and the anti-trust feature of the message deals solely with the subject of federal charters. The President thinks that an opportunity should be given the big industrial combinations to bring their business once more into the "zone of lawfulness" by taking out federal charters under certain prescribed conditions before it becomes necessary to proceed against every corporation about which there is a breath of suspicion. Wholesale investigation and possibly prosecution, the president points out, would result in a serious disturbance and produce a halt in our present prosperity that will cause suffering and strained circumstances among the innocent many for the faults of the guilty few.

After reading the president's message in the house, it was referred to the appropriation committee.

Forest Service Probe.

Representative Fitzgerald, of New York, offered in the house an amendment to the joint resolution providing for the investigation of the interior department and forestry service by eliminating the forest service from inquiry.

BROWNSVILLE CITIZENS DESIRE EARLIER TRAINS

Brownsville, Or., Jan. 10.—At a meeting of the Commercial Club of this city Wednesday evening resolutions were passed condemning the present train service between Brownsville and Albany. A committee was appointed to draft resolutions to present to the Southern Pacific officials asking for a better service. Under the present schedule produce shipped from this place to Portland will not reach Albany in time to make connection with the early train to Portland, and consequently does not reach the latter place in time to be delivered the same day it is shipped. This feature is causing Brownsville to lose trade and the dealers here are up in arms. It is hoped a change bettering conditions will be effected before the warm weather sets in, else most perishable goods will be taken to Halsey for shipment.

GOOD LIVE AGENT WANTED

in each county to handle the new instantaneous or Highlow hollow wire Gasoline Lighting system. Finest light eved patented for stores and homes. Exclusive territory.

COTTAGE GROVE ENTHUSES OVER DEBATE VICTORIES

Cottage Grove, Or. Jan. 10.—The citizens of Cottage Grove were enthusiastic Saturday over the success of the six high school pupils, victorious in their debate with the Junction City and Springfield high school debating teams Friday night. Interest was intensified upon the arrival of the three debaters at 3 p. m., from Springfield. Benjamin King, the leader, was carried to Phillips Hall on the shoulders of his classmates, and the Misses Allie Phillips and Myrtle Kem were conveyed to the hall in a carriage, drawn by high school boys, where they were joined by their successful colleagues, Misses Gladys Farley, Armorald Sutcliffe and Myrtle DeSpain. A few of the speakers at the hall were: R. M. Veatch, ex-United States Congressman; O. M. Kem, of Nebraska; J. I. Jones, F. H. Rosenberg, F. B. Phillips, C. C. Hazelton, Revs. Messrs. Sutcliffe, Adams and Elkins, Superintendent, E. K. Barnes and Professor Inlow, Dr. Wood, and Misses Wood and Wilson, and Mrs. Goodman.

C. E. Bailey, of Junction City, was in the city today.

NORTHWEST IS FARM CENTER OF UNITED STATES

Spokane, Wash., Jan. 10.—Four hundred and four million dollars is the value of the products of 211,000 farms in Washington, Oregon, Idaho and Montana in 1909, a gain of 75 per cent. since 1900. The assets of the farmers are practically double those of 1904, their debts are considerably less, while the surplus is larger than ever before in the history of the country. The number of farms and the wealth productions in the four states are approximately as follows.

States	Farms	Production
Washington	66,000	$104,000,000
Oregon . .	79,000	114,000,000
Idaho	40,000	72,000,000
Montana . . .	30,000	$114,000,000
Totals .	211,000	$404,000,000

The foregoing figures show there is need for more farmers in the northwestern states and that millions of acres of lands, now idle, could be put under cultivation on a substantial revenue - paying basis. There are many who believe that the days of the bonanza farms are numbered, which means that with smaller holding there will be more intensive farming, and, as a consequence, larger acre crops.

The farm products of 1909 in the Inland Empire, taking in Eastern Washington, Oregaon, North and Centare valued at $110,000,000. A norare valued at 110,000,000. A normal apple crop at present prices instead of a yield ranging from 35 to 40 per cent, would have placed the figures approximately $117,000,000 as against about $90,000,000 in 1908.

Wheat, of course, was the big factor, the four states producing more than 75,000,000 bushels, of which 35,780,000 bushels is credited to Washington, 16,377,000 bushels for Oregon, 14,465,000 bushels for Idaho and the rest for Montana. The other farm products entering into the computation are fruit, oats, barley, rye, hay, sugar bets, potatoes, garden products, live stock, dairy products and poultry and eggs.

The foregoing figures become important in the development of the western country when it is known that in many instances the products of the older farming state are not as valuable as those in the quartet mentioned, which, less than a quarter of a century ago were considered to be largely worthless lands. It means, too, that with the influx of population and outside capital for development purposes there will be more farms and a greater wealth production.

