Every year a Eugene housefurnishing concern gives a special closing out sale, and in each case it is bunco the public. This year he gives a \$10,000.00 bond that it is a genuine final closing out sale. This bond is in line with the balance of the advertising of this closing out sale and shows positively its flim flam character in all its detail. The bond does not call for any definite time to close in, one day or ten months. Note these comparisons of advertising that tell the story.

9x12 Axminster Rug (claiming Portland price \$32.00) Bunco Sale price \$19.68, at Campbell-Fellman Co. several patterns Ea. **\$17.90**
Best Iron Bed made (claiming Portland Price \$48.00) Bunco Sale Price \$27.85, at Campbell-Fellman Co. several patterns Ea. **\$20.00**
Dining Tables, a big variety to select from at Campbell-Fellman Co. at prices that beats all **BUNCO SALES**

Positive Proof Snap and Bunco

of the methods of this concern, of flim-flaming the people. A snap for a bait and bunco on goods you don't know. They advertise latest model New Home Sewing machines for \$25. If you can buy a New Home, latest model, for that price and you want a machine—buy it.
Right under this ad they advertise the Free sewing machine as the wonderful best machine made, closing out sale price \$39.00. Any woman in Lane county knows that the high-grade machines are the White, New Home, Singer and Wheeler & Wilson. No one ever heard of the Free. It is a second-grade machine used for illegitimate advertising purposes and mail order houses. We sell a better machine than the Free for \$19.75.

The above is proof of what you desire.

We don't advertise chairs, regular price \$8, sale price \$3.90. That's like the sewing machine deal, and like all the advertising done on bunco closing-out sales—just to catch you.

W. A. Vincent, of Springfield, priced goods at the closing-out prices and says we saved him \$50 on the deal—just an instance of those who investigate and know what they do.

We are here to back our word and make good at any time. We carry a stock to select from and make you prices that make would-be closing out sales look like 13 cents.
