

When You Think

Of the pain which many women experience with every month it makes the tenderness and kindness always associated with the womanhood seem to be almost a miracle. While in general no woman rebels against what is regarded as a natural necessity there is no woman who would not gladly be free from this recurring period of pain.

Dr. Pierce's Favorite Prescription makes weak women strong and sick women well, and gives them freedom from pain. It establishes regularity, subdues inflammation, heals ulceration and cures female weakness.

Sick women are invited to consult Dr. Pierce by letter. All correspondence strictly private and absolutely confidential. Write without fear and without fee to World's Dispensary Medical Association, R. V. Pierce, M. D., President, Buffalo, N. Y.

If you want a book that tells all about women's diseases, and how to cure them—home, send 21 one-cent stamps to Dr. Pierce to pay cost of mailing only, and he will send you a free copy of his great thousand-page illustrated Common Sense Medical Adviser—revised, up-to-date edition, in paper covers, in handsome cloth-binding, 31 stamps.

LONG AND SHORT HAUL CLAUSE IS BEING HEARD

Washington, Nov. 28.—A hearing of representatives of both railroad companies and shippers was commenced today by the Interstate Commerce Commission, to decide differences resulting from the construction of the long and short haul order.

Under the decision of the commission, the railroads must maintain the present rates until February 17 next, in conformity with the law, which provided that no changes are to be made for a period of six months. The commission some time ago announced that no changes in rates would be permitted in the interim which in any way affect the existing relationship between the long and short haul.

After February 17, under the order of the commission, a lesser rate cannot be charged for a longer than a shorter haul, except in special cases to be determined by the commission.

The railroads are required to apply to the commission for each group of rates where it is desired that the long and short haul principle shall apply. Specific reasons must be given in each application for the suspension of the law which provides that no railroad shall charge any greater compensation for the aggregate for the transportation of passengers or of like kind of property for a shorter than a longer distance.

The commission is granted discretion in the law to prescribe, after investigation, to what extent railroads may be relieved from the full force of this provision. This has led to numerous applications from railroads and from the jobbers and business interests of cities which benefit from the present system of long and short haul rates, for relief from the provisions of the new law. Under the present system, many cities with water competition are given considerable rate preferences over interior cities with shorter rail hauls.

SUBJECT OF NEW HOME FOR COMMERCIAL CLUB IS AGAIN DISCUSSED

Committee Appointed to Select a Suitable Lot—Good Roads Meeting to Be Held

The matter of building a new home for the Commercial Club, the project first being brought up some months ago, was again discussed at the regular meeting of the club last night, the discussion resulting in the appointment of Jack Rodman, W. M. Green and E. S. Rolfe, who are authorized to look up a suitable location for the building.

Enthusiastic speeches were made by various members of the club on the subject.

Eugene-Lorane Road
The matter of a good highway between Eugene and Lorane, the new fruit district, was brought up. President Yoran called attention to an invitation of the Creswell Commercial Club for Eugene to join that town in building a good road between the two points by way of Creswell, but Jack Rodman and others favored a direct road from Eugene to Lorane by way of the Spencer Creek valley. A road already exists on that route, but it is not in very good condition.

Good Roads Meeting
F. A. Rankin moved that a good roads meeting be held and a committee consisting of J. W. Shumate, Frank Jenkins and M. Svarverud was appointed to arrange time and place for the meeting.

Amos Wilkins said he had engaged the vacant room in the Dunn-Wilkins block on West Eighth street for the state dairymen's convention early in December.

CENSUS BUREAU SAYS OKLAHOMA NOW HAS 1,657,155 POPULATION

Washington, Nov. 28.—The state of Oklahoma has 1,657,155 population, according to figures given out at the census bureau. This is an increase of 242,987, or 17 per cent, since 1907, when the census was taken. The new figures entitle Oklahoma to another congressional representative.

PORTLAND HAS 207,214 PEOPLE; SEATTLE 237,194

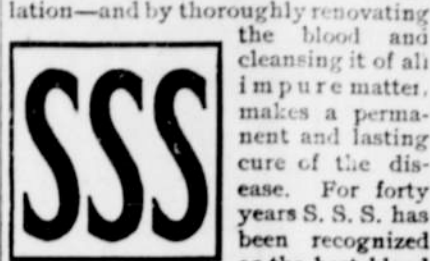

Washington, Nov. 28.—The census bureau Saturday night announced the population of Portland 207,214, an increase of 116,568, or 129.2 per cent, over 90,426 in 1900. Seattle, 237,194, an increase of 156,523, over 80,671 in 1900.

