

HOUSE INSURGENTS AGREE TO ATTEND REPUBLICAN CAUSUS ON COMMITTEES

Washington, Jan. 14.—Representative John Dwight, of New York, republican, who had been reached by a telegram from the regulars and insurgents whereby the latter would attend the party caucus on the selection of the Ballinger-Pinchot investigating committee and would abide thereby.

Washington, Jan. 14.—Representative Hayes, of California, one of the leaders of the insurgents, which notified of Dwight's statement that any agreement had been reached and promises a statement tomorrow. Hayes declared the statements there had been a cessation of hostilities were premature. President Taft issued a statement that the opposing sides had agreed that a caucus should be held upon the matter of the investigating committee, with assurance that if insurgents came into the caucus, they should be treated fairly and that a committee would be appointed.

MURDOCK ATTACKS EXPRESS COMPANIES

Washington, Jan. 14.—Attacking the express companies for making

enormous profits on the infringement of the government's right to the monopoly of transporting mail, and criticizing the postoffice department for surrendering that right, Representative Murdock, of Kansas, today introduced a long resolution calling on the postmaster general for information.

The resolution says that while the postoffice department last year has a deficit of \$17,000,000, the Wells, Fargo Express company distributed nearly \$25,000,000 in dividends, and that the government's failure to exercise a monopoly of the transporting of mail is enriching the express companies.

Change Inauguration day.
Washington, Jan. 14.—The passing of March 4 as "inauguration day" is foreshadowed by the expected adoption by the house today of a joint resolution proposing a constitutional amendment changing the day to the last Thursday in April. The ratification at least 35 states be necessary after resolution is adopted by both houses and approved by president.

Mondell Declines.
Washington, Jan. 14.—Mondell, of Wyoming, chairman of the house committee on public lands, has declined to stand sponsor for Taft's bill designed to carry out his program in the conservation of natural resources. He offered to introduce the measure "by request" but his proffer was denied.

NEW YORK SUFFRAGISTS DON WAR PAINT NEXT WEEK

New York, Jan. 15.—New York suffragists will don their war paint and go up to Albany next week, where they will engage in an aggressive warfare on the legislators, demanding their rights. Mrs. O. H. P. Belmont has engaged headquarters at a leading hotel of the capital city and, with Mrs. Clarence Mackay, will be in the thick of the fray from now on. The anti-suffragists have also appointed a lobby, who will beseech the Albany voters not to permit them to vote, or a flow other women to exercise the right of suffrage. A constitutional amendment must be passed by the voters of the state before the ballot can be extended to women, and before this can be done the question must be discussed in the legislative hall. The committee in charge wants to tell why this question should be submitted to the voters.

Meantime Mrs. Nelson H. Henry, wife of the Adjutant-General, and head of the New York State association opposed to suffrage, is seeking to block legislation.

New York railroad men are much pleased with the selection of Daniel Willard as the new president of the Baltimore & Ohio, to succeed Oscar G. Murray, who retired yesterday. The new head of the great transportation system "got on the job" today, and he may be expected to stay there.

Mr. Willard is no stranger to either the Baltimore & Ohio or men identified with it. Previous connection with it from 1900 to 1903, as assistant general manager, gave him thorough knowledge concerning the road, its affairs and men long connected with it. He left the Baltimore & Ohio to go with the Erie. He had been found by F. D. Underwood in a subordinate position on the Soo Line in the Northwest, where he had risen by sheer ability from the position of a storekeeper's clerk to an operating officer. Mr. Willard was given credit for many of the reforms that were established in the operating department of the Baltimore & Ohio system, while he was with the road. His good work attracted the attention of J. J. Hill, who had just secured control of the Burlington, and he induced him to go with that line as second vice-president and general manager.

James W. Gerard, a Tammany Justice of the supreme court of New York proposes a tax upon foreign marriages. The American hostesses who marry abroad and whose dowry from American investments goes

abroad in an unbroken stream should, the justice believes, pay heavily into the state treasury for the privilege of transferring the earnings of American men to the pockets of foreign dilettantes. He instances the recent marriage of Miss Götter to the Duke of Roxburghe, by which \$500,000 a year, earned by New York real estate, will go to England. This case is one of many.

Plans are well under way for the erection of a great bronze column on Staten Island which will probably be known as the Peace Memorial. It will be surmounted by the colossal figure of an Indian, and the combined height of column and figure will be 580 feet. Add to this the altitude of the position on which it will rest and the top of the figure will be in the neighborhood of 900 feet above the sea level.

This will be the highest point on the Atlantic coast between Maine and Mexico. In the base of the figure there will be a library for Indian relics. In the words of those who have the matter in hand the column will be "erected in memory of the North American Indian and dedicated to the school children of the United States of America."

JUNCTION CITY NEWS.

