## GAS MAINS WILL BE EXTENDED TO SPRINGFIELD

The Eugene gas mains will at once be extended to Springfield, the Northwestern Corporation's new office block in Eugene will be built two stories throughout and the Byllesby company has purchased the gas plant at Stockton, Cal. This is the news brought to Eugene by M. D. Spencer, local manager for the Byllesby interests, who returned to Eugene last night from a trip to Chicago, where he conferred with the head officials of the company.

Mr. Spencer presented the matter of gas main extension to Springfield and a larger building than at first planned, with a result that the plans were considered feasible and were favorably acted upon by the head officials.

**Apply for Franchise**  
 An application for a franchise to lay the gas mains on Springfield's streets will be made to the council of that city tonight and it is highly probable that it will be granted in the very near future, for a majority of the councilmen have expressed themselves favorably toward the matter.

Engineer H. H. White will have complete charge of the gas and electric extensions here, and at Springfield, and the company has already begun work on new water gas plant adjoining the old plant built by the Willamette Valley company, and the large tank to be erected will have sufficient capacity to supply both cities with gas for a number of years to come. The building of this larger plant and the extension of the mains to Springfield will mean the expenditure of thousands of dollars in addition to that already being expended by the company in extending the gas mains to all parts of Eugene.

**A Larger Building**  
 The change in the plans of the company's new block in this city necessitates a delay in the letting of the contract. The architect will have to materially change his plans, which will take some time, and the bids will have to be re-advertised for. The original plans called for one story the full length of the lot, from Willamette street back to the alley and two stories about half way back, but the new plans call for a two-story building the entire length. The front of the building will also be changed to some extent.

G. F. Mattock, an old employee of the company, will be sent to Stockton to have charge of the gas plant purchased there.

These improvements, together with those already being made in this city, are in line with the announcement of the company when the local plants were first taken over last spring that a quarter of a million dollars would be expended by the new owners in improving the service here.

## ROSEBURG VOTES HIGH SCHOOL BONDS

Roseburg, Oct. 23.—In one of the most spirited contests held here for years the progressive element yesterday authorized the expenditure of \$75,000 in the purchase of a site and the erection of a new high school building by a vote of 61 to 50.

It had originally been intended to vote upon a bond issue in the sum of \$100,000, but so bitterly was that sum opposed by many of the property owners that it was finally decided to reduce it to \$75,000. As soon as a suitable site can be selected the work of erecting the building will be commenced.

## BORN.

At Junction City, October 19, 1910, to Mr. and Mrs. Uephrich Aldrich, a daughter.

In Eugene, October 22, 1910, to Professor and Mrs. Joseph Schaefer, a son.

## MARRIED

At the home of the bride's parents, Mr. and Mrs. Ira Higgins, at Goshen, October 16, 1910, Raleigh Roney and Miss Ruth J. Higgins, Rev. J. L. Staratford officiating.

At the home of T. B. Simeral in Cottage Grove, October 22, 1910, H. Earl Simeral and Miss Zelma M. Maples, both of Cottage Grove, Rev. Robert Sutcliffe officiating.

## DIED

At his home, 781 University avenue, in Eugene, October 25, 1910, at 6 a. m., John Paul Hale, aged 78 years, 5 months and 14 days. The cause of death was heart trouble, from which he had been suffering for a long time. He leaves his wife and four children, as follows: John and George Hale, of Vancouver, B. C.; Mrs. William Haferkorn, of Everett, Wash., and William Hale, of Eugene. The funeral will be held at the Gordon chapel Thursday, at 2:30 p. m., with interment in the I. O. O. F. cemetery. Rev. H. N. Mount will have charge of the services.

At the family home at 205 West Tenth street, Eugene, at 4:30 a. m., October 25, 1910, Don, the eight-year old son of Mr. and Mrs. F. A. Hagedorn, of diptheria. The remains will be conveyed to Ellensburg, Wash., on the evening train today for burial.

## SKIN DISEASES HUMORS IN THE BLOOD

Nature has made ample provision in the moisture and sunshine of the air for the outward protection and healthy condition of the skin. But the more important work of nourishing the cuticle has been left to an inward source—the blood. It is from the circulation that the pores and glands receive their stimulus, and the fibrous tissues are all preserved in a healthful state because of constant nutriment supplied by the blood. It is only when the circulation becomes infected with humors or acids that we are troubled with skin affections. The humors producing these troubles are carried through the circulation direct to the skin, and their irritating or inflammatory effect remains until the blood is cleansed. S. S. S. cures Skin Diseases, because it is the greatest of all blood purifiers. It goes into the circulation and REMOVES the acids and humors which are causing the trouble. builds up the weak, acrid blood, and completely cures Eczema, Acne, Tetter, Salt Rheum, pimples, rashes, and all eruptions of the skin. When S. S. S. has driven out the humors every symptom passes away, the skin is again nourished with cooling, healthful blood, natural evaporation is renewed, and the skin becomes soft and smooth. Book on Skin Diseases and medical advice free THE SWIFT SPECIFIC CO., Atlanta, Ga.