There are 6,741,000 farms, or about 5,000,000 more than in 1899, in the United States today, and the value of the products for 1909 is placed at $9,600,000,000. This shows that fully one-third of the population of the country is engaged in the various forms of agriculture.

It is believed by many that the result of the country life and back-to-the-land movements will be to raise the percentage of farmers to 40 in a few years, thus placing the nation in the position of an exporter and raising the wealth production to the 11-figure notch.

REV. E. L. JONES BUYS THE ALBANY HERALD

Albany, Or., Jan. 10.—Rev. E. L. Jones, a former resident of this city, but recently from Portland, purchased the Albany Herald plant Saturday from W. A. Shawman, of Oregon City. He took charge today. Mr. Jones was formerly a student at Albany College, and for some time was pastor of the Evangelical church in this city. During the past year he was employed by the real estate firm of Jacobs-Stine, of Portland.

WALTERVILLE ITEMS

Special Correspondence.

Walterville, Jan. 8.—The rain was welcomed by the farmers of this vicinity.

The Misses Stacey have returned to Creswell to take up their school work again.

Aaron White has returned to Blue River, where he is teaching school.

The Walterville school has resumed work, after a two-weeks' vacation.

Deerhorn school district has voted a twelve mill tax for the purpose of building a new school house.

During the Christmas holidays several parties and gatherings of young people were held at various homes in the neighborhood, and all enjoyed themselves to the fullest extent.

The people have been anxiously waiting for the decision of the county court. The majority seems to want a forty-foot road, while a few would like to see a sixty-foot road established.

Claud Dever, who recently sold his property to Tom Paine, left on New Year's for Sheridan, Wyoming, where he expects to make his future home.

Ed Cooper has gone to Eugene on a business trip.

Eugene Goff, a tonsorial artist of Natron, spent the holidays with relatives and friends here.

A friend of Ray Rennie's from Eugene was visiting here a short time ago. During the stay Ray and Atkins took a party of girls out riding. Ray allowed young Atkins the privilege of taking one of his lady friends home, which ended in a runaway. The team took advantage of the driver while he was tending the lines with one hand. Fortunately the occupants escaped unhurt.

Pay for Enumerators

Washington, Jan. 10.—Census enumerators in sparsely settled districts turn from Greenland and Copenhastead of being paid according to the number of persons visited.

16 DEATHS FROM TYPHOID AT SALEM

Salem, Or., Jan. 10.—Un to date there have been 185 cases of typhoid fever reported to City Health Officer O. B. Miles. This is an increase of about 50 in the number of cases reported in the past three weeks.

There is also considerable typhoid at other points in Marion county, Dr. R. D. Byrd, county health officer, reports three cases from points outside the city in September, four in October, four in November and three in December.

There were no deaths among the county patients during September and October, but five died during November and December. Therefore Marion county has had up to this time during the present winter, 199 cases of typhoid fever. Reports indicate that the death list in the city will exceed 16 to date.

Mayor George F. Rodgers, has just completed an experiment which has convinced the city officials that the principal trouble with the Salem water arises from the contaminating influences of the slough through which the intake pipe passes. A sample of water was taken from the crib, under the river bed, and another from the intake pipe near the pumping station. The sample taken from the crib was found to be pure and the sample from the shore end of the intake was badly infected with colon bacilli.

ARRESTED ON CHARGE OF ASSAULT WITH DANGEROUS WEAPON

Siuslaw Man Is in Trouble — Other Lower Valley Notes

A warrant was issued in Justice Severy's court a few days ago on complaint of A. W. Stonefield, for the arrest of Berry Bray, son of Ira Bray, of Heceta, on the charge of assault with a dangerous weapon.

Walter Haring, as constable, went out to Heceta and placed the young man under arrest and brought him to Florence Saturday afternoon.

The case was set for hearing before Judge Severy Manday morning. At that time a change of venue was secured and the case transferred to the justice court in Heceta precinct. Bray was released from custody on giving bonds for $250 to appear at the trial.

It seems that the parties had some difficulty, which culminated in a rock being thrown by Bray and striking Stonefield on the back of the head.

A physician was called to Heceta on Monday to attend to Stonefield, who did not come to Florence for the trial.

Death of Mrs. Brogan

At Bisbee, Arizona, on December 13, 1909, Mrs. Myrtle Brogan, aged 33 years, 5 months and 10 days. She was formerly Miss Myrtle Young, and was brought up near Mapleton. She left a husband and four children, the eldest being ten years old, and the youngest born only a few hours before its mother's death.