Born to Mr. and Mrs. John Dyer, January 10, 1910, a son.
Died—January 13, 1910, Clara Jensen, daughter of Simon Jensen, aged 18 years and 9 months. Services will be held at the Dane church Saturday at 11 a. m.

The new Rebekah officers are as follows: Cora Jackson, N. M. Minnie Flint, V. G.; Livia Bushnell, chaplain; Minnie Sibbets, Past N. G.; Stella Cooley, recording secretary; Minna Sanders, financial secretary; Mary Robinson, treasurer; Minnie Tracer, Warden; Savannah McKellip, conductor; Mrs. Tower, inside guard; A. E. Tower, outside guard.
Charles Witham was born March 1, 1857, died January 7, 1910, at his residence 1 mile southwest of Corvallis and was interred in Odd Fellows cemetery, at Corvallis. He was married to Miss Annie B. McGee April 27, 1882. She and four children survive him, all of whom were at the funeral. Four brothers and two sisters also survive him. It will be remembered that Mr. Witham and family lived on what is known as the Mahon place, joining the Odd Fellows cemetery west of here. Mrs. Jesse Ferguson is his oldest daughter.—Times.

TURKEY READY TO SEND 12,000 MEN TO CRETE

Berlin, Jan. 15.—A dispatch to the Cologne Gazette from Constantinople says that the Turkish government is holding 12,000 men in readiness to be sent to Crete. The Porte recently addressed a note to the European powers protesting against alleged new violation of the sovereign rights of the Sultan through the Cretan executive committee by taking the oath of allegiance to King George and the adoption of a resolution by the Cretan assembly to introduce the Hellenic code of laws. Great Britain and Russia have replied that measures were under way to prevent any further acts of similar nature.

O. N. G. OFFICERS AT ROSEBURG RESIGN

Captain Slocum and Major Haynes Tender Their Resignation.

Roseburg, Or., Jan. 17.—Marking the close of 15 years of continuous service, Harry C. Slocum has tendered to Adjutant-General Finzer his resignation as captain of Company D, Oregon National Guard of this city. Another resignation sent in from Roseburg is that of Major F. W. Haynes, relinquishing the position of Quartermaster of the Fourth Regiment of the State Guard, which embraces the Roseburg company. Inability to give their military duties the attention they require, because of private business, are the reasons for the resignation of the two officers.

Major Haynes' resignation has been accepted. Captain Slocum's has not, but will be whenever he can turn the property of his company over to the First Lieutenant, F. G. Stewart, who is at present dangerously ill. With the exception of one year spent in Alaska, which compelled severance from military duties for a corresponding period, Major Haynes' career as a civilian soldier has been as long as that of Captain Slocum's. Both donned military uniform for the first time when the Roseburg company of militia was organized 15 years ago. Both were members of the Second Oregon Regiment which acquitted itself so creditably in the Philippines during the Spanish-American war.

It is learned that J. E. Thornton, Captain of Company B, of Ashland, has also resigned from the service.

POSTAL TELEGRAPH CO. BUYING MANY POLES

Purchasing Agent Smith Securing 26,000 in this Vicinity to Ship East

The Postal Telegraph & Cable Company, through its purchasing agent, H. M. Smith, of Chicago, is contracting for this territory for 26,000 telegraph poles for shipment to points east from San Francisco to be used in the construction of a new overland route from that city to New York, in competition with the merger formed by the consolidation of the Western Union and Bell Telephone Companies.

When these are supplied, another equally large number will be bought for a two-wire line from San Francisco to Portland and Seattle. C. W. E. Open, of New York, who is general superintendent of the Postal and Bell Telephone Companies.

GERMAN GOVERNMENT CABLES REPLY TO U. S. TARIFF MEMORANDUM

Berlin, Jan. 18.—The German government today cabled to Washington a reply to the memorandum recently received from the United States in relation to tariff shipments between the two countries. While it does not accept the American wishes in various respects, and especially concerning the importation of meat, the German response was sent in hope it would be satisfactory, as it is all that the German government can do.

SUICIDE LEAVES QUEER REQUEST; MONEY TO POOR

Pittsburg, Jan. 15.—"Thrust a dagger into my heart three times to make sure that I am dead. Let my body lie ten days, cremate it then, and bury the ashes in the Allegheny cemetery." were the written instructions found with body of Laura White, single, aged 65 years, supposed to be a pauper living alone, that was discovered early today in her room five blocks upon the river and the body half eaten by rats. The police found bank books and her will disposing of hundreds of thousands of dollars to local charities, in a trunk in her poorly furnished room. It seems that there is real estate held by the woman located in Indiana, Montana and California.