**S. P. SURVEYORS BETWEEN EUGENE AND FLORENCE**

The Southern Pacific surveying crew which left Junction City about two months ago, to survey a railroad from that place to Florence, are now encamped near the half-way house on the road between Eugene and Mapleton, having moved there a week ago.

After leaving Junction City they ran a line as far west as Triangle Lake, going over both the High Pass and the Low Pass routes. They then went back part way to Junction City and surveyed a line to Smithfield, and passing about half a mile west of Elmira came up Not Creek and crossed from the head of that stream over to the head of the Wildcat.

One of the men informed us that they found a good road from Junction to the lake.

Hunt's men a few days ago were working on the upper part of the Wildcat creek, and were camped where the road to Not valley leaves the Eugene stage road.

**Local News of Florence**  
 Mr. and Mrs. M. M. Peery, of Springfield, were passengers to Mapleton a few days ago to spend a few days at hunting and fishing.

The schooner Oakland was towed out to sea yesterday and set sail for San Francisco, loaded with lumber from the mill at Florence.

The schooner Sansalito was towed out to sea Wednesday forenoon loaded with lumber from the Oregon & California Lumber Co's mill.

Forest Ranger Young has moved his headquarters from the Pickle house to the Bank building to the rooms formerly used by Wolf & Kemp for a real estate office.

Mr. Benson is preparing to log on Sweet creek this winter. He has secured the timber on Andrew Hartley's place and will cut it off. He will log the timber along the creek bank by hand but intends to use an engine for that growing further back.

Preparations are being made for a big blast at the quarry, to be fired in the next few days. A tunnel was driven in the face of the rock a distance of about thirty feet, then a shorter tunnel was opened from the end for a distance of about fifteen feet on each side, making the entire passage the shape of a T. Several kegs of powder will be placed therein and the whole exploded with fuse. By this means they expect to throw down thousands of tons of rock from the face of the bluff and make it easier and more expeditious work of loading the rock on the scows.—Florence West.

**After Shaving**  
 Use Dr. Bell's Antiseptic Salve. I will prevent the face getting sore. I destroys germs and prevents contracting any disease. 25c. Sold everywhere, and by the Dillon Drug Co. in Eugene.

**If You Have Any Doubt**  
 of the merit of Dr. Bell's Pine-Tar-Honey, one bottle will remove that doubt and your cough at the same time. Look for the bell on the bottle. It's the genuine. Dillon Drug Co.

## CLUB HOLDS ITS REGULAR MONTHLY MEETING

(From Tuesday's Daily Guard.)  
 Last night Springfield returned the call made by the citizens of Eugene to that city Saturday, when the new P. E. & E. bridge was opened. A general good time was had at the Commercial club parlors and the visitors went home late, feeling that Eugene really knows how to entertain her guests. W. A. Bell presided over the meeting, and speeches were made by several citizens of both cities.

After the reception the regular monthly business meeting of the club was held. President Vyan brought up the matter of the club's membership, stating that it is now larger than it has ever been before. He urged an active campaign for more members. The proposition of Jack Rodman to select a membership committee of 50 and make a whirlwind campaign for members, was accepted. He agreed that if his fifty men did not have more names on their list than the entire remaining members of the club, he would give a supper for all members.

**Barr Bros. Knife Factory.**  
 The proposition as mentioned in last evening's Guard to capitalize Barr Bros. knife factory at something like \$50,000, and enlarge the plant, was brought up and discussed. A committee consisting of M. Vernon Parsons, A. C. Dixon and G. W. Griffin, was appointed with a view to financing the project.

**Endorse Normal Schools**  
 The club passed a resolution endorsing the normal schools. The wording of the resolution is as follows:  
 Whereas, an efficient system of state normal schools is an absolutely essential feature of an adequate scheme of public education, and

Whereas, the geography of Oregon, and the distribution of its population seemingly makes it necessary that there be at least three state normals in Oregon, and

Whereas, the state has suitable properties for these schools in the cities of Ashland, Weston and Mouth, therefore, be it

Resolved, that the Commercial club of Eugene hereby give its unqualified indorsement to the bills for the support of these three Oregon state normal schools.

E. C. POTTER,  
 C. S. WILLIAMS,  
 A. C. DIXON,  
 Committee.

## NEW G. A. R. POST ORGANIZED TODAY AT SPRINGFIELD

Iuka Post No. 48 Instituted With Seventeen Charter Members

Springfield, Oct. 25.—All the local members of the Grand Army met this afternoon to be installed as a separate organization in the G. A. R. order. The new post will be known as Iuka Post No. 48, and will consist of 17 charter members. It is understood that this number will be shortly increased to 20. Installing Officer J. G. Darr will have charge of the exercises, and he will be assisted by Department Commander W. J. R. Beach, of Forest Grove, and Department Adjutant C. A. Williams, of Portland. A large number of visiting members were present not only from Eugene, but from the other cities in the county. At the election this afternoon there were the customary officers chosen.

**"To Be or Not to Be."**  
 constantly coughing depends on whether or not you use Dr. Bell's Pine-Tar-Honey. A few doses will stop that cough. Dillon Drug Co.

