poultry, and we look for big demand this week. We will have thousands of visitors in the city during the Rose Carnival, and there will be great demand for all poultry. We are getting for hens 19c, and for broilers and fryers 30c. We do not get nearly what we need. For live young ducks (they must not be less than 3 pounds each) we are getting 25c per lb. For live young geese we are getting from 13c to 16c. Want them large. Turkeys (old) if fat will sell at 22@25c, and we think that some good sized spring turkeys ought to bring a fancy price. Guineas are selling at 20c per lb. Squabs sell at \$2.00 @ 2.25, and old pigeons at \$1-25. There is a good demand for everything in the poultry line, especially nice large springers.
Onions Higher
Red onions are higher here at 32c per hundred pounds. Advice from California to local parties state that the recent hot winds there hurt the red onion crop to a considerable extent and that prices were generally 15@25c a bag higher than former lists. Winds there hurt the red onion crop firm at this time. A mixed car of California red and yellow is rolling. The latter will be quoted at \$2.25 per hundred pounds. Quality of some of the reds now showing from California are about the best seen in this market from that direction. The onions are showing better keeping qualities than during previous years.
Hop Market
The foreign hop markets, like those on the other side, are gaining in strength. The following cable was received yesterday by Klaber, Wolf & Netter from their London branch office:
"Market somewhat firmer. Vermin have increased slightly."
The weather in England yesterday was favorable for the propagation of vermin, thunder storms prevailing, according to the daily report of the Associated Press.
Meats
Dressed meats of all kinds are showing a firm tone in the Front street markets.
Receipts of meats have fallen off recently and as the demand is growing because of the great influx of visitors, the market has shown a price response to the changed condition.
Best pork is quoted from 12 1/2 @ 13c a pound while the top value for veal is being safely maintained by receivers.
Front street is not usually a very good market for beef and mutton, but at this time demand is very good for both lines.

SAYS CARRIE NATION WILL BE REVERED

Dr. Clinton N. Howard Spoke At Tabernacle Last Night

"Carrie Nation will be honored and revered in the next generation. Do you believe in using force against the saloon? I have been asked. I do in Kansas. The saloon is an outlaw there. No right to exist. On a par with a thief, or a murderer. When the officers refuse to do their duty, any citizen has a right to defend his home and laws. When I made my first temperance speech I was eight years old—then there was one dry state. Now there are nine. Ten more will be very soon. 478,000 square miles in prohibition territory and 15,000,000 people under prohibition enactment."
So spoke Dr. Clinton N. Howard at the tabernacle last night to a fairly large audience gathered to hear a temperance address by one of the ablest speakers of the temperance. Dr. Howard has made a life fight against the saloon and liquor element, and knows every phrase of it. He has seen the effects and studied the causes, and can be considered an authority on such a vital question. He is a fluent speaker, and captivated his audience.
He won their sympathies in the first place by giving several pleasing compliments to Eugene, saying that the city is the finest that he has ever laid eyes on, and then he continued further upon the wonderful development in store for this state, dealing with its abundant resources and admirable location and climate.
He emphasized the necessity of strength of character in the modern business world, and more especially in reference to the liquor phase. This is because of the increased responsibility that now finds itself in the hands of individuals.
He is much opposed to the allowance of saloons under supervision or control, for they can't be ordinarily controlled. Prohibition, he said, is the only remedy.
He closed with the following complimentary appeal to the state:
"You have a tremendous fight here in Oregon. The whole liquor element of the nation has its eye on you. They realize that in fifty years Oregon will control the commercial and industrial policy, not only of the Pacific coast, but of the nation. They will stake everything on an effort to keep it out of you. It will be a terrible and undesirable element to offset the good people who are coming to you, Oregon, while you are young and

RESOLUTIONS BY GOSHEN I. O. O. F.

Whereas, It has been the will of the Almighty to remove from our lodge and community our beloved brother and friend, William Coppenhaver; and
Whereas, The intimate relation long held with the members of Pisgah lodge No. 159, I. O. O. F., render it proper that we should place upon record our appreciation of his services as a member and his merits as a man; therefore be it

VIOLATION OF THE LABOR LAWS WILL BE PROSECUTED

But No Attention Will Be Paid To Anonymous Complaints

Salem, Or., June 7, 1910.
Editor Eugene Guard:—An anonymous letter bearing the headline of Eugene, Oregon, has been received at this office charging one of Eugene's prominent business men with violating the ten-hour law for women, and I wish to state in regard to this matter that any and all complaints coming to this office in proper form will be taken up, investigated and prosecuted no matter to whom it may apply, without favor. But the business of taking care of labor laws over the whole state is so great that any one filing complaints must either do so in person or give his name and address as a guarantee of good faith. Many complaints have been made, which upon investigation have proved to be spite work, or at least without foundation in fact. Should the office take notice of anonymous letters and follow up the same by personal investigation in different parts of the state, the work would be too extensive; besides there is no reason why parties should not give their names and addresses as all communications addressed as "personal" will and, as a matter of law, must be kept confidential. No one should expect anonymous letters to be considered.
Again I assure any one who has knowledge of a violation of labor laws that complaint of same will be thoroughly investigated and fully prosecuted in every instance where the same is brought to the knowledge of this office by any one who is willing to appear in person or to sign his name and give his address to show good faith, and he can rest secure that his name will not be used or disclosed.
O. P. HOFF, Commissioner.

Mrs. C. T. Long, of the St. Francis, was a passenger on the noon train today for Portland.

Portland, June 9.—An extra liberal demand for eggs at the present time has caused the price to advance to 26 @ 26 1/2c for the selected ranch stock.
Northern buyers are taking out all the egg offering and the local trade has increased to such an extent on account of the festival that at present commission handlers are experiencing no difficulty in maintaining the quoted figures.
Receipts of eggs are quite fair but the increased demand is fully taking care of all that comes.
Front street men condemn the methods of some country shippers who hold their eggs back for an advance and if such does not materialize, send the supplies to market in an inferior condition owing to the long holding. Under such condition it is impossible to secure satisfactory quotations and few buyers care to take hold of anything except the best.
At mark—eggs that are sold just the way they arrive—the Front street trade is receiving from 24 @ 25c a dozen. Even at this lower figure, only a limited number of buyers seek such supplies. Retail grocers are generally after the best eggs they can secure and these must be candied very carefully.
Poultry Market Good
A Front street house has sent out the following circular regarding the poultry situation:
"The market has been good for all

Hyland are named as appraisers of the property.
DON'T COUGH, BUT LIVE LONG
If every cough were cured before it got a strong hold, human life would be lengthened by many years. If every coughing sufferer knew that Kemp's Balsam would stop the cough in a few minutes, he would be glad to escape the serious consequences. If any medicine will cure a cough, Kemp's Balsam will do it. At druggists and dealers, 25c.