RIDICULOUSLY FALSE SAYS MR. BALLINGER

Washington, Jan. 18.—In a vigorous statement Secretary Ballinger, last night replied to the charges made against him before the house committee on expenditures of the interior department yesterday by Representative Hitchcock of Nebraska. Ballinger branded as "ridiculously false" the allegations of extravagance, wrongdoing, and favoritism on his part. As a result of Hitchcock's testimony before the committee, it will begin an investigation independent of that to be conducted by the joint committee of congress.

Washington, Jan. 18.—The conference report of the Ballinger-Pinchot resolution was adopted unanimously by the house today.

EUGENE BOARD OF TRADE INCORPORATES

Old Organization Holds Annual Meeting and Elects Officers and Directors

At the annual meeting of the Eugene Board of Trade, held in the of

Professor Emil Theodore Kocher.

Winner of the Nobel Prize For Research In Medicine.

Professor Emil Theodore Kocher, to whom the Nobel prize for physiology and medicine was awarded recently, is a Swiss surgeon, residing in Berne. His special field of research is the thyroid gland.

At the secretary Wednesday evening, January 12, it was unanimously voted to incorporate, and articles of incorporation will soon be filed with the county clerk and the secretary of state with the following business men as incorporators: R. M. Day, Dr. L. L. White and W. M. Renshaw. The following officers were elected to serve one year: R. M. Day, president; Alf Walker vice-president; E. J. Frasier, secretary and manager, and following board of directors were elected: E. L. Campbell, R. M. Day and Dr. L. L. White. The Eugene Board of Trade was organized in 1888 and has been the means of largely bringing before the world the great resources of Lane county. It is the intention of the present board to get into correspondence with people desiring the location of factories, as it is conceded by all that we must have an increase in manufacturing if we keep our rapidly growing city properly balanced commercially.

NO SHORTAGE OF AMERICAN BEEF

President of Livestock Association Issues Statement

Denver, Jan. 15.—There is no shortage of beef in America nor any probability of a shortage, according to the National Livestock Association. President H. A. Jastro and Vice-President Muelo Mackenzie, of Trinidad, Colo., vehemently denied the statement that there was a shortage at the afternoon session of the association, which was turned over to the Beef Producers' Association.

They opposed the campaign of publicity urging the farmer and homesteader to raise cattle, and declared that so long as \$200,000,000 worth of beef was exported each year, there was no danger of shortage.

BAILEY SAYS FEED BEING TAKEN TO HIS CATTLE

A number of the cattle kept on the ranch of State Dairy and Food Commissioner Bailey on the McKenzie River above Thurston have recently died from starvation and exposure to the cold weather, and the report is that there is not a particle of feed on the place, not even a blade of grass. Many more of the cattle are expected to die if relief is not given them at once. All are said to be in a terrible condition.

A dispatch from Portland to The Guard this morning stated that Bailey says feed is now being hauled to the cattle and that it was held up before on account of high water. But it has been a month and more since the high water. He has had plenty of time to provide hay since then.

No Feed Two Days Ago
A telephone message to The Guard from Tom Carney this forenoon brought the information that no feed had been taken to the cattle up to two days ago, as he was on the Bailey place and saw no evidence of it. He does not think that any has been brought in since, as he has not heard of it. Mr. Carney says the cattle are in terrible shape and thinks many more will die if they are not attended to immediately. He did not know how many had died already.

The attention of the Humane society has been called to the condition of these cattle and at a meeting last night Dr. Weller and Joseph Moore were appointed as a committee to investigate the conditions on the Bailey ranch.

Bailey Makes Misstatement
According to the dispatch to The Guard this morning from Portland, Bailey made the statement that "the cattle in the whole country are in the same fix." This is not true. Farmers and stockmen generally have plenty of feed on hand. The recent cold weather depleted their supply of hay to some extent, but as far as can be learned there is no great suffering outside the Bailey ranch.

SECURE STEREOPTICON FOR PUBLIC SCHOOLS

"Old Favorite Song" Contest to be Held to Raise Money for Instrument.

It is desired to have a first class stereopticon for use in the work of the public schools and when one is purchased, the school authorities hope to secure the best; a machine that may be used not only for slide projection but for opaque and microscopical projection as well. To get a really first class instrument will require an expenditure of from two to three hundred dollars.

In order to help meet this expense Superintendent Stockton is planning for an "Old Favorite Song" concert to be given by the pupils and microscopical projection as well. To get a really first class instrument will require an expenditure of from two to three hundred dollars.

FIRST BODY RECOVERED FROM COOS BAY WRECK

Marshfield, Jan. 15.—One body from wrecked steamship Carina was washed ashore this afternoon, but could not be identified. The others will probably be found later. The storm has not yet abated.

GERMAN FLEET COULD QUICKLY BE DESTROYED

London, Jan. 15.—David Lloyd-George, in a stirring campaign with speech this afternoon referred to the invincibility of the British navy and declared: "If the German fleet in a moment of madness ever attacked Great Britain it will be at the bottom of the ocean in a very few hours."

