MONDAY, - - JAN. 21, 1895.

Tomorrow will probably witness the making of a United States senator at Salem. Dolph will be the man.

The South Carolina legislature has again killed a bill to allow divorces. It is the only state in the union where a divorce cannot be had on any grounds.

There is no question but destitution and suffering exists in a considerable portion of Nebraska. The people of Oregon should contribute from their abundance to the relief of the unfortunate people.

Military operations in China have almost been suspended on account of the winter season. This will give China an opportunity to recuperate and some lively fighting may be anticipated in the spring.

This is flood year for California. She is making excuses to visitors for the unusual rainfall. No excuses will be made when it comes time to garner the crops. Western Oregon has an abundant rainfall and no failure of products of the soil.

The little Hawaiian republic has had its first experience in warfare. Designing white men led the natives to revolt with the result that a number of them lost their lives. A United States warship is now plowing through the waters of the Pacific to protect the interests of our citizens in the islands. Now would be a splendid time for annexation. It must eventually take place and the sooner the better.

The retiring road supervisors of the two Eugene districts deserve special commendation for the work accomplished during their term of office. The means at hand were not frittered away as usual in patch work, but there are several miles of good roads to show for it. A few more years of such work and all the roads leading into Eugene will be in first class condition. Of course some of them must wait their turn, those having the heavier travel being improved first.

Governor Budd of California does not lack nerve. He removed Moses Gunn, a gambler and all around sport from the police commission of San Francisco. The other two commissioners refused to recognize Budd's appointee, and he intends to remove them. San Francisco's municipal affairs are rotten to the core and the governor proposes to apply the knife and use heroic treatment. As an example of the condition of affairs in that city it may be stated that a recount of the votes in a contest for the sheriff's office, developed the fact that in precincts casting about 200 votes, blocks of votes ranging from 3 to 60 were bodily stolen in favor of one candidate. The instances are numerous too.

What would be said of the horticulturist, who, when his trees were half grown should leave them to care for themselves? Or of the farmer or gardener who planted and cultivated for a time, then said, I have done enough for the products of the soil; now let them finish their growth and ripen without further care? Yet this is the principle advocated by opponents of higher education through state aid. They advocate partial development of the child by state aid,

then ask that a halt be called, and that the future citizen make his own way thereafter. It is fortunate that this view is held by but few, and that the principle of higher education by the state has been generally accepted as a correct one. There are few states in the union that do not provide for free university education, and those that do not show the least progression and greatest proportion of illiteracy. The contention that free university education is for the benefit of the rich only, is a fallacy easily exploded by the easily ascertained fact that nearly all the students are from the middle walks of life, many of them making their own way through college. Will any one contend that free tuition should not be granted the poor boy or girl who faces a four or six year course of study, depending upon the earnings of three months each year for support during the other nine? The better education the better citizen, and the state should do all in its legitimate sphere to aid youth in the struggle for advancement.

Two Lives Saved.

Mrs. Phoebe Thomas, of Junction City, Ill., who was told by her doctors she had consumption and that there was no hope for her, but two bottles of Dr. King's New Discovery completely cured her and she says it saved her life. Mr. Thos. Eggers, 139 Florida St. San Francisco, suffered from a dreadful cold approaching consumption, tried everything else, then bought a bottle of Dr. King's New Discovery and in two weeks was cured. He is naturally thankful. It is such results, of which these are samples, that prove the wonderful efficacy of this medicine in cough and colds. Free trial bottles at Henderson & Linn's drug store. Regular size 50c and \$1.00.

Many Men are of Mazy Minds.

But they all agree that the solid vestibled, steam heated train of the Union Pacific, distance all competitors as regards time, comfort and through service. Just think of it. Chicago is reached in three and one-half days with NO change, and New York in four and one-half days with ONE change. Quick time isn't it?

E. J. McCLANAHAN, Agent, Eugene.

"RUN-DOWN," "tired out" woman who complains of backache, headache, loss of appetite, extreme lassitude and that "don't care" feeling is pretty sure to be suffering from "Female Weakness," or some irregularity or derangement of the special functions of womanhood. Very often womb troubles set the nerves wild with affliction and as a result the woman suffers from sleeplessness, nervousness, nervous prostration, faintness and dizziness, irritability and indigestion. In all cases of irregularity or suspended monthly function and in all those nervous diseases depending upon local causes, Dr. Pierce's Favorite Prescription will restore you to perfect health. Instead of the exhaustion and feeling of weight and dragging down in the abdomen, you feel fresh and strong. For young girls who suffer from irregularities, for the hard-working woman who suffers from catarrhal inflammation of the lining membranes causing a constant drain upon the system, there is no prescription used by any physician which can equal in results Dr. Pierce's. For over thirty years Dr. R. V. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute of Buffalo, N. Y., has used his "Favorite Prescription" in the diseases of women which had long been his specialty and in fully ninety-eight per cent. of all cases, it has permanently cured.

Mrs. JOHN M. COWLEY, of Pittsford, Putnam Co., N. Y., writes: "I am enjoying perfect health, and have been since I took the last bottle of Doctor Pierce's Favorite Prescription. I took five bottles of it. Never expected to be any better when I commenced taking it, but thank God, I can say that I am glad I reached my home. I had a falling of the womb, and having been cured by miscarriage, and was very weak when I commenced taking your medicine. I was cured by taking five bottles in all—two of the 'Favorite Prescription' and three of the 'Golden Medical Discovery.'"