HOME RULE EXPENSES AMOUNT TO \$39,786.72

Salem, Or., Nov. 28.—H. C. McAllister, manager for the Home Rule association, filed a statement yesterday of expenses incurred by that organization in the late campaign. Total expenditures equaled \$39,786.72, and the total contributions were \$40,210.25. The larger items of expense were as follows: Literature and stamps, \$11,137.34; newspaper, \$7,709.49; special advertising, \$6,289.06; salaries, \$6,103.38. There is a balance on hand of \$232 and \$200 was turned back to contributors.

CATARRH A SPECIFIC BLOOD IMPURITY

Catarrh is a deep-seated blood disease, one which no amount of local treatment will ever permanently cure. The beneficial effects of washes, sprays, inhalations, etc., are only temporary, and when left off the old condition returns, because the blood is infected with catarrhal matter and impurities. This impure condition of the circulation irritates and inflames the delicate mucous membranes and tissues and produces the well known symptoms of ringing noises in the head and ears, mucus in the throat, headaches, watery eyes, partial deafness, sore throat, general impairment of health, etc. This condition will remain, growing worse as long as the catarrhal matter is allowed to remain in the blood. Being a specific blood impurity, there is only one way to cure Catarrh, and that is to purify the blood. Nothing equals S. S. S. for this purpose. It attacks the disease at its head—in the circulation—and by thoroughly renovating the blood and cleansing it of all impure matter, makes a permanent and lasting cure of the disease. For forty years S. S. S. has been recognized as the best blood purifier, and the thousands of cases of Catarrh it has cured is proof that it is the very medicine needed by those who suffer with this trouble. Book on Catarrh and any medical advice free. THE SWIFT SPECIFIC CO., Atlanta, Ga.

WILCOX'S MESSAGE FROM JAMES J. HILL

"Empire Builder" Tells of Work That Will Be Done in Oregon

Salem, Or., Nov. 28.—Theodore B. Wilcox, president of the Oregon Development League, electrified the opening session at Salem today with the statement, "Last June James J. Hill, the empire builder of the Northwest, gave me his word that he would not only invade the territory of the Harriman system, known as the state of Oregon, but gave me permission to quote him. The exact words used by Mr. Hill were: 'More miles of railroad will be built in the state of Oregon within the next five years than in any state in the union except Montana. I would have done it before if I could have gotten the money together.'"

"From my other conversations with Mr. Hill I feel able to say to this convention that Oregon is to be opened by railroads for the development sure to come, and that the vast wilderness known as Central Oregon will be made as easily accessible as the suburbs of Portland."

State May Aid Publicity
Of equal importance to the state was the promise from Charles L. McNary, representing Oswald West, the governor-elect, that the incoming executive would recommend an appropriation of \$20,000 per annum for the publication of a state advertising book, the resources of each county to be given space.

In such words did President Wilcox begin his speech accepting the hospitality of the capital city as extended by Mayor Rodgers, and as the message fell from his lips it elicited enthusiasm no less marked than did the address of welcome by the chief executive of the city, who advocated the opening of the resources of the state to the farmer and the home-builder.

Known as the man "who held Hill's coat-tails for 14 years," while demanding construction of the North Bank road into Portland, Mr. Wilcox spoke for the empire builder who has definitely informed the officers of the convention that he cannot be here to make his own promises of the aid his railroads will extend in the development of Oregon, the purpose of the convention.

Need of More Farmers
Mr. Wilcox cited figures showing that the grain crop of the Northwest, which amounted to approximately 50,000,000 bushels, was grown on about 1,500,000 acres, while in the Willamette valley alone there were 4,000,000 acres of tillable lands. Mr. Wilcox said the grain and fruit crops of the Northwest combined were grown on not more than 2,000,000 acres, while in the Willamette, Rogue river, Hood River, Deschutes, Umpqua, Malheur, Tillamook and thousands of smaller valleys there are millions of acres of tillable lands not touched yet by the hand of man.

