TUESDAY, - AUGUST 13, 1895.

Pride may proceed before a fall from a bicycle, but profanity, or the thought of it, is sure to follow.

It appears natural to see wagon loads of wheat waiting to have their grain cleaned and stored at the Eugene flouring mill.

These kind of mornings, when a fire makes one feel pleasant, will send pleasure seekers home from mountains and seacoast.

The Pope of Rome may rest easy. The veteran editor, Frank M. Pixley, his long time antagonist, lies dead in San Francisco.

What promised to be a full hop crop two weeks ago is now certain to be a short one. The hot dry weather prevented hops setting to the end of the arms of the vines.

Oregon's convicts working in the stove foundry will get 35c a day and board. The 35c will come from the foundry company and the board from the taxpayers.

The official report of the World's Fair is completed. It comprises 3,500 pages of printed and type-written matter, is illustrated by 2 000 photographs and bound in twenty-two volumes.

No telling where a fashion will stop. First it was balloon sleeves, then by some sort of evolution they worked further down on the female anatomy and developed into bloomers. Whichever one first goes out of fashion may be used for the other purpose.

Sportsmen are obeying the game law in regard to Chinese pheasants unusually well this season. Although many of the birds are well grown few if any have been brought to market. The open season commences September 1st, when good shooting and fine birds may be expected.

Our people who go to overcrowded Newport, where accommodations are very limited, and prices high, should remember that they can rusticate at Florence by the ocean at small cost, be well cared for, have a quiet time, and not be crowded near to distraction, by a hungry frantic mob of so-called pleasure seekers.

Our city fathers are wrestling with the bicycle question. The courts have uniformly decided that bicycles are vehicles, and therefore entitled to their rights as such on wagon roads. This view of the case bars them the right to use sidewalks, where they are a constant menace to the safety of pedestrians, for whose exclusive use walks are built.

Times will never be quite what they naturally should be until our laws are made in conformity with the evolution of human progress through mechanical inventions and ingenious contrivances of men by which he shuts off on the field of labor countless thousands of his fellow men. Progress in all departments of life should go hand-in hand.

Some considerable surprise is indicated, by headlines in sundry exchanges, that "President Cleveland entered a barber shop and quietly awaited his turn to have his hair cut." What would you have him do? Yank the man in the chair out, and offer to fight with the "next" for his place? Some people have apparently strange ideas of presidential etiquette.

Washington correspondents say it is well understood that the Nicaragua canal commission, which has recently returned from an examination of the canal route, will report to congress in favor of the construction of the canal. It estimates the cost at $110,000,000, and the time required as seven years. Whether it favors the government undertaking the work on government account, or subsidizing a private company, is not stated.

One McGill, who runs a 7x9 weakling in Portland, speaks of this paper as a "plutocratic organ." If that means that its publisher pays his bills and works ten hours per day, we enter a plea of guilty. McGill is a professional agitator, without brains, and has a hard time begging for money to keep his sheet alive. He is a disgrace to the party that he "claims" to represent, and attempts by his silliness to tear down every one who is a gentleman in the organization.

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

Fair and beautiful —the woman who keeps at a distance the complexion beautifiers, paints and powders, which soon ruin the face. A healthy glow to the skin, a face without wrinkles, and sparkling eyes, will be yours if you keep the system and the special internal organs in good condition. The young girl, or woman, often grows pale, wrinkled and thin, eats little, everything wearies her, she complains of herself as aching and sore and as sleeping poorly. Often she is troubled with backache, or a tender spine, with a bearing-down weight in the abdomen, or at periods she may be irregular, or suffer extreme pain from functional derangements.

Dr. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y., in his long and active experience, met many cases of this kind, for which he used a prescription which was found to cure such difficulties permanently in *ninety-eight per cent.* of all cases. Having proven so successful, Dr. Pierce put his "Favorite Prescription" on the market, and it is to-day sold more largely than any other medicine for the ills of woman.

For all functional derangements, displacements, ulceration, inflammation, and the catarrhal drain from the lining membranes of the special internal organs of women, Dr. Pierce's Favorite Prescription reaches the origin of the trouble, and corrects it.

MRS. MARY CRIM, of *Frankfort, Franklin Co., Ill.*, writes: "A few years ago I took cold, which resulted in female trouble, and affected my whole system. About a year ago, I took chills, had one or two a month; they were very weakening. Had pains in my sides, more frequently in left side; gradually grew worse until, finally, I had to take to bed. I had a bad cough and couldn't rest. I commenced taking your medicine, took it about four months, taking seven bottles of Doctor Pierce's Favorite Prescription and five of his "Golden Medical Discovery." My weight has increased, and I feel better and stouter than I have for years."
