Most Attractive Styles in the New Fall Suits and Coats

We are very fortunate in securing almost complete shipment of our fall stocks of women's and misses' Suits and Coats. This is remarkable, as more than 90 per cent of the garment workers of New York have been on strike for more than two months, and the outlook is not promising for an early adjustment of the difficulties between the manufacturers and operators, which means that Coats and Suits later in the season will not only be difficult to get in desirable makes and cloths, but will be very much higher in price. We advise early shopping to secure the best styles and values. The styles here now are no doubt the best pick you will get in this season's goods.
