THE GRAND JURY SYSTEM.

The Dalles Chronicle has this very sensible editorial:

"The uselessness of the grand jury was never more clearly demonstrated than in the case of the United States vs. Miss Berger, in which Judge Bellinger directed the trial jury to return a verdict of not guilty. Seven indictments returned and not evidence sufficient to be submitted to the jury! The expense of this farce to the United States was undoubtedly large.

"The grand jury in the state court is many times worse than a useless expense. If the salary of prosecuting attorneys was made large enough so that attorneys of experience and ability would in all cases accept the office and give that officer power to bring criminals to trial by a presentment, and the trial judge power to remove inefficient prosecuting attorneys and appoint suitable ones in their stead, the laws would generally be much more satisfactorily enforced and a very considerable share of the expenses of the court wiped out. Now witnesses in all criminal cases pending at the beginning of the term are, in most judicial districts, subpoenaed to appear on the first day of the term, and are usually kept in attendance until after the trial. This often keeps witnesses in attendance two or three weeks.

"If while the preliminary investigation, now made by the grand jury, were left to the prosecuting attorney, it would be better done, and the case set for a day certain, witnesses subpoenaed to appear on that day, and thousands of dollars saved at each term of court. But we suppose that we shall have to continue under the present system until we dare call a constitutional convention."

LAND GRABBERS.

The Moro Observer makes the following comments on this very undesirable class of people:

"A gang of that most despicable class on the earth known as land grabbers, have recently attempted to jump the sand islands formed at the mouth of the Columbia by the jetty. The question of acknowledging the claim of these jumpers to the islands was considered at the last meeting of the state board, and the matter referred to the attorney-general. If they will take the trouble to hunt records they will find that in early days there was a farm at that point upon which Father Schwaika reared his noted family. Later on it became the property of George Summers; then it was washed away. C. S. Wright, as administrator of the Summers estate, could probably find the deeds showing possible ownership by notes and bonds. The 'land' has simply returned from a cruise in the deep sea."

MORE MISPLACED CONFIDENCE.

Three carloads of potatoes were shipped from Yakima City to Minneapolis same months ago on the promise of the receiving commission dealers that an advance of 25 cents per bushel would be made to the growers. This advance was never made, but when the statement was received of the sales one carload netted the grower \$4.80, another carload \$1.83, while the carload shipped by Peter Geavaia

brought him in debt \$100.83. An effort is to be made to secure redress from the commission men, and Mr. Shively who is on the case, thinks it is the same gang that has been operating in Kittitas county, to the heavy loss of farmers there. It is also reported that Mr. Purdy Flint shipped 13 carloads to Minneapolis some months ago and has been unable to get any accounting whatever.

The New York Times propounded this question: Where shall we look for the horse of the future. The Portland Sun answered it in this wise: In tall and flat cans having Portland labels.

A girl baby was born at Kokomo, Ind., the other day who is the fourteenth daughter of a fourteenth daughter of a fourteenth daughter, a record thought to be unprecedented.

The New York Times has figured it out that the people of that city spend \$5,500,000 for churches and \$6,500,000 for theaters.

THE WOMAN

—who takes the surest way to gain a beautiful color and a wholesome skin will not take the cosmetics, paints and powders which soon injure the skin. Sal-low or wrinkled face, dull eyes and hollow cheeks, together with low spirits, follow the derangements, irregularities and weaknesses peculiar to the sex. All women require a tonic and nerve tonic, displacement of womanly organs, catarrhal inflammation of the uterus, bearing-down sensations, or general debility, Dr. Pierce's Favorite Prescription reaches the origin of the trouble and corrects it. It's a medicine which was discovered and used by an eminent physician for many years in all cases of "female complaint," and those painful disorders that afflict womanhood. If women are over-worked, run-down, tired or sleepless, if they are irritable, morbid and suffer from back-ache, they should turn to the right means for a permanent cure. Dr. Pierce's Favorite Prescription fits just such cases, for it regulates and strengthens the special functions, builds up and invigorates the entire female system.

DISEASE OF WOMEN.

Mrs. CORA S. WILSON, of Carlsbad, California, writes: "I cannot say too much for Dr. Pierce's Favorite Prescription. I feel it my duty to say to all women who are suffering from any disease of the uterus that it is the best medicine on earth for them to use. I cannot praise it too highly for the good it did me. If any one doubts this, give them my name and address."

A pamphlet, containing a vast number of testimonials with reproduced photographs of those cured, and giving full name and address of each, will be mailed to any address free; or, Dr. Pierce's large Treatise (168 pages) profusely illustrated with wood engravings and colored plates mailed post paid on receipt of ten cents in stamps. Address, World's Dispensary Medical Association, Buffalo, N. Y.
