SUTHERLAND'S EAGLE EYE SALVE
Good for Nothing but the Eyes.

SPRINGFIELD
NO DANGER OF BRIDGE WASHOUT
Springfield, July 20.—In less than a month from now one span of the new P. E. & E. bridge will be in the air, practically completed, and the false work out from under it. This will be the last chance for delay on the work of this bridge, for there will no longer be the danger of the false work, which now stands in the current, of being washed away by high water or drift wood. This was announced today by L. N. Roney, who would take a couple of feet rise to complete the big structure without a mishap. The only danger that there is now is that the false work that stands in the water may be carried out. The piles were not driven and they would be easily moved. But the chance for this is very slight, for it would take a couple of feet rise to either, or an unusual amount of drift, either of which would be improbable during the next month. Yet Mr. Roney thinks of the disastrous efforts of Engineer Freeland in building the Southern Pacific bridge, and is rushing the work.

The last pier was completed this afternoon and the concrete work is practically done. The timbers will be placed on the false work this week.

NEW S. P. TRAIN SERVICE IN EFFECT
Springfield, July 20.—Springfield, the coming railroad center of Oregon, can already boast of a larger train service to the city than any other town in the state for its size. There are twelve passenger trains that make Springfield their center, and including the regular freight trains there are 18 trains that pull out of the city every 24 hours. This is not the city's special freight trains. There are five train crews, or about 50 men, that make Springfield their home.

The new train schedule that went into effect Sunday is as follows:
No. 46—4:40 a. m., to Woodburn.
No. 39—1:40 p. m., to Albany.
No. 73—8:15 a. m., to Eugene.
No. 80—11:10 a. m., to Eugene.
No. 82—3:10 p. m., from Natron.
No. 84—5:24 p. m., to Eugene.
No. 45—10:35 p. m., from Woodburn.
No. 29—10:15 a. m., from Albany.
No. 79—9:10 a. m., to Wendling.
No. 81—3:35 p. m., to Natron.
No. 83—3:20 p. m., to Wendling.
No. 85—6:01 p. m., from Eugene.

LAYING RAILS STREET RAILWAY
Springfield, July 20.—A force of men under the supervision of Superintendent Baker went to work on the Springfield streets yesterday to lay the rails for the city's first street railway. Upon the completion of the College Hill loop in Eugene and the holdup on the Fifth street franchise, the track construction gang has been placed at work on Mill street and will rush it to an immediate completion. It will now be but a short time before the streets are tied with steel rails. The work has been temporarily held up, partly because of the question of the curve on Mill street to Main. The path that the line takes this morning is straight in the middle of Mill street, and nothing seems to be done about the curve. For the present the rails will be laid only on Mill street and they have been scattered north as far as F street. The Main street line and the curve will be held up until the last.

A force of men began yesterday to tear up the ties and timbers of the Springfield approach to the bridge in order to lower the trestle some 20 inches. It would require too much of a fill to bring the tracks up to the bridge, so the tops of the piling are being cut off.

OPTION TAKEN ON PROPERTY FOR P. E. & E.
Springfield, July 19.—Late last Saturday afternoon an option was secured on three lots belonging to Albert

Walker, C. H. Pierce and A. G. Hovey, in all amounting to two acres at the corner of Main and Mill streets. The option was secured by one F. S. Smith, supposedly for the Portland, Eugene & Eastern for the terminals and ticket office for their line in Springfield. The option extends 30 days and a \$100 forfeit has been given to each of the property owners. The purchase price for the three lots is \$2900. The deal was made through the Springfield Realty company. The sale is not yet made, but in all probability the purchase will take place within the time of the option. This property would always be quite valuable to the railroad company, but the way that the city is growing is making it of little use for anyone else. The lots are now occupied by Mr. Walker's real estate office and his home in the rear, the house of Mr. Pierce next door and the office of the Walker undertaking parlors across the street. When the buildings on these lots go, if they do, they will take away some of the landmarks of early Springfield when Mill street was the principal street in the city.