## CROW ITEMS

**Special Correspondence.**  
 Crow, Oct. 26.—E. E. Hunter is making good progress with his farming on the Ford place.  
 Henry Hadley is sawing up many waiting wood piles with his gasoline saw.  
 W. L. Ford has moved his family into their own home here. We are glad to welcome them back.  
 Andrew Erickson has sold his place at Llewellyn for \$50 per acre and move to this neighborhood where he and Edward Bjerke have rented a hop yard.  
 Mr. Jas. Hinton has removed to the place he has rented from Frank Diez.  
 Richard Hayes and Jessie McCulloch are the owners of new buggies. Look for effects soon.  
 Miss Barber, teacher at Hadleyville, and Miss Barnum, at Palestine, left for Eugene last Saturday to attend teachers' institute. Miss Barnum will take up her duties again on Thursday.

We had always supposed it seemed very painful to have one's arm out of place, but it doesn't seem to trouble some folks at all.  
 Hadleyville has a very youthful preacher, Riley Givens McCulloch, but seventeen years old. He seems deeply in earnest. He will make his fourth effort at Hadleyville school house the fifth Sunday in October.

L. A. Davis, a barber in Schwering & Lindley's shop, has received word that his wife's brother had been killed at Eureka, Cal., but no details were received.

## DOCTOR ADVISED OPERATION

**Cured by Lydia E. Pinkham's Vegetable Compound**

Galena, Kans.—"A year ago last March I fell, and a few days after there was soreness in my right side. In a short time a lump came and it bothered me so much at night I could not sleep. I kept growing larger and by fall it was as large as a hen's egg. I could not go to bed without a hot water bottle applied to that side. I had one of the best doctors in Kansas and he told my husband that I would have to be operated on as it was something like a tumor caused by a rupture. I wrote to you for advice and you told me not to get discouraged but to take Lydia E. Pinkham's Vegetable Compound. I did take it and soon the lump in my side broke and passed away."—Mrs. R. R. HULLY, 713 Mineral Ave., Galena, Kans.

Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has proved to be the most successful remedy for curing the worst forms of female ills, including displacements, inflammation, fibroid tumors, irregularities, periodic pains, backache, bearing-down feeling, flatulency, indigestion, and nervous prostration. It costs but a trifle to try it, and the result has been worth millions to many suffering women.

If you want special advice write for it to Mrs. Pinkham, Lynn, Mass. It is free and always helpful.

## HEAVY LOSS OF TIMBER BY THE LATE FIRES

Washington, Oct. 24.—Six billion board feet of lumber, valued at \$15,000,000, was destroyed in the recent forest fires in the national forests of Montana and Idaho. The total area burned over in this one district was 1,250,000 acres. The heaviest losses were in the two Idaho forests of Coeur d'Alene, where 450,000 acres were burned over, and the Clearwater, where 300,000 acres were burned over.

Other heavy losses were in the Helena national forest of Montana, 400,000,000 feet; the Cabinet forest, 400,000,000 feet; Lolo forest, 300,000,000 feet.

## CONCRETE BUILDING FIRM SUES JUNCTION CITY ON CONTRACT

Allege That City Fails to Pay for Curbing Built on Several Streets

J. H. Miller, O. A. Miller and G. W. Miller, who have been engaged in building cement sidewalks and curbing in Junction City during the summer and fall, today began suit against that city to recover \$2904, alleged due on a contract to build curbs on various streets. It is alleged that the city only paid the plaintiffs \$2500 on the contract, which calls for \$4404, and the balance is due, but the city refuses and neglects to pay it. It is said by others that the city claims that a part of the work was defective, and not up to the standard contracted for, but this, of course, will be determined in court.

The streets on which the Miller brothers allege that they had contracts to build curbs are as follows: Catherine street, from Sixth to Tenth; Greenwood, from Second to Fifth; from Seventh to Tenth and from Tenth to Seventeenth; Laurel, from Sixth to Tenth; Ivy, from Sixth to Tenth; Holly, from Second to Tenth; Front, from Second to Fifth; Deal, from Fourth to Sixth; Front, from Seventh to Tenth; Elm, from Sixth to Tenth; Ninth, from Greenwood to Catherine; Tenth, from Elm to Catherine; Third, from Front to Holly; Eighth, from Front to Catherine; Fourth, from Front to Holly; Fifth, from Front to Holly; Seventh, from Front to Catherine; Sixth, from Holly to Catherine, and Sixth, from Deal to Elm.

The contract price, according to the complaint, was 18 3/4 cents a running foot for straight curbing, and 23 cents a foot for curved curbing. The total number of feet was 31,312 feet of straight and 2052 feet of curved curbing, aggregating \$6,343.65.

The plaintiffs allege that they have presented their claim for the balance due, but the city refuses to pay. Skipworth & Pipes are attorneys for the plaintiffs.

**Why People Cough**  
 is a mystery when Dr. Bell's Pine-Tar-Honey will cure any cough. Look for the bell on the bottle. It marks the genuine. For sale by the Dillon Drug Co.

W. P. Hines and P. H. Kylio, of Blue River, are in the city for a day or so.