George Harrison, the Divide man yesterday arrested by Constable Plank, was brought to Eugene last evening by that official and arraigned in the justice court on the charge of assault and battery upon A. P. Gardner, a school teacher of that place. He pleaded guilty and was fined \$20. The assault was made because Gardner whipped a little daughter of Harrison's.

ANOTHER VESSEL WITH ALL ON BOARD GOES DOWN OFF OREGON COAST

Crescent City, Cal., Jan. 15.—A lumber laden schooner, supposed to be San Buena Ventura, went down with all on board early today a short distance south of the mouth of the Rogue River on the Oregon coast. All hands were seen in rigging a short time before vessel sank. The San Buena Ventura sailed from Eureka a few days ago.

COTTAGE GROVE MAN SUICIDES BY THE RAZOR ROUTE

Special to Daily Guard.
Cottage Grove, Jan. 11.—George Rains, who for many years was a well-to-do barber of this city, but who for the past few years has been engaged in mining and logging, cut his throat with a razor at his home in West Cottage Grove this afternoon about 2:30 o'clock, and died soon thereafter, his wife being down town at the time of the rash act.

He recently received his pay at the mines, where he has been working in Bohemia. He came to town, and as usual filled up on bootleg booze, and after becoming sober seemed to become despondent, and this morning told several of his friends that he was going to "end it all" today. It is said little was thought of his statement, but he bade his children goodbye and carried out his threat.

After slashing his throat he folded the razor, put it in its box and replaced it in his pocket, and soon thereafter died.

He leaves a wife and four children, two boys and two girls.

MISSOURI PACIFIC AUTHORIZES BIG ISSUE OF BONDS

St. Louis, Jan. 18.—At a special meeting of the stockholders of the Missouri Pacific Railway company, a Gould property, held in this city today, a \$175,000,000 bond issue was ratified. The issue will consist of convertible 5 per cent, first and refunding mortgage fifty-year gold bonds. Present stockholders will be permitted to subscribe for the bonds at the rate of \$950 per \$1000 bond, up to thirty-six per cent of the par value of their present holdings.

The stockholders also authorized the Missouri Pacific company to purchase from time to time of not to exceed \$25,000,000 par value of the bonds of the Iron Mountain road, another Gould property.

Consent was also given to the purchase of the whole or any part of the railroads and other property and franchises of all or any of the following named railroad companies: Carthage and Western Railroad company, Joplin and Western Railway company, St. Louis, Oak Hill and Carondelet Railway company, Sedalia, Warsaw and Southwestern Railway company, The Kansas City Northwestern Railroad company, Omaha Belt Railway company, Omaha Southern Railway company, Pacific Railway company in Nebraska, The Pueblo and State Line Railroad company and Kansas and Arkansas Valley railway.

The third municipal census of Buenos Ayres, now being compiled, is expected to give that city a population of at least 1,285,000.

TROTTER BREEDERS' ASSOCIATION MEETS

Lexington, Ky., Jan. 18.—Officers of the Kentucky Trotting Horse Breeders' association, in Lexington, today, declare that the past season has been an exceptionally prosperous one for the association, and that the prospects are good for an even better season this year. Secretary Wilson has been busy for the last month with the future stakes, which are attracting much attention.

Lumbering industry, one of Cottage Grove's greatest resources, is showing figures greater than those of previous years. During October, November and December, the shipments from mills along the Oregon & Southeastern alone were 7,500,000 feet. This does not include a number of mills scattered along the Southern Pacific tributary to this place. Including their output during the same period would make over 10,000,000 feet shipped during the last quarter of 1909.—Sentinel.

Fresh radishes from the garden, with no covering, have been a regular number on the bill of fare at a Gold Hill home, says the News.

Remedies are Needed

Were we perfect, which we are not, medicines would not often be needed. But since our systems have become weakened, impaired and broken down through indiscretions which have gone on from the early ages, through countless generations, remedies are needed to aid Nature in correcting our inherited and otherwise acquired weaknesses. To reach the seat of stomach weakness and consequent digestive troubles, there is nothing so good as Dr. Pierce's Golden Medical Discovery, a glyceric compound, extracted from native medicinal roots—sold for over forty years with great satisfaction to all users. For Weak Stomach, Biliousness, Liver Complaint, Pain in the Stomach after eating, Heartburn, Bad Breath, Belching of food, Chronic Diarrhea and other intestinal Derangements, the "Discovery" is a time-proven and most efficient remedy.

The genuine has on its outside wrapper the Signature

You can't afford to accept a secret nostrum as a substitute for this non-alcoholic, medicine or known composition, not even though the urgent dealer may thereby make a little bigger profit.

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules, easy to take as candy.

Dr. Pierce's Golden Medical Discovery