The speaker also called attention to the completion of the Panama canal, which Mr. Taft says will be finished in 1913, slightly more than two years from now. He told those present that no one present realized what strides Oregon was destined to make in the five years immediately ahead and that the thing to do was to spend money and boost and keep forever at it. He said the truth about the state of Oregon was all that was necessary to be told and it was good enough for any man, whether he lived in Oregon or in Europe.

That it was not desirable that development congresses should be held regularly was the opinion stated by Mr. Wilcox. He said he thought interest could best be kept up by holding congresses at irregular intervals. He said an effort must be made at the present congress to double the past effort and every man with a new idea or a new thought should be given an opportunity to place it before the three days' session closing next Wednesday.

R. Richardson and wife, of Denver, after a visit at the home of Mr. and Mrs. Vanderwert in Eugene, left today for Vancouver, Oregon.

PLANT 70 ACRES APPLES ON TRACT ON FERN RIDGE

One of the largest apple orchards in the county is now being set out by "Our Land Company," composed of a number of Eugene business men, on Fern Ridge. The company a year or so ago bought a large tract of farming land on the ridge about four miles due west of Irving and has planted 70 acres of it on the old Mulkey and Jensen places for apples. The young trees are now arriving and the work of setting them out has begun. The trees came from the Northwest Nursery company at Yakima, Wash. H. A. Goyle being here to deliver them to the company. Sixteen hundred Spitzenburg trees will be set out and the remainder of 1900 trees are Yellow Newtowns. They will be planted fifty to the acre, which is the standard used in all of the leading orchard communities. The trees are all first-class and free from any kind of pest, being examined at the depot by County Fruit Inspector Beebe before they were hauled away.

The land on Fern Ridge, where the trees are being set out, is well adapted to fruit culture. This company will take good care of the orchard until the trees begin to bear, and expect to reap a big profit from the apples beginning in about four years from now.

ALL-NORTHWEST TEAMS ARE BEING CHOSEN

The sporting writers on the big papers are now picking out All-Northwest college football teams. Following are the Journal's and Oregonian's:

The Journal's Team
Left end, Michael, University of Oregon.
Left tackle, Grimm, University of Washington.
Left guard, Laird, Washington State.
Centre, Dunn, Oregon Agricultural College.
Right guard, Bailey, University of Oregon.
Right tackle, Eakins, University of Washington.
Right end, Huntley, Oregon Agricultural College.
Quarterback, Coyle, University of Washington.
Left half, Cox, Whitman College.
Right half, Taylor, University of Oregon.
Fullback, Keck, Oregon Agricultural College.

Oregonian's First Team
Left end, Huntley, Oregon Agricultural College.
Left tackle, Eakins, University of Washington.
Left guard, Laird, Washington State College.
Centre, Harter, Washington State College.
Right guard, P. Grimm, University of Washington.
Right tackle, Bailey, University of Oregon.
Right end, Thornton, University of Idaho.
Quarterback, Coyle, University of Washington.
Left halfback, Cox, Whitman College.
Right halfback, Taylor, University of Oregon.
Fullback, Keck, Oregon Agricultural College.

Note—A careful comparison of the guards of the conference teams does not warrant any of them being selected, and Laird and P. Grimm, both of whom are tackles, are selected because of their being equals of Eakins and Bailey in the line.

Oregonian's Second Team
Left end, W. Grimm, University of Washington.
Left tackle, Endberg, Oregon Agricultural College.
Left guard, Cole, Whitman College.
Centre, Dunn, Oregon Agricultural College.
Right guard, Swarva, University of Washington.
Right tackle, Hunter, Washington State.
Right end, Husby, University of Washington.

Quarterback, Latourette, University of Oregon.
Left halfback, Hastings, Oregon Agricultural College.
Right halfback, Main, University of Oregon.
Fullback, Foran, Washington State College.

MARRIED

At the home of J. W. Rust, in the Lake Creek valley, November 24, 1910, Ellis E. Rust and Miss Anson V. Thomson, Rev. F. Grant Hamm officiating.

At the home of the officiating clergyman, Rev. W. A. Elkins, at Cottage Grove, November 23, 1910, Frank E. Hobart and Miss Tillie Downs.