SPRINGFIELD WILL BE ADVERTISED
Springfield, July 16.—At the meeting of the Commercial club last night it was decided to spend the first part of the city's promotion fund, amounting to nearly \$2000, in advertising in western mediums, and today the club signed a contract with the Pacific Monthly for a quarter page advertisement. The matter of newspaper display for the city publicity was discussed and it is probable that after the meeting of the subscribers, which will be held next week, that a large portion of it will be spent in the daily papers. A descriptive folder will be put out that will contain recent photographs that will show the progress in manufacturing and agricultural lines.

Springfield has several distinctive facts that will be brought out in the one of these, which was declared by a Portland man who collects hides from Portland to San Francisco, is that more meat is sent out of Springfield than any other city on the coast between Portland and San Francisco. He says that the quantity of dressed meat shipped out of this city is greater than out of Eugene, Albany and Salem combined. It is sent to the thousands of men that work in the logging and railroad camps, for which Springfield is the base of supplies. It is also said to be a fact that there is more freight passed through the Springfield office than any other city in Oregon outside of Portland. This is the result of the railroad and lumbering industries.

AMUSEMENTS FOR BIG CELEBRATION
Springfield, July 16.—This city will hold the biggest celebration in its history on Aug. 18, 19 and 20 to mark the completion of the street railway system and also the big bridge that gives it an interurban system with Eugene by the Portland, Eugene & Eastern. At the Commercial club meeting last night a contract was signed with the Miller Amusement company to furnish the attractions, and their whole show equipment will be brought here. This includes balloon ascension and parachute drop and a half a dozen other side attractions. A committee has the plans in hand and are preparing many other events to mark the occasion. A county fair of some kind can also be held in connection with this.

ALEX GRAY'S STORE CLEVERLY ROBBED
Springfield, July 16.—Alex Gray, keeper of a cigar store and soft drink parlor here, has learned that the waste paper basket is not a good substitute for an iron safe in which to keep the cash of day's sales. Yesterday morning when he came down at 7 o'clock to open the store he found things in a disorderly condition, and upon looking at once under the waste box, where he had hidden his money the night before, found the cash missing. It was placed in a sack when the store was closed. The thief came in over the top of a window in the rear of the building, but went out the door, leaving it wide open. The act must have been committed

by some one acquainted with the proprietor's habit of leaving his money hidden over night, but the police have apprehended no one. The coin, which was in small change, amounted to \$24.85.

REAL ESTATE
BUSINESS IMPROVING
Springfield, July 16.—The real estate situation, which for the past few months has been unusually quiet here, and all over the valley in fact, is very rapidly picking up, and it is thought by the real estate dealers that this fall the market will be heavier than ever before. Already a large number of queries have been pouring into the local offices, especially during the past few days. There have been fewer tourists west this summer than last, and this is partly due to the light condition of the property market. Prices have been lowered in a few instances and there is good reason to believe, say the real estate men, that the number of sales will be large. It is thought that fruit lands will be in demand this fall and a number of large tracts are expected to change hands to capitalists who have been through here and examined the conditions for fruit raising.

BRIDGE WORK.
Springfield, July 16.—Said L. N. Roney, the P. E. & E. bridge contractor, today: "A week from Monday we'll be throwing these timbers over the false work." The concrete men are filling very rapidly the last pier of the big bridge and will complete it some time the middle of next week. The big timbers that have been built up at the end of the bridge are being hoisted together and are being faced and cut on the sides to fit the laterals. Before they are moved out over the piers they will all be unbolted and taken apart and then rebuilt in their final resting place. As soon as these are of the ground another four for the next span will be built.

LEFT FOR RICKREALL.
Springfield, July 16.—B. A. Washburne and family and J. L. Clark and family and his sister, Mrs. Kirkland, who has been visiting, left this morning for Rickreall, a small place in Polk county beyond Salem, in their White steamer, where they will spend Sunday visiting at the home of Mr. Clark's parents there.

BREVETTES.
Springfield, July 16.—President Conley of the Cottage Grove Commercial club was a visitor at the club meeting here last night. He spoke upon the value of city advertising, and was very much appreciated.

Doc Stewart hurt his leg last night when he fell through the boom at the head of the race while fishing with Harold Peery, and wears a stiff limp today. They say the fishing in the river is quite good, and they came back with several fish.