A New Boat

We learn that a party who was here a short time ago and looked over the situation, has about decided to bring a steamer here to ply on the waters of the Siuslaw. The boat will be in charge of a captain who is well known to our people, is careful and accommodating, and who will receive a large share of the patronage of the public.

Brief Notes

Last week William Brynd sold his confectionery and tobacco store to his son, Walter Brynd, and Percy Cox. The new proprietors took possession January 1.

A bakery is among the new enterprises soon to be started in Florence. Mr. Titus has rented Mrs. Morgan's building on Front street, and intends to open a bakery there before long.

The Mercer Lake school opened on last Monday with Miss Emma Haroun in charge.—Florence West.

TESTED AND PROVEN.

There Is a Heap of Solace in Being Able to Depend Upon a Well-Earned Reputation.

For months Eugene readers have seen the constant expression of praise for Doan's Kidney Pills and read about the good work they have done in this locality. Not another remedy ever produced such convincing proof of merit.

J. W. Ingle, 114 N. Third Street, Corvallis, Ore., says: "I used Doan's Kidney Pills and I am glad to say that they helped me. About four years ago I was suddenly attacked by a pain in my left side and although I tried many remedies, I did not get relief. I had much trouble with the kidney secretions and the passages were accompanied by a burning sensation. Finally I commenced taking Doan's Kidney Pills and they proved to be what my case required, for in less than a month, I received entire relief. I can now life or stoop without any ill effect whatever, something that was an impossibility before I used Doan's Kidney Pills." (Statement given Sept. 9, 1907.)

Re-Endorsement.

On November 15, 1909, Mr. Ingle was interviewed and he said: "My former statement, regarding Doan's Kidney Pills, still holds good. I consider this remedy worth its weight in gold, and I advise its use to anyone afflicted with kidney complaint."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

LANE COUNTY FRUIT GROWERS ANNUAL MEETING

The Lane County Fruit Growers' Association held an all-day session at the courthouse today, transacting business, electing officers and board of directors for this year, and hearing reports of last year's officers and committees.

The forenoon was taken up with the election of a board of directors, annual address of President H. F. McCornack and report of Secretary Holt and the various committees. The directors elected are as follows: H. F. McCornack, F. B. Chase, M. H. Harlow, H. A. Bower, Geo. A. Dorris, H. C. Bushnell, J. Beebe, Ernest Miller and J. O. Holt.

The afternoon was spent in a general discussion among the members on topics of interest to fruit growers. A photograph was taken of the members on the courthouse steps. This photograph will be published in the Portland papers, and perhaps in various fruit papers. The picture was taken at the instance of Booster D. C. Freeman.

The principal talk this afternoon was that of Mr. Freeman. He spoke in an informal manner and was listened to eagerly by the many fruit-growers, who were at once won by his pleasant manner. Mr. Freeman asked the fruitgrowers and farmers in general for their co-operation. He showed that the work that Eugene is paying $15,000 a year for advertising Lane county was directly a benefit to the farmers. The boosting not only increases the value of their land, but it raises the prices and demand for their produce.

He asked that the farmers send him photographs, or statement of crops, or any statistics of their farms which he could use in advertising; also he wanted the names of any whom they might know in the East who might be prospective newcomers.

Mamouth Apple Fair Proposed.

F. M. Wilkins made a suggestion that although startling was quickly appreciated by all. It was that Lane county hold an apple fair similar to that of Spokane, which he said would be heard of all over the country, and Lane's apples would be as famous as those of Hood River, for she can produce the latter's equal. He said that the Commercial Club or Fair Association would help.

Fruit Growers Present.

Those present were as follows: L. P. Tallman, H. F. McCornack, H. A. Bower, T. F. Murphey, David Alene, T. C. Moffit, L. B. Rossman, C. O. Bartholomew, I. N. Edwards, C. E. Woods, S. H. Stanley, V. C. Frederickson, L. C. Hughes, Geo. A. Dorris, J. W. Pixley, J. O. Holt, M. H. Harlow, J. D. Spencer, F. M. Wilkins, D. C. Conger, E. F. Miller, J. W. Chase, F. B. Chase, F. B. Harlow, John Thramer, N. A. Emery, J. W. Bertach, C. A. Wooley, C. A. Walker, J. Beebe, Dougal Campbell, H. F. Mersdorf, John Rosling, D. M. Howard, C. L. Oleson, M. S. Barker, C. H. Jeffrey, R. M. Pratt.

Officers Elected.

Officers were elected this afternoon as follows: President H. F. McCornack; vice-president, J. Beebe; secretary, J. O. Holt.