Monday evening, Nov. 28, 1910, at the M. E. parsonage, Howard F. Fisk and Miss Edith L. Keller, Rev. H. S. Wilkinson officiating.

At the home of the officiating clergyman, Rev. J. S. McCallum, in Eugene, November 23, 1910, Charles W. Ford and Miss Lillian C. Maxson.

At the home of the officiating clergyman, Rev. H. F. Neff, in Eugene, November 27, 1910, William Earl Barger and Miss Mabel Gravelle, both of this county.

At the courthouse in Eugene, November 28, 1910, James W. Russell and Miss Pearl Pettit, County Judge Helms W. Thompson officiating.

TO SQUEEZE WATER FROM STOCKS OF RAILROADS

Washington, Nov. 28.—President Taft's commission for the investigation of railroad stocks and bonds began its first session here today, and will immediately inaugurate a thorough probing of the evils of over-capitalization and a consideration of methods for squeezing the water out of such securities. It is understood that the president has impressed upon the commissioners the necessity of government supervision and control of the issuance of transportation company securities. Quarters have been established here, a clerical force engaged, and all preparations made for a searching and complete survey of the whole subject.

Dr. A. T. Hadley, president of Yale University, is chairman of the commission, and will give as much time as he can spare from his educational work to the investigation. During his recent European tour Dr. Hadley spent much time in surveying the railroad field of foreign nations.

The commission was created under provisions of section 15 of the railroad bill passed near the close of the last session of congress. It is expected ultimately to determine the advisability of the complete control of all stock and bond issues by all the railroads of the country.

Besides Dr. Hadley, the membership of the commission includes F. Stans, of New York; Walter L. Fisher, of Chicago; F. H. Judson, of St. Louis; Professor B. H. Meyer, of Madison, Wis., and William E. Griswold, of New York.

EUGENE PEOPLE ARE DRINKING MUDDY WATER

Impossible to Clarify It During Freshet—New Filters Will Do the Work

Don't mind it if your drinking water has the appearance of boarding-house coffee. Just imagine that it is lemonade at a Sunday school picnic and drink it as usual. It is harmless. The coloring matter is perfectly pure, for it is only some fresh clay that the river picked up on its way to Eugene. Since the Willamette took the notion to leave its banks during the past few days in its efforts to get away from the melting snow in the mountains, consternation has prevailed in the family kitchen. Serious objections were made by the cook to accepting the colored drinking substance. Little Willie is given a bucket and obliged to walk three blocks and then wait his turn at the nearest pump. The pump handle is popular. And even if the water is warm for dinner it is better than the muddy solution that Aunt Lizzie refused to take a bath in last night after she had kept a fire hot all afternoon in anticipation. The city authorities are doing all that is possible to keep the water clear. The filters are flushed every few minutes, in fact, so often that it is difficult to keep the reservoir full, yet in spite of their efforts, the water has been the same light shade of chocolate that is characteristic of the muddy torrent that is rushing down the river bridge. The present filters simply lack the capacity and it is impossible to take the color out of the water completely. It is quite probable that a test would show the water pure enough, but the repulsive color stays. The new filter plant that will soon be in operation will do away with this.

DONNA ITEMS

Special Correspondence.
Donna, Or., Nov. 28.—The present weather is just the kind in which colds flourish, and nearly everybody is having an attack of the malady.

W. S. Adams has purchased a fine \$200 Victrola from the Eugene Gun Store and added it to his home.

Dr. J. R. Barr, of Springfield, was in Donna Thursday afternoon on professional business.

A number of young men met on Saturday evening and organized a band. Those who will take part are as follows: Thomas Swartz, Lloyd Stafford, John Hammit, George Hill, Ben Stafford, Claude Hammit, Fred Bean, John Adams, Vance Seavey, Ned Smith and Carl Smith. The boys will begin practice next Sunday evening at the Donna hall. We wish them success. A good band is a fine thing, and by practice we can have a good one.

George Ramsey, of E. U. B., preached here Sunday morning and evening. Mr. Ramsey will not be with us again for some time, but will send some one to take his place. We regret to lose Mr. Ramsey, but more important work calls him elsewhere.

BORN
In Eugene, November 26, 1910, to L. G. Wener and wife, a son.

