

THE EUGENE WEEKLY GUARD

VOLUME 44.

EUGENE, OREGON, THURSDAY EVENING, JULY 28, 1910

NO. 30

WOODMAN OF WORLD MACHINE DEFEATS HEAD BANKER

Guard Special Service
Portland, July 27.—P. E. Snodgrass of Eugene was defeated for re-election as head banker of the Woodmen of the World by A. F. Sunderland of Fresno, Cal.

By unanimous vote and without opposition, the other officers were elected as follows:

Head Counsel—J. L. Cook of California, with offices at Denver, Colo., re-elected.

Head Adviser—T. P. Revelle of Seattle.

Head Clerk—C. V. Berney of Denver, re-elected.

Head Auditor—F. P. Berschey of Denver, re-elected.

As regards the defeat of Snodgrass for head banker, it is reported that there was no dissatisfaction with his conduct of the affairs of his office, nor was such action taken as a punitive measure.

Sunderland was merely slated for the office by the Woodmen machine, headed by Dr. James Steinhause of Denver, the mouthpiece of the administration, to conciliate him for his defeat as head manager at Seattle three years ago, it is said. The Oregon incumbent had to suffer in consequence of this deal.

It was to beat Hawley for re-election to the board of head managers, however, that the Oregon delegation was reserving its main strength, but the vigor of it threw into the fight against a vote this morning was largely increased by the defeat of Snodgrass to succeed himself as head banker.

The election for board head managers will come this afternoon.

Reports of Officers.

At yesterday's session the several head camp officials submitted reports, which indicated the order was in a prosperous condition. Head Clerk Benson reported that in his three-year term certificates to the amount of \$42,332 had been issued. He says:

"We rejoice and are happy in the fact that during the 20 years of our order's existence it has kept faith with \$22,000.

MILITIA MEN ARE URGED TO ATTEND ENCAMPMENT

An Appeal to Patriotism of Citizen Soldiery and Their Civil Employers

The following has been received by the headquarters staff of the Fourth Regiment in this city:

Headquarters Department of the Cavalry, Vancouver Barracks,

Wash., July 22, 1910.

The Adjutant General,

State of Oregon.

Pontiac, Oregon.

Sir:—I desire to call your attention to the great importance of having as large an attendance as possible at the maneuver camp at Ameri-

can Lake next month. It is fully ap-

preciated that members of the Na-

tional Guard cannot always conven-

tently leave their civil vocations to

perform their military duties, but it

is so necessary to have a full attend-

ance in order to derive any consid-

erable benefit from the camp that ev-

ery effort should be made to secure

the presence of as many men as pos-

sible. It is confidently believed that

if the members of the militia and

their employers can be impressed

with the importance of this matter,

no difficulty will be experienced, as

the patriotism of the American peo-

ple is such that they would be unwill-

ing to hamper the government in its

efforts to train the nation's defend-

ers.

Congress this year has appropriat-

ed over a million and a quarter of

dollars for the maneuvers, and we

should do all we can to render a full

return for this liberality. As Presi-

dent Washington said, it is necessary

to prepare for war in time of peace.

Hostilities have commenced it

is time.

The conditions of mili-

taires require such a high de-

gree of discipline and such thorough

training that much preparation is re-

quired before soldiers are ready to

take the field against an enemy. The

maneuver camps are most important

in the years' training, and no man

should be absent if it is possible for

him to attend.

Very respectfully,

HENRY C. CABELL,

Major Gen. Staff, Chief of Staff.

Cocca insipidus have grown rapidly

during the decade, those of 1909 hav-

ing been the largest on record. In

\$13,250,000, were imported, the

slightly lower value in 1909 compar-

ed with 1907, being due to the fall in

price from 7¢, cent, a pound in

1907 to 1¢ cents in 1909.

Beneficial results are said to have

been obtained experiments in a London

hospital by which asthma, bronchi-

itis and even tuberculosis patients were

required to breathe compressed air

for a few hours at a time.

G. H. Brower, superintendent of

the Glen Rogue orchards, situated

about three miles south of Jackson-

ville, has announced that he will

clear and set to orchard 1200 acres

of the company's land as soon as the

necessary men can be secured. Brow-

er is now in Portland looking for a

place to live.

A massage apparatus invented by

an Ohio woman consists of a suction

cup on one end of a lever to operate

a plunger within the cup, the whole

being operated with one hand

for a few hours at a time.

Portland, July 27.—At Coquille City last night the boiler of

the Coquille Mill & Mercantile com-

pany exploded, killing Engineer S. E.

McCauley and seriously injuring Mrs.

McCauley, who was visiting him at

the mill. The damage was \$10,000.

So much help is needed on the

farms around Mist that the samplings

have been compelled to close for a

time.
