A Surprise Party.

A very pleasant surprise party was tendered Orest Wood at his home on 8th street Saturday evening in honor of his 19th birthday. The surprise was a complete one. Games were indulged in until supper time when the boys, in order to get company for supper guessed on the girls shadows. The supper was not the smallest part of the evening by any means and all enjoyed it hugely. After supper several tables were drawn out and whist indulged in until 12 o'clock when the happy crowd left for their homes voting it one of the most pleasant evenings of the season. Those present were:

Misses Hennis and Barbara Lauer, Pearl Cooper, Winnie Miller, Lizzie Griffin, Florence Burnett, Madge Battee, Flora Watkins, Maude Kearns, Jessie Livermore, Lulu Renshaw; Messrs Orest Wood, John Newsome, Hal Wood, Roy Renshaw, Carl Battee, Clarence Bishop, Robert Henderson, Frank Knapp, Archie Livermore, Clyde Fogle, Ed Polli, Ernest Gilstrap, Walter Carroll, Chas Griffin and Geo Barger.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Sunday School Convention.

The Sunday School convention of the Church of Christ was well attended at the Christian church in this city on Friday, Oct. 18. A noble band of workers came in from all parts of the county early and took part in the day's proceeding, with Mrs H W Schenck as president of the convention. There were many good things said that will be too numerous to mention in detail. The president made some very appropriate remarks on "The Study of the Word."

"Influence of Home on the Sunday School" was given to W R Hollenbeck. Not being present, R G Callison occupied the time.

"Influence of Sunday School on the Home" was written up by F M Horn, of Elmira, which was a masterly paper.

"Origin, Object and Results of Children's Day" was read by Mrs L A Read, of Pleasant Hill, showing the origin of all the mission work that is now taking the lead in all our Sunday Schools.

There were 36 delegates representing the different Sunday Schools in the county. All seemed to be greatly pleased with the good accomplished during the day. It was suggested that on the first Sunday in November that each Sunday School in the county take up a penny collection from each member of the schools and send it direct to James Donaldson, treasurer, at Thurston, Or, for stationery, blanks, etc.

The day was concluded by a rousing exercise by the children at 7:30 p m, after which Rev E C Sanderson preached to a large and appreciative audience.

W L BRISTOW, Sec.

The Present Generation

Lives at telegraphic speed—too fast requires too late, does not rise betimes, smokes and (alas, that we should have to say it) chews too much tobacco. The consequences are dyspepsia, a general absence of that robust and manly vigor which characterized our ancestors, and a manifest proneness to early decay. Regular hours, a due allowance of time for meals, the abstinence of smoking and altogether of chewing tobacco, in connection with a course of Hostetter's Stomach Bitters, will in nine cases out of ten efface the consequences of the abuse of the laws of health indicated above. A want of stamina, dyspepsia, nervousness, and biliousness are among these consequences, and they are bodily ills to the removal of which the Bitters is specially adapted. Nor is the Bitters less fitted to overcome and prevent fever and ague, kidney and bladder troubles and rheumatic ailments. It is also a fine appetizer and promoter of convalescence.

They can show you a stove so constructed that the COLD AND DAMP AIR is taken up from the floor, passed through the stove, dried and heated, discharged at top of stove into the room causing a circulation of the air in your room which equalizes the heat so that it is nearly as warm on the floor as at the ceiling, all of which makes your room Healthy and Comfortable.

After using one of these stoves nine years, I think I know the facts about this stove.