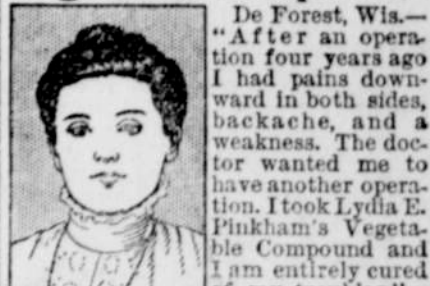

At Acme, on Wednesday, November 16, 1910, to Mr. and Mrs. Forest Whisman, a daughter.

DIED
November 27, 1910, at the Eugene hospital, Melberg Nelson, aged 45 years.

Mrs. Margaret Herren, of Corvallis, who has been visiting at the home of Mrs. W. H. Kay, left today for Grants Pass.

SAVED FROM AN OPERATION

By Lydia E. Pinkham's Vegetable Compound

De Forest, Wis.—"After an operation four years ago I had pains down both sides, backache, and a weakness. The doctor wanted me to have another operation. I took Lydia E. Pinkham's Vegetable Compound and I am entirely cured of my troubles."

Another Operation Avoided.
New Orleans, La.—"For years I suffered from severe female troubles. Finally I was confined to my bed and the doctor said an operation was necessary. I gave Lydia E. Pinkham's Vegetable Compound a trial first, and was saved from an operation." —Mrs. L. LYNN, 1111 Kerlerec St., New Orleans, La.

Thirty years ago I paralleled success confirms the power of Lydia E. Pinkham's Vegetable Compound to cure female diseases. The great volume of unsolicited testimony constantly pouring in proves conclusively that Lydia E. Pinkham's Vegetable Compound is a remarkable remedy for those distressing feminine ills from which so many women suffer.

If you want special advice about your case write to Mrs. Pinkham, at Lynn, Mass. Her advice is free, and always helpful.

Mrs. A. E. Brewster returned to Dallas today after having been here a few days visiting her husband, O. L. Brewster, who was operated upon at one of the hospitals a few days ago.

Do Not Delay Your Fall Planting

OUR AUTUMN CATALOG ready in September. Make it free on request.

Our annual importations have arrived from FRANCE, HOLLAND, JAPAN and the AZORES, and are now on hand. Early orders secure select selections.

CATARRH

HAY FEVER

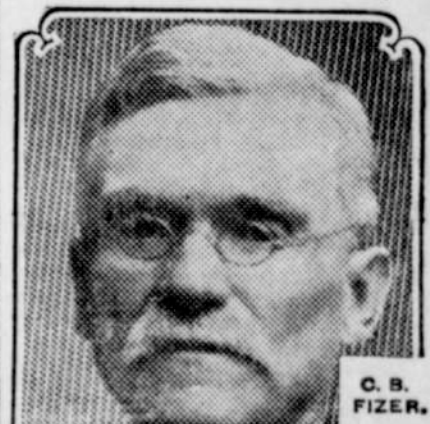

ELY'S CREAM BALM

It cleanses, soothes, heals and protects the diseased membrane resulting from Catarrh and drives away a Cold in the Head quickly. Restores the Senses of Taste and Smell. It is easy to use. Contains no injurious drugs. No mercury, no cocaine, no morphine. The household remedy.

Price, 50 cents at Druggists or by mail. ELY BROTHERS, 56 Warren St., New York.

KIDNEY TROUBLE

Suffered Ten Years—Relieved in Three Months Thanks to PE-RU-NA.

C. B. FIZER, Jr., says: "I have suffered with kidney and bladder trouble for ten years past. Last March I commenced using Peru and continued for three months. I have not used it since, nor have I felt a pain."

Page Fence Can't Come to Pieces.

Page Woven Wire Fence is made to withstand the roughest farm usage. It is possible for it to undergo. No animal—bull, steer or stallion—can successfully argue a point with this remarkably strong, elastic fence. This is a broad statement. It has been proved hundreds of times.

Houses and giant trees have fallen on stretches of Page Fence. When they were removed the fence was found to be uninjured. This is just the sort of fence you want.

We carry a big line of Page Fence in all styles—Stock Fence, Hog Fence, Poultry Fence, etc. If you need fence now visit us at once. Get it now while prices are lowest. We must reduce our stock and will cut the prices to the limit.