Born, in Springfield, July 15, to J. W. Morrow and wife, a girl.

The town council has purchased a street sprinkler and expect it to arrive at any time, and it will be used for the purpose of sprinkling the roads now being made by the city.—News.

Mrs. H. C. Baughman and children left yesterday for Ashland, where they will spend two weeks visiting Mrs. Baughman's sister, Prof. G. W. Milan. While there the sisters will enjoy a visit with their mother, Mrs. M. B. Reece, who will come from Santa Rosa, Cal.—News.

The members of the Baptist church met last Tuesday evening for the purpose of extending a welcome to the new pastor, Rev. Jesse Hyde, who came from Lander, Wyo., to take charge of the local church. The address of welcome was given by J. O. Richmond and was responded to in pleasant manner by Mr. Hyde. There was a large attendance and the evening was very pleasantly spent by all. Ice cream and cake were served.—News.

Mr. and Mrs. Pay, who have been conducting the American hotel for the past eight months, turned over the management of the same Monday morning to Mr. and Mrs. D. Crouch. Mr. Crouch formerly conducted a hotel in California and has therefore had considerable experience in that

line. Mr. and Mrs. Fay will occupy the property on the corner of Sixth and A streets for a short time, after which they expect to locate on a ranch.—News.

SPRINGFIELD BREVETTES.
Springfield, July 20.—There have been a number of rumors on the street as to the size of the forest fire at Wendling that has been burning since Sunday night. Some were to the extent that the Booth-Kell forces at the mill here are expected to be called up there any time to prevent the fire from spreading. The fire is only burning slashings and is doing more good than harm, for it is clearing the ground and it will be much easier to get the logs out to the railroad. One of the Booth-Kelly loading stations has been burned, but the loss is trivial. There is still a small fire on the McKenzie that is doing no harm, but is very pretty at night.

An automobile party consisting of Clark, Randall, Roberts and J. E. and H. M. Stewart spent a night up McKenzie, going up in Clark's auto Monday evening and returning next morning.

The sawmill was forced to shut down again yesterday afternoon through the lack of logs. It may start up again today or tomorrow, but possibly not until next week. The brush fire above Wendling is partly responsible for the delay this time, as part of the logging crews up there have been taken away from their work to watch the fire to see that it does not spread.

Parts of Eugene's power plant at Waiilatpe that have arrived during the past few days are being unloaded directly from the cars to the wagons that take them to the plant.

A number of local republicans are expecting to go to the republican convention at Portland Thursday. It is hard to tell just how many are intending to represent Springfield, but there will be at least half a dozen.

The walls of the second story of the Rivet building are rapidly being filled with concrete. A hoist operated by gasoline power lifts the concrete to the top of the wooden forms.

Springfield has limits on the hours that water may be used for irrigation, and many are falling to observe them. Water is only supposed to be used from 6 to 8 o'clock in the morning and from 8 to 9 o'clock at night.

TO AILING WOMEN.
A Little Sound Advice Will Help Many a Sufferer in Eugene.

No woman can be healthy and well if the kidneys are sick. Poisons that first off in the secretions when the kidneys are well are retained in the body when the kidneys are sick. Kidneys and bladder become inflamed and swollen and worse troubles quickly follow. This is often the true cause of bearing down pains, lameness, backache, sideache, etc.

Uric poisoning also causes headaches, dizzy spells, languor, nervousness and rheumatic pain.

When suffering so, try Doan's Kidney Pills, a remedy that cures sick kidneys. You will get better as the kidneys get better, and health will return when the kidneys are well. Let a Eugene woman tell you about Doan's Kidney Pills.

Mrs. J. D. Moon, 112 Lawrence street, Eugene, Oregon, says: "I am only too glad to recommend Doan's Kidney Pills. Kidney trouble caused me a great deal of suffering and I was unable to find relief until I used Doan's Kidney Pills. This preparation strengthened my back and kidneys and lived up to representations in every way."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

BORN
In Eugene, July 16, 1910, to Jack Stairs and wife, a son.

Walter E. Post of Vida spent Sunday in the city.
