Gloom is cast o'er the lot of the schoolboy who rejoices in holidays. He has discovered that not only Washington's birthday, but Decoration day and the Fourth of July fall on Saturday. Two of these make him lose days off, and even the "Fourth" he would rather have on some other day.

The American Beauty owes her prestige more to a clear complexion than to any other attribute. A cup of Parks' Tea will enable anyone to possess this. If there is any one thing that needs to be purified, it is politics, so the reformer says, and many agree thereto. But blood tells, and as a blood purifier and liver corrector Simmons' Liver Regulator is the best medicine. "I use it in preference to any other."—So says S M Hysell, of Middleport, Ohio, and Dr A S Russell, of Farmville, Va, writes: "It fulfills all you promise for it."

There have been a good many delicate suggestions about church choirs in the past and their predilection to spats among themselves is of course proverbial, but what seems to cap the climax is the report that a New York minister has fired his choir and choir-master bodily for the most remarkable discovery that his choir left the church for the beer saloon between the songs.

How easy it is to figure. Here is some from the Fossil Journal: "At a cost of \$1300 the Gilliam County Sheepmen's Protective Union has paid for the scalps of 1300 coyotes. One has just to think of the progeny that these 1300 varmints would have brought into the world if permitted to die a natural death to realize the incalculable benefit the bounty has been to the sheepmen of this county." It is safe to say that each coyote slays at least five sheep annually, worth \$10 anyway. It is a common sight now to see little pigs running at large all over the Mayville flat. Before the days of the bounty it was unsafe to let them get out of sight."

The readers of this paper will be pleased to learn that there is at least one druggist who does not believe that science has been able to cure in all stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature to do its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 70c.

DOLLAR WHEAT.—Pendleton Tribune: The wheat market is steadily advancing and some dealers predict dollar wheat within a year. The cause which forces the price of wheat up are many. The American crop of 1894 was short, the Argentine crops of 1894 and 1895 were short, the India crop, which usually cuts a big figure in the world's supply, is very short owing to the droughts in that country. Russia is holding her crop in anticipation of a rise in price. Australia usually draws on India for her supply, but is now importing from the United States. South Africa usually gets her supply from Argentina, but is drawing on the United States. Taking the short crops of India and Argentina, and the probabilities of war in consideration the price of wheat is bound to advance.

A Millionaire to Hang.

A few days ago a Missouri jury convicted Dr Arthur Daestrow of murder in the first degree, and he will shortly be sentenced and hanged for his crime. This man is said to be worth a million dollars. About two years ago, in a drunken rage, he killed his wife and child. He has spent many thousands of dollars in his efforts to escape the law. It is said that he paid his leading counsel \$50,000 as a retainer and at least as much again as "refreshers." Besides which he hired able and costly assistants to his chief. And to the discredit of the profession be it said, he also hired many "eminent medical experts" to prove his insanity. All that wealth could do to save Daestrow was done. Nevertheless he was found guilty, and is in a fair way to be hanged.

Shakers are a Happy Community

It is said, but the shaker who shakes because he can't help it is by no means a happy individual. So shakers the person troubled with chills and fever. The quivering and shuddering sensation is followed by no less a plague, untold burning fever, which is followed by a perspiration both that leaves the unhappy sufferer "as weak as a cat," a most unfortunate state, by the way as a cat for its size, is a particularly muscular animal. Under the above circumstances vital stamina is soon used up. What will recuperate it? Hostetter's Stomach Bitters which eradicates malarial disease in every form and repairs its terrible ravages upon the system. The treatment of the liver always accompanies malarial disorder. To the relief of this complaint, as well as constipation and dyspepsia, efficacious throughout is it for bilious troubles, nervousness, rheumatism and neuralgia. A wineglassful three times a day.

Pendleton E O: Other towns in Oregon may be interested in learning that Pendleton has been compelled to get out her street sprinkler for the season. All over the fields rain and snow have fallen so the grain is plentifully supplied with moisture, but our mud and disagreeable weather has all gone.

THE ROCK PILE.—The open building erected north of the jail by the city to shelter a rock pile, which has been provided for the benefit of prisoners, is now completed, and a pile of rocks has been procured and placed in position. The rocks which will be used on the start are river boulders. There is now one prisoner in the city jail and he will be armed with a sledge hammer and set to work pounding the rocks in the morning.
