

A New Grocery Store In Eugene

And It Don't Belong To The Combine

Stanley's have added a complete grocery stock to the many other lines heretofore carried, the grocery department occupying the entire room at 612 Willamette street. It will be a cash store, a store untied by combines, and hence, as Stanleys have always been, a price-cutting store. It will be a quality store, and you can ever depend on getting the best at the lowest prices when you are trading at Stanley's

The New Grocery Store Will Be Open for Business Friday Morning, July 8th.

"THE AMERICANS" VISITED BY THEIR ASSISTANT SUPREME PRESIDENT

"The Americans" held their semi-annual election and installation of officers last night in the Eagles' old hall, corner of Willamette and Eighth streets. Previous to the election a class of 26 new members were initiated into the mysteries of the order. There was a large turnout of members to make the acquaintance of the supreme officers who were present to exemplify the work and install the officers. Addresses on the good of the order were made by James E. Brockway, assistant supreme president, of Los Angeles, State Manager Rounds, of Portland, and also by District Representative Wallace. After the election and installation of officers the members and guests sat down to an elaborate banquet prepared and served by the ladies of the order.

The following officers were elected: Past Chairman, Dr. M. C. Harris; Chairman, Hugh A. Barr; Vice-chairman, F. M. Nary; Chaplain, Mrs. Virginia Duckworth; Treasurer, Lizzie C. Simon; Secretary, Mrs. Josie Kemery; Senior Sergeant, Mrs. Myrtle Knight; Junior Sergeant, H. W. Carson; Sentinel, J. J. Duckworth; Guard, William N. Duckworth; Musician, Minnie Russell; Trustees, Joseph H. Koke, E. W. Comings, and Elmer Roberts; Physicians, Dr. J. F. Titus and Dr. F. W. Comings.

FOOTBALL SORDID,

EDUCATOR'S VIEW

Boston, July 5.—Denouncing college football as a combination of brutality and pugilism, David Starr Jordan, president of Leland Stanford University, led in the discussion that followed the report today made by the committee on moral education in the public schools, to the National Council of Education, in convention here. He said:

"Some day the college presidents and school heads of this country will perhaps be called cowardly and brutal because they did not put a stop to the dangers of football, and a sport that destroys the best there is in an American youth."

"The games" he continued, "aroused the same love of the sordid that focused the interest of the country in a ring way out in Nevada, where a black man and a white man were pounding each other yesterday."

"No intelligence is required in the game of football," he asserted. "Blacksmiths and boiler-makers can play the game as well as men of finer intellects; in fact they are considered the best raw material for the game."

President Jordan favored the substitution of the English game. In most of the 13 departmental meetings of the convention today there was at least one advocate of the introduction of industrial training and agriculture in the secondary schools.

"We have learned that all of the so-called naughtiness of children may be danger signals indicating disturbances somewhere," said Maxmillin P. E. Grossman, of Plainfield, N. J., discussing "Danger Signals" in young children in the child study section.

"The time may come when there will be a science of parenthood," he said.

Vaudeville matinee every Saturday at 2:15.
Admission—Afternoon, except Saturday, 5 cents. wtf

SPRINGFIELD AND VICINITY

WORK HELD UP ON

STREET CAR LINE

Springfield, July 6.—Work has been held up on the street car line on Mill street until it can be decided where the line is to run, and between the council and the company it seems to be a "you first" affair to decide where the tracks will go. They are being built very close to the sidewalk after the line leaves the bridge and the property owners complained to the mayor who spoke to O'Connor, who told them that he would put it any place that they wished. It was, however, not definitely settled where it would go. The manager says he can build the track in three days. Contractor Roney expects to have the piers on the bridge finished by the first of next week, and then the real work of placing the big 600-foot bridge will begin. The two big bottom timbers that have been built up on the shore will be slid across the false work on dollies and placed on the last two piers. When these are in place the structure will begin to rise in the air.

IMPROVED PHONE

SERVICE SOON

Springfield, July 6.—The new switchboard and the better telephone

service that Springfield has been waiting for so long will be installed within ten days. Over two-thirds of the board and equipment is here, but a part of it is held up somewhere en route. At present the telephone plant is in an extremely bad condition, but this is only to last a few days. Manager Heaton now has his men at work installing the equipment for Eugene and he expects to install the Springfield board just as soon as the men can be spared from this, and expects the material to all be here by that time. The new equipment is the same system, with the hand ring, that the city has had, but the board will be modern and large enough to handle all the city's talk traffic. This will be of great benefit to the farmers' lines that are now having so much complaint.

IRON WORK FOR

P. E. & E. BRIDGE

Springfield, July 6.—The G. N. Frazer foundry here is turning out the iron work for the new bridge as fast as it can get men to do the work. The new foundry is only partly completed, but only enough equipment will be installed this winter to turn out this bridge material. Later in the winter the plant will be fully equipped with machine shop machinery. The reason Mr. Frazer gives

for this is that it will take all the time to work on the bridge iron, and if he gets other machinery that they will be obliged to take other work that will delay the big bridge. At present only a drip press and lathe will be installed and these will be taken from the plant in Eugene. The old machinery will be moved from there and the new to go into the Eugene shop. Only the foundry and the blacksmith shop of the new plant will be used this fall.

P. E. & E. BEGINS

CONSTRUCTION WORK IN SPRINGFIELD

Springfield, July 5.—The Portland, Eugene & Eastern Sunday morning put a force of men at work cutting up Mill street for the street railway from the end of the bridge toward the business district. The work was begun Sunday because the franchise would have expired by today, and it would have been difficult to obtain men to work on the 4th. They have already graded about a block for the approach to the bridge, and have started to lay the ties. The street has not been closed, but is in a congested condition. Second street has been closed on account of the work of laying the macadam.

May Have to Change Line

The road as it is now being planned and excavated will pass very close to the sidewalk on the west side of the street in front of Albert Walker's buildings. This has been objected to and the mayor has ordered it changed. He called up Manager O'Connor on the phone this morning and the latter came over this afternoon to arrange it satisfactorily. The mayor would have the company buy the necessary right-of-way and run the line straight from the bridge diagonally across to the corner of Main and Second streets.

A SMALL BLAZE

ON THE FOURTH

The Fourth of July passed in Springfield with no accidents of any sort as far as can be learned, with the exception of a small fire that was probably caused by firecrackers. Just after dinner the alarm was sounded and the fire was found in the rear of Alex Gray's cigar store. There was practically no damage done. It started in the rear of the store among some refuse barrels filled with excelsior, and seared the walls of the shed a trifle. The fire department answered in good shape. The fire was probably caused by a cigarette dropped from the mouth of some one who had stepped to the rear of the building to empty a bottle. The fire, had it not been discovered as soon as it was, would have proved serious, for it was in the middle of a row of wooden buildings.

Springfield Brevities

Springfield, July 5.—Springfield spent the Fourth in the safe and sane and quiet sort of fashion, and many went out of the city. The street car men report that over 1500 went to Eugene during the day and there were numerous other directions that led to the river or country. The streets were unusually quiet. John Keeney, the blind man, is in the city after a short absence selling his wares in other parts of the country.

DIED

Mrs. James Turner today received a telegram from Mrs. Anna Morris Clark at Hot Springs, S. D., stating that Mrs. Clark's mother, Mrs. Drew, formerly of Eugene, died there Monday and that the remains will arrive here for burial Sunday. Further announcement will be made later.

H. C. Parslow, with his wife and two children, of Henderson, N. Y., who have been visiting at the home of J. C. Grant here, went to Roseburg this afternoon to visit for about ten days with relatives. They will return to Eugene again before their return to the East.