INTERSCHOLASTIC DEBATE IN EUGENE NEXT FRIDAY

Salem Debates Here With Affirmative Team, While Local Negative Goes to Albany

The debates to decide the Eugene, Albany and Salem division of the state Interscholastic Debating League are to be held next Friday. Salem debates here with Eugene's affirmative team, while the local negative team goes to Albany. The question is, "Resolved, That the United States should adopt a banking system similar to that of Canada."

The Eugene team's outlook is not so bright as it was two weeks ago, and there is considerable anxiety on the part of the students. It seems that two of the debaters, Kellems and Humbert, are in Cottage Grove holding revival services, and that the men have not yet worked out their team points, which should have been done before this. The leader, Harold Young, has nothing to do but study up all parts of the question, regardless of his associates. This means no team work. However, there will be four days this week, and it is hoped something can be done in this short time.

Cottage Grove Leads

The Springfield-Junction-Cottage Grove division of the league was decided Friday evening, when Cottage Grove defeated Springfield there and Junction City at home. Cottage Grove now will debate the winners of the other two divisions, which are Jefferson, Lebanon and Corvallis, Salem, Albany and Eugene.

The Cottage Grove teams are composed as follows: Affirmative—Gladys Farley, Armeri Sutcliff and Myrtle DeSpain; negative—Ben King, Myrtle Kerr and Allie Phillips.

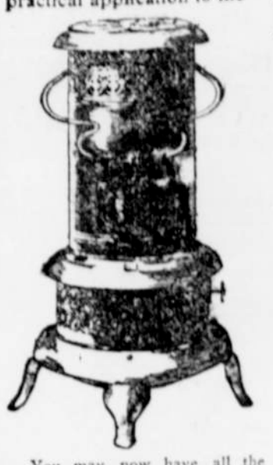
CARDINAL SATOLLI PASSES BEYOND

Rome, Jan. 8.—Cardinal Satolli, whose life has been slowly ebbing away for the past two weks, died this morning at 4 o.clock. It has been known for several days that the eminent prelate could not survive his present illness, and the last rites of the church had been administered some days ago. His death was a gradual sinking and the end came peacefully.

Smokeless

Until science discovered a way to construct the Automatic Smokeless Device, and make it completely dependable, all oil heaters had one common great fault—smoke.

With the advent of the Automatic Smokeless Device, and its practical application to the



PERFECTION Oil Heater

(Equipped with Smokeless Device)

the smoke problem was successfully solved.

The Perfection Oil Heater is the only heater equipped with this

Automatic Smokeless Device

which insures a steady, full-glowing heat, with the wick turned up as high as it will go, without a shred of smoke. Reverse the motion, turn the wick down—there's no odor.

The smokeless device automatically locks and prevents the upward movement of the wick beyond the proper exposure. That is the secret. This splendid result gives leadership to the Perfection.

You may now have all the heat you want—when you want it—and where you want it—without the annoyance of smoke or odor.

Brass font holds 4 quarts of oil, which permits a glowing heat for 9 hours. Brass wick tube—damper top—cool handle. Cleaned in a minute.

The Perfection is beautifully finished in Nickel or Japan.

Every Dealer Everywhere. If Not At Yours, Write for Descriptive Circular to the Nearest Agency of the

STANDARD OIL COMPANY
(Incorporated)

NEW LAW PARTNERSHIP HAS BEEN FORMED

Richard Shore Smith, the noted former football star, who first played at the University of Oregon and later at Columbia University, in New York, who was a member of America's all-star team for two years, will remove to Eugene from Klamath Falls soon and engage in the practice of law with A. C. Woodcock. Mr. Smith has been doing very well at Klamath Falls, but sees a much better opening in Eugene. The new partnership will take effect March 1.

Mr. Woodcock's present partner, E. O. Potter, will leave next month on a trip to Europe.

JUNCTION CITY NOTES.

Mr. and Mrs. G. C. Millet left today for Los Angeles, California, to spend a couple of months. When they return they will go to Heppner where he owns and farms a large tract of land.

Mrs. Stella Cooley was the only representative from this place that attended the Rebekah convention in Eugene. Mrs. Cooley was elected president for the coming year, and Mrs. M. T. Cook was elected chaplain. The next convention will be held at this place.

A surprise party was tendered Clare Lee Tuesday evening in honor of his 21st birthday. A large crowd was present and the evening was pleasantly enjoyed in music and games.

Postmaster Martin has been quite seriously sick with pneumonia during the past ten days but is now considerably improved and will be able to be about soon should no complications arise.—Times.

