tempted to deceive humanity-representing themselves as human beings who have died and who desire to com municate with their friends. And they attempt to do so through spirit mediums. This is their practice from of old. Their endeavor is to break down the human will and to more and more control it. The height of their ambition and success is to fully dominate the human will, so that they may use the human body as their own flesh, as when they had power to materialize, Those who come fully under their control become demented, often several spirits gaining possession of the one 000----personality and attempting to use the continually." all this is the Truth of God's Word. Those who accept that cannot be deceived. But the masses of mankind are being deceived. We are not claiming that all medlums are fraudulent. Some of them we know to be most sincere. A large number have been delivered from their awful position of acting as tools of Satan by the reading of our little pamphlet, "Proofs that Spiritism is

#### Jeaus Preached to These Spirits.

There are no human spirits to be preached to. Human beings are not spirit beings. The dead of humanity who have never heard of "the only name given under heaven or amongst men whereby we must be saved" will hear that name in God's due time-in the resurrection-during the thousand years of Messiah's reign when he, as the true Light, shall lighten every man that cometh into the world" (John 1, 9). But if Jesus died and in death knew not anything, how could be preach to the fallen angels? We answer that it is a common expression that "actions speak louder than words." The great actions or facts connected with our Lord's death and resurrection constituted a most wonderful sermon to the fallen angels. As they beheld the Redeemer's faithfulness to God, even unto death, even the death of the cross, and as they then beheld God's faithfulness to him in raising him from the dead to the highest nature-the divine nature-"far above angels and principalities and powers and every name that is named"-all this constituted a most wonderful sermon of love and loyalty, faith and obedience, etc. The sermon to them meant, How serious was our mistake in being disobedient to God in any particular. It meant also, May not God, who has thus gone to so much trouble for the redemption of fallen men, have in his heart also Prince, "The Prince of the power of a place of mercy for us, should we rethese angels, with the exception of Satan, are yet to have a testing or trial to the world of mankind during the Millennium, but also that we shall judge angels-not the holy angels, for, our part-but the fallen angels (I Cor. v1, 3). Quite possibly the hopes inspired by that great sermon preached by our Lord's resurrection to the spirit beings led some of those fallen angels to repentance. If so we may suppose that during the eighteen centuries since, they have suffered severely at the hands of the rebellious angels, who would be aroused to animosity by their reform. The Scriptures seem to imply that "fallen angels," "wicked spirits," "lying spirits," "demons," will have much to do with bringing about the great "time of trouble" with which this Gospel Age will end, before the complete inauguration of Messiah's Empire and the binding of Satan (Revelation xx, 4). The intimation is that the trouble here will be short and sharp, as in the days of Noah. The declaration of the Apostle that these evil spirits will be in chains of darkness until the Judgment of the Great Day leaves room for the inference that when the Judgment of the Great Day begins, the chains of darkness will be broken. If, therefore, we have the right understanding of this matter great events are near at hand. Spirit mediums are already declaring that the spirits tell them that they will soon be able to materialize in broad daylight. With the power to counterfeit and personate humanity what may this not mean in the way of deception mentioned by our Lord, who declares that it will be so strong that it would deceive even the "very elect" were they not specially protected and guid We remind you also of the great stride which Spiritism, Occultism and Psychic Science have made within the last few years. These now numberamongst their friends and advocates some of the brightest scientific minds. One of these, Prof. James, of Harvard College, recently, before dying, declared that he would speedily communicate with his friends. Already the newspapers tell us that he has begun to communicate, but the mediums claim that he has difficulty in operating through them, because of the great force and power of his intellect and that they must gradually become able to act as his mediums. From the Bible standpoint all this is a fraud-a de-, ception-but not on the part of the mediums who are themselves deceived. but on the part of the fallen angels, who are thus tricking humanity. ----

erty Now let us hear St. Peter's words respecting these angels who sinned. He says (II Peter 11, 4), "God spared not the angels that sinned, but cast them down to hell, and delivered them into chains of darkness, to be reserved unto judgment." The word tartarus here rendered "hell" in our Common Version, is found nowhere else in the Bible. It refers to our earth's atmosphere and to the fact that those fallen angels, called demons or devils, are "the power of the air." And Satan. who was originally an angel of much higher rank and nature, is their

Almighty is limited to our observation of the Bible record. The angels who ADVERTISED LETTERS appeared as young men at our Lord's sepulchre and again at his ascension and who, as soon as they had accomplished the purposes of their visit, vanished, are illustrations.

We remember the account of Abraham sat in the door of his tent and, Behold, three men came to him. He received them as men, entertained them at dinner and, we read, "They did eat and talked with Abraham." They had human powers though still spirit beings. When they dematerialized they vanished.

own obedience and loyalty to God.

Genesis vi, 1-2. informs us that this privilege of materialization for the assistance of mankind was eventually misused by some of the angels as an opportunity for sinful intercourse with humanity. The time at which this began is not definitely stated. The expression, "When men began to multiply on the face of the earth," might safely be estimated at about a thousand years after Adam's creation and fall. This would leave a period of 655 years to the flood. It was approxirenown-and giants. We remember are not mentioned as boys, but men. the thought that the angels, without

Turn to St. Jude's Epistle. There we read (verse 6), "The angels which kept not their first estate, but left their own habitation, he hath reserved in age lasting chains, under darkness, unto the Judgment of the Great Day." Their first estate in which they were created was the spirit or angelic condition. They left their own proper condition of living and nature, in violation of the Divine will, that they might live on a lower plane-live in sin; for the angels are sexless, though always referred to as masculine. And our Lord declares that those begotten of the boly Spirit, who during this age shall attain to the resurrection of the dead, the "First Resurrection," will be "like unto the angels" in several respects-one of these being that they will neither marry nor be given in marriage, but be without sexual distinction.

In harmony with this note how spiritualists hold their seances, either in absolute darkness or in a very faint light. They claim now that the spirits are getting more and more power of materialization and that soon they will be able to materialize in broad mately during that long period that day light and go about amongst huthe angelic sons of God, seeing the manity as members of the race.