A Wild Blizzard Raging

brings danger, suffering, often death, to thousands who take colds, coughs and lagrippe, that terror of winter and spring. Its danger signals are "stuffed up" nostrils, lower part of nose sore, chills and fever, pain in back of the head, and a throat-gripping cough. When grip attacks as you value your life don't delay getting Dr. King's New Discovery. "One bottle cured me," writes A. L. Dunn, of Pine Valley, Miss., "after being laid up three weeks with grip." For sore lungs hemorrhages, coughs, colds, whooping cough, bronchitis, asthma it is supreme. 50c, $1.00. Guaranteed by W. A. Kuykendall.

If your stomach, heart or kidneys are weak, try at least a few doses of Dr. Shoop's Restorative. In five or ten days the result will surprise you. And here is why help comes so quickly: Dr. Shoop doesn't drug the stomach, nor stimulate the heart or kidneys, but Dr. Shoop's Restorative goes directly to the weak and failing nerves. Each organ has its own controlling nerve. When these nerves fail the depending organs must of necessity falter. This plain, yet vital truth, clearly tells why Dr. Shoop's Restorative is so universally successful. Its success is leading the druggists everywhere to give it universal preference. A test will surely tell. Sold by all dealers.

Mrs. Emma Evans has gone to Brownsville to attend her father, Andrew Gross, who is very ill and not expected to live.

GOVERNOR BENSON NAMES HIS STAFF

Salem, Or. Jan. 10.—Governor Benson today appointed the following members of the Nation Guard to serve on his staff:

Captain Curtis B. Winn, Commissary of the Third Infantry, Major in the subsistence department; Colonel Cecil H. Bauer, Major in the Judge Advocate General's department Major M. H. Ellis, of Albany, Surgeon-General; Colonel Thomas Perkins, Portland, aid-de-camp; Commisary-General, Captain Samuel White, Third Infantry, Baker City, Judge Advocate-General, all on the staff of the Commander-in-Chief.

The Governor also appointed and detailed as aids to the Commander-in-Chief First Lieutenant John B. Hibbard, Third Infantry; Lieutenant-Colonel John M. Williams, Fourth Infantry, Eugene, and Captain George E. Houck, Fourth Infantry, Roseburg.

Several hundred dollars loss is caused by the bursting of the water pipes in the new Hotel Osburn and it will cause a delay in the completion of the building. During the cold spell the water was not shut off from the building as it should have been done and the pipes froze good and hard with a consequent bursting when they thawed out. It was somebody's duty to turn the water off but everybody connected with the erection of the building disclaims the blame.

Saved at Death's Door

The door of death seemed ready to open for Murray W. Ayers, of Transit Bridge, N. Y., when his life was wonderfully saved. "I was in a dreadful condition," he writes; "my skin was almost yellow; eyes sunken; tongue coated; emaciated from losing forty pounds growing weaker, daily. Virulent liver trouble pulling me down to death in spitet of doctors. Then that matchless medicine, Electric Bitters, cured me. I regained the 40 pounds lost and am now well and strong." For all stomach, liver and kidney troubles they're supreme. 50c at W. A. Kuykendall's.

J. W. Flint, an employe of the Booth-Kelly Co. at Weadling, was brought to the Eugene hospital last night with a badly mangled arm and it had to be amputated at the elbow. He was working near a donkey engine and in some manner his arm was caught and nearly torn off. He does not know exactly how it was done. He was sent at once down on the train to Springfield where the ambulance met him and brought him to the hospital. He is getting along very well today.

The tender leaves of a harmless, lung-healing mountainous shrub give to Dr. Shoop's Cough Remedy its marvelous curative properties. Tight, tickling or distressing coughs quickly yield to the healing, soothing action of this splendid prescription. Dr. Shoop's Cough Remedy. And it is so safe and good for children, as well. Contains no opium, chlorofrom, or other harmful drugs. Mothers should in safety always demand Dr. Shoop's. If other remedies are offered, tell them no. Be your own judge. Sold by all dealers.

KASPARILLA

This sterling household remedy is most successfully prescribed for a "world of troubles." For derangements of the digestive organs it is a natural corrective, operating directly upon the liver and alimentary canal, gently but persistently stimulating a healthful activity. Its beneficial influence extends, however, to every portion of the system, aiding in the processes of digestion and assimilation of food, promoting a wholesome, natural appetite, correcting sour stomach, bad breath, irregularities of the bowels, constipation and the long list of troubles directly traceable to those unwholesome conditions. Kasparilla dispels drowsiness, headache, backache and despondency due to inactivity of the liver, kidneys and digestive tract. It is a strengthening tonic of the highest value.

If it fails to satisfy we authorize all dealers to refund the purchase price.

HOYT CHEMICAL CO., Portland, Oregon
